Funded State programs must replicate evidence-based, effective programs or strategies that substantially incorporate elements of effective programs that have been proven on the basis of rigorous scientific research to change behavior, which means delaying sexual activity, increasing condom or contraceptive use for sexually active youth, or reducing pregnancy among youth. The programs must include activities to educate youth who are sexually active regarding responsible sexual behavior with respect to both abstinence and the use of contraception. Such activities should teach adulthood preparation subjects including healthy relationships, adolescent development, financial literacy, parent-child communication, educational and career success, and healthy life skills. The programs must: be medically-accurate and complete; include activities to educate youth who are sexually active regarding responsible sexual behavior with respect to both abstinence and the use of contraception; place substantial emphasis on both abstinence and contraception for the prevention of pregnancy among youth and sexually transmitted infections; and must provide age-appropriate information and activities. The information and activities carried out under the program must be provided in the cultural context that is most appropriate for individuals in the particular population group to which they are directed. REQUIREMENTS OF INNOVATIVE STRATEGIES PROJECTS: Proposals were funded based on how effectively they can develop, replicate, refine, and test innovative strategies for preventing teenage pregnancy. Programs must be medically accurate, age appropriate, and target services to identified vulnerable and at-risk populations. The programs must include activities to educate youth who are sexually active regarding responsible sexual behavior with respect to both abstinence and the use of contraception. Such activities should teach adulthood preparation subjects including healthy relationships, adolescent development, financial literacy, parent-child communication, educational and career success, and healthy life skills. Funded projects are expected to generate lessons learned so others can benefit from these strategies and innovative approaches and increase the capacity of communities to develop, implement, and evaluate interventions for dissemination and replication by others. Funded projects must show that the proposed intervention is: (a) based on some preliminary evidence of effectiveness; (b) a significant adaptation of an evidence-based program; or (c) is a new and innovative approach to teenage pregnancy prevention with a sound basis in research. REQUIREMENTS OF TRIBAL PROJECTS: Criteria for Tribal projects were developed by the Secretary, in consultation with Indian Tribes and Tribal Organizations that were deemed appropriate. Tribal PREP funding is directed toward the development of culturally appropriate comprehensive teen pregnancy prevention programs that incorporate medically accurate approaches replicating effective programs or elements of programs that have been demonstrated to change behavior. Tribal PREP focuses on the same fundamental requirements as the State PREP projects-the education of youth on both abstinence and contraception and on other adulthood preparation subjects with the goal of preventing teen pregnancy and sexually transmitted infections (STIs) including HIV/AIDS. Funds support PREP efforts that are dedicated to the development of comprehensive, high quality interventions and services that rely on the best available research evidence to inform and guide practice. Since there are few studies of teen pregnancy prevention programs targeting youth in Tribal communities, adaptation and innovation are important. Further, programs that currently serve Native youth have not been rigorously evaluated and may not offer strong models for replication. Tribes and tribal organizations are encouraged, therefore, to adapt evidence-based (EB) models (or elements of EB models) that address the unique cultural needs of their communities. Adaptation must retain core elements of proven effective programs. REQUIREMENTS OF COMPETITIVE PREP PROJECTS: Competitive PREP funds support projects that educate youth between the ages of 10 and 19, and pregnant and parenting youth, under age 21, on abstinence and contraception for teen prevention of pregnancy and sexually transmitted infections (STIs), including HIV/AIDS. Applicants must also provide programming on at least three of six adulthood preparation subjects that are discussed in the published FOA. Further PREP funding is directed toward the development of comprehensive, teen

pregnancy prevention programs that incorporate medically accurate approaches, while replicating evidence-based programs or elements of programs that have been demonstrated to change behavior. FYSB's Competitive PREP funding supports efforts that are dedicated to the development of comprehensive, culturally appropriate interventions and services that rely on the best available research to inform and guide practice.

Length and Time Phasing of Assistance:

The Health Profession Opportunity Grant (HPOG) program uses the project period system of funding. Projects are programmatically approved for support in their entirety, but are funded in annual increments called budget periods. Through a competitive process HPOG projects are approved for five year project periods. In general, funding for each budget period must be obligated within the budget period. Recipients are required to submit a non-competing continuation application and semi-annual performance progress reports as a prerequisite for approval and funding of each subsequent budget period within the approved project period. Funding for each budget period is contingent on satisfactory progress, the availability of funds, and the continued best interests of the Federal government. 93.094 Well-Integrated Screening and Evaluation for Women Across the Nation

WISEWOMAN,

FEDERAL AGENCY:

CENTERS FOR DISEASE CONTROL AND PREVENTION, HEALTH AND HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

This program is authorized under sections 1501-1510 [42 U.S.C. 300k, 42 U.S.C. 300l, 42 U.S.C. 300m, 42 U.S.C. 300n, 42 U.S.C. 300 n-1, 42 U.S.C. 300 n-2, 42 U.S.C. 300 n-3, 42 U.S.C. 300 n-4, 42 U.S.C. 300 n-4a, 42 U.S.C. 300 n-5] of the Public Health Service Act, as amended. WISEWOMAN must follow the legislative requirements detailed in these sections.

OBJECTIVES:

WISEWOMAN is intended to improve the cardiovascular health of low-income, uninsured and under-insured women, ages 40-64, who are participants in the National Breast and Cervical Cancer Early Detection Program (NBCCEDP). Supplements to Public Law 101-354 expand the preventive health services

provided through NBCCEDP to: (1) include screenings regarding blood pressure and cholesterol, and health education; (2) provide appropriate referrals for medical treatment of women receiving services pursuant to screenings; (3) ensure, to the extent practicable, the provision of appropriate followup services; and (4) evaluate activities conducted under paragraphs (1) and (2) through appropriate surveillance or program monitoring activities.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

Funds can be used for salaries for personnel to plan, implement, monitor and evaluate the program activities; for contracts or agreements with clinical entities to provide the cardiovascular screenings; risk reduction counseling; diagnostic office visits for abnormal screening values; contracts or agreements with community based organizations to provide health education and lifestyle support programs, or to improve the health of the physical environment (for example to improve access to healthy food, physical activity, or decrease tobacco exposure); or other activities that promote or support healthy behaviors and improved cardiovascular health in women. Funds can be used to pay for activities or expendable equipment necessary to provide the services outlined here, including self-blood pressure monitoring equipment and counseling to enhance medication adherence. Funds can be used to develop and maintain data collection systems to collect and report bio-measures and behavior information and for monitoring systems to augment control of hypertension.

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals; Federally Recognized Indian Tribal Governments; State; Applicants must be recipients of the National Breast and Cervical Cancer Early Detection Program (NBCCEDP)

Beneficiary Eligibility:

Anyone/general public; Low Income, uninsured or under-insured women

Credentials/Documentation:

This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Pre-application coordination is required. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review. n/a

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Applicants must download supplemental application forms from www.Grants.gov. Supplemental applications must be submitted electronically at www.Grants.gov. If an applicant does not have access to the Internet, or if they have difficulty accessing the forms online, contact the CDC Procurement and Grants Office, Technical Information Management Section (PGO-TIMS) staff. For this, or further assistance, contact PGO-TIMS: Telephone: 770-488-2700, email: PGOTIM@cdc.gov. HHS/CDC Telecommunications for the hearing impaired: TTY 770-488-2783

Award Procedure:

All applications submitted by the deadline that are complete and responsive to competitive supplemental grant and cooperative agreement announcements will undergo an objective review process, receive a written critique and be scored according to published review criteria. Successful applicants will receive a Notice of Award (NoA) from the CDC Procurement and Grants Office. The NoA shall be the only binding, authorizing document between the recipient and CDC. The NoA will be signed by an authorized CDC Grants Management Officer.

Renewals:

From 120 to 180 days. Renewals will be based upon the conditions in the funding announcement, program performance including meeting program requirements and performance measures, submission of an acceptable request for continuation funding and are subject to the availability of funds.

Formula and Matching Requirements:

Statutory formula is not applicable to this assistance listing. Matching Requirements: Percent: 40%. Requirement: Matching requirements are voluntary. Recipient financial participation is required for this program in accordance with the authorizing legislation. Section 1502(a) and (b)(1), (2), and (3) of the PHS Act, as amended, requires matching funds from non-Federal sources in an amount not less than one dollar for every three dollars of Federal funds awarded under this program. However, Title 48 of the US Code 1469a (d) requires DHHS to waive matching fund requirements for Guam, U.S. Virgin Islands, American Samoa, and the Commonwealth of the Northern Mariana Islands up to \$200,000. The match requirement may include third-party in-kind contributions, as well as expenditures from the grantee. The matching funds may be cash, in-kind or donated services or equipment. Public Law 93-638 authorizes tribal organizations contracting under the authority of Title I to use funds received under the Indian Self-Determination Act as matching funds. Matching funds may not include: 1) payment for treatment services or the donation of treatment services; 2) services assisted or subsidized by the Federal government; or 3) the indirect or overhead costs of an organization. All costs designated as meeting the match requirement must be documented by the applicant and will be subject to audit. Documentation of appropriate matching is to be provided in the detailed budget and narrative justification. MOE requirements are not applicable to this assistance listing.

Length and Time Phasing of Assistance:

Financial assistance is available for a 12-month budget period and 48-month project period. Method of awarding/releasing assistance: lump sum.

Reports:

The reporting schedule will be based on the requirements listed in the funding opportunity announcement. An Annual Progress Report is due 90 days after the end of the budget period. Federal Financial Reports (SF 425) and Final Progress Report are due 90 days after the end of the budget period. In addition, minimum data elements will be submitted not more than twice a year. An Annual Progress Report is due 90 days after the end of the budget period. The Annual Progress Report will describe successes, challenges and progress toward meeting program goals and objectives and program measures. An annual Federal Financial Report is due 90 days after the end of the budget period. A final FFR is due 90 days following the end of the project period. Through the annual progress report, programs will describe progress in meeting program goals, objectives and performance measures.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503

93.097 Strengthening the Nation's Public Health System through a National Voluntary Accreditation Program for State, Tribal, Local and Territorial Health Departments

A National Voluntary Accreditation Program for State, Tribal, Local and Territorial Health Departments,

FEDERAL AGENCY:

CENTERS FOR DISEASE CONTROL AND PREVENTION, HEALTH AND HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

This program is authorized under section 317(k) (2) of the Public Health Service Act [42 U.S.C. 247(b)(k)(2)].

OBJECTIVES:

This project will support the operations and continuous improvement of a national accreditation program for state, tribal, local and territorial public health departments. This program will result in increased visibility for accreditation, a stronger public health accreditation program, increased demonstration of accountability of public health programs to decision makers and to the public, increased adoption of evidence based practices, increased use of quality improvement, improved capacity for state, tribal, local and territorial health departments to meet nationally established accreditation standards, and increased recognition of public health roles and value by leaders and the public. Specific objectives may/will include but are not limited to: 1. Support communications and education regarding the accreditation program. 2. Establish a process of continuous improvement of the accreditation standards, tools, and processes to ensure a relevant, current and smoothly functioning program (all elements of the current program can be found at www.phaboard.org). 3. Strengthen strategic partnerships to support accreditation. 4. Strengthen the evidence base for accreditation.

TYPES OF ASSISTANCE:

ASSISTANCE LISTINGS DESCRIPTIONS

Cooperative Agreements

USES AND USE RESTRICTIONS:

Project funds may be used for costs associated with planning, organizing, conducting, and supporting the National Voluntary Accreditation Program for State, Tribal, Local and Territorial Health Departments, and for the implementation of the Public Health Accreditation Board (PHAB) program elements as described in Section 050 above and through CDC allowable and unallowable expenses.

Applicant Eligibility:

Other private institutions/organizations; 1. Eligible Applicants: Public Health Accreditation Board (PHAB), a nonprofit with 501(c)3 IRS status. 2. Special Eligibility Requirements: The only eligible applicant for this award is the Public Health Accreditation Board (PHAB), a 501(c)3 independent accrediting body that administers the national voluntary public health department accreditation program. 3. Justification for Less than Maximum Competition: The nature of the activities under this award are best employed by focusing on the entity to which this cooperative agreement is limited, per memorandum for approval for single-eligibility competition, which was approved and dated December 20, 2012. PHAB was found to be uniquely qualified, as it is the organization that has been established as the national accrediting body for state, tribal, local and territorial health departments. PHAB was determined to have the experience and program infrastructure, which includes field-driven and tested standards, measures and accreditation assessment process. PHAB is also widely accepted as the national accrediting body for state, local tribal and territorial health departments by the constituency organizations for these agencies and as evidenced by the visible mention of PHAB within national policy documents (e.g., Institute of Medicine reports, Healthy People 2020).

Beneficiary Eligibility:

U.S. Territories; State; Local; State, Tribal, Local and Territorial Public Health Departments via a National Voluntary Accreditation Program administered by the Public Health Accreditation Board (PHAB), a 501(c)3 independent accrediting entity.

Credentials/Documentation:

This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Pre-application coordination is not applicable.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program.

Award Procedure:

Phase I Review: Eligible application will be initially reviewed for completeness by the CDC's Procurement and Grants Office (PGO) staff. In addition, eligible application will be jointly reviewed for responsiveness by CDC OSTLTS and PGO. Incomplete and/or non-responsive application to the eligibility criteria will not advance to Phase II review. Applicant will be notified that the application did not meet eligibility and/or published submission requirements. Phase II Review: An objective review panel will evaluate complete and responsive application according to the criteria listed in the criteria section of the FOA. Applicant will be notified electronically if the application did not meet eligibility and/or published submission requirements thirty (30) days after the completion of Phase II review. Successful applicant will receive a Notice of Award (NoA) from the CDC Procurement and Grants Office. The NoA shall be the only binding, authorizing document between the recipient and CDC. The NoA will be signed by an authorized CDC Grants Management Officer.

93.098 Tribal Public Health Capacity Building and Quality Improvement

Tribal Public Health Capacity Building and Quality Improvement (CBQI),

FEDERAL AGENCY:

CENTERS FOR DISEASE CONTROL AND PREVENTION, HEALTH AND HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

Executive Order EO13175, This program is authorized under section 317(k)(2) of the Public Health Service Act [42 USC 247(b)(k)(2), as amended]. In addition, this program is authorized under Executive Order 13175 [http://www.gsa.gov/portal/content/101569]. AR-15: Proof of Non-profit Status applies.

OBJECTIVES:

This program will provide funding to improve tribal health systems quality, effectiveness, and efficiency in the delivery of public health services to American Indians/Alaska Natives (AI/AN). The intent is to provide support to optimize the quality and performance of tribal public health systems, tribal public health practice and services, tribal public health partnerships, and tribal public health resources. Specifically, assistance will be provided in the following two Priority Areas: (1) tribal public health capacity building, and (2) performance evaluation and monitoring of programs. Through this FOA, CDC seeks to fund eligible federally recognized tribes and/or tribally designated organizations, whose mission is to improve the health status of Native people to provide capacity building in strengthening tribal health systems, and evaluating and monitoring awarded tribal public health capacity building projects in the AI/AN communities. Specific objectives and outcomes may/will include but are not limited to: 1) Decrease burden of disease over a five year period among AI/AN ;2) Increase efficiencies and effectiveness of tribal public health systems;3) Increase quantity and quality of tribal public health services and cost effectiveness;4) Increase dissemination of proven interventions for tribal public health services to AI/AN persons;5) Increase adoption of effective strategies among Tribal public health systems implementation, cultural adaption, and fidelity factors with evidence based models.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

Project funds may be used for allowable costs associated with planning, organizing, conducting, and supporting the implementation of The Tribal Public Health Capacity Building and Quality Improvement (CBQI) program elements described in Section (050) above in compliance with HHS/CDC allowable expenses.

Applicant Eligibility:

Private nonprofit institution/organization (includes institutions of higher education and hospitals); Native American Organizations (includes Indian groups, cooperatives, corporations, partnerships, associations); This program will provide funding to improve tribal health systems quality, effectiveness, and efficiency in the delivery of public health services to American Indians/Alaska Natives (AI/AN). 93.099 Collaboration With the World Health Organization and its Regional Offices for Global Health Security and the International Health Regulations (IHR 2005)

FEDERAL AGENCY:

CENTERS FOR DISEASE CONTROL AND PREVENTION, HEALTH AND HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

Public Health Service Act, Section 307 as amended [42 U.S.C. 241 and 2421]

OBJECTIVES:

On September 19, 2011, the Government of the United States of America and the World Health Organization (WHO) signed a memorandum of understanding (MOU) to help WHO Member States strengthen their capabilities to support the International Health Regulations (IHR), an international agreement that requires Member States to prevent and respond to acute public health risks that have the potential to cross borders. The MOU includes specific statements that authorize WHO and its regional offices to pursue activities that improve the ability of all nations to detect, report, and respond to infectious diseases quickly and accurately. The purpose is to assist WHO in implementing the MOU regarding the International Health Regulations, including the development and implementation of coordinated plans and networks that enable national governments and regional authorities globally to better address infectious diseases, particularly emerging infections. Specific activities will focus on improving infectious disease surveillance and response; enhancing knowledge generation, innovation, and tools for improved management that build public health infrastructure and strengthen regional health leadership and collaboration; sharing knowledge, tools and other resources in support of applied epidemiology; and developing improved infectious disease surveillance, prevention and control strategies.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

Support implementation of the IHR by analyzing regional, national, and local resources devoted to infectious diseases and identifying areas for implementation of infectious disease activities consistent with the purpose of this cooperative agreement. Develop, implement, and conduct projects to enhance infectious disease surveillance, response, prevention, and control. Strengthen regional and national public health networks and inter-sectorial co-operation and collaborate with other health organizations, academic institutions, and community groups as appropriate to accomplish program activities. Strengthen regional and national public health leadership and collaboration. Monitor and evaluate overall program performance and the progress of individual projects or activities. Publish and disseminate findings, program evaluations, and lessons learned.

Applicant Eligibility:

Other public institution/organization; Only the World Health Organization and its regional offices are eligible to apply. For purposes of this document, the term WHO includes its regional offices (e.g., PAHO, EMRO, AFRO, SEARO, etc). WHO is the only international and intergovernmental agency qualified to conduct activities under this cooperative agreement because: WHO is an international public health agency that works to improve health and living standards globally. WHO is part of the United Nations system. As such, WHO has a unique position among the worlds health agencies as the lead technical agency for health globally. For additional information, please see <http://www.who.org> WHO and its Regional Offices are at the apex of global public health organizations and thus have an exclusive status as the United States governments key partners for global public health. On September 19, 2011, the Government of the United States of America and the World Health Organization signed a memorandum of understanding (MOU) to help developing nations strengthen their capabilities to support the International Health Regulations (IHR). The IHR (2005) is an international agreement that requires WHO Member States to prevent and respond to acute public health risks that have the potential to cross borders and threaten people worldwide. The U.S. Government and WHO share a commitment to strengthen cooperation in the area of global health security to ensure that the international community effectively manages public health risks. Improving the ability of all nations to detect, report, and respond to infectious diseases quickly and accurately lies at the heart of the global communitys ability to address all infectious disease threats, as reflected in the IHR. The MOU establishes a framework for collaboration in line with the provisions set forth in the IHR, which provides a construct for coordinating the management of actions in the event of a public health emergency of international concern. The MOU was signed by Secretary Kathleen Sebelius, Department of Health and Human Services, and Director-General Margaret Chan, World Health Organization, and subsequently by Ambassador Betty E. King, United States Permanent Representative to the United Nations in Geneva. The full text of the MOU can be accessed at: <http://www.globalhealth.gov/global-health-topics/health-diplomacy/agreements-and-regulations/20110922-mem.html>. The MOU includes the following specific

ASSISTANCE LISTINGS DESCRIPTIONS

statements that support sole-source consideration of WHO and its regional offices (including PAHO) for funding activities that fall under the scope of the MOU: Section 8.a.: The United States Department of Health and Human Services (DHHS) continues to serve as the primary substantive interface with WHO on global health and health security. DHHS plans to ensure coordination with other U.S. Government departments, agencies, and entities that collaborate on health matters within the scope of this Memorandum to enhance the effectiveness of such activities. The U.S. Government agencies intend to develop programs and provide funds through mechanisms that may be determined jointly by the U.S. Government agency and WHO. Section 8.b.: Specific funding mechanisms are intended to be developed and U.S. Government agencies intend to collaborate with WHO to define specific work to be undertaken by the Participants and the division of responsibilities.

Beneficiary Eligibility:

Minority group; Health Professional; Scientist/Researchers; Physically Afflicted (e.g. TB, Arthritis, Heart Disease); Infant (0-5); Child (6-15); Youth (16-21); Senior Citizen (60+); Low Income; Other public institution/organization; The World Health Organization and its regional offices work will benefit individuals worldwide, including in the U.S., through collaboration with National Ministries of Health and other organizations/institutions. The purpose is to support WHO to reduce the global disease burden through improved international capacity to detect and respond to emerging infectious diseases and other threats.

Credentials/Documentation:

Preapplication Coordination:

Pre-application coordination is not applicable.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Applicants must download and submit the SF424 application package associated with specific Funding Opportunity Announcements (FOAs) issued by CDC via Grants.gov. Specific application instructions will be included in the FOAs. Applications are not solicited nor will they be accepted outside of a published FOA process.

Award Procedure:

Eligible applications submitted in response to published FOAs will be initially reviewed for completeness by the Procurement and Grants Office (PGO) staff. In addition, eligible applications will be jointly reviewed for responsiveness by CDC program staff and PGO. Incomplete applications and applications that are non-responsive to the eligibility criteria will not advance through the review process. Applicants will be notified the application did not meet eligibility and/or published submission requirements. A review will be conducted to evaluate the eligible, complete, and responsive applications according to the criteria listed in the applicable FOA. As part of the review process, the applicant will receive a written Technical Review that summarizes the review findings regarding strengths, weaknesses, and recommendations. The eligible application will be selected and funded based on the findings of the review process. Successful applicants will receive a Notice of Award (NoA) from the CDC Procurement and Grants Office. The NoA shall be the only binding, authorizing document between the recipient and CDC. Unsuccessful applicants will receive notification of the results of the application review by mail. here to enter text.

93.107 Area Health Education Centers

AHEC.

FEDERAL AGENCY:

HEALTH RESOURCES AND SERVICES ADMINISTRATION, HEALTH AND HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

Title VII, Sec. 751 of the Public Health Service Act (42 U.S.C. 294a)

OBJECTIVES:

The Area Health Education Center (AHEC) Program enhances access to high quality, culturally competent health care through academic-community partnerships. The goal of the AHEC Program is three fold: (1) to prepare a diverse, culturally-competent primary care workforce representative of the communities served; (2) to improve health workforce distribution through the nation, particularly among rural and underserved areas and population; and (3) to develop and maintain a healthcare workforce that is prepared to deliver high quality care in a transforming health care delivery system with emphasis on rural and underserved areas and communities.

TYPES OF ASSISTANCE:

Cooperative Agreements, Project Grants

USES AND USE RESTRICTIONS:

Funds shall be used to recruit individuals from underrepresented, disadvantaged, or rural backgrounds into the health professions; establish and maintain community-based placements or preceptorships with an emphasis on primary care; conduct

ASSISTANCE LISTINGS DESCRIPTIONS

interdisciplinary/interprofessional training involving an array of health professionals; deliver or facilitate continuing education; propose and implement outcomes measurement and evaluation strategies. Not less than 75 percent of the total amount provided to an Area Health Education Centers (AHEC) program under subsection 751(a) (2) shall be allocated to the AHEC centers participating in the program. The aggregate amount of awards to schools in the state for the fiscal year under Point of Service Maintenance and Enhancement AHEC authority shall be not less than \$103,000 annually per AHEC center, including program office funds. If amounts appropriated to carry out Section 751 are not sufficient to comply with the amount stated in the preceding sentence, the Secretary may reduce the per center amount as necessary.

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); Public nonprofit institution/organization (includes institutions of higher education and hospitals); U.S. Territories and possessions (includes institutions of higher education and hospitals); Private nonprofit institution/organization (includes institutions of higher education and hospitals); Entities eligible to apply for AHEC Infrastructure Development awards under 751(a)(1) are public or nonprofit private accredited schools of allopathic medicine and osteopathic medicine and incorporated consortia made up of such schools, or the parent institutions of such schools. In states and territories in which no AHEC program is in operation, an accredited school of nursing is an eligible applicant. An entity eligible to apply for AHEC Point of Service Maintenance and Enhancement awards under section 751 (a) (2) means an entity has received funds under this section (751), is operating an area health education center program, including an area health education center or centers, and has a center or centers that are no longer eligible to receive financial assistance under subsection (a)(1). Eligible entities are accredited public or nonprofit schools of allopathic medicine or osteopathic medicine, the parent institution on behalf of such schools, and accredited schools of nursing, which have received funds under section 751 to operate an AHEC program. Federally Recognized Indian Tribal Government and Native American Organizations may apply if they are otherwise eligible.

Beneficiary Eligibility:

Private nonprofit institution/organization; Public nonprofit institution/organization; Beneficiaries include a full range of trainees: high school students from underrepresented minority populations or from disadvantaged or rural backgrounds, health professions students, faculty, and practitioners.

Credentials/Documentation:

Applicants should review the individual HRSA Notice of Funding Opportunity issued under this CFDA program for any required proof or certifications which must be submitted with an application package. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is not applicable.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. HRSA requires all applicants to apply electronically through Grants.gov. All eligible, qualified applications will be forwarded to an objective review committee. Based on the advice of the objective review committee, the HRSA program official with delegated authority is responsible for final selection and funding decisions. Notification is made in writing by a Notice of Award.

Award Procedure:

Notification is made in writing (electronic) by a Notice of Award. When making final funding decisions regarding Section 751 awards, consideration will be given to the Sense of the Congress that there be an area health education center program in each state.

Deadlines:

Contact the headquarters or regional location, as appropriate for application deadlines.

Range of Approval/Disapproval Time:

Other. Approximately 120 to 180 days after receipt of applications.

Appeals:

Not Applicable.

Renewals:

Other. Depending on Agency priorities and availability of funding, during the final budget year of the approved project period competing continuation applications may be solicited from interested applicants.

Formula and Matching Requirements:

Statutory formula is not applicable to this assistance listing. Matching Requirements: Percent: 50%. Requirement: Matching requirements are voluntary. With respect to the costs of operating a program through a grant under section 751, to be eligible for assistance under section 751, an entity shall make available (directly or through contributions from state, county, municipal governments or the private sector) recurring nonfederal contributions in cash or in kind toward such costs in an amount that is equal to not less than 50 percent of such costs. Thus, the matching ratio for AHEC awards is 1:1 (federal funds to non-federal contributions). At least 25 percent of the total required non-Federal contributions shall be in cash. This program has MOE requirements, see funding agency for further details. Additional Information: The recipient must agree to maintain non-federal funding for grant activities at a level which is not less than expenditures for such activities during the fiscal year prior to receiving the award..

Length and Time Phasing of Assistance:

This funding opportunity provides support for a five year project period. Method of awarding/releasing assistance: other

Reports:

Both program and financial reports are required. The recipient will be required to submit annual performance and progress reports. A Federal Financial Report (SF-425) is required according to the schedule in HRSA's Application Guide. A final report is due within 90 days after the project period ends. If applicable, the recipient must submit a Tangible Personal Property Report (SF-428) and any related forms within 90 days after the project period ends. New awards (Type 1) issued under this notice of funding opportunity are subject to the reporting requirements of the Federal Funding Accountability and Transparency Act (FFATA) of 2006 (Pub. L. 109282), as amended by section 6202 of Public Law 110252, and implemented by 2 CFR Part 170. Grant and cooperative agreement recipients must report information for each first-tier subaward of \$25,000 or more in federal funds and executive total compensation for the recipients and subrecipients five most highly compensated executives as outlined in Appendix A to 2 CFR Part 170 (The FFATA details are available online at <http://www.hrsa.gov/grants/ffata.html>). Competing continuation recipients may be subject to this requirement and will be so notified in the Notice of Award.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503

Records:

Recipients are required to maintain grant accounting records 3 years after the date they submit the Federal Financial Report (FFR). If any litigation, claim, negotiation, audit or other action involving the award has been started before the expiration of the 3-year period, the records shall be retained until completion of the action and resolution of all issues which arise from it, or until the end of the regular 3-year period, whichever is later.

CRITERIA FOR SELECTING PROPOSALS:

Procedures for assessing the technical merit of grant applications have been instituted to provide an objective review of applications and to assist the applicant in understanding the standards against which each application will be judged. Critical indicators have been developed for each review criterion to assist the applicant in presenting pertinent information related to that criterion and to provide the reviewer with a standard for evaluation. Competing applications are reviewed by nonfederal reviewers for technical merit recommendations. Applications will be reviewed and evaluated against the following criteria: (1) Purpose and Need; (2) Response to Program Purpose; (3) Impact; (4) Organizational Information, Resources and Capabilities; and (5) Support Requested. See the most recent Notice of Funding Opportunity for detailed review criteria.

93.110 Maternal and Child Health Federal Consolidated Programs

Special Projects of Regional and National Significance (SPRANS), including the Community Integrated Service Systems (CISS); and the Heritable Disorders Program,

FEDERAL AGENCY:

HEALTH RESOURCES AND SERVICES ADMINISTRATION, HEALTH AND HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

Social Security Act, Title V, Section 502(a)(1) and (b)(1), as amended; 42 U.S.C. 702.; Sections 1109, 1110, 1111 and 1112 of the Public Health Service Act and Section 399T of the Public Health Service Act.

OBJECTIVES:

To carry out special maternal and child health (MCH) projects of regional and national significance; to conduct training and research; to conduct genetic disease testing, counseling, and information development and dissemination programs; for the screening of newborns for sickle cell anemia, and other genetic disorders; and to support comprehensive hemophilia diagnostic and treatment centers. These grants are funded with a set-aside from the MCH Block grant program. SPRANS grants are funded with 15 percent of the Block Grant appropriation of up to \$600 million. When the appropriation exceeds \$600 million, 12.75 percent of the amount over \$600 million is set aside for the Community Integrated Service Systems grants. 15 percent of the balance remaining over \$600 million is also for SPRANS. The CISS program is to develop and expand the following: (1) Home visitation; (2) increased participation of obstetricians and pediatricians; (3) integrated service delivery systems; (4) maternal and child health centers for women and infants,

under the direction of a not-for-profit hospital; (5) services for rural populations; and (6) integrated state and community service systems for children and youth with special health care needs. First funded in 2004, the Heritable Disorders Program is established to improve the ability of States to provide newborn and child screening for heritable disorders and affect the lives of all of the nations infants and children. Newborn and child screening occur at intervals across the life span of every child. Newborn screening universally provides early identification and follow-up for treatment of infants affected by certain genetic, metabolic, hormonal and/or functional conditions. It is expected that newborn and child screening will expand as the capacity to screen for genetic and congenital conditions expands.

TYPES OF ASSISTANCE:

Project Grants, Project Grants (Discretionary)

USES AND USE RESTRICTIONS:

Training grants are made to institutions of higher learning for training personnel for health care and related services for mothers and children. Research grants are for the purpose of research activities which show promise of a substantial contribution to the advancement of maternal and child health services. Genetic grants are for genetic disease testing, counseling and information development and dissemination. Hemophilia grants are for the support of centers which provide hemophilia diagnostic and treatment services. Sickle cell disease grants are made to support follow up for infants with sickle cell identified through newborn screening. Heritable Disorders grants are made to improve the ability of States to provide newborn and child screening for heritable disorders, coordinate services and long-term follow-up for newborns and children identified with a condition through newborn screening, and to provide newborn screening education resources to patients, parents, and families. Environmental health grants are made to decrease maternal and child morbidity and mortality associated with pre-and post-natal environmental exposures. Other special project grants are designed to support activities of a demonstration nature which are designed to improve services for mothers and children. Restricted Uses: Indirect costs that are allowed for administrative costs incurred as a result of the training grants project, are limited to 8 percent of direct costs.

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals); Public nonprofit institution/organization (includes institutions of higher education and hospitals); Other public institution/organization; Federally Recognized Indian Tribal Governments; U.S. Territories and possessions (includes institutions of higher education and hospitals); Private nonprofit institution/organization (includes institutions of higher education and hospitals); Native American Organizations (includes Indian groups, cooperatives, corporations, partnerships, associations); Training grants may be made to public or private nonprofit institutions of higher learning. Research grants may be made to public or private nonprofit institutions of higher learning and public or private nonprofit private agencies and organizations engaged in research or in Maternal and Child Health (MCH) or Children with Special Health Care Needs (CSHCN) programs. Any public or private entity is eligible for hemophilia, genetics, and environmental health grants and other special project grants, including CISS. Eligible entities for the Heritable Disorders Program include a State or a political subdivision of a State; a consortium of 2 or more States of political subdivisions of States; a territory; a health facility or program operated by or pursuant to a contract with or grant from the Indian Health Service; or any other entity with appropriate expertise in newborn screening, as determined by the Secretary.

Beneficiary Eligibility:

Specialized group (e.g. health professionals, students, veterans); Health Professional; Student/Trainee; Women; Infant (0-5); Child (6-15); For training grants: (1) Trainees in the health professions related to MCH; and (2) mothers and children who receive services through training programs. For research grants: public or private nonprofit agencies and organizations engaged in research in MCH or CSHCN programs. For hemophilia, sickle cell, thalassemia genetics, or environmental health, and other special projects: (1) Public or private agencies, organizations and institutions; and (2) mothers and children, and persons with genetic conditions including hemophilia (any age), who receive services through the programs.

EXAMPLES OF FUNDED PROJECTS:

2017 The R40 Maternal and Child Health Field-Initiated Innovative Research Studies Program (MCH FIRST) supports investigator-initiated applied MCH research that has the potential to improve health care services and delivery, and to promote the health and wellbeing of maternal and child populations. These grants involve the collection of original data and have a project period of up to three years. The Newborn Screening Data Repository and Technical Assistance Program works to enhance, improve and expand the newborn screening system by supporting state public health newborn screening programs, public health professionals, and primary and specialty care practitioners. The Advancing Systems of Services for Children and Youth with Special Health Care Needs Program works to help states, child health professionals, and other stakeholders improve the health and well-being of children and youth with special health needs. They do this by focusing on access to patient/family-centered medical home, transition of youth into the adult health care system, and adoption of health care financing models that improve care and outcomes which achieving cost savings.

National Institute of Environmental Health Sciences,

FEDERAL AGENCY:

NATIONAL INSTITUTES OF HEALTH, HEALTH AND HUMAN SERVICES,
DEPARTMENT OF

AUTHORIZATION:

Public Health Service Act, Sections 301, 401, 437, 463 and 487, Public Laws 78-410 and 99-158, as amended, 42 U.S.C. 241, and 42 U.S.C. 288, as amended, SBIR and STTR Reauthorization Act of 2011, Public Law 113-6

OBJECTIVES:

To foster understanding of human health effects of exposure to environmental agents in the hope that these studies will lead to: the identification of agents that pose a hazard and threat of disease, disorders and defects in humans; the development of effective public health or disease prevention strategies; the overall improvement of human health effects due to environmental agents; the development of products and technologies designed to better study or ameliorate the effects of environmental agents; and the successful training of research scientists in all areas of environmental health research. Supported grant programs focus on the following areas: (1) Understanding biological responses to environmental agents by determining how chemical and physical agents cause pathological changes in molecules, cells, tissues, and organs, and become manifested as respiratory disease, neurological, behavioral and developmental abnormalities, cancer, and other disorders; (2) Determining the mechanisms of toxicity of ubiquitous agents like metals, natural and synthetic chemicals, pesticides, and materials such as nanoparticles, and natural toxic substances, and their effects of on various human organ systems, on metabolism, on the endocrine and immune systems, and on other biological functions; (3) Developing and integrating scientific knowledge about potentially toxic and hazardous chemicals by concentrating on toxicological research, testing, test development, validation and risk estimation; (4) Identifying interactions between environmental stressors and genetic susceptibility and understanding biologic mechanisms underlying these interactions, including the study of environmental influences on epigenomics and transcriptional regulation; (5) Conducting environmental public health research, including in areas of environmental justice and health disparities, that requires communities as active participants in all stages of research, dissemination, and evaluation to advance both the science and the development of practical materials for use in communities, with a focus on translating research findings into tools, materials, and resources that can be used to prevent, reduce, or eliminate adverse health outcomes caused by environmental exposures; (6) Expanding and improving the SBIR program; to increase private sector commercialization of innovations derived from Federal research and development; to increase small business participation in Federal research and development; and to foster and encourage participation of socially and economically disadvantaged small business concerns and women-owned small business concerns in technological innovation; (7) Expanding and improving the STTR program to stimulate and foster scientific and technological innovation through cooperative research and development carried out between small business concerns and research institutions; to foster technology transfer between small business concerns and research institutions; to increase private sector commercialization of innovations derived from Federal research and development; and to foster and encourage participation of socially and economically disadvantaged small business concerns and women-owned small business concerns in technological innovation; (8) Providing support for broadly based multi-disciplinary research and training programs in environmental health. These programs include the Environmental Health Sciences Core Centers, which serve as national focal points and resources for research and manpower development. The Centers for Neurodegenerative Science addresses the need for integrated research efforts involving basic and clinical scientists in a quest to discover the causes of and possible treatments for neurodegenerative diseases. The Breast Cancer and the Environment Research Program (co-funded with NCI) studies the impact of prenatal-to-adult environmental exposures that may predispose a woman to breast cancer. A special emphasis is on the impact of environmental

factors on a girls pubertal development, a known risk factor for breast cancer. Through these programs, NIEHS expects to achieve the long range goal of developing new clinical and public health applications to improve disease prevention, diagnosis, and therapy. Additional Centers programs developed in recent years, include the Centers for Oceans and Human Health (co-funded with NSF), Children's Environmental Health Centers (co-funded with US EPA) and the Autism Centers of Excellence (co-funded with other NIH Institutes) and the ; (9) Supporting research training programs which serve to increase the pool of trained research manpower with needed expertise in the Environmental Health Sciences through support of Individual and Institutional National Research Service Awards (NRSA); (10) The Outstanding New Environmental Scientist Program which provides first time research grant funding to outstanding junior scientists in the formative stages of their career who are proposing to make a long term commitment to environmental health sciences research and to address the adverse effects on environmental exposures on human biology, human pathophysiology and human disease.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

Research Grants and Cooperative Agreements are intended to support the direct costs of a project, in accordance with an approved budget, plus an appropriate amount for indirect costs. SBIR Phase I grants (of approximately 6-months' duration) are to establish the technical merit and feasibility of a proposed research effort that may lead to a commercial product or process. Phase II grants are for the continuation of the research initiated in Phase I and that are likely to result in commercial products or processes. Only Phase I awardees are eligible to receive Phase II support. STTR Phase I grants (normally of 1-year duration) are to determine the scientific, technical, and commercial merit and feasibility of the proposed cooperative effort that has potential for commercial application. Phase II funding is based on results of research initiated in Phase I, scientific and technical merit, and commercial potential of the Phase II application. A number of Career Development awards are supported. The Independent Scientist Award provides up to five years of salary support for newly independent scientists who have recently obtained independent research funding, generally an R01 research grant from NIEHS. The award is intended to allow the candidate protected time to focus on the further development of the independent research career and does not include additional research support. The Mentored Clinical Research Career Development Award provides three to five years of salary support for investigators with clinical degrees (e.g., M.D., D.V.M.). The Transition to Independent Environmental Health Research (TIEHR) Career Development Award provides three years of support for candidates who are within three years of their first independent faculty appointment and who have not yet obtained significant research grant funding (an R01 or equivalent). The award includes salary support and pilot funding. The Mentored Patient-Oriented Research Career Development Award provides up to five years of support for clinically trained investigators who make a commitment to focus on patient-oriented research. The Mid Career Investigator Award in Patient-Oriented Research provides up to five years of support to outstanding clinical scientists who are actively engaged in patient-oriented research and who are within 15 years of their specialty training. The Mentored Quantitative Research Development Award provides up to five years of support for junior faculty with quantitative scientific and engineering backgrounds outside of biology or medicine that are transitioning to behavioral or biomedical research. The NIH Pathway to Independence Award is divided into two phases. The initial award (K99) provides up to two years of mentored, postdoctoral support. The second phase (R00) provides up to three years of independent research support, when the awardee accepts a full-time tenure track, or equivalent, faculty position. All these Career Development awards provide salary consistent with the level of effort devoted to the research career development activities, plus fringe benefits, an allowance for career development activities and 8 percent fiscal and administrative costs. All Career Development Awards, except for the NIH Pathway to Independence Award, have a US citizenship requirement. Details of specific restrictions for the Career Development Awards can be found at <http://www.niehs.nih.gov/careers/research/trainingfrom/career/index.cfm>. NIEHS Core Center grants (P30) are primarily intended to provide infrastructure support and the support of core research facilities. In addition, an appropriate facilities and administrative cost is provided as determined by negotiated agreement with the grantee's cognizant government organization. National Research Service Awards

ASSISTANCE LISTINGS DESCRIPTIONS

(NRSA's): Individual predoctoral and postdoctoral training awards are made for the support of fellows who engage in research training in environmental toxicology, environmental pathology, environmental mutagenesis, or environmental epidemiology/biostatistics. In addition to individual training awards, institutional training grants (T32) are made to institutions to enable institutions to make awards to individuals selected by them, for both predoctoral and postdoctoral research training in the aforementioned areas. Each individual who receives a postdoctoral NRSA, either through an institutional or individual training award mechanism, is obligated upon termination of the award to comply with certain service and payback provisions.

Applicant Eligibility:

Federal; State (includes District of Columbia, public institutions of higher education and hospitals); Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals); Public nonprofit institution/organization (includes institutions of higher education and hospitals); Other public institution/organization; U.S. Territories and possessions; U.S. Territories and possessions (includes institutions of higher education and hospitals); Non-Government - General; Specialized group (e.g. health professionals, students, veterans); Small business (less than 500 employees); Profit organization; Private nonprofit institution/organization (includes institutions of higher education and hospitals); Other private institutions/organizations; Native American Organizations (includes Indian groups, cooperatives, corporations, partnerships, associations); Research Grants, Cooperative Agreements, Science Education Grants, SBIR Grants, Independent Scientist Awards, Mentored Research Scientist Development Award, Mentored Clinical Scientist Development Award, and the Academic Career Awards: A university, college, hospital, State, local or tribal governments, nonprofit research institution, or for-profit organization may submit an application and receive a grant for support of research by a named principal investigator. Candidates for Academic Career Awards Awards and Midcareer Investigator Awards in Patient Oriented Research must have a doctoral degree and peer-reviewed, independent, research support at the time the award is made. Candidates for Mentored Clinical Scientist Development Awards and Mentored Patient Oriented Research Career Development Awards must have a clinical degree or its equivalent and must have initiated post graduate clinical training. Candidates holding a Ph.D. degree are ineligible. Candidates who have served as principal investigators on PHS-supported research projects are ineligible. A candidate for Academic Career Awards must have a clinical or research doctorate degree. Those eligible for the Development Award must be able to devote at least 75 percent effort. SBIR grants can be awarded only to domestic small businesses (entities that are independently owned and operated for profit, are not dominant in the field in which research is proposed, and have no more than 500 employees). Primary employment (more than one-half time) of the principal investigator must be with the small business at the time of award and during the conduct of the proposed project. In both Phase I and Phase II, the research must be performed in the U.S. and its possessions. STTR grants can be awarded only to domestic small business concerns (entities that are independently owned and operated for profit, are not dominant in the field in which research is proposed and have no more than 500 employees) which "partner" with a research institution in cooperative research and development. At least 40 percent of the project is to be performed by the small business concern and at least 30 percent by the research institution. In both Phase I and Phase II, the research must be performed in the U.S. and its possessions. To be eligible for funding, a grant application must be approved for scientific merit and program relevance by a scientific review group and a national advisory council. Centers: A university-based, nonprofit research institution, or for-profit organization proposing an integrated research program established to accomplish a stated mission, covering activities ranging from very basic research to the actual application of research results in the prevention and control of environmental health problems, may submit an application under the direction of a named Center Director. National Research Service Awards: (1) Nonprofit domestic organizations may apply for the Institutional NRSA; (2) Individual NRSA awardees must be nominated and sponsored by a public for-profit or nonprofit private institution having staff and facilities appropriate to the proposed research training program; (3) all awardees must be citizens or have been admitted to the United States for permanent residence; (4) to be eligible, predoctoral awardees must have completed the baccalaureate degree and postdoctoral awardees must have a professional or scientific degree (M.D., Ph.D., D.D.S., D.O., D.V.M., Sc.D., D.Eng., or equivalent domestic or foreign degree).

Beneficiary Eligibility:

Federal; U.S. Territories; Specialized group (e.g. health professionals, students, veterans); Small business; Profit organization; Private nonprofit institution/organization; Other private institution/organization; Native American Organizations; Education Professional; Student/Trainee; Graduate Student; Scientist/Researchers; State; Local; Sponsored organization; Public nonprofit institution/organization; Other public institution/organization; Federally Recognized Indian Tribal Governments; For Research Grants: Any nonprofit or for-profit organization, company, or institution engaged in biomedical research. For Centers and Training Grants: University-based nonprofit institutions; for-profit organizations conducting research; and individuals nominated by a private institution conducting research.

Credentials/Documentation:

Applications must be signed by appropriate officials of the submitting institution. The cost principles for awards under this program are set forth in HHS regulations at 45 CFR 75, Subpart E and Appendix IX (hospitals) to Part 75. Commercial organizations are subject to the cost principles located at 48 CFR 31.2 Federal Acquisition Regulation. See the NIH Grants Policy Statement (NIH GPS) for further guidance on the applicability of cost principals (<http://grants.nih.gov/grants/policy/nihgps/index.htm>). 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is not applicable.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Awards made under this program are subject to 2 CFR 200, as implemented by 45 CFR 75 Public Welfare, Uniform Administrative Requirements, Cost Principles and Audit Requirements for HHS Awards. The policies and procedures generally applicable to NIH grants are set forth in the NIH GPS (<http://grants.nih.gov/grants/policy/nihgps/index.htm>). Application forms and instructions for their submission are available at <http://grants.nih.gov/grants/forms.htm>. Applicants are encouraged and in some cases required to consult with NIEHS Program Officials prior to submission of an application. Detailed information about NIEHS grant programs and staff contacts can be found at <http://www.niehs.nih.gov/research/supported/index.cfm>.

Award Procedure:

Made on the basis of dual review by peer groups of all applications. The first level of reviews is by a study section for scientific merit. In addition, a national advisory council provides a secondary level of review for all applications. As required by P.L. 109-482, the NIH Health Reform Act of 2006, all research grant and cooperative agreements must undergo Advisory Council/Board review and approval prior to funding. Review of Individual NRSA applications by an Advisory Council/Board is not required. Final approval of these recommendations and decisions concerning funding are made by the Director, NIEHS.

Deadlines:

Contact the headquarters or regional location, as appropriate for application deadlines.

Range of Approval/Disapproval Time:

>180 Days. Receipt, review and approval processes range in length from six to nine months.

Appeals:

Other. A principal investigator (P.I.) may question the substantive or procedural aspects of the review of his/her application by communicating with the staff of the Institute. A description of the NIH Peer Review Appeal procedures is available on the NIH home page <http://grants.nih.gov/grants/guide/notice-files/NOT-OD-11-064.html>.

Renewals:

Other. Research Grants, Cooperative Agreements, Center Grants, and Institutional Training Grants: Renewal applications are subject to same criteria as new applications. Independent Scientist Awards, Mentored Research Scientist Development Awards, Mentored Clinical Scientist Development Award, Academic Career Awards, and Individual Training grants are non-renewable.

Formula and Matching Requirements:

Statutory formula is not applicable to this assistance listing. Matching requirements are not applicable to this assistance listing. MOE requirements are not applicable to

Length and Time Phasing of Assistance:

Research Grants, Cooperative Agreements, Center Grants, and NRSA Institutional grants may be awarded for up to 5 years, generally in 12-month budget periods and may be extended through a competitive renewal. Science Education Grants may be awarded for up to 5 years, in 12-month budget periods, and are not renewable.

Independent Scientist Awards are awarded for 5 years in 12-month budget periods, and are non-renewable. Mentored Research Scientist Awards are for up to 5 years, 12-month budget periods, and are non-renewable. Mentored Clinical Scientist Development Awards and Academic Career Awards are for up to 5 years and are renewable. SBIR: Normally, Phase I awards are for 6 months; normally, Phase II awards are for 2 years. STTR: Normally, Phase I awards are for 1 year; normally, Phase II awards are for 2 years. National Research Service Awards: Individual awards are non-renewable and may be for 1, 2, or 3 years, but no individual may receive NRSA support at the predoctoral level for more than 5 years and at the postdoctoral level for more than 3 years. Method of awarding/releasing assistance: other

Reports:

Annual and final progress reports are required for all Grant Awards. Annual financial reports are due for a subset of grant awards. Final financial reports are due for all grant awards. Additional reports are required after termination of National Research Service Awards to ascertain compliance with the service and payback provisions. Annual and final progress reports are required for all Grant Awards. Annual financial reports are due for a subset of grant awards. Final financial reports are due for all grant awards. Additional reports are required after termination of National Research Service Awards to ascertain compliance with the service and payback provisions. Review of annual performance reports is conducted by appropriate agency staff prior to issuance of additional funding.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503 Awards made under this program are subject to the audit requirements of OMB 2 CFR 200, as implemented by 45 CFR 75, Subpart F, and in the NIH GPS (<http://grants.nih.gov/grants/policy/nihgps/index.htm>).

Records:

In accordance with the provisions of 45 CFR 75, Subpart D Post Federal Award Requirements, Record Retention and Access, 75.361, expenditures and other financial records must be retained for 3 years from the day on which the grantee submit the last expenditure report for the report period.

CRITERIA FOR SELECTING PROPOSALS:

The major elements in evaluating proposals include assessments of: (1) The scientific merit and general significance of the proposed study and its objectives; (2) the technical adequacy of the experimental design and approach; (3) the competency of the proposed investigator or group to successfully pursue the project; (4) the adequacy of the available and proposed facilities and resources; (5) the necessity of the budget components requested in relation to the proposed project; and (6) the relevance and importance to stated program objectives. The

ASSISTANCE LISTINGS DESCRIPTIONS

following criteria will be used in considering the scientific and technical merit of SBIR/STTR Phase I grant applications: (1) The soundness and technical merit of the proposed approach; (2) the qualifications of the proposed principal investigator, supporting staff, and consultants; (3) the technological innovation of the proposed research; (4) the potential of the proposed research for commercial application; (5) the appropriateness of the budget requested; (6) the adequacy and suitability of the facilities and research environment; and (7) where applicable, the adequacy of assurances detailing the proposed means for (a) safeguarding human or animal subjects, and/or (b) protecting against or minimizing any adverse effect on the environment. Phase II grant applications will be reviewed based upon the following criteria: (1) The degree to which the Phase I objectives were met and feasibility demonstrated; (2) the scientific and technical merit of the proposed approach for achieving the Phase II objectives; (3) the qualifications of the proposed principal investigator, supporting staff, and consultants; (4) the technological innovation, originality, or societal importance of the proposed research; (5) the potential of the proposed research for commercial application; (6) the reasonableness of the budget requested for the work proposed; (7) the adequacy and suitability of the facilities and research environment; and (8) where applicable, the adequacy of assurances detailing the proposed means for (a) safeguarding human or animal subjects, and/or (b) protecting against or minimizing any adverse effect on the environment.

93.116 Project Grants and Cooperative Agreements for Tuberculosis Control Programs

FEDERAL AGENCY:

CENTERS FOR DISEASE CONTROL AND PREVENTION, HEALTH AND HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

National strategy for combating and eliminating tuberculosis, Title 42 Public Health Service Act, Part B, Section 317E(a), 42 USC USC Code 247b-6(a).

OBJECTIVES:

To assist State, local health agencies, political subdivisions, and other government entities to conduct TB preventive health service programs to assist in carrying out tuberculosis (TB) control activities designed to prevent transmission of infection and disease. Financial assistance is provided to TB programs to ensure that the program needs for core TB prevention and control activities, human resource development and public health laboratories are met. In addition, objectives include: finding all cases of active tuberculosis and ensuring completion of therapy; finding and screening persons who have had contact with TB patients, evaluating them for TB infection and disease, and ensuring completion of appropriate treatment; and conducting TB surveillance and TB public health laboratory activities that are essential to addressing these priorities. Each of these core activities (completion of therapy, contact investigation, TB surveillance, and TB laboratory activities) is essential to effective TB prevention and control.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

Project funds may be used to support both local personnel and individuals in direct assistance (i.e., "in lieu of cash") positions under Section 317 of the Public Health Service Act and to purchase equipment, supplies and services directly related to project activities, particularly directly observed therapy, patient outreach, morbidity surveillance, outreach and program assessment. Project funds may not be used to supplant State or local funds available for tuberculosis control, or to support construction costs or inpatient care.

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals); U.S. Territories and possessions (includes institutions of higher education and hospitals); Under Section 317 of the Public Health Service Act, official public health agencies or their bona fide agents of State and local governments, including the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, Guam, the Northern Mariana Islands, the Federated States of Micronesia, the Republic of the Marshall Islands, the Republic

of Palau, and American Samoa.

Beneficiary Eligibility:

U.S. Territories; State; Local; Official public health agencies of State and local governments, including the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, Guam, the Northern Mariana Islands, the Federated States of Micronesia, the Republic of the Marshall Islands, the Republic of Palau, and American Samoa.

Credentials/Documentation:

Applicants should document the need for assistance, state the objectives of the project, outline the method of operations, describe the evaluation procedures, and provide a budget with justification of funds requested. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Applicants must download application forms from www.Grants.gov. Applications must be submitted electronically at www.Grants.gov. If an applicant does not have access to the Internet, or if they have difficulty accessing the forms on-line, they may contact the CDC Office of Grants Services Technical Information Management Section (OGSTIMS) staff. For this, or further assistance, contact OGSTIMS: Telephone (770) 488-2700, Email: OGSTIMS@cdc.gov. This program is subject to the requirements described in 45 CFR 92. Notice of Funding Opportunities (NOFO) for this listing will be posted on Grants.gov.

Award Procedure:

This program is excluded from coverage under 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. The standard application forms as furnished by PHS and required by 45 CFR, Parts 92, must be used for this program. Forms and instructions are available on www.grants.gov.

Deadlines:

Contact the headquarters or regional location, as appropriate for application deadlines.

Range of Approval/Disapproval Time:

From 120 to 180 days.

Appeals:

From 120 to 180 days.

Renewals:

From 60 to 90 days. Information on the submission of applications may be obtained from the Grants Management Officer, Office of Grants Services, Centers for Disease Control and Prevention. The standard application forms, as furnished by PHS and required by 45 CFR 92 for State and local governments, must be used for this program. This program is subject to the requirements described in 45 CFR 92.

Formula and Matching Requirements:

Statutory formula is not applicable to this assistance listing. Matching requirements are not applicable to this assistance listing. MOE requirements are not applicable to this assistance listing.

Length and Time Phasing of Assistance:

Project Period: From one to five years. Budget Period: One year. Method of awarding/releasing assistance: lump sum.

Reports:

See notice of funding opportunity (NOFO) for details. CDC programs must require awardees to submit performance measures annually as a minimum, and may require reporting more frequently. Performance measure reporting must be limited to data collection. When funding is awarded initially, CDC programs must specify required frequency, data fields, and format. The Annual Performance Report is due no later than 120 days prior to the end of the budget period. The Annual Performance Report serves as the continuing application. This report should include the information specified in the notice of funding opportunity (NOFO). The Annual Federal Financial Report is required 90 days after the end of each budget

ASSISTANCE LISTINGS DESCRIPTIONS

period. Final Financial Reports are required 90 days after the end of a project period. Annual Federal Financial Reports are required 90 days after the end of each budget period. Annual financial status reports are required no later than 90 days after the end of each budget period. Final financial status reports are required 90 days after the end of a project period. See notice of funding opportunity (NOFO) for details. Awardees will meet the annual requirement to report on performance measures with the submission of an Annual Performance Report. However, CDC may request an additional report, the Performance Measure Report, in certain instances such as a jurisdiction's response to a large TB outbreak.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. In addition, grants and cooperative agreements are subject to inspection and audits by DHHS and other Federal officials.

Records:

Financial records, supporting documents, statistical records, and all other records pertinent to an award shall be retained for a period of three years from the date of submission of the final expenditure report or, for awards that are renewed quarterly or annually, from the date of the submission of the quarterly or annual financial report. If any litigation, claim, financial management review, or audit is started before the expiration of the 3-year period, the records shall be retained until all litigation, claims or audit findings involving the records have been resolved and final action taken. Property records must be retained in accordance with 45 CFR 74.53 and HHS Grants Policy Statement requirements.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2017: To assist with current efforts of state, local and territorial TB Programs to prevent, control, and eventually eliminate tuberculosis (TB) support continued for the 61 jurisdictions with continued special emphasis on the completion of treatment, contact investigation, and targeted testing of high-risk populations. In addition, funding was awarded to six recipients to support cross-cutting and disease-specific activities, including the prevention and control of HIV, viral hepatitis, STDs, and TB through prevention programs, capacity building for laboratory services, surveillance, human resources and organizational development, and monitoring and evaluation in the US Pacific Islands. Funding was also awarded to expand latent TB investigation testing and treatment to persons within a defined high-risk community in partnership with State and local health departments, community medical providers, and community leader and organizations. Fiscal Year 2018: To assist with current efforts of state, local and territorial TB Programs to prevent, control, and eventually eliminate tuberculosis (TB) direct assistance (including emergency drugs) will be provided and support will continue as in fiscal year 2017. Fiscal Year 2019: It is estimated that support will continue as provided in fiscal year 2018.

REGULATIONS, GUIDELINES, AND LITERATURE:

Subpart A of 42 CFR 51b is applicable, including all regulations incorporated by reference under Section 51b.105. PHS Grants Policy Statement, DHHS Publication No. (OASH) 94-50,000, (Rev.) April 1, 1994, is available.

93.117 Preventive Medicine and Public Health Residency Training Program, Integrative Medicine Program, and National Center for Integrative Primary Healthcare

Preventive Medicine and Public Health Residency Training Program (PMR); Preventive Medicine Residency with Integrative Health Care Training Program; and the Center for Integrative Medicine in Primary Care (CIMPC) now named the National Center for Integrative Primary Healthcare.,

FEDERAL AGENCY:

HEALTH RESOURCES AND SERVICES ADMINISTRATION, HEALTH AND HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

Sections 765 and 758 of the Public Health Service Act (42 U.S.C. 295 and 42 U.S.C. 295c)

OBJECTIVES:

Grants are intended to promote postgraduate medical education in the specialty of preventive medicine and to enhance preventive medicine education through incorporation of evidence-based integrative medicine curricula into such programs. A cooperative agreement established a National Center for Integrative Primary Healthcare (NCIPH) to incorporate evidence-based Integrative Medicine (IM) curricula into existing primary care residency and other health professions training programs; provide faculty development to improve clinical teaching in IM; deliver continuing education to current primary care and other health professionals to increase competency in IM; and provide technical assistance to primary care residency programs and other accredited and licensed health professions education programs on the integration of IM into the established primary care curricula and training. The Preventive Medicine Residency with Integrative Health Care Training Program combined the purposes of the preventive medicine residency and integrative medicine programs into one to build on the previous achievements of the integrative medicine grantees. The broad goal of the program is to improve the health of communities by increasing the number and quality of preventive medicine physicians who can address public health needs, advance preventive medicine practices, increase access to integrative health care, and increase the integration of these two fields into preventive medicine training and practice. Preventive Medicine is the specialty of medical practice which focuses on the health of individuals and defined populations in order to protect, promote, and maintain health and well-being and prevent disease, disability and premature death. It is one of the 145 medical sub-specialties recognized by the American Board of Medical Specialties. Preventive Medicine encompasses three areas of specialization: (1) General Preventive Medicine and Public Health, (2)

ASSISTANCE LISTINGS DESCRIPTIONS

Occupational Medicine, and (3) Aerospace Medicine. As articulated by the Institute of Medicine, integrative medicine can be described as orienting the health care process to create a seamless engagement by patients and caregivers of the full range of physical, psychological, social, preventive, and therapeutic factors known to be effective and necessary for the achievement of optimal health throughout the life span.

TYPES OF ASSISTANCE:

Cooperative Agreements, Project Grants

USES AND USE RESTRICTIONS:

Awards are intended to assist in meeting the costs of planning and developing new preventive medicine programs; maintaining or improving existing residency training programs in preventive medicine; incorporating competency-based integrative medicine curricula in graduate medical education including preventive medicine residency and primary care programs; and providing financial assistance to medical residents enrolled in such programs. The NCIPH cooperative agreement is expected to contribute to the evidence-base for IM, and identify and disseminate promising practices related to the integration of IM into primary care and interprofessional practice, including the activities listed under Objectives above. The Preventive Medicine Residency with Integrative Health Care requires recipients to increase the number of preventive medicine residents and/or improve training for these residents. The applicants are required to 1) propose a plan for evaluating any improvements in the educational program, such as the effect of the interventions on the knowledge, skills, and practices of the residents; 2) incorporate evidence-based integrative health care curricula into accredited preventive medicine residency programs; and 3) provide interprofessional training of their preventive medicine residents including training in preventive medicine and integrative health care for other primary care or community-based health care trainees or providers in addition to preventive medicine residents. Indirect costs under training awards to organizations other than State, local or American Indian tribal governments will be budgeted and reimbursed at 8 percent of modified total direct costs rather than on the basis of a negotiated rate agreement, and are not subject to upward or downward adjustment.

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals; Public nonprofit institution/organization (includes institutions of higher education and hospitals); Other public institution/organization; Federally Recognized Indian Tribal Governments; U.S. Territories and possessions (includes institutions of higher education and hospitals); Private nonprofit institution/organization (includes institutions of higher education and hospitals); Eligible Preventive Medicine and Public Health Residency program grants, and those enhancing their programs with integrative health care applicants are: (1) an accredited school of public health or school of medicine or osteopathic medicine; (2) an accredited public or private nonprofit hospital; (3) a State, local, or tribal health department; or (4) a consortium of 2 or more entities described in (1) through (3). Eligible applicants for the NCIPH are (1) a health professions school, including an accredited school or program of public health, health administration, preventive medicine, or dental public health or a school providing health management programs; (2) an academic health center; (3) a State or local government; (4) any other appropriate public or private nonprofit entity. Refer to the relevant Notice of Funding Opportunity for more specific information regarding eligibility and specialized experience. Federally Recognized Indian Tribal Government and Native American Organizations may apply if they are otherwise eligible.

Beneficiary Eligibility:

Individual/Family; Minority group; Specialized group (e.g. health professionals, students, veterans); Private nonprofit institution/organization; Scientist/Researchers; U.S. Citizen; Women; Public nonprofit institution/organization; For Preventive Medicine and Public Health Residency program grants, and for those enhancing their programs with integrative health care, each trainee receiving stipend support must: (a) be a citizen of the United States, a non-citizen U.S. national, or a foreign national having in his or her possession a visa permitting permanent residence in the United States; (b) be a physician who has graduated from an accredited school of medicine or osteopathic medicine in the United States; or if a graduate from a foreign school, meet the criteria of the Educational Commission for Foreign Medical Graduates, for entry

into the program supported by this grant; and (c) plan to complete the grant-supported program and engage in the practice and/or teaching of preventive medicine, especially in positions which meet the needs of medically underserved populations.

Credentials/Documentation:

Applicants should review the individual HRSA Notice of Funding Opportunity issued under this CFDA program for any required proof or certifications which must be submitted with an application package. The preventive medicine residency must provide documentation of current accreditation from ACGME or AOA or documentation from ACGME related to submission of an application for accreditation. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is not applicable.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. HRSA requires all applicants to apply electronically through Grants.gov. All eligible, qualified applications will be forwarded to an objective review committee. Based on the advice of the objective review committee, the HRSA program official with delegated authority is responsible for final selection and funding decisions.

Award Procedure:

Notification is made in writing through a Notice of Award.

Deadlines:

Contact the headquarters or regional location, as appropriate for application deadlines.

Range of Approval/Disapproval Time:

Other. Approximately 120 to 180 days after receipt of applications.

Appeals:

Not Applicable.

Renewals:

Other. Depending on Agency priorities and availability of funding, during the final budget year of the approved project period competing continuation applications may be solicited from interested applicants.

Formula and Matching Requirements:

Statutory formula is not applicable to this assistance listing. Matching requirements are not applicable to this assistance listing. This program has MOE requirements, see funding agency for further details. Additional Information: The recipient must agree to maintain non-federal funding for grant activities at a level which is not less than expenditures for such activities during the fiscal year prior to receiving the award..

Length and Time Phasing of Assistance:

The PMR funding opportunity provides support for a 5-year project period. Recipients draw down funds, as necessary, from the Payment Management System (PMS), the centralized web based system for HHS awards. The National Center for Integrative Primary Healthcare was fully funded for a three-year project period in FY2014; the project period ended in FY 2017. The project period for the Preventive Medicine Residency with Integrative Health Care program is for 3 years; these awardees are active and complete their project period 8/31/2018, although may request a no cost extension. See the following for information on how assistance is awarded/released: Recipients drawdown funds, as necessary, from the Payment Management System (PMS). PMS is the centralized web based payment system for HHS awards. Method of awarding/releasing assistance: other

Reports:

Both program and financial reports are required. The recipient will be required to submit annual performance and progress reports. A Federal Financial Report (SF-425) is required according to the schedule in HRSA's Application Guide. A final report is due within 90 days after the project period ends. If applicable, the recipient must submit a Tangible Personal Property Report (SF-428) and any related forms within 90 days after the project period ends. New awards (Type 1) issued under this notice of funding opportunity are subject to the reporting requirements of the Federal Funding Accountability and Transparency Act (FFATA) of 2006 (Pub. L. 109282), as amended by section 6202 of Public Law 110252, and implemented by 2 CFR Part 170. Grant and cooperative agreement recipients must report information for each first-tier subaward of \$25,000 or more

in federal funds and executive total compensation for the recipients and subrecipients five most highly compensated executives as outlined in Appendix A to 2 CFR Part 170 (The FFATA details are available online at <http://www.hrsa.gov/grants/ffata.html>). Competing continuation recipients may be subject to this requirement and will be so notified in the Notice of Award.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503

Records:

Recipients are required to maintain grant accounting records 3 years from the date they submit the Federal Financial Report (FFR). If any litigation, claim, negotiation, audit or other action involving the award has been started before the expiration of the 3-year period, the records shall be retained until completion of the action and resolution of all issues which arise from it, or until the end of the regular 3-year period, whichever is later.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2017: the Preventive Medicine Residency program supported 130 residents, most of whom were completing residencies in either Preventive Medicine/Occupational Medicine or Preventive Medicine and Public Health. Grantees partnered with 232 sites (e.g., local and state health departments, community-based organizations) to provide clinical training experiences for residents of which over 44.4% were in medically underserved communities. These sites provided 671 clinical training experiences for residents. 63 residents completed their residency training programs in the 2016-2017 academic year. 88% of PMR funded residents received training in primary care settings, and 82% received training in medically underserved communities. 2.2% of the clinical training settings were located in rural settings. 32% of those who completed their residency intend to pursue employment or further training in primary care. 35% of residents indicated the intention to pursue employment in medically underserved communities. Funds supported a variety of infrastructure activities including curriculum development and faculty development. A total of 200 unique courses and training activities were developed, enhanced, and implemented during the academic year, providing training on emerging topics in preventive medicine for 2,450 health professions students, residents, fellows, and practicing professionals; and supporting 75 different faculty development programs and activities reaching 1080 faculty members during the academic year 2016-2017. Fiscal Year 2018: Fiscal Year 2018: No Current Data Available

REGULATIONS, GUIDELINES, AND LITERATURE:

All administrative and audit requirements and the cost principles that govern Federal monies associated with this activity will be subject to the Uniform Guidance 2 CFR 200 as codified by HHS at 45 CFR 75. HRSA awards are also subject to the requirements of the HHS Grants Policy Statement (HHS GPS) that are applicable based on recipient type and purpose of award. CRITERIA FOR SELECTING PROPOSALS:

Procedures for assessing the technical merit of grant applications have been instituted to provide an objective review of applications and to assist the applicant in understanding the standards against which each application will be judged. Critical indicators have been developed for each review criterion to assist the applicant in presenting pertinent information related to that criterion and to provide the reviewer with a standard for evaluation. Competing applications are reviewed by nonfederal expert consultant(s) for technical merit recommendations. Applications will be reviewed and evaluated against the following criteria: (1) Purpose and Need; (2) Response to Program Purpose; (3) Impact; (4) Organizational Information, Resources and Capabilities; and (5) Support Requested. See the most recent Notice of Funding Opportunity for detailed selection criteria.

93.121 Oral Diseases and Disorders Research

Dental, Oral and Craniofacial Research.,

FEDERAL AGENCY:

NATIONAL INSTITUTES OF HEALTH, HEALTH AND HUMAN SERVICES,
DEPARTMENT OF

AUTHORIZATION:

Public Health Service Act, Title IV, Section 301, Public Law 78-410

OBJECTIVES:

To improve oral, dental and craniofacial health through performing and supporting

ASSISTANCE LISTINGS DESCRIPTIONS

basic, translational, and clinical research; conducting and funding research training and career development programs to ensure an adequate number of talented, well-prepared, and diverse investigators; coordinating and assisting relevant research and research-related activities among all sectors of the research community; and promoting the timely transfer of knowledge gained from research and its implications for health to the public, health professionals, researchers, and policy-makers. 1. The Behavioral and Social Sciences (BSS) Research Program supports basic and applied BSS research to promote oral health, to prevent oral diseases and related disabilities, and to improve management of craniofacial conditions, disorders and injury. 2. The Clinical and Practice-Based Research Program supports cross-sectional descriptive, case-control, prospective cohort and retrospective studies of dental, oral, and craniofacial diseases and disorders. The NIDCR-supported National Dental Practice-Based Research Network is a program in which national oral health studies are conducted in dental practices on topics of importance to practitioners and their patients. 3. The Clinical Trials Program supports improving oral health with high-quality evidence derived from well-executed Phase I, II, III, and IV clinical trials. 4. The Data Science, Computational Biology and Bioinformatics Program focuses on challenges in integrating and interpreting diverse and high-volume data to better understand dental, oral, and craniofacial conditions and their health consequences including the areas of bioinformatics, data science, computational biology and computational genomics, and systems biology approaches to dental, oral, and craniofacial research. 5. The Dental Materials and Biomaterials Program supports development of innovative approaches to restore tissue function by replacement and/or enhancement of dental, oral and craniofacial tissues compromised by trauma or disease. NIDCR encourages basic and translational extramural research in dental materials, medical devices, biosensors, imaging, dental implants, biocompatibility of dental materials, and biomaterials for craniofacial restoration and reconstruction. 6. The Developmental Biology and Genetics program supports basic and translational research to better understand the development of craniofacial structures from the early embryonic specification of the neural crest through the later development of teeth and craniofacial sutures. This program also supports research into the genetic and environmental contributions to craniofacial disorders, particularly their study in model organisms. 7. The Health Disparities Research Program supports studies that: provide a better understanding of the basis of oral health disparities and inequities; develop and test interventions tailored/targeted to underserved populations; seek to understand a broadened array of determinants of disparities/inequities in oral health status and care at multiple levels; take a holistic, social ecological, multi-level interventional approach designed to have a meaningful impact on oral health status and quality of life of vulnerable and underserved populations. 8. The HIV/AIDS and Oral Health Research Program supports extramural basic, translational and clinical research on HIV/AIDS to advance understanding of the underlying molecular, cellular, immunological and genetic mechanisms of HIV infection, the development of oral co-morbidities associated with HIV/AIDS, and the effects of HIV treatments on oral and dental tissues. 9. The Microbiology Program supports basic research examining the role of the oral microbiota (comprising bacteria, archaea, fungi and viruses) in dental health and disease as well as preclinical studies aimed at developing new prevention and treatment options for dental infections. Topics include examining the oral microbiota through studies in microbial ecology, physiology and genetics; polyomic technologies (genomics, metagenomics and systems biology); mechanisms of microbial virulence and pathogenesis; and classical prevention and treatment strategies for combating infectious disease. 10. The Mineralized Tissue Physiology Program supports basic and translational science research on craniofacial skeletal biology and pathobiology, and pharmacogenetics, and promotes interdisciplinary and multidisciplinary approaches to advance the understanding of normal and abnormal processes underlying oral, dental, and craniofacial diseases and disorders. 11. The Neuroscience of Orofacial Pain and Temporomandibular Disorders Program supports basic, translational, and clinical research on: orofacial pain and neuropathies, temporomandibular joint and muscle disorders, development of biomarkers for diagnostics and prognostics, and development of therapeutics. 12. The Oral and Salivary Cancer Biology Program supports basic and translational research to improve detection and treatment of cancers of the oral cavity, pharynx, and salivary glands. Basic research focuses on susceptibilities and mechanisms that influence tumor initiation, promotion, and progression. Translational research focuses on development of innovative biomarkers, novel diagnostic technologies, and appropriate human specimens to better characterize cancers and improve medical decision making and treatment

response evaluation. 13. The NIDCR research training and career development programs span the career stages of scientists, supporting training for basic, clinical, behavioral, and other research related to the NIDCR mission. 14. The Salivary Biology and Immunology Program encourages basic and translational research that furthers our understanding of the biology of saliva and salivary gland, immunology of oral diseases, and oral manifestations of systemic and infectious diseases; develops new tools and technologies to address challenges in these areas, and explores pathways toward commercialization and therapeutics. 15. The Tissue Engineering and Regenerative Medicine Program supports basic and translational research on employing bioengineering- and stem cell biology- based approaches for the reconstruction, repair, and regeneration of dental, oral, and craniofacial (DOC) tissues damaged because of disease or injury. The goal of this program is to advance engineering of biocompatible DOC tissue constructs and their functional integration into the host tissue microenvironment, and to support efforts aimed at healing and regeneration of endogenous host tissues. 16. The Translational Genetics and Genomics Program supports research designed to identify the genetic and molecular mechanisms underlying dental, oral, and craniofacial diseases and health. 17. The Small Business Innovation Research (SBIR) program seeks to increase private sector commercialization of innovations derived from Federal research and development; to increase small business participation in Federal research and development; and to foster and encourage participation of socially and economically disadvantaged small business concerns and women-owned small business concerns in technological innovation. 18. The Small Business Technology Transfer (STTR) program seeks to stimulate and foster scientific and technological innovation and foster technology transfer through cooperative research and development carried out between small business concerns and research institutions; to increase private sector commercialization of innovations derived from Federal research and development; and to foster and encourage participation of socially and economically disadvantaged small business concerns and women-owned small business concerns in technological innovation.

TYPES OF ASSISTANCE:

Cooperative Agreements, Project Grants, Project Grants (Contracts), Project Grants (Fellowships), Project Grants (Special)

USES AND USE RESTRICTIONS:

Research Project Grants and Cooperative Agreements: provide funds for salaries, equipment, supplies, travel, and other expenses associated with scientific investigation in the dental, oral and craniofacial health sciences. They are awarded to universities, colleges, medical and dental schools, hospitals, and other nonprofit and for-profit institutions. Awards include investigator-initiated project grants, exploratory and developmental grants, small grants, center grants, conference grants, and career development awards. Individual and institutional dual degree (DDS or DMD/PhD) awards provide support for research career development in both clinical and basic science. National Research Service Awards (NRSAs) provide support for research training in specified biomedical areas, and can be made to institutions to enable them to accept individuals for research training. Individuals who receive NRSAs may be obligated upon termination of the award to comply with service and payback provisions. SBIR Phase I grants (duration of approximately 6 months) provide support to establish the technical merit and feasibility of a proposed research effort that may lead to a commercial product or process. Phase II grants support the continuation of the research initiated in Phase I to further develop the commercial products or process initiated in Phase I. Only Phase I awardees are eligible to receive Phase II support. STTR Phase I grants (duration of typically 1 year) support cooperative efforts between small businesses and research institutes to determine the scientific and technical merit, and commercial feasibility of a product or process with potential for commercial application. Phase II funding is based on the results of the research initiated in Phase I and the scientific and technical merit, and commercial potential of the Phase II application.

Applicant Eligibility:

Government - General; Interstate; Intrastate; State (includes District of Columbia, public institutions of higher education and hospitals); Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals); Sponsored organization; Public nonprofit institution/organization (includes institutions of higher education and hospitals); Other public institution/organization; Federally Recognized Indian Tribal Governments; U.S. Territories and possessions; U.S. Territories and possessions (includes institutions of higher education and hospitals); Non-Government - General; Specialized group

(e.g. health professionals, students, veterans); Small business (less than 500 employees); Profit organization; Private nonprofit institution/organization (includes institutions of higher education and hospitals); Other private institutions/organizations; State; Native American Organizations (includes Indian groups, cooperatives, corporations, partnerships, associations); Research Project Grants: Scientists at universities, medical and dental schools, hospitals, laboratories, and other public or private nonprofit and for-profit institutions. NRSA and career development awards: (1) Nonprofit domestic organizations may apply for institutional awards. (2) Individual candidates or applicants must arrange sponsorship by a public or nonprofit private institution having staff and facilities appropriate to the proposed research training program. (3) All awardees must be citizens, or non-citizen nationals, of the United States or have been admitted to the United States for permanent residence, except for K99/R00 and T90/R90 grants. (4) To be eligible, postdoctoral NRSA and career development awardees must have a professional or scientific degree (M.D., Ph.D., D.D.S., D.V.M., Sc.D., D.Eng., or equivalent domestic or foreign degree). Institutional applicants must be able to provide the staff and facilities suitable for the proposed research training. SBIR and STTR grants: Can be awarded only to domestic small business concerns that meet the following criteria: 1) Is organized for profit, with a place of business located in the United States, which operates primarily within the United States or which makes a significant contribution to the United States economy through payment of taxes or use of American products, materials or labor; 2) Is in the legal form of an individual proprietorship, partnership, limited liability company, corporation, joint venture, association, trust or cooperative, except where the form is a joint venture, there must be less than 50 percent participation by foreign business entities in the joint venture; 3) Be a concern which is more than 50% directly owned and controlled by one or more individuals (who are citizens or permanent resident aliens of the United States), other business concerns (each of which is more than 50% directly owned and controlled by individuals who are citizens or permanent resident aliens of the United States), or any combination of these; no single venture capital operating company, hedge fund, or private equity firm may own more than 50% of the concern, 4) Has, including its affiliates, not more than 500 employees, and 5) meets the other regulatory requirements found in 13 C.F.R. Part 121. For STTR awards, the small business must "partner" with a research institution in a cooperative research and development project. In both Phase I and Phase II for both SBIR and STTR, the research must be performed in the U.S. and its possessions. To be eligible for funding, all grant applications must be evaluated for scientific merit and program relevance by a peer scientific review group and the National Advisory Dental and Craniofacial Research Council.

Beneficiary Eligibility:

Small business; Profit organization; Private nonprofit institution/organization; Health Professional; Education Professional; Student/Trainee; Graduate Student; Scientist/Researchers; Industrialist/ Business person; Small Business Person; Public nonprofit institution/organization; Other public institution/organization; Health professionals, graduate students, undergraduate students, health professional students, scientists, researchers, and any nonprofit or for-profit organization, company or institution engaged in biomedical research.

Credentials/Documentation:

Research Project Grants: Applications must include the specific aims (objectives) of the research, background and significance, research design and methods, investigator qualifications, innovation, approach/methodology, and environment/resources for the proposed project. NRSA and career development awards: (1) Individual Award Candidates: the applicant's academic record, research experience, citizenship, institutional sponsorship, proposed research area, and plan for training, must be included in the application. (2) Institutional Award Candidates: the application must include the objectives, methodology, and resources for the research training program, the research qualifications and experience of participating faculty in training students and fellows, and the criteria to be used in selecting individuals for support. Costs will be determined in accordance with OMB Circular No. A-87 for State and Local Governments. Costs for for-profit organizations are determined in accordance with the Federal Acquisition Regulations Subpart 31.2. For other than State and Local Government grantees, costs will be determined by Health and Human Services (HHS) Regulations 45 CFR, Part 74, Subpart Q. For SBIR and STTR grants, the applicant organization (small business) must present an idea in the research plan that has potential for commercialization and furnish evidence that scientific competence, experimental methods, facilities, equipment, and funds requested are appropriate to

carry out the plan. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Applications for Federal assistance must be submitted electronically through Grants.gov (<http://www.grants.gov>) using the SF424 Research and Related (R&R) forms and the SF424 (R&R) Application Guide (<http://grants.nih.gov/grants/forms.htm>). A registration process through Grants.gov is necessary before submission. Applicants are strongly encouraged to start the registration process at least four weeks prior to the applications submission date. Notice of Funding Opportunities (NOFO) for this listing will be posted on Grants.gov.

Award Procedure:

All accepted grant applications competing for research project grants, career development awards, and NSRA awards are reviewed by two advisory groups. Primary review is conducted by an initial review group composed of extramural peer scientists, and secondary review by the National Advisory Dental and Craniofacial Research Council (NADCRC). Secondary review of NRSA fellowship applications is conducted by NIDCR staff rather than by the NADCRC. All accepted SBIR/STTR applications are evaluated for scientific and technical merit by an appropriate initial review group and by the NADCRC. All applications receiving a priority score compete for available SBIR/STTR set-aside funds on the basis of scientific and technical merit and commercial potential of the proposed research, program relevance, and program balance among the areas of research.

93.124 Nurse Anesthetist Traineeship

(NAT).

FEDERAL AGENCY:

HEALTH RESOURCES AND SERVICES ADMINISTRATION, HEALTH AND HUMAN SERVICES, DEPARTMENT OF
AUTHORIZATION:

Section 811 of the Public Health Service (PHS) Act, (42 U.S.C. 296j)

OBJECTIVES:

Grants are awarded to accredited institutions that educate registered nurses to become nurse anesthetists; recipient institutions in turn disburse funds to students in the form of traineeship support. As many Nurse Anesthesia programs transition from Masters to clinical Doctoral-level programs, increased demands on time and financial resources restrict the ability of students to work for the duration of the program. Thus, the goal of the Nurse Anesthetist Traineeship (NAT) Program is to provide traineeship support for licensed registered nurses enrolled as full-time students in accredited masters or doctoral nurse anesthesia programs to work towards increasing the number of nurse anesthetists, especially those serving rural and underserved populations, thereby addressing the distribution of providers to target communities in need.

TYPES OF ASSISTANCE:

Formula Grants

USES AND USE RESTRICTIONS:

Funds may be used for traineeship support to licensed registered nurses enrolled as full-time students in accredited graduate-level nurse anesthesia programs. Traineeships may include full or partial costs of the tuition, books/eBooks, fees, and reasonable living expenses (stipends) for the individual during the traineeship. Restricted Uses: Funds may not be used for travel, daily commuting costs of trainees, non-trainee expenses, or indirect costs of the educational institution.

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); Public nonprofit institution/organization (includes institutions of higher education and hospitals); U.S. Territories and possessions; U.S. Territories and possessions (includes institutions of higher education and hospitals); Private nonprofit institution/organization (includes institutions of higher education and hospitals); Eligible applicants are collegiate schools of nursing, academic health

centers, and other private or public nonprofit entities accredited by a recognized body or bodies or State agency, approved for the purpose of nursing education by the Secretary of Education, which provide registered nurses with full-time, graduate-level nurse anesthesia master's or doctoral education and have evidence of accreditation from the American Association of Nurse Anesthetists (AANA) Council on Accreditation of Nurse Anesthesia Educational Programs. The school must be located in the 50 states, the District of Columbia, Guam, the Commonwealth of Puerto Rico, the Northern Mariana Islands, American Samoa, Guam, the U.S. Virgin Islands, the Federated States of Micronesia, the Republic of the Marshall Islands, and the Republic of Palau. Faith-based and community-based organizations, Federally recognized Indian Tribal Government and Native American Organizations may apply for these funds if otherwise eligible.

Beneficiary Eligibility:

Specialized group (e.g. health professionals, students, veterans); Health Professional; NAT funds are awarded to institutions, not individuals. Traineeship recipients are selected by the participating institutions. A candidate must be a citizen of the United States, non-citizen national, or foreign national who possesses a visa permitting permanent residence in the United States, and must be enrolled full-time in an accredited graduate-level nurse anesthesia program. Individuals on temporary student visas are not eligible.

Credentials/Documentation:

Applicants should review the individual HRSA Notice of Funding Opportunity issued under this CFDA program for any required proof or certifications which must be submitted with an application package. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

CRITERIA FOR SELECTING PROPOSALS:

Procedures for assessing the technical merit of grant applications have been instituted to provide an objective review of applications and to assist the applicant in understanding the standards against which each application will be judged. Critical indicators have been developed for each review criterion to assist the applicant in presenting pertinent information related to that criterion and to provide the reviewer with a standard for evaluation. Competing applications are reviewed by non-Federal expert consultant(s) for technical merit recommendations. Applications will be reviewed and evaluated against the following criteria: (1) Purpose and Need; (2) Response to Program Purpose; (3) Impact; (4) Organizational Information, Resources and Capabilities; and (5) Support Requested. See the most recent Notice of Funding Opportunity for detailed selection criteria.

93.134 Grants to Increase Organ Donations

FEDERAL AGENCY:

HEALTH RESOURCES AND SERVICES ADMINISTRATION, HEALTH AND
HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

Reimbursement of Travel and Subsistence Expenses toward Living Organ Donation: Section 377 of the Public Health Service (PHS) Act, as amended, 42 U.S.C. Section 274f. Increasing Organ Donation Awareness: Section 377A(b) of the Public Health Service (PHS) Act, as amended, 42 U.S.C. Section 274f-1(b). Lost Wages Support for Living Organ Donors (Demonstration Project): Section 377A(b) of the Public Health Service (PHS) Act, as amended, 42 U.S.C. 274f-1(b).

OBJECTIVES:

To support grants for the purpose of increasing public commitment to organ donation and ultimately the number of organs recovered and transplanted. To that end, the Division of Transplantation has cooperative agreements and grant programs with the following objectives: Reimbursement of Travel and Subsistence Expenses toward Living Organ Donation: The purpose of this program is to operate a national system to provide reimbursement of travel and subsistence expenses, and other non-medical expenses that may be authorized by the Secretary to individuals making living donations of their organs. Increasing Organ Donation Awareness Grant Program: This program provides support for the implementation and rigorous evaluation of highly promising strategies and approaches for: increasing public attitudes, practices and commitment to deceased organ donation as evidenced by donor registry enrollment as well as family consent at a relatives time of death; the option of living donation and its risks and benefits and methods to promote large scale adaptation of successful interventions.

TYPES OF ASSISTANCE:

Cooperative Agreements, Project Grants

USES AND USE RESTRICTIONS:

Reimbursement of Travel and Subsistence Expenses toward Living Organ Donation: Funds made available through this program may not be made available to donating individuals when payment for qualified reimbursement expenses has been made, or can reasonably be expected to be made: (1) under any State compensation program, under an insurance policy, or under any Federal or State health benefits program; (2) by an entity that provides health services on a prepaid basis; or (3) by the recipient of the organ. Increasing Organ Donation Awareness Grant Program: Funds under this notice may not be used for the following purposes: to purchase or improve land, or to purchase, construct, or make permanent improvements to any building except for minor remodeling; to make payments to recipients of services, except for reimbursement of reasonable and allowable out-of-pocket expenses associated with participation in project activities; nor to support: (a) biomedical and clinical research; (b) the development and/or assessment of the efficacy of new or improved clinical methods of donor management, organ recovery, or organ preservation; (c) fundamental research focused on new or improved evaluation tools and methodologies; (d) fundamental research focused on the development of new behavioral theories relevant to health attitudes, practices, and decision-making (e) interventions inconsistent with existing Federal law; (f) to implement efforts to promote living donation; (g) to conduct interventions to increase tissue donation alone; (h) to evaluate clinical outcomes of donation after cardiac death (DCD) organs; (i) to fund staff time devoted to project activities that is being supported by other sources. Lost Wages Support for Living Organ Donors (Demonstration Project): funds under this notice may not be used for the following purposes: (a) Support for blood, bone marrow, and blood stem cell donation; (b) Reimbursement for travel and related expenses for living organ donors; (c) Reimbursement for any lost wages expenses and similar expenses if this support is available under other state or prepaid health or insurance program or employer benefits. All Programs: Funds may not be used for activities that are reimbursable under Medicare. Funds must be used in a manner consistent with program policies developed by DoT and with the HHS Grants Policy Statement, January 1, 2007, available at the HRSA grants web site at <http://www.hrsa.gov/grants>.

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); Public nonprofit institution/organization (includes institutions of higher education and hospitals); Federally Recognized Indian Tribal Governments; U.S. Territories and possessions (includes institutions of higher education and hospitals); Private nonprofit institution/organization (includes institutions of higher education and hospitals); Native American Organizations (includes Indian groups, cooperatives, corporations, partnerships, associations); Reimbursement of Travel and Subsistence Expenses toward Living Organ Donation: As specified in Section 377 of the Public Health Service Act, as amended, eligible applicants include States, transplant centers, qualified organ procurement organizations under section 371, or other public or private entities. Faith-based, community organizations and Federally Recognized Indian Tribal Government and Native American Organizations are eligible to apply. Increasing Organ Donation Awareness Grant Program: As specified in Section 377A(b) of the Public Health Service Act, as amended, the Secretary may make peer-reviewed grants to public and nonprofit private entities for the purpose of carrying out studies and demonstration projects to increase organ donation and recovery rates, including living donation. If the applicant is an OPTN member, and if the applicant is working with a consortium that includes OPTN members, the applicant and all other OPTN members are expected to comply with the final rule governing the operation of the OPTN Section 121.11(b2). PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2017: The University of Arizona in collaboration with the American Society of Transplant Surgeons continues to operate the Program through the National Living Donor Assistance Center (NLDAC). From September 1, 2017 through the end of February 2018, the NLDAC received 470 applications for reimbursement and facilitated 224 living donor transplants. Since its inception in October 2007 through the end of February 2018, the NLDAC received 8,808 applications for reimbursement and facilitated 4,273 living donor transplants. The median household income for transplant recipients whose transplant was facilitated by NLDAC is \$27562. The average reimbursement to donors and companions is \$2,313. The NLDAC, since its inception, has paid out \$14.55 million to approved applicants including actual donors. Increasing Organ Donation Awareness Grant Program: A broad spectrum of interventions to increase donation has been implemented at the national, State, and local levels by a variety of public and private organizations, ranging from large-scale national media and public education programs and statewide donor registries to community-based activities to raise awareness among various population groups. These projects have contributed to the knowledge base about important factors associated with the donation decision-making process and methods for motivating people to make the commitment to become deceased organ donors as well as educating the public about living donation and vascularized composite allograft (VCA) donation. Fiscal Year 2018: No Current Data Available.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. This program is subject to the provisions of 45 CFR Part 92 for State and local governments and OMB Circular No. A-110 for nonprofit organizations, as appropriate. Funding Opportunity Announcements for this program are posted on www.Grants.gov, the official federal agency wide e-grant Web site. Application forms and instructions specific to each announcement are posted at that site. Electronic Submission: CDC strongly encourages the applicant to submit applications electronically by utilizing the forms and instructions posted on www.Grants.gov. Registering your organization through www.Grants.gov is the first step in submitting applications online. Registration information is located in the "Get Started" screen of www.Grants.gov and the one-time registration process will take three to five days to complete. While application submission through www.Grants.gov may be optional for various announcements, we strongly encourage you to use this online tool. Please visit www.Grants.gov at least 30 days prior to filing your application to familiarize yourself with the registration and submission processes. We suggest submitting electronic applications prior to the closing date so if difficulties are encountered, you can resolve them prior to the deadline. For further assistance contact GrantsInfo, Telephone: (301) 435-0714, E-mail: GrantsInfo@nih.gov. For the hearing impaired: TTY (770) 488-2783. If you do not have access to the Internet, or if you have difficulty accessing the forms on-line, you may contact the CDC Procurement and Grants Office Technical Information Management Section (PGO-TIM) staff at: (770) 488-2700. DUNS Number: Applications must have a Dun and Bradstreet (D&B) Data Universal Numbering System number as the universal identifier when applying for Federal grants or cooperative agreements. The D&B number can be obtained by calling (866) 705-5711 or through the web site at <http://www.dnb.com/us/>.

Award Procedure:

Applications will be reviewed for completeness by the Procurement and Grants Office (PGO) staff, and for responsiveness by the National Center for Injury Prevention and Control and PGO. Incomplete applications and applications that are non-responsive to the eligibility criteria will not advance through the review process. Applicants will be notified the application did not meet submission requirements. Successful applicants will receive a Notice of Award (NOA) from the CDC Procurement and Grants Office. The NOA shall be the only binding, authorizing document between the recipient and CDC. The NOA will be signed by an authorized Grants Management Officer, and mailed to the recipient fiscal officer identified in the application. FOR RESEARCH GRANTS: Applications that are complete and responsive to the announcement will be evaluated for scientific and technical merit by an appropriate peer review group convened by NCIPC in accordance with the review criteria stated below. All applications will: undergo a selection process in which only those applications deemed to have the highest scientific merit, generally the top half of applications under review, will be discussed and assigned a priority score; receive a written critique; receive a second level of review by the Board of Scientific Counselors. FOR NON-RESEARCH GRANTS/COOPERATIVE AGREEMENTS: Applicants are required to provide measures of effectiveness that will demonstrate the accomplishment of the various identified objectives of the grant or cooperative agreement. Measures of effectiveness must relate to the performance goals stated in the "Purpose" section of the announcement. Measures must be objective and quantitative and must measure the intended outcome. The measures of effectiveness must be submitted with the application and will be an element of evaluation. An objective review

panel will evaluate complete and responsive applications according to the criteria listed. The objective review process will follow the policy requirements as stated in the GPD 2.04, <http://198.102.218.46/doc/gpd204.doc>.

Protection and Advocacy for Individuals with Mental Illness Act of 1986, 42 USC 10801 et seq; Developmental Disabilities Assistance and Bill of Rights Act, as amended October 30, 2000, 42 USC Code 6041 et seq.

OBJECTIVES:

To enable the expansion of the Protection and Advocacy system established in each State to: (1) Protect and advocate the rights of individuals with mental illness; (2) investigate incidents of abuse and neglect of individuals with mental illness if the incidents are reported to the system or if there is probable cause to believe that the incidents occurred; (3) investigate incidents of serious injury and deaths in public and private care and treatment facilities and non-medical community-based facilities for children and youth; and (4) to receive reports of all serious injuries and deaths related to incidents of seclusion and restraint in public and private care and treatment facilities in the States and Territories.

TYPES OF ASSISTANCE:

Formula Grants

USES AND USE RESTRICTIONS:

Funds may be used to assist in meeting the costs of planning, developing, expanding, and implementing activities to support attainment of the protection and advocacy goals. Grant funds must supplement, not supplant, nonfederal funds available in the State in which the protection and advocacy system is established. Not more than 10 percent of an allotment can be used for providing technical assistance and training for staff, and a system which is a public entity cannot be

93.140 Intramural Research Training Award

IRTA,

FEDERAL AGENCY:

NATIONAL INSTITUTES OF HEALTH, HEALTH AND HUMAN SERVICES,
DEPARTMENT OF

AUTHORIZATION:

Health Professionals Education Partnerships Act, Title IV, Section 409, 42 USC Code 282(b)(13).

OBJECTIVES:

The National Institutes of Health (NIH) IRTA Traineeships are established for the principal benefit of the participants and to provide opportunities for developmental training and practical research experience in a variety of disciplines related to biomedical research, medical library research, and related fields. The IRTA components are: 1) Postdoctoral IRTA - designed to provide advanced practical research experience to physicians and other doctoral researchers who are at the beginning stages of their professional research careers; 2) Predoctoral IRTA -

ASSISTANCE LISTINGS DESCRIPTIONS

designed to provide practical research training and experience to students, by supplementing academic course work and/or encouraging pursuit of professional careers in biomedical research to students enrolled in doctoral degree programs in biomedical sciences; 3) postbaccalaureate IRTA - designed to provide recent college graduates, particularly minorities, women, and persons with disabilities, an opportunity to postpone application to graduate or medical school and to provide a means to introduce individuals early in their careers to research, encourage their pursuit of professional careers in biomedical research, and allow additional time to pursue successful application to either graduate or medical school programs; and 4) student IRTA - designed to provide a developmental training experience to promising high school, undergraduate, and graduate or professional students who have expressed a strong interest in or are studying disciplines related to biomedical sciences.

TYPES OF ASSISTANCE:

Direct Payments for Specified Use

USES AND USE RESTRICTIONS:

Participants in the IRTA Program will be provided access to NIH facilities and equipment and assistance in their training from senior NIH researchers. Trainees may not engage in primary patient care activities, be assigned official supervisory responsibilities, or sign documents on behalf of the Government. Funding support will come from the individual National Research Institutes, Centers and Divisions (ICD) that comprise the National Institutes of Health. All funding is discretionary and subject to the availability of appropriations and apportionment. The IRTA Program does not include financial loans.

Applicant Eligibility:

Individual/Family; Candidates for the IRTA Program must be U.S. Citizens or Permanent Resident Aliens: 1) Postdoctoral IRTA participants must possess a Ph.D., M.D., D.D.S., D.M.D., D.V.M. or equivalent degree in biomedical, behavioral, or related sciences; or certification by a university as meeting all the requirements leading to such a doctorate; 5 or fewer years of relevant postdoctoral experience and up to 2 additional years of experience not oriented toward research (i.e., clinical training for physicians); 2) predoctoral IRTA participants must be: a) students enrolled in Ph.D., M.D., D.D.S., D.M.D., D.V.M., or equivalent degree programs at any accredited U.S. or foreign university, which frequently involves dissertation research. The research experience is undertaken as an integral part of the student's ongoing academic preparation and is credited toward completion of degree requirements; or b) students who have been accepted into graduate or medical degree programs and who have written permission from their school to interrupt their current schooling and to return within 1 year to their degree granting programs; 3) postbaccalaureate IRTA participants are individuals who have received a bachelor's degree no more than 3 years prior to the activation date of the traineeship or a master's degree no more than 6 months prior to the activation date of the traineeship, and who intend to apply to graduate or medical school in biomedical research within the next year or students who have been accepted into graduate, other doctoral, or medical degree programs and who have written permission of their school to delay entrance for up to 1 year; and 4) student IRTA participants are at least 16 years of age and are enrolled at least half-time in high school or have been accepted for or are enrolled as an undergraduate or graduate in an accredited college or university and are in good academic standing. U.S. citizens may be enrolled anywhere in the world; permanent residents must be enrolled in the U.S.

Beneficiary Eligibility:

Scientist/Researchers; The IRTA Program benefits the participants by combining an opportunity for study with practical work experience and valuable research training experience at the NIH.

Credentials/Documentation:

These standards are contained in the Applicant Eligibility section. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Pre-application coordination is required. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372. Preapplication coordination is required. Environmental impact information is not required for this program. This program is excluded from coverage under 2 CFR 200, Subpart E, Cost Principles.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit

Requirements for Federal Awards applies to this program. Postdoctoral applicants submit their materials directly to NIH investigators; all other applicants submit materials to the NIH Office of Intramural Training & Education via online application systems : 1) Postdoctoral IRTA applicants must submit the documents requested by the investigator, generally a CV and letters of reference; 2) predoctoral IRTA applicants must submit CV, bibliography, 3 letters of reference emphasizing research potential, statement of research goals, an official copy of undergraduate, graduate, and/or medical school transcript, and verification from the university that the applicant is in good academic standing, is enrolled in a doctoral degree program, and has the school's approval to participate. In addition, (if applicable), they must have written permission from their institutions to interrupt their educational program including a written agreement allowing students to return to their degree program within 1 year; 3) postbaccalaureate applicants must submit CV, 3 letters of reference emphasizing potential, statement of research goals, and official copy of undergraduate school transcript; and 4) student IRTA applicants must submit a resume or CV, 2 letters of reference, official copy of school transcript, and statement of interest in biomedical research.

Award Procedure:

Awards are made by the interested Institutes or Centers based on the information provided by the applicant, the availability of NIH researchers to provide training, and the availability of financial and other resources to support the research training.

Deadlines:

November 15, 2018 - March 01, 2019. Only the Student IRTA program has a deadline. The bulk of student IRTAs are summer interns. Applications are accepted from mid-November to March 1. Applications for other IRTA positions are accepted year round.

Range of Approval/Disapproval Time:

From 60 to 90 days. Individual NIH investigators select their own trainees. There is, thus, no firm timeline for notification.

Appeals:

Not Applicable.

Renewals:

Other. 1) Postdoctoral IRTA component: Initial traineeships are for 1 or 2 years with a maximum traineeship of 5 calendar years. 2) Predoctoral IRTA component: Initial traineeships are for 1 month to 2 years with a maximum traineeship of 5 calendar years. 3) Postbaccalaureate IRTA component: Initial traineeships are for 1 year with a maximum traineeship of 3 calendar years. 4) Student IRTA component: Initial traineeship is for 1 month to 1 year. The maximum traineeship period is unlimited as long as the student meets eligibility criteria.

93.142 NIEHS Hazardous Waste Worker Health and Safety Training

Superfund Worker Training Program (WTP),

FEDERAL AGENCY:

NATIONAL INSTITUTES OF HEALTH, HEALTH AND HUMAN SERVICES,
DEPARTMENT OF
AUTHORIZATION:

Superfund Amendments and Reauthorization Act of 1986, as amended, Title I, Section 126, Public Law 99-499; Public Health Service Act, Section 405(b)(1)(C), as amended, Public Law 99-158.

OBJECTIVES:

To provide cooperative agreements and project grant support for the development and administration of model worker health and safety training programs consisting of classroom and practical health and safety training of workers and their supervisors, who are engaged in activities related to hazardous materials, hazardous waste generation, treatment, storage, disposal, removal, containment, transportation, or emergency response. To assist organizations in the development of institutional competency to provide appropriate training and education to hazardous waste workers.

TYPES OF ASSISTANCE:

Cooperative Agreements, Project Grants (Cooperative Agreements)

USES AND USE RESTRICTIONS:

Cooperative agreements and project grants are intended to support the direct costs of a project, in accordance with an approved budget, plus indirect costs at a pre-established rate. Both the award and use of funds are subject to applicable provisions of basic statutory authorities, appropriations acts, pertinent regulations, and operating policies of the National Institute of Environmental Health Sciences (NIEHS), the National Institutes of Health (NIH), and the Department of Health and Human Services (DHHS).

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals); Public nonprofit institution/organization (includes

institutions of higher education and hospitals); Other public institution/organization; U.S. Territories and possessions (includes institutions of higher education and hospitals); Non-Government - General; Specialized group (e.g. health professionals, students, veterans); Small business (less than 500 employees); Profit organization; Private nonprofit institution/organization (includes institutions of higher education and hospitals); Other private institutions/organizations; Native American Organizations (includes Indian groups, cooperatives, corporations, partnerships, associations); A public or private nonprofit entity, including tribal governments, that provide worker health and safety education and training, may submit an application and receive a cooperative agreement or project grant for support of waste worker education and training by a named principal investigator. Recipients/grantees may use services, as appropriate, of other public or private organizations necessary to develop, administer, or evaluate proposed worker training programs, as long as the requirement for awards to nonprofit organizations is not violated. Nonprofit organizations which are incorporated under 501(c)(4) are prohibited from receiving grants.

Beneficiary Eligibility:

U.S. Territories; Specialized group (e.g. health professionals, students, veterans); Small business; Profit organization; Private nonprofit institution/organization; Other private institution/organization; Native American Organizations; State; Local; Public nonprofit institution/organization; Other public institution/organization; Any public or private entity providing worker safety and health education and training will benefit from this program.

Credentials/Documentation:

The cost principles for awards under this program are set forth in HHS regulations at 45 CFR 75, Subpart E and Appendix IX (hospitals) to Part 75. Commercial organizations are subject to the cost principles located at 48 CFR 31.2 Federal Acquisition Regulation. See the NIH Grants Policy Statement (NIH GPS) for further guidance on the applicability of cost principals (<http://grants.nih.gov/grants/policy/nihgps/index.htm>). 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is not applicable.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Awards made under this program are subject to 2 CFR 200, as implemented by 45 CFR 75 Public Welfare, Uniform Administrative Requirements, Cost Principles and Audit Requirements for HHS Awards. The policies and procedures generally applicable to NIH grants are set forth in the NIH GPS (<http://grants.nih.gov/grants/policy/nihgps/index.htm>). Application forms and instructions for their submission are available at <http://grants.nih.gov/grants/forms.htm>. Applicants are encouraged and in some cases required to consult with NIEHS Program Officials prior to submission of an application. Detailed information about NIEHS grant programs and staff contacts can be found at <http://www.niehs.nih.gov/research/supported/index.cfm>.

Award Procedure:

As required in HHS Regulations, 42 CFR Part 65, applications will be reviewed administratively by NIEHS staff for completeness and responsiveness to the program announcement. Applications then will be reviewed on a competitive basis for technical merit by an ad hoc review committee composed primarily of non-government members with expertise in occupational safety and health training and hazardous waste operations convened by the NIEHS. A second level of review will be conducted by the National Advisory Environmental Health Sciences Council. This second level of review will be for program relevance. The final approval of these recommendations and decisions concerning funding is made by the Director, National Institute of Environmental Health Sciences (NIEHS) or, if in conflict, by appropriate NIH staff. Formal award notices are sent to successful applicants.

Deadlines:

Contact the headquarters or regional location, as appropriate for application deadlines.

Range of Approval/Disapproval Time:

93.143 NIEHS Superfund Hazardous Substances_Basic Research and Education

NIEHS Superfund Research Program,

FEDERAL AGENCY:

NATIONAL INSTITUTES OF HEALTH, HEALTH AND HUMAN SERVICES,
DEPARTMENT OF

AUTHORIZATION:

Superfund Amendments and Reauthorization Act of 1986, Title I, Section III, and Title II, Section 209, Public Law 99- 499, as amended; Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) of 1980, as amended, Section 311(a), Public Law 96-510; Public Health Service Act, Section 301, Public Law 78-410, as amended; Public Law 99-500.

OBJECTIVES:

To establish a unique program linking biomedical research with engineering, geoscience and ecological research. The goals of the Program are to establish and support an innovative program of basic research and training consisting of multi-

ASSISTANCE LISTINGS DESCRIPTIONS

project, interdisciplinary efforts; individual investigator projects; research education program grants; and Small Business Innovative Research grants. Areas of research may include: (1) advanced techniques for the detection, assessment, and evaluation of the effect on human health of hazardous substances; (2) methods to assess the risks to human health presented by hazardous substances; (3) methods and technologies to detect hazardous substances in the environment; and (4) basic biological, chemical, and physical methods to reduce the amount and toxicity of hazardous substances. It is intended that advanced or graduate training be integrated into the multi-project research program to provide opportunities in biomedical and environmental health, environmental sciences, ecology, and geosciences. The Program encourages the integration of interdisciplinary training to ensure that its students are prepared to tackle the complex issues presented by hazardous waste sites.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

Research grants are intended to support the direct costs of a project, in accordance with an approved budget, plus an appropriate amount for indirect costs. Grants made under this program are for university-based programs, and the objective is to establish and maintain coordinated research efforts that link basic biomedical research with related engineering, hydrogeological and ecological studies. In addition, the Superfund Research Program supports small business research through the Small Business Innovative Research (SBIR) program. The award and use of funds are subject to applicable provisions of basic statutory authorities, appropriations acts, pertinent regulations, and operating policies of the National Institute of Environmental Health Science (NIEHS), the National Institutes of Health (NIH), and the Department of Health and Human Services (DHHS).

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals); Public nonprofit institution/organization (includes institutions of higher education and hospitals); Other public institution/organization; U.S. Territories and possessions (includes institutions of higher education and hospitals); Non-Government - General; Specialized group (e.g. health professionals, students, veterans); Small business (less than 500 employees); Profit organization; Private nonprofit institution/organization (includes institutions of higher education and hospitals); Other private institutions/organizations; Native American Organizations (includes Indian groups, cooperatives, corporations, partnerships, associations); An accredited institution of higher education, as defined in the Higher Education Act, 20 U.S.C. (annotated) 3381, may submit an application and receive a grant for support of research by a named principal investigator. Subcontracts may be made with public and private organizations, including: generators of hazardous wastes; persons involved in the detection, assessment, evaluation, and treatment of hazardous substances; owners and operators of facilities at which hazardous substances are located; and State, local and Tribal governments. Nonprofit organizations which are incorporated under 501(c)(4) are prohibited from receiving grants. Organizations applying for a grant under the SBIR/STTR programs must qualify as a U.S.-owned Small Business Concern (SBC).

Beneficiary Eligibility:

U.S. Territories; Specialized group (e.g. health professionals, students, veterans); Small business; Profit organization; Private nonprofit institution/organization; Other private institution/organization; Native American Organizations; State; Local; Public nonprofit institution/organization; Other public institution/organization; Any accredited institution of higher education engaged in biomedical research and/or engineering and ecological research. SBIR awards are restricted to small business that meet NIH's criteria for SBC. Tribal entities that meet these requirements are eligible to apply.

Credentials/Documentation:

The cost principles for awards under this program are set forth in HHS regulations at 45 CFR 75, Subpart E and Appendix IX (hospitals) to Part 75. Commercial organizations are subject to the cost principles located at 48 CFR 31.2 Federal Acquisition Regulation. See the NIH Grants Policy Statement (NIH GPS) for further guidance on the applicability of cost principals (<http://grants.nih.gov/grants/policy/nihgps/index.htm>). 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is not applicable.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. This program is excluded from coverage under 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. This program is subject to the provisions of 45 CFR 75. Prospective applicants are asked to submit a letter of intent. Although it is not required, is not binding, and does not enter into the review of a subsequent application, the information that it contains allows IC staff to estimate the potential review workload and plan the review. It is due one month prior to the receipt of the applications. Applications for the Superfund Research Program are accepted in response to funding opportunity announcements (FOA) which are posted on National Institute of Environmental Health Sciences website (<http://www.niehs.nih.gov/research/supported/srp/funding/index.cfm>). Applications submitted in response to the multi-project FOA must be submitted electronically. NIHs Application Submission System & Interface for Submission Tracking (ASSIST) is available for the electronic preparation and submission of multi-project applications through <https://public.era.nih.gov/assist>. Application instructions are available at <https://grants.nih.gov/grants/how-to-apply-application-guide.html> in an interactive format. Applications submitted in response to an individual investigator grant or research education program grant FOAs must be submitted electronically through Grants.gov (<http://www.grants.gov>) using the SF424 Research and Related (R&R) forms and the SF424 (R&R) Application Guide. SBIR grant applications are accepted in response to the NIH Omnibus solicitation using the SF424 electronic application process (<http://www.grants.gov>). The SBIR/STTR omnibus grant solicitation is released in early spring of each year and has 3 receipt dates: April 5, September 5 and January 5.

Award Procedure:

Grants are awarded on the basis of a dual review by peer groups of all applications. The first level of review is by a Special Emphasis Panel of peers for scientific merit. The National Advisory Environmental Health Sciences Council provides a secondary level of review for all applications.

93.153 Coordinated Services and Access to Research for Women, Infants, Children, and Youth

Ryan White HIV/AIDS Program (RWHAP) Part D Women, Infants, Children and Youth (WICY) Program,

FEDERAL AGENCY:

HEALTH RESOURCES AND SERVICES ADMINISTRATION, HEALTH AND HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

Sections 2671 and 2693 of Title XXVI of the Public Health Service Act, (42 U.S.C. 300ff-71 and 300ff-111), as amended by the Ryan White HIV/AIDS Treatment Extension Act of 2009 (Public Law 111-87).

OBJECTIVES:

Part D (base): The purpose of this program is to provide family-centered care in the outpatient or ambulatory care setting (directly or through contracts or MOU) to low income, uninsured, and medically underserved women (25 years and older) living with HIV, infants (up to two years of age) exposed to or living with HIV, children (ages two to 12) living with HIV, and youth (ages 13 to 24) living with HIV and additional support services to affected family members. Part D (supplemental): The purpose of the Ryan White HIV/AIDS Program Part D -- Women, Infants, Children, and Youth (WICY) Grants Supplemental Funding is to strengthen organizational infrastructure to respond to the changing health care landscape and to increase capacity to develop, enhance, or expand access to high quality family-centered care services for low income, uninsured, and underserved women, infants, children, and youth (WICY) living with HIV.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

All funds must be expended solely for carrying out the approved project in accordance with the notice of funding opportunity, the terms and conditions of the award, and the applicable cost principles. No more than 10 percent of total grant funds may be used for administrative costs. All indirect costs count toward this 10% limit. Funds may not be used for purchase, construction, or major alterations or renovations on any building or other facility; purchase or improvement of land;

payments for clinical research; payments for nursing home care; cash payments to intended recipients of RWHAP services; research; foreign travel; to directly provide housing or health care services (e.g., HIV care, counseling and testing) that duplicate existing services; or for any item or service to the extent that payment has been made, or reasonably can be expected to be made, with respect to that item or service under any State compensation program, insurance policy, Federal or State health benefits program or by an entity that provides health services on a prepaid basis (except for a program administered by or providing the services of the Indian Health Services). Funds may also not be used towards PrEP or nPEP medications or medical services. As outlined in the June 22, 2016 RWHAP and PrEP program letter, the RWHAP legislation provides grant funds to be used for the care and treatment of PLWH, thus prohibiting the use of RWHAP funds for PrEP medications or related medical services, such as physician visits and laboratory costs. However, RWHAP Part D funds can be used toward Psychosocial Support Services, a component of family-centered care, which may include counseling and testing and information on PrEP to eligible clients partners and affected family members, within the context of a comprehensive PrEP program. Additionally, the purchase of sterile needles or syringes for the purposes of hypodermic injection of any illegal drug is not allowable. Some aspects of Syringe Services Programs are allowable with HRSA's prior approval and in compliance with HHS and HRSA policy (see: <https://www.aids.gov/federal-resources/policies/syringe-services-programs/>).

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals); Public nonprofit institution/organization (includes institutions of higher education and hospitals); Federally Recognized Indian Tribal Governments; U.S. Territories and possessions; Private nonprofit institution/organization (includes institutions of higher education and hospitals); State; Public and nonprofit private entities (including a health facility operated by or pursuant to a contract with the Indian Health Service, and faith-based and Tribes/Tribal organizations) that provide family-centered care involving outpatient or ambulatory care (directly or through contracts or memoranda of understanding (MOUs)) for WICY living with HIV/AIDS.

Beneficiary Eligibility:

Specialized group (e.g. health professionals, students, veterans); Women, infants, children, and youth living with HIV and their affected family members.

Credentials/Documentation:

Applicants should review the individual HRSA notice of funding opportunity issued under this CFDA program for any required proof or certifications which must be submitted prior to or simultaneous with submission of an application package. 2 CFR 200--Uniform Administrative Requirements, Cost Principles, and Audit Requirements for HHS Awards applies to this program 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is required. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. 2 CFR 200--Uniform Administrative Requirements, Cost Principles, and Audit Requirements for HHS Awards applies to this program. HRSA requires all applicants to apply electronically through Grants.gov.

Award Procedure:

Recipients must submit a Federal Financial Report or SF 425 within 90 days after the end of each project period. A final Federal Financial Report and performance report must be submitted 90 days after the end of the project period. Cash reports are not applicable.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503

Records:

Recipients are required to maintain financial records for 3 years after the date they submit the final Federal Financial Report (FFR). If any litigation, claim, negotiation, audit, or other action involving the award has been started before the expiration of the 3-year period, the records shall be retained until completion of the action and resolution of all issues which arise from it, or until the end of the regular 3-year period, whichever is later.

Providers Act of 2008 (MIPPA); Section 711 (b) of the Social Security Act (42
U.S.C. 912(b)) as amended by section 432 of the Medicare Prescription Drug
Improvement and Modernization Act of 2003.Social Security Act, Title VII, 711
(42 U.S.C. 912), as amended.

OBJECTIVES:

The Rural Health Research Center and Telehealth Focused Rural Health Research
Center programs are designed to increase the amount of publically available, high
quality, impartial, policy-relevant research to assist decision makers at the federal,
state and local levels to better understand the challenges faced by rural
communities and providers. The research conducted by these research centers
provides information that will improve access to health care and population health.
The Rapid Response Rural Data Analysis and Issue Specific Rural Research
Studies awardee assists rural communities with conducting rapid data analyses and
short-term research studies to understand the impact of current and proposed
policies and regulations as well as to provide information that will improve access
to health care and population health in rural America. Due to the nature of rural
policy analysis and formulation, rural organizations and health care providers often
require timely information that is available only through specialized analysis of
databases of information compiled by the Centers for Medicare & Medicaid
(CMS), and other federal and state agencies or provider organizations. Most rural
groups and individuals do not have the capacity to store the data sets, the staff
expertise to refine and analyze the data, nor the technology necessary to run

statistical analyses. Findings from these analyses are used to help inform rural health care providers and stakeholders that set policies impacting rural communities. The Rural Health Research Dissemination Program awardee disseminates and markets policy-oriented information for use by diverse audiences, such as rural stakeholders at national, state, and community levels and policy decision-makers, to inform and raise awareness of issues regarding policy implications, access, quality and status of health care delivery, services, and management on behalf of rural communities. The information includes the body of research funded by the Federal Office of Rural Health Policy (FORHP) and is designed to help decision-makers and policy analysts concerned with a variety of rural health issues at national, state, and community levels better understand the problems rural communities face in assuring access to health care and promoting good health for their members. The Rural Policy Analysis Program, another research-related program within FORHP, supports research and analysis of key policy issues affecting rural communities to inform rural policy makers. Funded projects focus on the changing rural environment and (1) facilitate public dialogue on key rural policy issues by tracking emerging rural health and human services policy issues; (2) identify opportunities for integrating health and human services in rural policy, program, and evaluation in a local community context; (3) identify opportunities to demonstrate broad community impact of policies and programs in rural health and human services, consistent with policy goals related to rural revitalization and sustainability of rural regions; and (4) provide analysis of policies and regulations in the form of policy briefs, reports, webinars, and oral presentations. The purpose of the Rural Health Value Program (formally called the Rural Health Systems Analysis and Technical Assistance Program) is to inform rural health care providers and stakeholders (such as HHS, Congress, states, and for-profit and nonprofit entities that set policies affecting rural health care providers) about the impacts of changes in the health care delivery system. In addition, to provide technical assistance to rural providers in identifying new approaches to health care delivery in their communities. The Medicare Rural Hospital Flexibility Program Evaluation Cooperative Agreement and Information Services to Rural Hospital Flexibility Program, awardees provide technical assistance, support, monitoring and evaluation to the State Rural Hospital Flexibility Program awardees and Critical Access Hospitals. The Information Services to Rural Hospital Flexibility Program provides technical assistance, support, and education to the Rural Hospital Flexibility Program, the Small Rural Hospital Improvement Program, and the Small Rural Hospital Transitions Program. The goal of the program is to provide support and resources to assist in building capacity for rural providers. The purpose of the National Rural Health Best Practices and Community Development Program is to develop and maintain projects that will help support rural communities through a broad range of programmatic and policy activities. These include the following: identifying national policy issues and promising practices for rural health care providers, translating key points from emerging policy issues to rural health care providers, researchers and policymakers; providing a forum for rural medical educators and students to share lessons learned to address recruitment and retention challenges, and expanding public awareness of the importance of the economic impact of the health care sector. The State Rural Health Coordination and Development Cooperative Agreement (SRHCD-CA) enhances the rural health infrastructure in each state by providing guidance and technical assistance to state Offices of Rural Health (SORHs) as well as their partners and to identify and promote best practices. The goals of the SRHCD-CA are 1) to assist in the coordination of health care delivery through the development of state level rural health leadership; and 2) to facilitate partnerships and collaboration at the national and state levels to improve the exchange of information and engage in collaborative activities for supporting rural health. The Rural Quality Improvement Technical Assistance Cooperative Agreement provides technical assistance to Federal Office of Rural Health Policy (FORHP) awardees, Critical Access Hospitals (CAHs), and other rural providers, to assist them in demonstrating improved quality improvement results. Assistance will be provided in the areas of: data collection and analysis, understanding measure specifications, benchmarking and target setting, developing and implementing efficient and effective improvement strategies, and tracking the outcomes of quality improvement efforts. The Frontier Community Health Integration Program (FCHIP) Technical Assistance, Tracking, and Analysis program provides technical assistance, site implementation assistance, and other tracking and analytic activities to support providers participating in the FCHIP Demonstration. Activities are in support of identifying potential new approaches to health care delivery, reimbursement, and coordination in sparsely populated

areas. The Rural Health Clinic Technical Assistance Cooperative Agreement provides technical assistance to rural health clinics (RHCs) and disseminates information regarding RHC issues such as Medicare survey and certification, billing and payment, quality improvement, best practices, disease management, and applicable regulatory issues. The program provides technical assistance calls or webinars, and an electronic mailing list (listserv) for RHC staff that serves as a resource for RHCs needing assistance to understand and comply with applicable regulations. The Rural Residency Technical Assistance and Development Cooperative Agreement establishes a rural residency planning and development technical assistance center to assist HRSA Rural Residency Planning and Development (RRPD) program grantees creating new existing allopathic medicine rural residency programs associated with specialties in primary care, internal medicine, and psychiatry. Subsequent to the availability of resources, the secondary purpose of the cooperative agreement is to provide technical assistance to other entities that a) would have been eligible for the RRPD program, and b) are not selected for RRPD program awards. The RRPD grant program and this cooperative agreement are complementary and will expand the number of rural residency training programs and subsequently increase the number of physicians who choose to practice in rural areas. The purpose of the Vulnerable Rural Hospitals Assistance Program is to provide targeted in-depth assistance to vulnerable rural hospitals within communities struggling to maintain health care services. The goal is for residents in rural communities to continue to have access to essential health services. The Rural Residency Planning and Development (RRPD) Program develops new residency programs to support expansion of the physician workforce in rural areas that are sustainable through public or private funding beyond the RRPD grant funding. The funds will support planning and development costs accrued while achieving program accreditation through the Accreditation Council for Graduate Medical Education (ACGME).

93.157 Centers of Excellence

Centers of Excellence (COE),

FEDERAL AGENCY:

HEALTH RESOURCES AND SERVICES ADMINISTRATION, HEALTH AND HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

Public Health Service Act, Title VII, Section 736, 42 U.S.C. 293

OBJECTIVES:

The goal of this program is to assist eligible schools in supporting programs of excellence in health professions education for underrepresented minority (URM) individuals. The Centers of Excellence (COE) program is a catalyst for institutionalizing a commitment to underrepresented minority (URM) students/faculty and to serve as a national resource and educational center for diversity and minority health issues. Additionally, the COE program will help to strengthen the national capacity to produce a culturally competent healthcare workforce whose diversity is representative of the United States population.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

Health professions schools awarded a COE grant are required to use funds to offer programming that will meet the following seven legislative purposes of the program: (1) Increase the competitive applicant pool for health professions schools; (2) Expand programs to enhance underrepresented minority student academic

performance; (3) Improve recruitment, training and retention of underrepresented minority faculty; (4) Improve information resources curriculum, clinical education and cultural competency of graduates as it relates to minority health issues; (5) Facilitate faculty and student research on health issues affecting underrepresented minority groups; (6) Engage students in practice-based training in community-based settings serving significant numbers of underrepresented minority individuals; and (7) Provide stipends, as appropriate. In addition, the four designated HBCU institutions must also propose activities to carry out the following purposes: (1) Develop a plan to achieve institutional improvements, including financial independence, to enable the school to support programs of excellence in health professions education for underrepresented minority individuals; and (2) Provide improved access to the library and informational resources of the school. Restricted Uses: Indirect costs under training awards to organizations other than State, local or American Indian tribal governments will be budgeted and reimbursed at 8 percent of modified total direct costs rather than on the basis of a negotiated rate agreement, and are not subject to upward or downward adjustment.

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); Public nonprofit institution/organization (includes institutions of higher education and hospitals); Federally Recognized Indian Tribal Governments; U.S. Territories and possessions (includes institutions of higher education and hospitals); Private nonprofit institution/organization (includes institutions of higher education and hospitals); Eligible applicants include designated Historically Black Colleges and Universities (HBCUs) and health professions schools that are accredited schools of allopathic medicine; osteopathic medicine; dentistry; pharmacy; or a graduate program in behavioral or mental health; or other public and nonprofit health or educational entities that meet the required conditions regarding: underrepresented minorities as described in Section 736 of the Public Health Service Act. Native American Centers of Excellence are eligible, as specified in statute. Eligible applicants must also have: (1) a significant number of under represented minority individuals enrolled in the schools; (2) been effective in assisting under represented minority students of the schools to complete the program of education and receive the degree involved; (3) been effective in recruiting under represented minority individuals to enroll in and graduate from the school, including providing scholarships and other financial assistance to such individuals and encouraging under represented minority students from all levels of the educational pipeline to pursue health professions careers; and (4) made significant recruitment efforts to increase the number of under represented minority individuals serving in faculty or administrative positions at the school.

Beneficiary Eligibility:

Individual/Family; Minority group; Specialized group (e.g. health professionals, students, veterans); Anyone/general public; Native American Organizations; Health Professional; Education Professional; Student/Trainee; Graduate Student; Black; American Indian; Spanish Origin; Asian; Other Non-White; U.S. Citizen; Refugee/Alien; Women; Disabled (e.g. Deaf, Blind, Physically Disabled); Preschool; School; Child (6-15); Youth (16-21); Moderate Income; Low Income; Other Urban; Suburban; Rural; Education (0-8); Education (9-12); Education (13+); Designated HBCUs and eligible health professions schools must recruit and train a significant number of underrepresented minority students in medicine, dentistry, and pharmacy; recruit, train, and retain underrepresented minority faculty recruitment; and facilitate faculty and student research activities.

CRITERIA FOR SELECTING PROPOSALS:

The IHS defined "Health Profession" to mean family medicine, internal medicine, pediatrics, geriatric medicine, obstetrics and gynecology, podiatric medicine, nursing, public health nursing, dentistry, psychiatry, osteopathy, optometry, pharmacy, psychology, public health, social work, marriage and family therapy, chiropractic medicine, environmental health and engineering, and allied professions. Other factors that will be employed to determine which applicant is selected for awards include: (a) An applicant's length of current employment in the IHS, tribal or urban program; (b) availability for service earlier than other applicants (first come, first served); and (c) date the completed application was received. Not all health professions receive funding. Please contact the program for more information.

93.165 Grants to States for Loan Repayment Program

State Loan Repayment Program (SLRP).

FEDERAL AGENCY:

HEALTH RESOURCES AND SERVICES ADMINISTRATION, HEALTH AND HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

Public Health Service Act, Title III, Section 338I, 42 U.S.C. 254 q-1(h), as amended; Medicare Access and CHIP Reauthorization Act of 2015 (P.L. 114-10).

OBJECTIVES:

To increase the availability of primary health care in health professional shortage

areas (HPSAs) by assisting States in operating programs for the repayment of educational loans of health professionals in return for their practice in HPSAs.

TYPES OF ASSISTANCE:

Direct Payments for Specified Use, Project Grants

USES AND USE RESTRICTIONS:

Funds under this grant must only be used to repay the qualifying educational loans of health professionals who have entered into State Loan Repayment Program (SLRP) contract with the States.

Applicant Eligibility:

Government - General; State (includes District of Columbia, public institutions of higher education and hospitals); Federally Recognized Indian Tribal Governments; U.S. Territories and possessions; Eligible entities include the 50 States, the District of Columbia, Guam, the Commonwealth of Puerto Rico, the Northern Mariana Islands, the U.S. Virgin Islands, American Samoa, the Federated States of Micronesia, the Republic of the Marshall Islands, and the Republic of Palau

Beneficiary Eligibility:

Individual/Family; Minority group; Specialized group (e.g. health professionals, students, veterans); Health Professional; Graduate Student; Black; American Indian; Spanish Origin; Asian; Other Non-White; U.S. Citizen; Veteran/Service person/Reservist (including dependents; Women; Applicants for State programs must have completed a course of study required to practice independently without supervision as one of the following health care professionals: Doctor of Allopathic Medicine or Osteopathic Medicine, General Practice Dentist (D.D.S. or D.M.D.), Pediatric Dentist, Primary Care Certified Nurse Practitioner, Certified Nurse-Midwife, Primary Care Registered Nurse, Pharmacist, Primary Care Physician Assistant, Registered Clinical Dental Hygienist, Health Service Psychologist (formerly Clinical or Counseling Psychologist (Ph.D. or equivalent), Licensed Clinical Social Worker (masters or doctoral degree in social work), Psychiatric Nurse Specialist, Mental Health Counselor, Licensed Professional Counselor (masters or doctoral degree with a major study in counseling), Marriage and Family Therapist (masters or doctoral degree with a major study in marriage and family therapy), Registered Nurse and Pharmacist. The primary care specialties approvable for physicians are: family medicine (and osteopathic general practice), internal medicine, including geriatricians, pediatrics, obstetrics/gynecology, and geriatrics and general psychiatry. General practitioners (physicians who have not completed residency training programs) are not eligible for funding under the SLRP. The primary care specialties approval for registered nurses, nurse practitioners and physician assistants are: adult, family, pediatrics, psychiatry/mental health, geriatrics, or womens health. Participants must provide full-time clinical service for a minimum of two years in a public or non-profit entity located in a federally designated Health Professional Shortage Area (HPSA). Refer to the NHSC State Loan Repayment Program Guidance for specific requirements.

Credentials/Documentation:

Applicants should review the individual HRSA Notice of Funding Opportunity announcement issued under this CFDA program for any required proof or certifications which must be submitted prior to or simultaneous with submission of an application package. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. HRSA requires all applicants to apply electronically through Grants.gov.

Award Procedure:

Notification is made in writing by Notice of Award

Deadlines:

Renewals:

Not Applicable. Depending on Agency priorities and availability of funding, during the final budget year of the approved project period competing continuation applications may be solicited from interested applicants.

Formula and Matching Requirements:

Statutory formula is not applicable to this assistance listing. Matching Requirements: Percent: 0%. Requirement: Matching requirements are voluntary. States must agree to make available (directly or through donations from public or private entities) non-Federal contributions in cash toward SLRP contracts in an amount not less than \$1 for each \$1 of Federal funds provided in the grant. A State may not use any Federal funds or in-kind contributions to satisfy the non-Federal match requirement. A State must verify that contributions from sources other than State appropriated funds are non-Federal. States may use non-Federal funds in excess of the \$1 for \$1 minimum match to supplement the repayment of qualifying loans of health professionals. The Federal share must be used to repay the government and commercial loans of health professionals for tuition, educational expenses and living expenses described in Section 338B(g)(1) of the Public Health Service Act. States must assume administrative costs. MOE requirements are not applicable to this assistance listing.

Length and Time Phasing of Assistance:

This funding opportunity provides support for a 4-year project period. States are asked to commit the full amount of funding for their loan repayment awards to practitioners in the current fiscal year to avoid out-year commitments for additional Federal funds. Method of awarding/releasing assistance: other

Reports:

Both program and financial reports are required. The recipient will be required to submit annual performance and progress reports. A Federal Financial Report (SF-425) is required according to the schedule in HRSAs Application Guide. A final report is due within 90 days after the project period ends. If applicable, the recipient must submit a Tangible Personal Property Report (SF-428) and any related forms within 90 days after the project period ends. New awards (Type 1) issued under this notice of funding opportunity are subject to the reporting requirements of the Federal Funding Accountability and Transparency Act (FFATA) of 2006 (Pub. L. 109282), as amended by section 6202 of Public Law 110252, and implemented by 2 CFR Part 170. Grant and cooperative agreement recipients must report information for each first-tier subaward of \$25,000 or more in federal funds and executive total compensation for the recipients and subrecipients five most highly compensated executives as outlined in Appendix A to 2 CFR Part 170 (The FFATA details are available online at <http://www.hrsa.gov/grants/ffata.html>). Competing continuation recipients may be subject to this requirement and will be so notified in the Notice of Award.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503

Records:

Recipients are required to maintain grant accounting records 3 years after the date they submit the Federal Financial Report (FFR). If any litigation, claim, negotiation, audit or other action involving the award has been started before the expiration of the 3-year period, the records shall be retained until completion of the action and resolution of all issues which arise from it, or until the end of the regular 3-year period, whichever is later.

CRITERIA FOR SELECTING PROPOSALS:

Procedures for assessing the technical merit of grant applications have been instituted to provide an objective review of applications and to assist the applicant in understanding the standards against which each application will be judged. Critical indicators have been developed for each review criterion to assist the applicant in presenting pertinent information related to that criterion and to provide the reviewer with a standard for evaluation. Competing applications are reviewed by non-Federal expert consultant(s) for technical merit recommendations. Applications will be reviewed and evaluated against the following criteria: (1) Purpose and Need; (2) Response to Program Purpose; (3) Impact; (4) Organizational Information, Resources and Capabilities; and (5) Support Requested. See the most recent Notice of Funding Opportunity for detailed selection criteria.

93.172 Human Genome Research

Human Genome Project,

FEDERAL AGENCY:

NATIONAL INSTITUTES OF HEALTH, HEALTH AND HUMAN SERVICES,
DEPARTMENT OF

AUTHORIZATION:

Public Health Service Act, Sections 301, 461 and 487, as amended; Public Laws 78-410 and 99-158, 42 U.S.C. 241, as amended; 42 U.S.C. 285k; 42 U.S.C. 288; Small Business Research and Development Enhancement Act of 1992, Public Law 102-564.

OBJECTIVES:

NHGRI supports the development of resources and technologies that will accelerate genome research and its application to human health and genomic medicine. A critical part of the NHGRI mission continues to be the study of the ethical, legal and social implications (ELSI) of genome research. NHGRI also supports the training and career development of investigators and the dissemination of genome information to the public and to health professionals. The Small Business Innovation Research (SBIR) program is used to increase private sector commercialization of innovations derived from Federal research and development; to increase small business participation in Federal research and development; and to foster and encourage participation of socially and economically disadvantaged

small business concerns and women-owned small business concerns in technological innovation. The Small Business Technology Transfer (STTR) program is used to foster scientific and technological innovation through cooperative research and development carried out between small business concerns and research institutions; to foster technology transfer between small business concerns and research institutions; to increase private sector commercialization of innovations derived from Federal research and development; and to foster and encourage participation of socially and economically disadvantaged small business concerns and women-owned small business concerns in technological innovation.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

The research project grant is awarded to an eligible institution in the name of a principal investigator for a discrete project or group of related projects representing the investigator's interest and competence. Funds may be used for salaries and wages, equipment, supplies, travel and other costs required to carry out the research project. National Research Service Awards are made directly to individuals for research training in disciplines supporting the research areas. In addition, grants may be made to institutions to enable them to select individuals for National Research Service Awards. Each individual who receives a National Research Service Award is responsible for certain service and payback provisions. Small Business Innovation Research (SBIR) Program: SBIR Phase I grants (of approximately 6 months' duration) are to establish the technical merit and feasibility of a proposed research effort that may lead to a commercial product or process. Phase II grants are for the continuation of research initiated in Phase I and which are likely to result in commercial products or processes. Only Phase I awardees are eligible to apply for Phase II support. STTR Phase I grants (normally of 1-year duration) are to determine the scientific, technical, and commercial merit and feasibility of the proposed cooperative effort that has potential for commercial application. Phase II funding is based on results of research initiated in Phase I and scientific and technical merit and commercial potential of Phase II application. Responsibilities of grantees and restrictions on use of funds are set forth in the Public Health Service policy statement on grants for research projects, which is available on request from the Division of Extramural Outreach and Information Resources, Office of Extramural Research, National Institutes of Health (NIH), 6701 Rockledge Drive, Room 6207, MSC 7910, Bethesda, MD 20892-7910. Telephone: (301) 435-0714. Fax (301) 480- 0525. E-mail: asknih.od.nih.gov.

Applicant Eligibility:

Government - General; Interstate; Intrastate; State (includes District of Columbia, public institutions of higher education and hospitals); Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals); Sponsored organization; Public nonprofit institution/organization (includes institutions of higher education and hospitals); Other public institution/organization; Federally Recognized Indian Tribal Governments; U.S. Territories and possessions; U.S. Territories and possessions (includes institutions of higher education and hospitals); Non-Government - General; Minority group; Specialized group (e.g. health professionals, students, veterans); Small business (less than 500 employees); Profit organization; Private nonprofit institution/organization (includes institutions of higher education and hospitals); Quasi-public nonprofit institution/organization; Other private institutions/organizations; State; Native American Organizations (includes Indian groups, cooperatives, corporations, partnerships, associations); Research Projects: Awards can be made to any public or private, for-profit or nonprofit university, college, hospital, laboratory, or other institution, including State and local units of government, qualifying small businesses (through the Small Business Innovation Research/STTR Programs, and to individuals. SBIR grants can be awarded only to domestic small businesses (entities that are independently owned and operated for profit, are not dominant in the field in which research is proposed, and have no more than 500 employees). Primary employment (more than one-half time) of the principal investigator must be with the small business at the time of award and during the conduct of the proposed project. In both Phase I and Phase II, the research must be performed in the U.S. or its territories. To be eligible for funding, an SBIR grant application must be approved for scientific merit and program relevance by a scientific review group and a national advisory council. STTR grants can be awarded only to domestic small business concerns (entities that are independently owned and operated for profit, are not dominant in the field in which research is proposed and have no more than 500 employees) which "partner" with a

research institution in cooperative research and development. At least 40 percent of the project is to be performed by the small business concern and at least 30 percent by the research institution. In both Phase I and Phase II, the research must be performed in the U.S. and its possessions. Applicants to the Small Business Innovation Research/STTR Programs must meet special requirements for small businesses, as defined by the Small Business Administration. Non-federal public and private domestic organizations may apply for an Institutional National Research Service Award. Individual National Research Service awardees must be nominated and sponsored by a public or nonprofit private institution having staff and facilities appropriate to the proposed research training program. All awardees must be citizens or have been admitted to the United States for permanent residence. Predoctoral awardees must have completed the baccalaureate degree, and postdoctoral awardees must have a professional or scientific degree (M.D., Ph.D., D.O., D.V.M., Sc.D., E.Eng., or equivalent domestic or foreign degree). To be eligible for funding for any award, an application must be reviewed for scientific merit by a scientific review group and for program relevance by a national advisory council.

Beneficiary Eligibility:

U.S. Territories; Minority group; Small business; Profit organization; Private nonprofit institution/organization; Other private institution/organization; Native American Organizations; Health Professional; Education Professional; Student/Trainee; Graduate Student; Scientist/Researchers; Engineer/Architect; Small Business Person; Black; American Indian; Spanish Origin; Asian; Other Non-White; State; U.S. Citizen; Women; Disabled (e.g. Deaf, Blind, Physically Disabled); Physically Afflicted (e.g. TB, Arthritis, Heart Disease); Local; Sponsored organization; Education (13+); Public nonprofit institution/organization; Other public institution/organization; Federally Recognized Indian Tribal Governments; Any nonprofit or for-profit organization, company, or institution engaged in biomedical research can apply for research support.

Credentials/Documentation:

Each applicant for a research project must present a research plan and furnish evidence that scientific competence, facilities, equipment, and supplies are appropriate to carry out the plan. Applications must submit an electronic grant application form SF424 which can be accessed from the funding opportunity announcement. For applicants for National Research Service Awards, the academic record, research experience, citizenship, institutional sponsorship, and the proposed area and plan of training must be included in the application. The applicant institution must show the objectives, methodology, and resources for the research training program, the qualifications and experience of directing staff, the criteria to be used in selecting individuals for the award, and a detailed budget and justification for the grant funds requested. For-profit organizations, costs are determined in accordance with 48 CFR. For other grantees, costs will be determined in accordance with HHS Regulation 45 CFR 75. For SBIR and STTR grants, applicant organization (small business concern) must present in a research plan an idea that has potential for commercialization and furnish evidence that scientific competence, experimental methods, facilities, equipment, and funds requested are appropriate to carry out the plan. SF424 applications are used for SBIR and STTR programs. SBIR and STTR applicant organizations must comply with the SBA's definition of a small business. In order to be eligible for a NRSA award, the individual must be a US citizen or permanent resident of the US. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is not applicable.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Only application submitted in response to a funding opportunity announcement will be accepted. The standard application forms, as furnished in the Funding Opportunity Announcements at www.grants.gov, must be used for this program. This program is subject to the provisions of 45 CFR 75. The SBIR and STTR Solicitations may be obtained electronically through the NIH "Small business Funding Opportunities" homepage at www.nih.gov/grants/funding/sbir.htm on the World Wide Web.

Award Procedure:

All applications must respond to a funding opportunity announcement, must be reviewed for scientific merit by an appropriate initial review group, and must be

considered by the National Advisory Council for Human Genome Research (NACHGR) for program relevance. Individual NRSA applications are not reviewed by council. All scored applications compete for available funds on the basis of scientific merit and program emphasis, and availability of funds. Applications in response to a Request for Applications have council approved set aside funds, but awards are based primarily on the quality of the applications. Awards are issued throughout the year. All applications receiving a impact score ranging from the best (10) to worst (90) compete for the available funds on the basis of scientific and technical merit (SBIR/STTR applications must also demonstrate the potential for commercial application for SBIR/STTR applications), program relevance, and program balance among the areas of research. However, in reality, applications with impact scores of 30 or greater are rarely considered for funding.

Deadlines:

October 05, 2017. This is the first of three deadlines that occur annually for new research projects. The other two dates are February 5, and June 5 New Research Projects (R01) and Renewals: February 5, June 5, and October 5. Program Project, Center and Institutional Training Grants and R25 grants: January 25, May 25, and September 25. Other Research Grants (R03, R21, R33, R21/R33, R34, R36): February 16, June 16, and October 16. Individual NRSA: April 5, August 5, and December 10. SBIR/STTR Applications: April 8, August 8, and December 8.

Range of Approval/Disapproval Time:

Not Applicable. From submission to award of funds: Individual, project and institutional grants about 9 months; SBIR/STTR and AIDS projects about 6 months.

Appeals:

Other. A description of the NIH Peer Review Appeal procedures is available on the NIH home page www.nih.gov/grants/guide/1997/97.11.21/n2.html. RFA applications are not subject to appeals.

Renewals:

Not Applicable. Renewal grants are competitively awarded.

Formula and Matching Requirements:

Statutory formula is not applicable to this assistance listing. Matching requirements are not applicable to this assistance listing. MOE requirements are not applicable to this assistance listing.

Length and Time Phasing of Assistance:

Research and program projects are awarded for 2-5 years. Institutional training grants are awarded for 5 years. Individual fellowships and career development awards are from 2-5 years. For SBIR and STTR applications, normally Phase I awards are for 6 months and Phase II awards are for 2 years. Method of awarding/releasing assistance: letter

Reports:

Annual progress and financial status reports for continuing projects and final reports on all projects upon conclusion are required. For more complex grants, more frequent written reports and/or onsite program reviews may be required. Annual progress and financial status reports for continuing projects and final reports on all projects upon conclusion are required. For annual progress reports, information about past progress, publications and proposed research for the next year are reported. Depending on the complexity of the grant, a budget may also be required. The expenditure reports consists of whether there is 25% or more unspent funds on the grant. If so, the principal investigator is asked to explain why there is a large unobligated balance. The explanation is subject to staff review and action. Program Directors review the reports and contact the PIs for a verbal discussion that expands upon the written report. If problems are noted, the program director will note this in the report and talk with the PI about what can be done to ensure progress is satisfactory. For more complex grants, the Program Director may request the PI to provide more frequent accounting of progress and/or teleconferences. The Grants Management Specialist/Officer reviews applications for the appropriateness of the budget requested.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503

Records:

Expenditures and other financial records must be retained for 3 years from the day on which the grantee submits the last expenditure report for the report period.

Account Identification:

Obligations:

Project Grants FY 16 \$377,186,406.00; FY 17 est \$389,196,000.00; and FY 18 est \$287,953,000.00;

Range and Average of Financial Assistance:

For RPGS the range is from \$1,192 - \$19,996,553. However, the smallest RPG (5R21HG008495-02) seems to only include funding for 2 months of support. If we exclude this grant, then the range would be \$26,000 \$19,996,553.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2017: ClinGen aims to build an authoritative central resource that defines the clinical relevance of genes and variants for use in precision medicine and research. To do so, ClinGen investigators are developing standard approaches for sharing genomic and phenotypic data provided by clinicians, researchers, and patients through centralized databases, such as ClinVar, and are working to standardize the clinical annotation and interpretation of genomic variants. Working groups are implementing evidence-based expert consensus methods to curate the clinical validity and medical actionability of genes and variants. Experts in the areas of cardiovascular disease, pharmacogenomics, hereditary (germline) cancer, somatic cancer, and inborn errors of metabolism have been brought together to assist in these curation efforts. ClinGen also aims to develop machine-learning algorithms to improve the throughput of variant interpretation and to improve understanding of variation in diverse populations as it relates to interpreting genetic test results. Lastly, ClinGen will disseminate the collective knowledge and resources for unrestricted use in the community and for use in EHR ecosystems. Fiscal Year 2018: The ELSI Research Program funds research studies, training opportunities and workshops, and develops and supports research consortia and conferences in the following broad areas. Genomic Research - Projects in this area examine and address the issues that arise in the design and conduct of genomic research, particularly as it involves the production, analysis and broad sharing of individual genomic data that is frequently coupled with detailed health information. Genomic Health Care - Projects in this area explore how rapid advances in genomic technologies and the availability of increasing amounts of genomic information influence how health care is provided and how it affects the health of individuals, families and communities. Broader Societal Issues - Projects in this area examine the normative underpinnings of beliefs, practices and policies regarding genomic information and technologies, as well as the implications of genomics for how we conceptualize and understand such concepts as health, disease, and individual responsibility. Legal, Regulatory and Public Policy Issues - Projects in this area explore the effects of existing genomic research, health and public policies and regulations and provide data to inform the development of new policies and regulatory approaches. A more detailed description of these areas and a list of examples of possible research questions related to each are available on the ELSI Research Priorities website: <http://www.genome.gov/27543732>.

REGULATIONS, GUIDELINES, AND LITERATURE:

EXAMPLES OF FUNDED PROJECTS:

2017 The Genomics of Gene Regulation (GGR) projects will use genomic data and technologies to understand how genetic regulatory systems are assembled and how genetic regulatory systems function to determine biological processes at a mechanistic level. GGR projects are designed to advance genomic science towards the long-term goal of NHGRI research in this area, which is to be able to predict, from reading DNA sequence, when and at what level a gene is expressed, in the context of a particular cell fate/state. Understanding gene regulatory networks could facilitate interpreting the phenotypic consequences (e.g. disease) of genetic variation, particularly in non-coding regions of the genome. This is a highly significant problem, as the vast majority of disease-associated variants found using GWAS lie outside of protein-coding sequences. Many of these disease associations map to ENCODE-annotated regions, thus highlighting the importance of these ENCODE annotations. While genomic annotations are important, they are not sufficient to understand dynamic biological processes. GGR is one path to bring together modeling methods with catalogs of genomic data to understand what elements are controlling what genes, in what cell types. The ability to make accurate predictions from gene regulatory networks could support genomic medicine and precision medicine, by providing us one more tool to understand the consequences of genetic variation. As set out in the RFA, individual projects collect genomic data on gene expression, as well as surrogate markers of regulatory elements, in different cell fates or cell states. They use the gene expression and functional element data to construct gene regulatory network models, taking advantage of the dynamics of the system as the cells transition from one physiologic fate or state to another. These models will describe the biological role of the identified functional elements and how they interact to form a genetic regulatory circuit. The predictions of the initial model would then be tested experimentally by appropriate assays, for instance by perturbing (by genetic or environmental means) identified key regulators and comparing the measured biological response to the predicted response. Analysis of the outcomes of these experiments would be used to refine and further develop the model in an iterative process of modeling, prediction, and experimentation. It is hoped that this approach will lead to a detailed understanding of the individual genetic regulatory circuits under study. It is further hoped that by investigating several genetic regulatory circuits this way and organizing the projects in a collaborative research network, the GGR investigators will form an interactive group, accelerating discovery through the sharing of technical and biological insights gained during the course of the project. These interactions will be important in learning the features that are generalizable and the features that are unique, because the individual projects will be using different approaches and biological systems. 2018 ClinGen is building an authoritative central resource that defines the clinical relevance of genes and variants for use in medicine and research. To do so, ClinGen investigators are developing standard approaches for sharing genomic and phenotypic data provided by clinicians, researchers, and patients through centralized databases, such as ClinVar, and are working to standardize the clinical annotation and interpretation of genomic variants. Working groups are implementing evidence-based expert consensus methods to curate the clinical validity and medical actionability of genes and variants. Experts in the areas of cardiovascular disease, hereditary (germline) cancer, somatic cancer, pediatric neurology, hearing loss, inborn errors of metabolism among others have been brought together to assist in these curation efforts. ClinGen is also developing tools to improve the throughput of variant interpretation and to improve understanding of variation in diverse populations as it relates to interpreting genetic test results. Lastly, ClinGen will disseminate the collective knowledge and resources for unrestricted use in the community through the website (www.clinicalgenomeresource.org). Important Collaborations: NICHD developed a three-year U24 funding opportunity (FY17-FY20) to support three curation committees to implement ClinGen frameworks into priority diseases and conditions for their institute (RFA-HD-17-001). The American Society of Hematology (ASH) plans to support two curation committees in malignant hematology and platelet disorders. The FDA is collaborating with ClinGen to

identify novel opportunities for using high-quality public databases of clinically relevant variants to streamline review and approval of NGS-based in vitro diagnostics. The criteria for such databases are outlined in the draft guidance, Use of Public Human Genetic Variant Databases to Support Clinical Validity for Next Generation Sequencing (NGS)-Based In Vitro Diagnostics.

CRITERIA FOR SELECTING PROPOSALS:

The major elements in evaluating proposals include assessments of: (1) The scientific merit and general significance of the proposed study and its objectives; (2) the technical adequacy of the experimental design and approach; (3) the competency of the proposed investigator or group to successfully pursue the project; (4) the adequacy of the available and proposed project; and (5) the relevance and importance to announced program objectives. The following criteria will be used in considering the scientific and technical merit of SBIR/STTR Phase I grant applications: (1) The soundness and technical merit of the proposed approach; (2) the qualifications of the proposed principal investigator, supporting staff, and consultants; (3) the technological innovation of the proposed research; (4) the potential of the proposed research for commercial application; (5) the appropriateness of the budget requested; (6) the adequacy and suitability of the facilities and research environment; and (7) where applicable, the adequacy of assurances detailing the proposed means for (a) safeguarding human or animal subjects, and/or (b) protecting against or minimizing any adverse effect on the environment. Phase II grant applications will be reviewed based upon the following criteria: (1) The degree to which the Phase I objectives were met and feasibility demonstrated; (2) the scientific and technical merit of the proposed approach for achieving the Phase II objectives; (3) the qualifications of the proposed principal investigator, supporting staff, and consultants; (4) the technological innovation, originality, or societal importance of the proposed research; (5) the potential of the proposed research for commercial application; (6) the reasonableness of the budget request for the work proposed; (7) the adequacy and suitability of the facilities and research environment; and (8) where applicable, the adequacy of assurances detailing the proposed means for (a) safeguarding human or animal subjects, and/or (b) protecting against or minimizing any adverse effect on the environment.

93.173 Research Related to Deafness and Communication Disorders

FEDERAL AGENCY:

NATIONAL INSTITUTES OF HEALTH, HEALTH AND HUMAN SERVICES,
DEPARTMENT OF

AUTHORIZATION:

Public Health Service Act, Sections 301, 464 A-F, and 487, as amended; 42 U.S.C. 241, 285m, 285m-3, and 288; Public Law 100-553; 102 Stat. 2769; Small Business Research and Development Enhancement Act of 1992, Public Law 102-564.

OBJECTIVES:

To investigate solutions to problems directly relevant to individuals with deafness or disorders of human communication in the areas of hearing, balance, smell, taste, voice, speech, and language. The National Institute on Deafness and Other Communication Disorders (NIDCD) supports research and research training, including investigation into the etiology, pathology, detection, treatment, and prevention of disorders of hearing and other communication processes, primarily through the support of basic and applied research in anatomy, audiology, biochemistry, bioengineering, epidemiology, genetics, immunology, microbiology, molecular biology, the neurosciences, otolaryngology, psychology, pharmacology, physiology, psychophysics, speech-language pathology, and other scientific disciplines. The NIDCD supports: (1) Research into the evaluation of techniques and devices used in diagnosis, treatment, rehabilitation, and prevention of disorders of hearing and other communication processes; (2) research into prevention and early detection and diagnosis of hearing loss and speech, voice, and language disorders and research into preventing the effects of such disorders by means of appropriate referral and rehabilitation; (3) research into the detection, treatment, and prevention of disorders of hearing and other communication processes in the elderly population and its rehabilitation to ensure continued effective communication skills; and (4) research to expand knowledge of the effects of environmental agents that influence hearing or other communication processes.

ASSISTANCE LISTINGS DESCRIPTIONS

Small Business Innovation Research (SBIR) program: To increase private sector commercialization of innovations derived from Federal research and development; to encourage small business participation in Federal research and development; and to foster participation of socially and economically disadvantaged small business concerns and women-owned small business concerns in technological innovation. Small Business Technology Transfer (STTR) program: To stimulate and foster scientific and technological innovation through cooperative research and development carried out between small business concerns and research institutions; to foster technology transfer between small business concerns and research institutions; to increase private sector commercialization of innovations derived from Federal research and development; and to foster and encourage participation of socially and economically disadvantaged small business concerns and women-owned small business concerns in technological innovation.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

Project Grants and Centers Grants may be used to provide salaries, equipment, supplies, travel, and other expenses for research. The grantee institution is obliged to expend grant funds prudently for the purposes as stated in the application and award document. Some National Research Service Awards (NRSAs) are issued on behalf of an individual for research training in specified biomedical and behavioral research areas. Other training grants are made to institutions to enable them to make NRSAs to individuals selected by them. Each postdoctoral individual who receives an NRSA may be obligated, upon termination of the award, to comply with certain service and payback provisions. Mentored and unmentored career development awards are made to enhance the independent research capability of highly promising individuals during the formative stages of their careers. Small Business Innovation Research (SBIR) Program: Phase I grants, typically 6 months in duration, are to establish the technical merit and feasibility of a proposed research effort that may lead to a commercial product or process. SBIR Phase II grants are for the continuation of the research efforts initiated in Phase I and that are likely to result in commercial products or processes. STTR Phase I grant, normally of 1-year duration, are to determine the scientific, technical, and feasibility of the proposed cooperative effort. Phase II funding is based on scientific and technical merit and commercial potential of the application. Grant funds may be expended only for the purpose stated in the application and award document.

Applicant Eligibility:

Public nonprofit institution/organization (includes institutions of higher education and hospitals); Other public institution/organization; Specialized group (e.g. health professionals, students, veterans); Profit organization; Private nonprofit institution/organization (includes institutions of higher education and hospitals); Other private institutions/organizations; Project Grants and Centers Grants: Any public, private, nonprofit, or for-profit institution is eligible to apply. For-profit institutions are not eligible for institutional National Research Service Awards. All proposals are reviewed for scientific merit, for evaluation of the qualifications of the investigators, for adequacy of the research and/or research training environment and for significance of the problem. Approved proposals compete for available funds. Awardees of almost all Research Career Development Programs must be citizens or have been admitted to the United States for permanent residence. Candidates must be nominated for the program by a nonfederal public or private nonprofit institution located in the United States, its possessions or Territories. To be eligible, postdoctoral NRSA trainees and fellows must have a professional or scientific doctoral degree (PhD, MD, DO, DC, DDS, DVM, OD, DPM, ScD, EngD, Dr PHPhD, MD, DO, DC, DDS, DVM, OD, DPM, ScD, EngD, Dr PH, DNSc, ND {Doctor of Naturopathy}, PharmD, DSW, PsyD, AUD or equivalent doctoral degree from an accredited domestic or foreign institution). SBIR grants can be awarded only to domestic small businesses (entities that are independently owned and operated for profit, and have no more than 500 employees). Primary employment (more than one-half time) of the principal investigator must be with the small business at the time of award and during the conduct of the proposed project. In both Phase I and Phase II, the research must be performed in the United States or its possessions. To be eligible for funding, an SBIR grant application must be approved for scientific merit and program relevance by a scientific review group and a national advisory council. STTR grants can be awarded only to domestic small business concerns which "partner" with a research institution in cooperative research and development. At least 40 percent of the project is to be

performed by the small business concern and at least 30 percent by the research institution. In both Phase I and Phase II, the research must be performed in the U.S. and its possessions. To be eligible for funding, a grant application must be approved for scientific merit and program relevance by a scientific review group and a national advisory council.

Beneficiary Eligibility:

Health Professional; Education Professional; Student/Trainee; Graduate Student; Scientist/Researchers; Health professionals; student/trainee; scientists/researchers; consumer.

Credentials/Documentation:

Project Grants are awarded to an institution in the name of an individual investigator. Centers Grants are also awarded to an institution in the name of an investigator designated as the Program Director. Persons qualified to carry out research related to the NIDCD grant programs described above may apply for funds through their institution to support their investigations. Mentored career development must be conducted under the direction of a competent sponsor. A candidate for a Career Award must have an earned M.D., Ph.D. or equivalent degree and have had prior research experience. National Research Service Awards: (1) Individual NRSA Fellowship Awards for predoctoral and postdoctoral training: The candidate's academic record, research experience, citizenship, institutional sponsorship, and the proposed area and plan of training must be included in the application. (2) Institutional Training Grants for predoctoral and postdoctoral training: The applicant institution must show the objectives, design and resources for the research training program; the qualifications and experience of directing staff and training preceptors; the criteria to be used in selecting individuals for stipend support; and a detailed, justified budget for the numbers and type of trainee positions requested. The cost principles for awards under this program are set forth in HHS regulations at 45 CFR 75, Subpart E and Appendix 1X (hospitals) to Part 75. Commercial organizations are subject to the cost principles located at 48 CFR 31.2 Federal Acquisition Regulation. See the NIH Grants Policy Statement for further guidance on the applicability of cost principles (<http://grants.nih.gov/grants/policy/nihgps/index.htm>). For SBIR and STTR grants, the applicant organization (small business concern) must present in a research plan an idea that has potential for commercialization and furnish evidence that scientific competence, experimental methods, facilities, equipment, and funds requested are appropriate to carry out the plan. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Pre-application coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Awards made under this program are subject to 2 CFR 200, as implemented by 45 CFR 75 "Public Welfare, Uniform Administrative Requirements, Cost Principles and Audit Requirements for HHS Awards." The policies and procedures generally applicable to NIH grants are set forth in the NIH Grants Policy Statement (<http://grants.nih.gov/grants/policy/nihgps/index.htm>).

Award Procedure:

Research grant, career development, and research training program applications are reviewed initially by technical panels composed of scientific authorities, and by the National Deafness and Other Communication Disorders Advisory Council composed of 18 leaders in medicine, science, education, and public affairs. Approved applications will compete on a merit basis for available funds. Formal award notices are transmitted to the grantee or awardee. All accepted SBIR/STTR applications are evaluated for scientific and technical merit by an appropriate scientific peer review panel and by a national advisory council. All applications receiving a priority score compete for available SBIR/STTR set-aside funds on the basis of scientific and technical merit and commercial potential of the proposed research, program relevance, and program balance among the areas of research.

Deadlines:

Contact the headquarters or regional location, as appropriate for application deadlines.

Range of Approval/Disapproval Time:

>180 Days. Research Grants and Centers Grants: Approximately 6 to 9 months.

ASSISTANCE LISTINGS DESCRIPTIONS

Career Program: From 6 to 9 months. SBIR/STTR applications: About 6 to 9 months. Institutional Training Grants: From 10 to 12 months. Individual Fellowships: From 4 to 6 months.

Appeals:

Other. A principal investigator (PI) may question the substantive or procedural aspects of the review of his/her application by communicating with the staff of the Institute. A description of the NIH Peer Review Appeal procedure is available at <http://grants.nih.gov/grants/guide/notice-files/NOT-OD-11-064.html>. Final decisions on unresolved appeals are made with the advice of the National Deafness and Other Communication Disorders Advisory Council.

Renewals:

Research career awards are not renewable.

Formula and Matching Requirements:

Statutory formula is not applicable to this assistance listing. Matching requirements are not applicable to this assistance listing. MOE requirements are not applicable to this assistance listing.

Length and Time Phasing of Assistance:

Research Grant awards are made for a 12-month period with recommendation of up to 4 years of additional support. Center Grant awards support may be for a period not to exceed 5 years. Career development awards provide support for up to 5 years. NRSA fellowship and traineeship awards are usually for a 12-month period, with recommendation of additional support of no more than 5 years for predoctoral training and no more than 3 years for postdoctoral training. SBIR Phase I awards are generally for 6 months; STTR Phase I awards are generally for 1 year; Phase II awards normally may not exceed 2 years. Method of awarding/releasing assistance: other

Reports:

The grantee organization submits quarterly Federal Financial Reports (SF-425). A progress report is required yearly for each grant. A financial status report is due either annually or at the end of the project period, depending upon the type of grant. Performance monitoring is covered in the annual progress report.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503

Records:

Expenditures and other financial records must be retained for 3 years from the day on which the grantee submits the last financial status report for the report period.

93.178 Nursing Workforce Diversity

NWD,

FEDERAL AGENCY:

HEALTH RESOURCES AND SERVICES ADMINISTRATION, HEALTH AND HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

Section 821 of the Public Health Service Act (42 U.S.C. 296m)

OBJECTIVES:

To support projects that assist underrepresented students throughout the educational pipeline to become registered nurses, facilitate diploma or associate degree registered nurses becoming baccalaureate-prepared registered nurses, and prepare practicing registered nurses for advanced nursing education. The NWD program increases nursing education opportunities for individuals who are from disadvantaged backgrounds (including racial and ethnic minorities under-represented among registered nurses) by providing (1) student scholarships or stipends for diploma or associate degree nurses to enter a bridge or degree completion program, and (2) student scholarships or stipends for accelerated nursing degree programs, pre-entry preparation, advanced education preparation, and retention activities. Achieving a diverse, culturally-aligned, and competent workforce that is reflective of the population served will require development of new workforce strategies. New workforce strategies must extend beyond individual-level interventions to address social and structural forces that impede efforts towards workforce diversity and health equity NWD program encourages applications that offer innovative projects that address the social determinants of health and how the social determinants impact a School of Nursing's ability to recruit, retain, and graduate underrepresented students.

Formula and Matching Requirements:

Statutory formula is not applicable to this assistance listing. Matching requirements are not applicable to this assistance listing. This program has MOE requirements, see funding agency for further details. Additional Information: The recipient must agree to maintain non-federal funding for grant activities at a level which is not less than expenditures for such activities during the fiscal year prior to receiving the award..

Length and Time Phasing of Assistance:

This funding opportunity provides support for a 4-year project period. Method of awarding/releasing assistance: other

Reports:

Both program and financial reports are required. The recipient will be required to submit annual performance and progress reports. A Federal Financial Report (SF-425) is required according to the schedule in HRSA's Application Guide. A final report is due within 90 days after the project period ends. If applicable, the recipient must submit a Tangible Personal Property Report (SF-428) and any related forms within 90 days after the project period ends. New awards (Type 1) issued under this notice of funding opportunity are subject to the reporting requirements of the Federal Funding Accountability and Transparency Act (FFATA) of 2006 (Pub. L. 109282), as amended by section 6202 of Public Law 110252, and implemented by 2 CFR Part 170. Grant and cooperative agreement recipients must report information for each first-tier subaward of \$25,000 or more in federal funds and executive total compensation for the recipients and subrecipients five most highly compensated executives as outlined in Appendix A to 2 CFR Part 170 (The FFATA details are available online at <http://www.hrsa.gov/grants/ffata.html>). Competing continuation recipients may be subject to this requirement and will be so notified in the Notice of Award.

CRITERIA FOR SELECTING PROPOSALS:

Procedures for assessing the technical merit of grant applications have been instituted to provide an objective review of applications and to assist the applicant in understanding the standards against which each application will be judged. Critical indicators have been developed for each review criterion to assist the applicant in presenting pertinent information related to that criterion and to provide the reviewer with a standard for evaluation. Competing applications are reviewed by nonfederal reviewers for technical merit recommendations. Applications will be reviewed and evaluated against the following criteria: (1) Purpose and Need; (2) Response to Program Purpose; (3) Impact; (4) Organizational Information, Resources and Capabilities; and (5) Support Requested. See the most recent Notice of Funding Opportunity for detailed selection criteria.

93.184 Disabilities Prevention

(Disability and Health),

FEDERAL AGENCY:

CENTERS FOR DISEASE CONTROL AND PREVENTION, HEALTH AND
HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

Executive Order This program is authorized under Section 317C [42 U.S.C. 247b-4] of the Public Health Service Act., Title 42, Part 241(a), Section 301(a), Public Health Service Act, Title 42, Part 241(a), Section 301(a), Public Law USC-42 U.S.C. 247(b)

OBJECTIVES:

(1) Support National Centers on Disability to develop, implement, evaluate, and disseminate non-research activities aimed at reducing health disparities and improving the health of people with mobility limitations and/or intellectual disabilities (ID) across their lifespans, and (2) Develop and strengthen the capacity of state-based disability and health programs to improve the health and quality of life among people with disabilities through adaptation and implementation of evidence-based strategies in states, U.S. territories, and tribal governments.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

CDC issued continuation awards in fiscal year 2015 to three Resource Centers and 18 State-based disability and health cooperative agreements. These awards ended in 2016. In April, 2016 CDC issued new competitive awards to two National Centers on Health Promotion for People with Disabilities. New competitive awards were also issued to 19 State-based Disability and Health programs in July 2016. In fiscal year 2017, CDC issues continuation awards to the two National Centers on Health Promotion for People with Disabilities and the 19 State-based Disability and Health cooperative agreements. In addition, supplemental funds were given to one National Center (Special Olympics) and six Disability and Health States (Arkansas, Massachusetts, New Hampshire, New York, Oregon and South Carolina) to supplement existing programmatic activities. National Centers on Disability: These cooperative agreements are providing financial assistance to: (1) improve knowledge and awareness about the usefulness and effectiveness of health promotion programs and policy, systems and environmental improvements for people with mobility limitations and/or intellectual disabilities, (2) develop, implement, evaluate, and disseminate multi-level strategies (e.g., programmatic, policy, systems and environmental changes) that improve the health and quality of

life of people with mobility limitations and/or intellectual disabilities, (3) implement the Healthy Athletes Program for people with ID, and (4) collaborate with and support states and academic centers to improve the health of people with mobility limitations and/or intellectual disabilities. State-based Disability and Health Programs: These cooperative agreements are providing financial assistance to develop and strengthen internal capacity and health-related disability programs to (1) improve knowledge and awareness about the usefulness and effectiveness of programmatic, policy, systems and environmental changes for people with select functional disability types (i.e., mobility limitations and/or Intellectual Disabilities, and (2) support states to plan, implement, evaluate, and disseminate non-research activities aimed at promoting inclusion and accessibility and reducing health disparities between people with and without disabilities. In these cases, project funds may not be used to supplant State, local, or institutional funds available for these activities, or for construction costs, or to purchase facilities or space. Grantees may enter into contracts as necessary to help achieve the objectives of their respective programs.

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals); Public nonprofit institution/organization (includes institutions of higher education and hospitals); Federally Recognized Indian Tribal Governments; Private nonprofit institution/organization (includes institutions of higher education and hospitals); Based on available funding for fiscal year 2016, CDC issued competitive awards to two National Centers on Disability and 19 State-based Disability and Health Programs. Eligibility for the National Centers on Disability included: Public and State controlled institutions of higher education; Native American tribal organizations (other than Federally recognized tribal governments); Nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher education; Nonprofits without 501(c)(3) status with the IRS, other than institutions of higher education; and Private colleges and universities. Eligibility for the State-based Disability and Health Programs included: State governments; Native American tribal governments (Federally recognized); and Government Organizations (States, including the District of Columbia, Territorial governments or their bona fide agents in the Commonwealth of Puerto Rico, the Virgin Islands, the Commonwealth of the Northern Mariana Islands, American Samoa, Guam, the Federated States of Micronesia, the Republic of the Marshall Islands, and the Republic of Palau.

Beneficiary Eligibility:

Individual/Family; Private nonprofit institution/organization; State; Local; Public nonprofit institution/organization; Federally Recognized Indian Tribal Governments; In addition to the eligible applicants, other groups who will receive benefits from the program include persons with disabilities and their family members of persons with disabilities, persons with limb loss, minority populations, refugees, infants, children, youth, adults, senior citizens, women, all educational levels, all income levels, urban, suburban, and rural populations, health/rehabilitation professionals, scientists, educators, and researchers.

Credentials/Documentation:

State disability and health and resource center grantees documented in their fiscal year 2015 continuing applications the need for assistance, indicated the objectives of their projects, presented their approaches to meet set objectives, and outlined the method of operation. Grantees funded in fiscal year 2016 followed the criteria set forth in the respective Funding Opportunity Announcements. In fiscal year 2017, these National Centers and State disability and health grantees documented in their continuing applications the need for assistance, indicated the objectives of their projects, and presented their approaches to meet set objectives. For nonprofit recipients, costs will be determined in accordance with HHS Regulation 45 CFR 74.2 CFR 200, Subpart E - Cost Principles applies to this program. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is required. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review. The guidelines will indicate whether or not an application is subject to Executive Order 12372. If the

ASSISTANCE LISTINGS DESCRIPTIONS

application is subject for review per State Executive Order 12372, please follow these instructions: 1. The SPOC should be contacted as early as possible to receive any necessary instructions on the State process. If the project serves more than one State, the department should contact the SPOC of each affected State. 2. The necessary information should be mailed to the SPOC. 3. Please provide a copy of the cover letter sent to the SPOC to Grants & Contracts along with the hard copy application. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. To apply for this funding opportunity, use application form PHS 398 (OMB number 0925-0001 rev. 5/2001). Forms and instructions are available in an interactive format on the Grants.gov web site, at the following Internet address: www.grants.gov. Submit the final application using the www.grants.gov website. This program is subject to the provisions set forth in 45 CFR 92, for State and local governments and OMB Circular No. A-110 for nonprofit organizations.

Award Procedure:

The National Centers on Disability and the State-based Disability and Health Program competitive awards were determined by an internal objective review process at CDC. Research project grant competitive awards are determined by an external peer review. At such times, awards will be based on evaluation criteria set forth in the respective Program Announcements, the availability of funds, and such other significant factors as deemed necessary and appropriate by CDC. The awards for National Centers on Disability and the State-based Disability and Health Programs were both issued for a five year project period. The Notices of Grant Award indicate financial support for the first budget year, allocations of Federal funds by budget category, and special conditions, if any.

Ruth L. Kirschstein National Research Service Award Institutional Research Training Grant (NRSA).

FEDERAL AGENCY:

HEALTH RESOURCES AND SERVICES ADMINISTRATION, HEALTH AND HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

Section 487 of the Public Health Service Act, as amended (42 USC 288) and under Federal Regulations 42 CFR 66

OBJECTIVES:

The purpose of the Ruth L. Kirschstein National Research Service Award program is to prepare qualified individuals for careers that will have significant impact on the nation's primary care research agenda and ensure that a diverse and highly trained workforce is available to assume leadership roles in the area of primary health care research. The HRSA NRSA program supports institutional training grants awarded to eligible institutions to develop or enhance postdoctoral research training opportunities for individuals who are planning to pursue careers in primary care research.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

NRSA grants are made to approved institutions to enable them to provide up to five years of fellowship support to qualified postdoctoral individuals undertaking primary care research training. Each NRSA trainee is obligated to comply with federal service and payback provisions. Trainees in the first 12 months of postdoctoral support incur one month of service payback obligation for each month of support. Postdoctoral trainees in the 13th and subsequent months of NRSA support do not incur any further service obligation. In addition, the 13th and subsequent months of postdoctoral training serve to discharge the NRSA payback obligation.

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals); Public nonprofit institution/organization (includes

institutions of higher education and hospitals); Federally Recognized Indian Tribal Governments; U.S. Territories and possessions (includes institutions of higher education and hospitals); Private nonprofit institution/organization (includes institutions of higher education and hospitals); Eligible applicants are those entities that have received a grant under Title VII, sections 736, 739, or 747 of the Public Health Service (PHS) Act designed to prepare the primary health care workforce. Federally Recognized Indian Tribal Government and Native American Organizations may apply if they are otherwise eligible.

Beneficiary Eligibility:

U.S. Territories; Specialized group (e.g. health professionals, students, veterans); Private nonprofit institution/organization; Health Professional; Public nonprofit institution/organization; Individuals and public or private nonprofit organizations or institutions, including state or local governments and U.S. Territories. Participants must be U.S. Citizens, non-citizen nationals, or foreign nationals who possess visas permitting permanent residence in the United States. Individuals on temporary or student visas are not eligible. Postdoctoral trainees must have received, as of the beginning date of the NRSA appointment, a Ph.D., M.D., D.O., D.D.S., D.M.D., or comparable doctoral degree from an accredited domestic or foreign institution.

Credentials/Documentation:

Applicants should review the individual HRSA Notice of Funding Opportunity issued under this CFDA program for any required proof or certifications that must be submitted with an application package. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is not applicable.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. HRSA requires all applicants to apply electronically through Grants.gov. All eligible, qualified applications will be forwarded to an objective review committee. Based on the advice of the objective review committee, the HRSA program official with delegated authority is responsible for final selection and funding decisions.

Award Procedure:

Notification of award is made in writing (electronic) by a Notice of Award.

Deadlines:

Contact the headquarters or regional location, as appropriate for application deadlines.

Range of Approval/Disapproval Time:

Not Applicable. Approximately 120 to 180 days after receipt of applications.

Appeals:

Not Applicable.

Renewals:

CRITERIA FOR SELECTING PROPOSALS:

Procedures for assessing the technical merit of grant applications have been instituted to provide an objective review of applications and to assist the applicant in understanding the standards against which each application will be judged. Critical indicators have been developed for each review criterion to assist the applicant in presenting pertinent information related to that criterion and to provide the reviewer with a standard for evaluation. Competing applications are reviewed by non-Federal expert consultant(s) for technical merit recommendations. Applications will be reviewed and evaluated against the following criteria: (1) Purpose and Need; (2) Response to Program Purpose; (3) Impact; (4) Organizational Information, Resources and Capabilities; and (5) Support Requested. See the most recent Notice of Funding Opportunity for detailed selection criteria.

93.187 Undergraduate Scholarship Program for Individuals from Disadvantaged Backgrounds

NIH Undergraduate Scholarship Program (UGSP),

FEDERAL AGENCY:

NATIONAL INSTITUTES OF HEALTH, HEALTH AND HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

Public Health Service Act, Title IV, Part G, Section 487D

OBJECTIVES:

To provide service-conditioned scholarships to individuals from disadvantaged backgrounds who agree to pursue undergraduate education at accredited institutions. Individuals must pursue a course of academic study which prepares them for professions needed by the National Institutes of Health (NIH). NIH expects to facilitate interest of these individuals in pursuing careers in the biomedical/biobehavioral sciences at the NIH.

TYPES OF ASSISTANCE:

Direct Payments for Specified Use

USES AND USE RESTRICTIONS:

This program will provide scholarships to individuals who have completed their first academic term of studies at an accredited 4-year undergraduate institution of higher education. Recipients must be full-time students and who are from disadvantaged backgrounds. Each award recipient must agree by written contract to serve as a full-time NIH employee for not less than 10 consecutive weeks during

ASSISTANCE LISTINGS DESCRIPTIONS

the summer immediately following the year of the award. No later than 60 days after obtaining a qualified educational degree, each recipient must begin serving as a full-time NIH employee for one year in exchange for each year of NIH scholarship support (a deferment of the service obligation may be obtained if the Director, NIH, determines that such is appropriate). Applicants must submit a proposed academic program for each academic year and agree that this program will not be altered without prior approval. The applicant must be in good academic (maintain a minimum GPA of 3.3) standing with their educational institution for continuation under the scholarship program. Maximum scholarship per academic year is \$20,000. Scholarship funds may only be used for tuition expenses and qualified educational and living expenses incurred while attending school.

Applicant Eligibility:

Individual/Family; Minority group; Specialized group (e.g. health professionals, students, veterans); Anyone/general public; An eligible applicant must be (1) A U.S. citizen, national, or permanent resident; (2) enrolled or accepted for enrollment as a full-time student at an accredited undergraduate institution (4 year school) of higher education; (3) from a disadvantaged background as determined by the Secretary of Health and Human Services; (4) in good academic standing (minimum GPA of 3.3 or be in the top 5 percent) with his/her educational institution; and (5) submit an application to participate in the Undergraduate Scholarship (UGS) Program; (6) agree to serve as a full-time NIH employee for not less than 10 consecutive weeks of each year during which the individual is attending the educational institution and receiving a scholarship; (7) agree to serve as a full-time NIH employee for 12 months for each academic year during which the scholarship was provided, not later than 60 days after obtaining his or her academic degree, unless a service deferment is granted.

Beneficiary Eligibility:

Individual/Family; Minority group; Specialized group (e.g. health professionals, students, veterans); Anyone/general public; Student/Trainee; U.S. Citizen; Low Income; Education (13+); Undergraduate students from disadvantaged backgrounds pursuing academic programs supporting professions needed by the NIH.

ASSISTANCE LISTINGS DESCRIPTIONS

CRITERIA FOR SELECTING PROPOSALS:

The NIH Undergraduate Scholarship Program Committee will review, rank, and approve or disapprove applications based on career goals and academic performance. Priority will be given to applicants who have demonstrated good academic performance, demonstrated a career goal to pursue biomedical/biobehavioral research, and have characteristics which support the likelihood they will complete their service obligations.

93.191 Graduate Psychology Education

Graduate Psychology Education (GPE) Program,

FEDERAL AGENCY:

HEALTH RESOURCES AND SERVICES ADMINISTRATION, HEALTH AND HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

Sections 750 and 756 (a)(2) of the Public Health Service Act (USC 42 USC 294; 294e-1).

OBJECTIVES:

The Graduate Psychology Education Program supports training of doctoral-level psychologists to provide behavioral health care, including substance abuse prevention and treatment services, in a setting that provides integrated primary and behavioral health services to underserved and/or rural populations. Applicants must emphasize the integration of behavioral and primary healthcare into clinical practice. The program is designed to foster an integrated and interprofessional approach to addressing access to behavioral healthcare for underserved and/or rural populations. Grants will be awarded to assist eligible entities in meeting the costs to develop, operate, and maintain graduate psychology doctoral programs, internships, and post-doctoral residency programs in health psychology.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

Eligible entities are required to provide a budget, with narrative, that includes no less than sixty (60) percent of a recipients overall requested budget (direct and indirect costs) dedicated and distributed as stipends to trainees in practice, internships, and residencies. Up to forty (40) percent of funding may be dedicated to (1) development or enhancement of didactic and experiential training activities in integrated and team-based care; (2) financial support for the supervision of students, interns, residents and other allowable trainee-related expenses; (3) program administration and management; and (4) data collection. Restricted Uses: Indirect costs under training awards to organizations other than State, local or American Indian tribal governments will be budgeted and reimbursed at 8 percent of modified total direct costs rather than on the basis of a negotiated rate agreement, and are not subject to upward or downward adjustment.

Applicant Eligibility:

Public nonprofit institution/organization (includes institutions of higher education and hospitals); Other public institution/organization; Federally Recognized Indian Tribal Governments; U.S. Territories and possessions (includes institutions of higher education and hospitals); Non-Government - General; Private nonprofit institution/organization (includes institutions of higher education and hospitals); Quasi-public nonprofit institution/organization; Other private institutions/organizations; Native American Organizations (includes Indian groups, cooperatives, corporations, partnerships, associations); Public or private nonprofit schools, universities, or other educational entities which provide for graduate psychology education and training or other public or private nonprofit entities capable, as determined by the Secretary, of carrying out the objectives of the project. Eligible entities are American Psychological Association (APA)-accredited doctoral-level schools and programs of health service psychology, APA-accredited doctoral internships in professional psychology, and APA-accredited post-doctoral residency programs in practice psychology. Federally Recognized Indian Tribal Government and Native American Organizations may apply if otherwise eligible. The eligible entity must demonstrate that the training within an APA accredited psychology training school or program, internship, and post-doctoral residency program will occur in collaboration with two or more health disciplines other than psychology.

Beneficiary Eligibility:

Individual/Family; Minority group; Physically Afflicted (e.g. TB, Arthritis, Heart Disease); Doctoral students, doctoral interns, and post-doctoral residents receiving a stipend in the GPE Program must be in an APA-accredited program, a citizen of the United States, a non-citizen national of the United States, or a foreign national who possesses a visa permitting permanent residence in the United States.

Individuals on temporary or student visas are not eligible participants.

93.197 Childhood Lead Poisoning Prevention Projects, State and Local Childhood Lead Poisoning Prevention and Surveillance of Blood Lead Levels in Children

(Childhood Lead Poisoning Prevention Program (CLPPP)).

FEDERAL AGENCY:

CENTERS FOR DISEASE CONTROL AND PREVENTION, HEALTH AND HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

Executive Order Section 317 (k)(2) and 3171 of the Public Health Service Act, 42 U.S.C. Sections 247b and 247b-10, as amended, Title 42, Part 247b, Section 247b-10

OBJECTIVES:

To (1) Develop and/or enhance a surveillance system that monitors all blood lead levels; (2) assure that children who are potentially exposed to lead receive follow up care; (3) assure awareness and action among the general public and affected professionals in relation to preventing childhood lead poisoning in high risk areas in collaboration with other government and community based organizations.

TYPES OF ASSISTANCE:

Cooperative Agreements, Project Grants

USES AND USE RESTRICTIONS:

Awards are to be used by State and local government agencies to develop, improve, and expand their capacity to address the problem of childhood lead poisoning in communities with demonstrated high-risk populations. Recipients of awards are expected to: (a) write, implement and evaluate a jurisdiction-wide childhood lead poisoning elimination plan; (b) write, implement and evaluate screening plans to target resources to children at the highest risk for lead poisoning; (c) maintain a jurisdiction-wide childhood lead surveillance program, with an analysis plan for collected data, (d) conduct primary prevention activities for pregnant women and/or families with children at high risk for lead poisoning, (e) develop an assurance plan for timely and appropriate case management of children with elevated blood lead levels, (f) demonstrate strategic partnering with community organizations and with other state/local agencies involved in environmental and child health activities, (g) coordinate with organizations and agencies involved in lead-based paint hazard reduction activities and development of protective policy; and (h) evaluate programmatic impact on childhood lead poisoning within the applicant's jurisdiction. Awards cannot supplant existing funding for childhood lead poisoning prevention programs or activities. Grant awards may not be expended for medical care and treatment, or for environmental remediation of lead sources, however, there must be an acceptable plan to ensure that these program activities are appropriately carried out. The surveillance component of this grant is intended to assist State health departments in implementing or enhancing a complete surveillance system to track all PbB levels in children. This is essential for grant recipients to target interventions to high-risk

ASSISTANCE LISTINGS DESCRIPTIONS

populations and to track progress toward eliminating childhood lead poisoning.

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals); Public nonprofit institution/organization (includes institutions of higher education and hospitals); Federally Recognized Indian Tribal Governments; U.S. Territories and possessions (includes institutions of higher education and hospitals); Private nonprofit institution/organization (includes institutions of higher education and hospitals); Assistance will be provided to State health departments or their bonafide agents and the health departments of the following five local jurisdictions (or their bonafide agents) that have the highest estimated number of children with elevated blood lead levels : New York, NY; Chicago, IL; Detroit, MI; Los Angeles County, CA, and Philadelphia, PA, or their bona fide agents. Also eligible are health departments or other official organizational authorities of the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, the Commonwealth of the Northern Mariana Islands, American Samoa, Guam, the Federated States of Micronesia, the Republic of the Marshall Islands, the Republic of Palau, and federally recognized Indian tribal governments. Competition is limited by authorizing legislation.

Beneficiary Eligibility:

Individual/Family; Specialized group (e.g. health professionals, students, veterans); Anyone/general public; Infant (0-5); Child (6-15); In addition to the eligible applicants, others who receive benefits from the program include infants and children from six months to six years of age who are screened for lead poisoning and family members who care for lead-poisoned children. Lead poisoning potentially affects all children, but disproportionately affects minority children and children of low-income families. Since the effects of lead poisoning can be long lasting, benefits of the program can also affect youth and adults, persons at all educational and income levels, and urban, suburban, and rural populations.

Credentials/Documentation:

Applicants should document the need for assistance, state the objectives of the project, present their approach to meeting the objectives, and outline the methods of operation. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is required. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review. .

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Application forms are both available from and submitted to the Grants Management Branch, Centers for Disease Control and Prevention, 2920 Brandywine Road, Room 3000, Atlanta, GA 30341. Standard application forms, as furnished by CDC and required by 45 CFR 92 must be used for this program. This program is subject to the provisions set forth in 45 CFR 92 for State and local governments.

Award Procedure:

Approved grants are funded based on a priority score ranking from an objective review process coordinated by the Centers for Disease Control and Prevention. CDC will give funding preference to state programs with significant estimated numbers of children with elevated blood lead levels that direct federal funds to localities with high concentrations of children at risk for childhood lead poisoning. CDC will also give funding preference to the five local jurisdictions with the highest estimated number of children with elevated blood lead levels. Awards are made based on availability of funds and other significant factors as deemed necessary and appropriate by the agency. Funds are awarded for a one-year (12 month period). A Notice of Grant Award (Form PHS 5161-1) is provided which indicates the current award as well as support recommendations for the remainder of the project period (up to three years). The Notice of Grant Award indicates allocations for Federal funds by budget categories and any special conditions, if applicable.

Deadlines:

Not Applicable.

Range of Approval/Disapproval Time:

From 60 to 90 days. From two to three months.

Appeals:

From 60 to 90 days.

Length and Time Phasing of Assistance:

Financial assistance is provided for a 12-month budget period (July 1 - June 30) with project periods of up to five years subject to the availability of funds and satisfactory progress of the grantee. Method of awarding/releasing assistance: lump sum.

Reports:

Progress reports Refer to the funding opportunity announcement for details. Refer to the funding opportunity announcement for details. Refer to the funding opportunity announcement for details.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. In addition, these grants are subject to inspection and audits by DHHS and other Federal officials.

Records:

Financial records, supporting documents, statistical records, and all other records pertinent to the project must be kept readily available for review by personnel authorized to examine PHS grant accounts. Records must be maintained for a minimum of 3 years after the end of a budget period. If questions still remain, such as those raised as a result of an audit, records must be retained until completion or resolution of any audit in process or pending resolution. CRITERIA FOR SELECTING PROPOSALS:

Applications will be evaluated based upon the applicant's ability to identify populations and communities at high risk and the overall balance of the program's design to address the childhood lead poisoning problem. This requires the development of specific and measurable objectives and a sound operational plan that includes screening of high risk populations, medical and environmental management, lead hazard remediation, and health education and risk reduction activities to appropriately address the problem. Applications also will be evaluated on the ability of the program to carry out childhood lead poisoning prevention program activities utilizing the core public health functions as well as establishing working relations or partnerships with other agencies, organizations or groups that have interest in the prevention of childhood lead poisoning.

93.209 Contraception and Infertility Research Loan Repayment Program

(CIR LRP),

FEDERAL AGENCY:

NATIONAL INSTITUTES OF HEALTH, HEALTH AND HUMAN SERVICES,
DEPARTMENT OF

AUTHORIZATION:

Public Health Service Act, 42 U.S.C. 288-2, Title IV (National Research Institutes), Part G (Awards and Training), Section 487B (Loan Repayment Program for Research with Respect to Contraception and Infertility), as amended by Public Law 113-235.

OBJECTIVES:

The CIR-LRP is designed to provide an incentive for health professionals to work in areas of reproductive extramural contraception and/or infertility research, which are defined, respectively, as research that has the ultimate goal to provide new or improved methods of preventing pregnancy and research that has long-range objective to evaluate, treat, or ameliorate conditions which result in the failure of couples to either conceive or bear young by providing assistance in repaying educational loans for individuals. The CIR-LRP will pay up to \$35,000 of the principal and interest of a participant's educational loans for each year of commitment not to exceed one-half of the remaining loan balance. In addition to the loan repayments, the CIR-LRP will pay participants 39 percent of the amount paid to lenders as partial payments on the increased income tax liability caused by the Program's loan repayments. In return for these loan repayments, applicants must agree to commit to a period of obligated service of not less than one year for each year of support awarded conducting research with respect to contraception and/or infertility. The long-range objective of the CIR-LRP is to stimulate the commitment of researchers to sustaining a career focus on contraception and/or infertility research, as defined above.

TYPES OF ASSISTANCE:

Direct Payments for Specified Use

USES AND USE RESTRICTIONS:

The assistance provided by the CIR-LRP is entirely of a financial nature in the form of loan repayments. The monies provided by this program are restricted to the repayment of pre-existing, qualified loans procured by the participant for educational expenses incurred in the pursuit of undergraduate or graduate degrees.

Applicant Eligibility:

Specialized group (e.g. health professionals, students, veterans); Applicants must be a U.S. citizen (or U.S. national or permanent resident) and a physician, Ph.D.-level scientist, nurse, physician's assistant, graduate student, or postgraduate research fellow training in the health professions. You must commit to conduct contraception and infertility research for 50% of your time (at least 20 hours weekly based on a 40 hour week) for two years and it must be funded by a domestic nonprofit or U.S. Government (Federal, state or local) entity. Also, the research must not be prohibited by Federal law or NIH policy. Complete eligibility information is available at <https://grants.nih.gov/grants/guide/notice-files/NOT-OD-17-079.html>

Beneficiary Eligibility:

Specialized group (e.g. health professionals, students, veterans); Graduate Student; Scientist/Researchers; Assistance in the form of loan repayments will be made to qualified health professionals (including graduate students) who are participants in the CIR-LRP.

Credentials/Documentation:

In order to be considered for selection into the CIR-LRP, eligible applicants must complete and submit the electronic application materials located at www.lrp.nih.gov, which include: (1) a Loan Verification Form for each loan to be considered for repayment; (2) an institutional statement providing assurance that the applicant will be engaged in employment/training at a qualified domestic nonprofit institution (tax-exempt under 26 USC 501) or U.S. federal, state or local government entity, for not less than two years from the anticipated effective date of the NIH Loan Repayment Program Contract between the individual and NICHD (this assurance is conducted electronically); and (3) a signed NIH Loan Repayment Program Contract by which the applicant agrees to serve the obligated minimum period, one year for each year of support awarded, conducting contraception and/or infertility research at a qualified domestic nonprofit institution (tax-exempt under 26 USC 501). Renewal applicants may request one-year awards. For these applicants, a one-year institutional statement providing assurance and NIH Loan Repayment Program Contract is sufficient. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is required. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372. Information regarding the CIR-LRP and the preparation of forms for application to the CIR-LRP can be obtained at <https://grants.nih.gov/grants/guide/notice-files/NOT-OD-18-198.html> and by contacting the LRP Info Center at www.lrp.nih.gov, (866) 849-4047 (Mon-Fri 9AM - 5PM Eastern Time) and lrp@nih.gov.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Qualified individuals interested in participating in the CIR-LRP should visit the NIH Loan Repayment Program Website at www.lrp.nih.gov for all application forms and requirements. The application will be evaluated by a Review Committee, convened for this purpose by the Scientific Review Branch, NICHD, NIH, HHS. In selecting applicants for participation in the CIR-LRP, the panel will consider the review criteria listed under Application Review Process at <https://www.lrp.nih.gov/faqs>. All selections are subject to final approval by the Director, NICHD. The NICHD will notify the sponsoring grantee institution and the applicant of the outcome of the review.

Award Procedure:

Once the applicant is selected to participate in the CIR-LRP, the applicant and the Director, NICHD, as a designee of the Secretary of Health and Human Services, will sign a written binding contract stating the terms and conditions for participating in the CIR-LRP. The effective date of the contract will be the date it is signed by the Director, NICHD, or the date employment/training begins at an NICHD-funded Specialized Contraception or Infertility Research Center, whichever is later.

Deadlines:

September 01, 2018 - November 15, 2018. Dates that the earliest applications will be accepted can be found at <http://www.lrp.nih.gov/index.aspx> Applications can be received at the deadlines established and announced each year at <http://www.lrp.nih.gov/>.

Range of Approval/Disapproval Time:

Other. Approximately 330 Days. The selection process takes approximately 11 months following the application deadline.

Appeals:

Not Applicable.

Renewals:

Not Applicable. A CIR-LRP participant completing the initial 2-year period of obligated service conducting research with respect to contraception and/or infertility has an option to apply annually for a renewal of their contract to extend the obligatory period of service for either one or two years. NOTE: this request will go through the same competitive, peer-reviewed process initial applicants

93.210 Tribal Self-Governance Program: IHS Compacts/Funding Agreements

(OTSG Compacts),

FEDERAL AGENCY:

INDIAN HEALTH SERVICE, HEALTH AND HUMAN SERVICES,
DEPARTMENT OF

AUTHORIZATION:

Indian Self-Determination and Education Assistance Act (ISDEAA), 25 USC Code 458aaa. Tribal Self-Governance Amendments of 2000, 42 USC Code 137.1-450.

OBJECTIVES:

To allow Federally recognized Indian Tribes to enter into an agreement with the Indian Health Service (IHS) to assume full funding and control over programs, services, functions and activities (PSFA) (or portions thereof) that the IHS would otherwise provide for Indians because of their status as Indians. Such assumptions shall be through compact and funding agreement or construction project agreement under Title V of the ISDEAA.

TYPES OF ASSISTANCE:

Direct Payments for Specified Use

USES AND USE RESTRICTIONS:

Funds must be spent in accordance with the ISDEAA, applicable regulations and terms of the negotiated compact, funding agreement, or construction project agreement. Per 42 C.F.R. 137.167-168, a Tribe participating in the IHS Self-Governance Program (Self-Governance Tribe) must apply the cost principles of the applicable OMB Circular, except as modified by: (a) 25 U.S.C. 450j-1, (b) other provisions of law, or (c) any exemptions to applicable, subsequent OMB circulars. No other audit or accounting standards shall be required by the Secretary. Per 25 U.S.C 458aaa-7(h) and 42 C.F.R. 137.100, a Self-Governance Tribe may retain and spend interest earned on any funds paid under a compact or funding agreement. Per 42 C.F.R. 137.101, a Self-Governance Tribe must invest and manage the funds as a prudent investor would, in light of the purpose, terms, distribution requirements, and provisions in the compact or funding agreement and ISDEAA Title V. This duty requires the exercise of reasonable care, skill, and caution, and is to be applied to investments not in isolation, but in the context of the investment portfolio and as a part of an overall investment strategy that should incorporate risk and return objectives reasonably suitable to the Self-Governance Tribe. In making and implementing investment decisions, the Self-Governance Tribe must diversify the investments, unless it is imprudent under the circumstances. In addition, the Self-Governance Tribe must: (a) conform to fundamental fiduciary duties of loyalty and impartiality; (b) act with prudence in deciding whether and how to delegate authority and in the selection and supervision of agents; and (c) incur only costs that are reasonable in amount and appropriate to the investment responsibilities of the Self-Governance Tribe.

Applicant Eligibility:

Federally Recognized Indian Tribal Governments; U.S. Territories and possessions (includes institutions of higher education and hospitals); Per 42 C.F.R. 137.18, to be eligible to participate in the IHS Tribal Self-Governance Program (Program), any Federally recognized Indian tribe must: (a) successfully complete the planning phase described in 42 C.F.R. 137.20; (b) request participation in the Program by resolution or other official action by the governing body of each Indian tribe to be served; and (c) demonstrate financial stability and financial management capability for three fiscal years. Per 42 C.F.R. 137.21, the Indian tribe provides evidence that, for the three years prior to participation in the Program, the Indian tribe has had no uncorrected significant and material audit exceptions in the required annual audit of the Indian tribe's self-determination contracts or self-governance funding agreements with any federal agency. Per 42 C.F.R. 137.22, if the Indian Tribe chooses to centralize its self-determination or self-governance financial and administrative functions with non-self-determination or non-self-governance financial and administrative functions, such as personnel, payroll, property management, etc., the Secretary may consider uncorrected significant and material audit exceptions related to the integrity of a cross-cutting centralized function in determining the Indian Tribe's eligibility for participation in the self-governance program. Per 42 C.F.R. 137.26, an Indian tribe does not need to receive a planning or negotiation cooperative agreement to be eligible to participate in the IHS Tribal Self-Governance Program. An Indian tribe may use other resources to meet the

ASSISTANCE LISTINGS DESCRIPTIONS

planning requirement and to negotiate. Under 25 U.S.C. 458aaa-2(b)(1), each year, an additional 50 Indian tribes that meet the eligibility criteria are entitled to participate in the IHS Tribal Self-Governance Program.

Beneficiary Eligibility:

Specialized group (e.g. health professionals, students, veterans); Native American Organizations; American Indian; Federally Recognized Indian Tribal Governments; Federally-recognized Indian tribes and tribal organizations (as defined in 25 U.S.C. 458aaa-(b)) may benefit.

Credentials/Documentation:

Per 42 CFR 137.167 and 137.168, a self-governance tribe must apply the cost principles of the applicable OMB Circular, except as modified by: (a) section 106(k) of the Act (25 U.S.C. 450j-1), (b) other provisions of law, or (c) any exemptions to applicable OMB circulars subsequently granted by the OMB. No other audit or accounting standards shall be required by the Secretary. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is not applicable.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Per 42 C.F.R. 137.18, to be eligible to participate in the IHS Tribal Self-Governance Program, any Federally recognized Indian tribe must: (a) successfully complete the planning phase described in 42 C.F.R. 137.20; (b) request participation in the IHS Tribal Self-Governance Program by resolution or other official action by the governing body of each Indian tribe to be served; and (c) demonstrate financial stability and financial management capability for three fiscal years. Per 42 C.F.R. 137.21, the Indian tribe provides evidence that, for the three years prior to participation in the IHS Tribal Self-Governance Program, the Indian tribe has had no uncorrected significant and material audit exceptions in the required annual audit of the Indian tribe's self-determination contracts or self-governance funding agreements with any federal agency. Per 42 C.F.R. 137.22, if the Indian Tribe chooses to centralize its self-determination or self-governance financial and administrative functions with non-self-determination or non-self-governance financial and administrative functions, such as personnel, payroll, property management, etc., the Secretary may consider uncorrected significant and material audit exceptions related to the integrity of a cross-cutting centralized function in determining the Indian Tribe's eligibility for participation in the self-governance program. Per 42 C.F.R. 137.26, an Indian tribe does not need to receive a planning or negotiation cooperative agreement to be eligible to participate in the IHS Tribal Self-Governance Program. An Indian tribe may use other resources to meet the planning requirement and to negotiate. Under 25 U.S.C. 458aaa-2(b)(1), each year, an additional 50 Indian tribes that meet the eligibility criteria shall be entitled to participate in the IHS Tribal Self-Governance Program.

Award Procedure:

Funds are transferred to Indian tribes who have successfully negotiated (1) a compact and funding agreement or (2) a compact, funding agreement, and construction project agreement entered into under ISDEAA Title V.

Deadlines:

Not Applicable.

Range of Approval/Disapproval Time:

Not Applicable. Not applicable.

Appeals:

Not Applicable. See 42 C.F.R. 137.410-445 for regulations governing compacts, funding agreements, and construction project agreements entered into under ISDEAA Title V.

Renewals:

Other. Per 42 C.F.R. 137.35, upon approval and execution of an ISDEAA Title V compact, the compact remains in effect for so long as permitted by Federal law or until terminated by mutual written agreement or retrocession or reassumption of all PSFAs. Per 42 C.F.R. 137.55, a funding agreement shall have the term mutually agreed to by the parties. Under 25 U.S.C. 458aaa-4(e), absent notification from an Indian tribe that it is withdrawing or retroceding the operation of one or more PSFA identified in the funding agreement, the funding agreement shall remain in full force and effect until a subsequent funding agreement is executed.

Formula and Matching Requirements:

Statutory formula is not applicable to this assistance listing. Matching requirements are not applicable to this assistance listing. MOE requirements are not applicable to this assistance listing.

Length and Time Phasing of Assistance:

Not applicable. Method of awarding/releasing assistance: lump sum.

Reports:

See 42 C.F.R. 137.200-207 for reporting requirements for Self-Governance Tribes under ISDEAA Title V. Per 25 U.S.C. 458aaa-6(a)(1) and 42 C.F.R. 137.200, compacts or funding agreements negotiated between the Secretary and a Self-Governance Tribe must include a provision that requires the Self-Governance Tribe to report on health status and services delivery. These reports may only impose minimal burdens on the Self-Governance Tribes; cash reports, progress reports, expenditure reports, and performance monitoring are not applicable; see 42 C.F.R. 137.351 for reporting requirements for construction project agreements.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503 Per 25 U.S.C. 458aaa-5(c) and 42 C.F.R. 137.165, Self-Governance Tribes must undertake annual audits pursuant to the Single Audit Act, 31 U.S.C. 7501 et seq. Per 42 C.F.R. 137.166, exceptions are described in 31 U.S.C. 7502 of the Single Audit Act.

93.211 Telehealth Programs

There are nine telehealth programs as follows: Telehealth Network Program (TNGP) National Telehealth Resource Center Program (NTRC) Regional Telehealth Resource Center Program (RTRC) Licensure Portability Program (LPGP) Evidence-Based Tele-Emergency Network Program (EB-TNGP) Evidence-Based Tele-Behavioral Health Network Program (EB-THNP) Rural Child Poverty Telehealth Network Program (RCP-TNGP) Substance Abuse Treatment Telehealth Network Program (SAT-TNGP) Telehealth Center of Excellence (COE),

FEDERAL AGENCY:

HEALTH RESOURCES AND SERVICES ADMINISTRATION, HEALTH AND HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

Section 711(b) of the Social Security Act (42 U.S.C. 912(b)), as amended. Evidence-Based Tele-Emergency Network Program Evidence-Based Tele-Behavioral Health Network Program Telehealth Center of Excellence 3301 (d) (2) of the Public Health Service Act (42 U.S.C. 254c-14(d)(2), as amended and P.L. 114-254 National Telehealth Resource Center Program Licensure Portability Program Regional Telehealth Resource Center Program Telehealth Network Program Substance Abuse Treatment Telehealth Network Program Rural Child Poverty Telehealth Network Program

OBJECTIVES:

The purpose of the Telehealth Network Program (TNGP) is to fund programs that demonstrate how telehealth networks improve healthcare services in rural communities. The current cohort is focused on telehealth services delivered through school-based health centers/clinics (SBHC), particularly those serving high-poverty populations. The National Telehealth Resource Center Program (NTRC) and the Regional Telehealth Resource Center Program (RTRC) are designed to expand the availability of technical assistance in the development of telehealth services, leveraging the experience of mature programs with expertise in providing and implementing telehealth services. The Licensure Portability Program (LPGP) supports state professional licensing boards to carry out programs under which licensing boards of various states cooperate to develop and implement state laws and related policies that will reduce statutory and regulatory barriers to the provision of health care services through telemedicine technology. The Evidence-Based Tele-Emergency Network Program (EB-TNGP) supports implementation and evaluation of broad telehealth networks to deliver Emergency Department consultation services via telehealth to rural and community providers without emergency care specialists. The Evidence-Based Tele-Behavioral Health Network Program (EB-THNP) supports the use of telehealth networks to increase access to behavioral health care services in rural and frontier communities. While the Evidence-Based Tele-Behavioral Health Network Program seeks to expand access to services for rural patients, its primary goal is to significantly contribute to the evidence base for assessing the effectiveness of tele-behavioral health care services for patients, providers, and payers. The Rural Child Poverty Telehealth Network Program (RCP-TNGP) demonstrates how telehealth networks can improve access to quality health care and social services for children living in high poverty rural and underserved areas. The Substance Abuse Treatment Telehealth Network Program (SAT-TNGP) will demonstrate how telehealth programs and networks can improve access to health care services, particularly substance abuse treatment, in rural, frontier, and underserved communities. The Telehealth Center of Excellence (COE) will test the efficacy of telehealth services in rural areas. The Telehealth Center of Excellence will serve as a national clearinghouse for telehealth research and resources, including technical assistance.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

Telehealth Network Program (TNGP)-Funds support the use of telehealth networks (electronic information and telecommunications technologies to support and promote long-distance health care and ancillary services) for improving access to health care services; provide a baseline of information for a systematic evaluation of telehealth systems; purchase or lease and install equipment; and to operate and evaluate the telehealth system. Overall, not more than 40 percent of program funds may be expended for equipment. Not more than 15 percent of program funds may be expended for indirect costs. Program funds may not be used for purchasing and installing telecommunications transmission equipment (e.g., microwave towers, satellite dishes, amplifiers, digital switching equipment or laying cable or telephone lines) or to acquire real property. Construction costs are allowable only for minor renovations related to the installation of equipment. National Telehealth Resource Center Program (NTRC) and Regional Telehealth Resource Center Program (RTRC) - Funds support the establishment and development of Telehealth Resource Centers, which serve as a focus for the provision of telehealth technical assistance across the country. One National TRC will focus on providing specialized technical assistance in telehealth technology. The other National TRC will focus on policy issues such as state and national policies and initiatives regarding telehealth. Twelve Regional Telehealth Resource Centers are located across the United States. Funds are used for salaries, equipment, operating, travel expenses, or other costs for: providing technical assistance, training and support; disseminating information and research findings related to telehealth services; promoting effective collaboration among telehealth resource centers and HRSA; promoting the integration of the technologies used in clinical information systems with other telehealth technologies; fostering the use of telehealth technologies to effectively provide healthcare information and education for health care providers and consumers; and, implementing special projects that involve collaboration among TRCs to advance the field of telehealth. Funds may not be used for: acquiring real property; equipment costs of more than 40 percent of total program funds; for equipment or transmission costs not directly related to the program purposes; to purchase or install general-purpose voice telephone systems; construction costs; and indirect costs exceeding 15 percent of total program funds. The Licensure Portability Program (LPGP) Funds may be used for salaries, equipment, software development, operating, or other costs associated with developing legislative, administrative, and technical projects to address licensure barriers that hinder the practice of telemedicine across state lines. Funds may also be used for activities involving significant expansion of existing state agreements for cross-state recognition of professional licenses to other states. Evidence-Based Tele-Emergency Network Program (EB-TNGP) Program funds may be used for salaries, equipment, and operating or other costs, including the cost of: Developing and delivering clinical Tele-Emergency services, including tele-stroke, that enhance access to health care services for residents in rural areas that lack specialized emergency services; Developing and acquiring, through lease or purchase, computer hardware and software, audio and video equipment, computer network equipment, interactive equipment, data terminal equipment, and other equipment that furthers the objectives of the Tele-Emergency network program; Transmitting medical data and maintenance of equipment; Compensating emergency clinicians who provide consultative services via telehealth to the rural telehealth sites; Collecting and analyzing statistics and data to document the cost-effectiveness of Tele-Emergency and to participate in the broader evaluation and analysis for this program. Evidence-Based Tele-Behavioral Health Network Program (EB-THNP) Award funds may be used for salaries, equipment, and operating or other costs, including: Developing and delivering clinical telehealth services that enhance access to behavioral health care services in rural and frontier communities; Developing and acquiring, through lease or purchase, computer hardware and software, audio and video equipment, computer network equipment, interactive equipment, data terminal equipment, and other equipment that furthers the objectives of the telehealth network program; Developing and acquiring instructional programming; Providing for transmission of medical data, and maintenance of equipment; Providing for compensation (including travel expenses) of specialists, and referring health care providers, who are providing rural telehealth services through the telehealth network, if third party payment is not available for the telehealth services delivered through the telehealth network; Developing projects to use telehealth technology to facilitate collaboration between rural health care providers; and Collecting and analyzing usage statistics and data to document the cost-effectiveness of telehealth services and answer similar research questions that will contribute to the evidence-base for rural tele-behavioral health care. The Rural Child Poverty Telehealth Network Program (RCP-TNGP)

ASSISTANCE LISTINGS DESCRIPTIONS

Program funds may be used for salaries, equipment, and operating or other costs, including the cost of: Developing and delivering clinical and social services via telehealth to improve the health and well-being of children living in high poverty rural areas; frontier communities, or medically underserved areas, or for medically underserved populations; Developing and acquiring, through lease or purchase, computer hardware and software, audio and video equipment, computer network equipment, interactive equipment, data terminal equipment, and other equipment that furthers the objectives of the telehealth network program; Developing and providing distance education in a manner that enhances access to care in rural areas, frontier communities, or medically underserved areas, or for medically underserved populations; Mentoring, precepting, or supervising health care providers and students seeking to become health care providers, in a manner that enhances access to care in the areas and communities, or for the populations, described above; Developing and acquiring instructional programming; Transmitting medical data, and maintenance of equipment; Compensating clinicians (including travel expenses), or specialists and referring health care providers, who are providing telehealth services through the telehealth network, if no third party payment is available for the telehealth services delivered through the telehealth network; Developing projects that use telehealth technology to facilitate collaboration between health care and human/social service providers which improve the quality of health care services to children living in impoverished rural areas; and Collecting and analyzing usage statistics and data to document the cost-effectiveness of the telehealth service for children living in impoverished rural areas. Overall, not more than 40 percent of program funds may be expended for equipment. Not more than 15 percent of program funds may be expended for indirect costs. Program funds may not be used for purchasing and installing telecommunications transmission equipment (e.g., microwave towers, satellite dishes, amplifiers, digital switching equipment or laying cable or telephone lines) or to acquire real property. Construction costs are allowable only for minor renovations related to the installation of equipment; to pay for any equipment or transmission costs not directly related to the purposes for which the program is awarded; to purchase or install general purpose voice telephone systems. Substance Abuse Treatment Telehealth Network Program (SAT-TNGP)- The primary purpose of the SAT-TNGP is to support tele-substance abuse treatment and other behavioral health care services with a secondary focus on providing services to address common chronic disease conditions (e.g. congestive heart failure, cancer, stroke, chronic respiratory disease, and/or diabetes). Overall, not more than 40 percent of funds may be expended for equipment. Not more than 15 percent of program funds may be expended for indirect costs. Program funds may not be used for purchasing and installing telecommunications transmission equipment (e.g., microwave towers, satellite dishes, amplifiers, digital switching equipment or laying cable or telephone lines) or to acquire real property. Construction costs are allowable only for minor renovations related to the installation of equipment. Telehealth Center of Excellence (COE) Funds under this notice may not be used for the following purposes: to acquire real property; for expenditures to purchase or lease equipment, to the extent that the expenditures would constitute the majority of the total program funds; to purchase or install transmission equipment (such as laying cable or telephone lines, or purchasing or installing microwave towers, satellite dishes, amplifiers, or digital switching equipment); to pay for any equipment or transmission costs not directly related to the purposes of the award; to purchase or install general purpose voice telephone systems; for construction; and for expenditures for indirect costs (as determined by the Secretary), to the extent that the expenditures would exceed 15 percent of the total program funds.

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals; Public nonprofit institution/organization (includes institutions of higher education and hospitals); Federally Recognized Indian Tribal Governments; U.S. Territories and possessions (includes institutions of higher education and hospitals); Private nonprofit institution/organization (includes institutions of higher education and hospitals); Quasi-public nonprofit institution/organization; Native American Organizations (includes Indian groups, cooperatives, corporations, partnerships, associations); Telehealth Network Grant Program (TNGP) - Eligible applicants include public and private non-profit entities, including faith-based and community organizations, as well as federally-recognized tribal governments and organizations. National Telehealth Resource Center Program (TNRC) and Regional Telehealth Resource Center Program

(RTRC) - Eligible applicants include public and private non-profit entities. Faith-based and community-based organizations, Tribes, and tribal organizations are eligible to apply. Licensure Portability Grant Program (LPGP) - Eligible applicants are limited by statute to state professional licensing boards. Note: American Indian and/or Alaska Native Tribal Organizations are eligible provided those organizations meet the eligibility requirements above. Evidence-Based Tele-Emergency Network Grant Program (EB TNGP) - Eligible applicants include public, private, and non-profit organizations, including faith-based and community organizations, as well as federally-recognized tribal governments and organizations. The Rural Child Poverty Telehealth Network Grant Program (RCP-TNGP) - Eligible applicants include public and private non-profit entities, including faith-based and community organizations, as well as federally-recognized Indian tribal governments and organizations. The Substance Abuse Treatment Telehealth Network Grant Program (SAT-TNGP) - Eligible applicants include public and private non-profit entities, including faith-based and community organizations, as well as federally-recognized tribes and tribal governments and organizations. The Telehealth Center of Excellence Program - Eligible applicants must be public academic medical centers located in states with high chronic disease prevalence, high poverty rates, and a larger percentage of medically underserved rural areas.

Beneficiary Eligibility:

U.S. Territories; Specialized group (e.g. health professionals, students, veterans); Private nonprofit institution/organization; State; Local; Rural; Public nonprofit institution/organization; Federally Recognized Indian Tribal Governments; Telehealth Network Grant Program (TNGP) - Health care providers in rural areas, in medically underserved areas, in frontier communities, and for medically underserved populations. TNGP grantees include in the network at least two (2) of the following entities (at least one (1) of which shall be a community-based health care provider: (a) community or migrant health centers or other federally qualified health centers; (b) health care providers, including pharmacists, in private practice; (c) entities operating clinics, including rural health clinics; (d) local health departments; (e) nonprofit hospitals, including community (critical) access hospitals; (f) other publicly funded health or social service agencies; (g) long-term care providers; (h) providers of health care services in the home; (i) providers of outpatient mental health services and entities operating outpatient mental health facilities; (j) local or regional emergency health care providers; (k) institutions of higher education; or (l) entities operating dental clinics; and (m) school based health centers/clinics. National Telehealth Resource Center Program (NTRC) and Regional Telehealth Resource Center Program (RTRC)- Health care providers in rural areas, in medically underserved areas, in frontier communities, and medically underserved populations. The TRCs must support the activities of existing or developing telehealth networks to meet the health care needs of rural or other populations to be served, including the improvement of access to services and the quality of the services received by those populations. American Indian and/or Alaska Native Tribal Organizations are eligible beneficiaries provided those organizations meet the beneficiary requirements above. Licensure Portability Grant Program (LPGP) - State professional licensing boards carry out programs under which licensing boards of various states cooperate to develop and implement state policies that will reduce statutory and regulatory barriers to telemedicine. State licensing boards, their members, and the general public are beneficiaries of the services conducted under this grant. Evidence-Based Tele-Emergency Network Grant Program (EB TNGP) - The Tele-Emergency Network shall include at least five members. Network members may include representation from the following categories: Hospitals, including community (critical) access hospitals; Local or regional emergency health care providers; Institutions of higher education with experience in data collection and analysis including but not limited to claims-level data; Medical research institutions; Tertiary providers with specialized experience in emergency medicine, stroke and the use of telehealth services in those clinical areas. The Rural Child Poverty Telehealth Network Grant Program (RCP-TNGP) - Health care providers serving rural areas and frontier communities. The RCP-TNGP Network shall include at least two (2) of the following entities (at least one of which shall be a community-based health care provider): Community or migrant health centers or other federally-qualified health centers; Health care providers, including pharmacists, in private practice; Entities operating clinics, including rural health clinics; Local health departments; Nonprofit hospitals, including community access hospitals; Other publicly funded health or human/social service agencies; Long-term care providers; Providers of health care services in the home; Providers

of outpatient mental health services and entities operating outpatient mental health facilities; Local or regional emergency health care providers; Institutions of higher education; and Entities operating dental clinics. If available in their area, applicants should consider partnering or collaborating with other federally-funded programs that target or have demonstrable effects on the health of impoverished children living in rural areas, including: USDA Cooperative Extension System Offices; Healthy Start; Healthy Tomorrow Partnership for Children; WIC; Maternal, Infant and Early Childhood Home Visitation programs; Head Start and Early Head Start; Temporary Assistance to Needy Families; Community Action Agencies; and other human/social service-focused providers. The Substance Abuse Treatment Telehealth Network Grant Program (SAT-TNGP) - The network must include at least two (2) of the following entities (at least one of which shall be a community-based health care provider): (a) Small hospital (defined as less than 50 available beds, as reported on the hospitals most recently filed Medicare Cost Report); (b) Community or migrant health centers or other federally-qualified health centers; (c) Health care providers, including pharmacists, in private practice; (d) entities operating clinics, including rural health clinics; (e) local health departments; (f) nonprofit hospitals, including community (critical) access hospitals; (g) other publicly funded health or social service agencies; (h) long-term care providers; (i) providers of health care services in the home; (j) providers of outpatient mental health services and entities operating outpatient mental health facilities; (k) local or regional emergency health care providers; (l) institutions of higher education; or (m) entities operating dental clinics. As noted in the Consolidated Appropriations Act 2017 (Public Law No. 115-31), preference will be given to networks that include small hospitals serving communities with high rates of poverty, unemployment, and substance abuse. The Telehealth Center of Excellence Program (COE) - Health care providers in rural areas, in medically underserved areas, in frontier communities, and medically underserved populations. The TRCs must support the activities of existing or developing telehealth networks to meet the health care needs of rural or other populations to be served, including the improvement of access to services and the quality of the services received by those populations.

Credentials/Documentation:

Applicants should review the individual HRSA notice of funding opportunity issued under this CFDA program for any required proof or certifications which must be submitted prior to or simultaneous with submission of an application package. 2 CFR 200, Subpart E - Cost Principles applies to this program. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is required. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review. An applicant should consult the office or official designated as the single point of contact in his or her state for more information on the process the state requires to be followed in applying for assistance, if the state has selected the program for review. There are two FORHP programs that require the respective State Offices of Rural Health to be notified that they are applying, which are the Regional Telehealth Resource Center Program (RTRC) and the National Telehealth Resource Center Program (NTRC). Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Applications are generally solicited by a notice of funding opportunity in the HRSA Preview. HRSA requires applicants (for new competitions) or awardees (for continuation applications) to submit applications electronically through Grants.gov. The program guidance contains detailed application and submission instructions, including information on the non-competitive continuation application and submission process. Awardees must

submit proposals according to the program guidance, which specifies required forms, contains additional general information and instructions for grant applications, including proposal narratives, and budgets. The program guidance, when available, may be obtained by: Downloading from <http://www.grants.gov>; or, Contacting the HRSA Grants Application Center: The Legin Group, Inc., 910 Clopper Road, Suite 155 South Gaithersburg, MD 20878, Telephone: 877-477-2123, HRSA@grants.gov. Application information may also be found by visiting <http://www.hrsa.gov/grants/default.htm>. All qualified applications will be forwarded to an objective review committee. Based on the advice of the objective review committee, the HRSA program official with delegated authority is responsible for final selection and funding decisions.

Award Procedure:

For FY 2017, new competitions for the NTRC, RTRC, SUD-TNGP and COE will be conducted. All final funding decisions are made by the Associate Administrator, Federal Office of Rural Health Policy, Health Resources and Services Administration, based on recommendations made by the Director, Office for the Advancement of Telehealth. No new competitions are currently planned for FY2018. Notification is made in writing by a Notice of Award.

Formula and Matching Requirements:

Statutory formula is not applicable to this assistance listing. Matching requirements are not applicable to this assistance listing. MOE requirements are not applicable to this assistance listing.

Length and Time Phasing of Assistance:

Programs are competed every three to four years. Projects awarded under a competition must complete a non-competing continuation application every year to release funds for the following budget period. Method of awarding/releasing assistance: other

Reports:

Six-month Progress Reports are required. The awardee will be required to submit performance and progress reports as well as status-federal financial reports (see the program announcement and notice of award for details for each required report). The awardee must submit a quarterly electronic Federal Financial Report (FFR) Cash Transaction Report via the Payment Management System within 30 days of the end of each calendar quarter. A Federal Financial Report (SF-425) according to the following schedule:

<http://www.hrsa.gov/grants/manage/technicalassistance/federalfinancialreport/ffrsc/hedule.pdf>. A final report is due within 90 days after the project period ends. If applicable, the awardee must submit a Tangible Personal Property Report (SF-428) and any related forms within 90 days after the project period ends. New awards (Type 1) issued under this funding opportunity announcement are subject to the reporting requirements of the Federal Funding Accountability and Transparency Act (FFATA) of 2006 (Pub. L. 109282), as amended by section 6202 of Public Law 110252, and implemented by 2 CFR Part 170. Grant and cooperative agreement recipients must report information for each first-tier subaward of \$25,000 or more in federal funds and executive total compensation for the recipients and subrecipients five most highly compensated executives as outlined in Appendix A to 2 CFR Part 170 (FFATA details are available online at <http://www.hrsa.gov/grants/ffata.html>). Competing continuation awardees, etc. may be subject to this requirement and will be so notified in the Notice of Award.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. 93.213 Research and Training in Complementary and Integrative Health

National Center for Complementary and Integrative Health,

FEDERAL AGENCY:

NATIONAL INSTITUTES OF HEALTH, HEALTH AND HUMAN SERVICES, DEPARTMENT OF AUTHORIZATION:

Public Health Service Act, Section 485D, Title VI, Section 601, Statue 112-2681-387, Public Law 105-277, 42 USC Code 281. 42 USC Code Chapter 6A Subchapter III Part E Subpart 5 287c21. Public Law 113-235, Section 224

OBJECTIVES:

To evaluate complementary and integrative health approaches. The following objectives support this goal: (1) coordinate and facilitate the investigation of complementary and integrative health approaches through peer-reviewed grant solicitations; (2) interface with the NCCIH National Advisory Council; (3) conduct technology assessment conferences for the purpose of establishing areas of Clinical and Pre-clinical research that need to be further developed within complementary health approaches; and (4) maintain a comprehensive bibliographic data base in conjunction with the National Library of Medicine. The National Center for Complementary and Integrative Health (NCCIH) regularly examines and redefines its research priorities. In setting research priorities, NCCIH considers its existing research portfolio, its 5-year strategic plan, the recommendations of the National Advisory Council for Complementary and Integrative Health, current scientific advances, the plans of other NIH institutes and centers, and input from expert panels and stakeholders. Research constituting a rigorous evidence base for complementary health approaches will be developed through a range of research strategies including basic and translational research, and clinical investigation. Priority setting also takes into account: 1) scientific promise, 2) amenability to rigorous scientific inquiry, 3) potential to change health practices, and 4) relationship to use and practice. Research Approaches Basic, translational, efficacy and effectiveness research for Complementary and Integrative Health approaches need to be studied across the continuum of basic, translational, efficacy, and effectiveness research. NCCIH continues to emphasize basic research that defines biological effects and mechanisms of action; NCCIH's basic research is aimed at understanding the nature of complementary health approaches such as their biology, physiology, and physical, chemical and behavioral properties. NCCIH also supports the development of tools, models, and methodologies for studying these approaches. NCCIH continues to encourage efficacy studies to determine specific clinical effects of complementary health approaches under carefully controlled conditions that minimize nonspecific and contextual effects. There is also the need to strengthen translational and preliminary clinical research required to design and implement definitive clinical research and "real world" outcomes and effectiveness research that capitalizes on the reality that many complementary health approaches are in widespread public use. NCCIH's support of translational research addresses the need for valid, reliable and relevant research tools, outcome measures, and innovative methodology to enhance the rigor of complementary health approaches within clinical studies and to ensure that they are maximally informative. NCCIH emphasizes studies that inform the design of future trials such as those that will: develop and validate outcome measures; standardize treatment protocols or algorithms; validate treatment algorithms and/or; develop measures of quality control or treatment fidelity; assess effects of various doses or intervention durations; develop preliminary clinical evidence regarding efficacy and safety to support estimates of sample size; or establish feasibility of interventions or study designs in specific populations for future studies. NCCIH's clinical research portfolio utilizes clinical trial, case-control, observational, cohort, qualitative, and other experimental methodologies to determine safety and estimate the efficacy of complementary health approaches. The clinical research portfolio includes effectiveness studies of the contribution to improved health and wellness made by complementary health approaches as they are practiced in "real-world" settings. In general phase III clinical trials will be supported under the cooperative agreement mechanism after careful consideration by NCCIH Staff. Investigators interested in proposing phase III studies are strongly encouraged to contact a relevant NCCIH

ASSISTANCE LISTINGS DESCRIPTIONS

Program Officer (<https://nccih.nih.gov/tools/emailprogramofficers>) Areas of Special Interest Fundamental scientific inquiry is essential to the progress of biomedicine by enhancing the understanding of how living systems work. This understanding serves as a foundation for translational and clinical studies that can lead to improved approaches to the management, treatment, and prevention of diseases and symptoms. One key goal is to advance our understanding of basic biological mechanisms of action of natural products including prebiotics and probiotics. NCCIH will continue to sponsor research on compounds isolated from natural products as well as complex mixtures from which they originate. Additionally, NCCIH will continue to support research to elucidate the effects of prebiotics and probiotics on the microbiota naturally present in the human body. Another key goal is to advance our understanding of the mechanisms through which mind and body approaches such as meditation, spinal manipulation, massage, yoga, tai chi, hypnosis and acupuncture affect health, resiliency, and well-being. A third key goal is to develop new and improved research methods and tools for conducting rigorous studies of complementary health approaches and their integration into health care. These new methods could catalyze advances in natural product methodology and support development of novel technology and instruments to carry out rigorous research on symptom management and functional changes primarily for mind and body approaches. To improve care for hard -to-manage symptoms such as pain, anxiety, and depression, both mind and body practices and natural products will be rigorously studied using well-established methodology. NCCIH will also support studies in "real world" clinical settings to test the safety and efficacy of complementary health approaches, including their integration into health care. Individual behavior plays a key role in health promotion and disease prevention. It is well established that adopting and maintaining healthy behaviors (diet and exercise) and modifying unhealthy behaviors reduces risks of major chronic diseases. NCCIH will investigate mechanisms of action of complementary and integrative health approaches in health resilience and practices that improve health and prevent disease. These approaches will be studied across the lifespan and in diverse populations. NCCIH will also explore research opportunities to study and access the safety and efficacy of complementary health approaches in nonclinical settings such as community- and employer-based wellness programs. Top Scientific Priorities The top scientific priorities include the nonpharmacologic management of pain, neurobiological effects and mechanisms, innovative approaches for establishing biological signatures of natural products, disease prevention and health promotion across the lifespan, and clinical trials utilizing innovative study designs to access complementary health approaches and their integration into health care. Pain is the condition for which adults in the United States most often use complementary and integrative health approaches. Growing evidence indicates that some complementary health approaches may help in its treatment and management. Discovering the mechanisms by which a complementary approach exerts its effects could help in the design of better treatments and predict which people are most likely to respond. Whether and how complementary health approaches directly modulate or modify the structure and/or the function of the entire or part of the nervous system remains understudied. Advances in genomics, neuroscience, stem cells, systems biology, and neuroimaging offer excellent conceptual resources and opportunities for innovative and impactful mechanistic studies of complementary health approaches. The purpose of innovative approaches for establishing biological signatures of natural products is to advance the characterization of the biologic activity of complex natural products broadly with an emphasis on determining metabolic profiles. There has been a growing interest in the use of complementary health approaches for the prevention of mental, emotional, and behavioral disorders and for the promotion of psychological and physical health, well-being, and resilience. However, the evidence for the use of complementary modalities in the context of prevention and health promotion is modest. Rigorously designed, developmentally appropriate studies are needed to determine the efficacy and effectiveness of complementary health approaches for health promotion and disease prevention across the lifespan. Early Stage and New Investigators NCCIH is strongly committed to assisting new and early stage investigators in establishing a research career. Early stage investigators are those within 10 years of completing their terminal research degree, or their medical residency, or its equivalent. New investigators are those who have yet to compete successfully for a substantial (e.g., R01) NIH research grant. Each Advisory Council round, based on available funds, NCCIH: 1) will consider early stage or new investigator status as one of the criteria for designating grant applications as being of high program priority and 2) may make additional R01 grant awards to new and early stage investigators with

percentiles or scores out of pipeline order. NCCIH continues to accept applications in areas not listed as a specific priority area via the investigator initiated funding opportunities. All investigators are urged to discuss potential applications with the relevant NCCIH Program Officer

(<https://nccih.nih.gov/tools/emailprogramofficers>)

TYPES OF ASSISTANCE:

Project Grants, Training

USES AND USE RESTRICTIONS:

Research Grants provide funds for salaries, equipment, supplies, travel, and other expenses associated with scientific investigation relevant to program objectives. Individual National Research Service Awards (NRSA) are made to individuals for research training in specified biomedical shortage areas. In addition, grants may be made to institutions to enable them to make NRSA to individuals selected by them. Each individual who receives a NRSA is obligated upon termination of the award to comply with certain service and payback provisions. Small Business Innovation Research (SBIR) Phase I grants (of approximately 6-months' duration) are to establish the technical merit and feasibility of a proposed research effort that may lead to a commercial product or process. Phase II grants are for the continuation of the research initiated in Phase I that are likely to result in commercial products or processes. Only Phase I awardees are eligible to receive Phase II support. Small Business Technology Transfer (STTR) Phase I grants (normally of 1-year duration) are to determine the scientific, technical, and commercial merit and feasibility of the proposed cooperative effort that has potential for commercial application. Phase II funding is based on results of research initiated in Phase I and scientific and technical merit and commercial potential on Phase II application.

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals); Public nonprofit institution/organization (includes institutions of higher education and hospitals); Individual/Family; Small business (less than 500 employees); Private nonprofit institution/organization (includes institutions of higher education and hospitals); Universities, colleges, hospitals, laboratories, and other public or private nonprofit domestic institutions, including State and local units of government, and individuals are eligible to make application for grant support of research by a named principal investigator or a research career development candidate. For-profit organizations are also eligible, with the exception of NRSA. Individual NRSA awardees must be nominated and sponsored by a public or nonprofit private institution having staff and facilities appropriate to the proposed research training program. All NRSA awardees must be citizens or have been admitted to the United States for permanent residence. To be eligible, predoctoral candidates must have completed the baccalaureate degree, and postdoctoral awardees must have a professional or scientific degree (M.D., Ph.D., D.D.S., D.O., ND, DC, D.V.M., Sc.D., D.Eng., or equivalent domestic or foreign degree). SBIR grants can be awarded only to domestic small businesses (entities that are independently owned and operated for profit, are not dominant in the field in which research is being proposed and have no more than 500 employees). Primary employment (more than one-half time) of the principal investigator must be with the small business at the time of award and during the conduct of the proposed project. In both Phase I and Phase II, the research must be performed in the U.S. or its possessions. STTR grants can be awarded only to domestic small business concerns (entities that are independently owned and operated for profit, are not dominant in the field in which researches proposed and have no more than 500 employees) which "partner" with a research institution in cooperative research and development. At least 40 percent of the project is to be performed by the small business concern and at least 30 percent by the research institution. In both Phase I and Phase II, the research must be performed in the U.S. and its possessions. To be eligible for funding, a grant application must be approved for scientific merit and program relevance by a scientific review group and a national advisory council.

Beneficiary Eligibility:

Specialized group (e.g. health professionals, students, veterans); Profit organization; Private nonprofit institution/organization; Student/Trainee; Scientist/Researchers; State; Local; Public nonprofit institution/organization; Any nonprofit or for-profit organization, company, or institution engaged in biomedical research.

ASSISTANCE LISTINGS DESCRIPTIONS

Credentials/Documentation:

Each applicant for research projects must present a research plan and furnish evidence that scientific competence, facilities, equipment, and supplies are appropriate to carry out the plan. For SBIR and STTR grants, the applicant organization (small business concern) must present in a research plan an idea that has potential for commercialization and furnish evidence that scientific competence, experimental methods, facilities, equipment, and funds requested are appropriate to carry out the plan. Individual NRSA applications for postdoctoral training must include the candidate's academic record, research experience, citizenship, institutional sponsorship, and the proposed area and plan of training. Institutional Training grant applications for predoctoral and postdoctoral training must show the objectives, methodology and resources for the research training program; the qualifications and experience of directing staff; the criteria to be used in selecting individuals for stipend support; and a detailed budget and justification for the amount of grant funds requested. For-profit organizations' costs are determined in accordance with Subpart 31.2 of the Federal Acquisition Regulations. For other grantees, costs will be determined in accordance with HHS Regulations 45 CFR, Part 74, Subpart Q. Grant form PHS 398 is used to apply for SBIR and STTR Phase I Phase II and Phase I/Phase II Fast Track. OMB Circular No. A-87 applies to this program. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Pre-application coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Research grants: Single project grant applications must be prepared electronically through grants.gov (<http://www.grants.gov>) using the SF 424 (Research and Research-Related) and PHS 398 instructions. Multi-project grant applications must be submitted through the A.S.S.I.S.T (Application Submission System & Interface for Submission Tracking) system. Individual funding opportunity announcements will indicate the appropriate application format to be used. A listing of NCCIH and other funding opportunities can be found through the NCCIH web site (<http://www.nccih.nih.gov/grants/funding>), through the Grants.gov web site (<http://www.grants.gov/>), or on the NIH Guide to Grants and Contracts (<http://grants1.nih.gov/grants/guide/index.html>). For applications that require the PHS 398, the most recent version of the form and instructions are available at <http://grants.nih.gov/grants/funding/phs398/phs398.html> in an interactive format. Electronic applications are submitted through the Grants.gov website. Completed PHS 398 applications should be submitted to the National Institutes of Health, Center for Scientific Review, 6701 Rockledge Drive, Room 1040 - MSC 7710, Bethesda, MD 20892-7710 or Bethesda, MD 20817 (for express/courier service). For assistance contact GrantsInfo, Telephone: (301) 435-0714, Email: GrantsInfo@nih.gov. National Research Services Awards: Completed application forms should be submitted to the Office of Research Manpower, Center for Scientific Review, Grants, National Institutes of Health, Bethesda, MD 20892. This program is subject to the provisions of 45 CFR, Part 92 for State and local governments and OMB Circular No. A-110 for nonprofit organizations. SBIR and STTR Grant Solicitations and SBIR Contract Solicitation may be obtained electronically through the NIH's "Small Business Research Funding Opportunities" web page at <http://grants1.nih.gov/grants/funding/sbir.htm>. A limited number of hard copies of these publications are produced. Subject to availability, they may be obtained by contacting the NIH support services contractor: Telephone: (301) 206-9385; Fax: (301) 206-9722; E-mail: a2y@cu.nih.gov. The Solicitations include submission procedures, review considerations, and grant application or contract proposal forms. SBIR and STTR grant applications should be submitted to the Center for Scientific Review, 6701 Rockledge Drive, Room 1040 - MSC 7710, Bethesda, MD 20892-7710. Application forms for SBIR and STTR grants may be obtained through the SBIR/STTR funding announcements posted on the Grants.gov sites and the NIH Guide to Grants and Contracts (see URLs listed above). All SBIR and STTR applications must be submitted electronically. Electronic applications are submitted through the Grants.gov website. This program is subject to the provisions of 45 CFR Part 92 for State and local governments, OMB Circular No. A-110 for nonprofit organizations, cost principles of A-21 for educational institutions, and 42 CFR Part 42.

Award Procedure:

Award Procedure: All accepted applications are evaluated for scientific and technical merit by an appropriate scientific peer review panel and by a national advisory council or board. All applications receiving a priority score ranging from the best (10) to worst (90) compete for available funds based on scientific merit, program relevance, and program balance and are made annually. Initial award provides funds for the first budget period (usually 12 months) and Notice of Grant Award (Form PHS 1533) indicates support recommended for remainder of project period, allocation of Federal funds by budget categories, and special conditions, if any. . All accepted SBIR/STTR applications are evaluated for scientific and technical merit by an appropriate scientific peer review panel and by a national advisory council or board. All applications receiving a priority score compete for available SBIR/STTR set-aside funds on the basis of scientific and technical merit and commercial potential of the proposed research, program relevance, and program balance among the areas of research

Deadlines:

Contact the headquarters or regional location, as appropriate for application deadlines.

Range of Approval/Disapproval Time:

Other. Overall from 120 to 300 days. Research Grants and Cooperative Agreements: Approximately 6-10 months; National Service Research Awards: 6-9 months; SBIR/STTR awards 6-7 months.

Appeals:

Other. A Program Director/Principal Investigator (PD/PI) may question the substantive or procedural aspects of the review of his/her application by submitting an appeal. An appeal is a written communication from a PD/PI and/or applicant institution that meets the following four criteria: 1) is received after issuance of the summary statement and up to 30 calendar days after the second level of peer review, 2) describes a flaw or perceived flaw in the review process for a particular application, 3) is based on one or more of four allowable issues (described below), and 4) displays concurrence from the Authorized Organization Representative (AOR). The four allowable issues are (1) evidence of bias on the part of one or more peer reviewers; (2) conflict of interest, as specified in regulation at 42 CFR 52h.5. Scientific Peer Review of Research Grant Applications and Research and Development Contract Projects, on the part of one or more peer reviewers; (3) lack of appropriate expertise within the SRG; and (4) factual error(s) made by one or more reviewers that could have altered the outcome of review substantially. A description of the NIH Peer Review Policy and Procedures is available at <http://grants.nih.gov/grants/guide/notice-files/NOT-OD-11-064.html>.

Renewals:

Other. Research grants: renewals by competitive application and review. Extension by request and administrative action. National Research Service Awards: individual awards may be made for 1, 2, or 3 years. No individual may receive NIH fellowship support at the postdoctoral level for more than 3 years.

Formula and Matching Requirements:

Statutory formula is not applicable to this assistance listing. Matching requirements are not applicable to this assistance listing. MOE requirements are not applicable to this assistance listing.

Length and Time Phasing of Assistance:

Project Grants: Awards are usually made for a 12-month period with recommendation of up to 4 years of additional support. SBIR: Normally, Phase I awards are for 6 months; normally, Phase II awards are for 2 years. STTR: Normally, Phase I awards are for 1 year; normally, Phase II awards are for 2 years. See the following for information on how assistance is awarded/released: The Notice of Award (NoA) is the legal document issued to notify the grantee that an award has been made and that funds may be requested from the designated HHS payment system or office. An NoA is issued for the initial budget period. If subsequent budget periods are also approved, the NoA will include a reference to those budgetary commitments. Funding for subsequent budget periods are generally provided in annual increments following the annual assessment of progress. This funding is also contingent on the availability of funds. The NoA includes all applicable terms of award either by reference or specific statements. It provides contact information for the assigned program officer and grants management specialist. The grantee accepts an NIH award and its associated terms and conditions by drawing or requesting funds from the Payment Management System, or upon the endorsement of a check from the US Treasury for foreign

awardees Method of awarding/releasing assistance: lump sum.

Reports:

Final progress reports must be submitted within 90 days after the expiration of the award. The progress reported in a competitive renewal application may be accepted in lieu of a final progress report. The final progress report should include (at a minimum): summary of progress toward the achievement of the originally stated aims; list of results (positive or negative) considered significant; list of publications resulting from the project as well as plans for further publications' and copies of manuscripts that have been accepted for publication, but not yet published. Project Grants: Expenditures and other financial records, including documents supporting accounting records and substantive charges to each grant, must be retained for 3 years from the day on which the grantee submits the last expenditure report for the report period. The Federal Financial Report (FFR) is due 120 days after the final day of the project period. NRSAs: Documentation of expenditures and other fiscal records must be kept readily available for examination by authorized Government personnel and must be retained for 3 years from the day on which the grantee submits the last expenditure report for the report period. Reports are required after termination of NRSAs to ascertain compliance with service and payback provisions. Expenditure reports on a quarterly basis are sent to the data warehouse

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503 For specific audit requirements, please see 45 CFR 75.

Records:

Grantees generally must retain financial and programmatic records, supporting documents, statistical records, and all other records that are required by the terms of a grant, or may reasonably be considered pertinent to a grant, for a period of 3 years from the date the annual financial status reports (FSR) is submitted. For awards under the Streamlined Non-competing Award Process (SNAP) (other than those to foreign organizations and Federal institutions), the 3-year retention period will be calculated from the date the FSR for the entire competitive segment is submitted. Those grantees must retain the records pertinent to the entire competitive segment for 3 years from the date the FSR is submitted to NIH. Foreign organizations and Federal institutions must retain records for 3 years from the date of submission of the annual FSR to NIH. See 45 CFR 75 for exceptions and qualifications to the 3-year retention requirement (e.g., if any litigation, claim, financial management review, or audit is started before the expiration of the 3-year period, the records must be retained until all litigation, claims, or audit findings involving the records have been resolved and final action taken). Those sections also specify the retention period for other types of grant-related records, including F&A cost proposals and property records. See 45 CFR 75 for record retention and access requirements for contracts under grants. In accordance with 45 CFR 75 the HHS Inspector General, the U.S. Comptroller General, or any of their duly authorized representatives have the right of timely and unrestricted access to any books, documents, papers, or other records of recipients that are pertinent to awards in order to make audits, examinations, excerpts, transcripts, and copies of such documents. This right also includes timely and reasonable access to a recipients personnel for the purpose of interview and discussion related to such documents. The rights of access are not limited to the required retention period, but shall last as long as records are retained

CRITERIA FOR SELECTING PROPOSALS:

The major elements in evaluating proposals include assessments of: (1) the scientific merit innovation and general significance of the proposed study and its objectives; (2) the technical adequacy of the experimental design and approach; (3) the competency of the proposed investigator or group to successfully pursue the project; (4) the adequacy of the available and proposed facilities and resources; (5) the necessity of the budget components requested in relation to the proposed project; (6) the relevance and importance to the announced program objectives and when applicable, and (7) the adequacy of assurances detailing the proposed means for safeguarding human or animal subjects. The following criteria will be used in considering the scientific and technical merit of SBIR/STTR Phase I grant applications: (1) The soundness and technical merit of the proposed approach; (2) the qualifications of the proposed principal investigator, supporting staff, and consultants; (3) the technological innovation of the proposed research; (4) the potential of the proposed research for commercial application; (5) the appropriateness of the budget requested; (6) the adequacy and suitability of the facilities and research environment; and (7) where applicable, the adequacy of assurances detailing the proposed means for (a) safeguarding human or animal subjects, and/or (b) protecting against or minimizing any adverse effect on the environment. Phase II grant applications will be reviewed based upon the following criteria: (1) The degree to which the Phase I objectives were met and feasibility demonstrated; (2) the scientific and technical merit of the proposed approach for achieving the Phase II objectives; (3) the qualifications of the proposed principal investigator, supporting staff, and consultants; (4) the technological innovation, originality, or societal importance of the proposed research; (5) the potential of the proposed research for commercial application; (6) the reasonableness of the budget requested for the work proposed; (7) the adequacy and suitability of the facilities and research environment; and (8) where applicable, the adequacy of assurances detailing the proposed means for (a) safeguarding human or animal subjects, and/or (b) protecting against or minimizing any adverse effect on the environment.

93.217 Family Planning Services

Family Planning Services,

FEDERAL AGENCY:

OFFICE OF POPULATION AFFAIRS, HEALTH AND HUMAN SERVICES,
DEPARTMENT OF

ASSISTANCE LISTINGS DESCRIPTIONS

AUTHORIZATION:

Title X Statute and Regulations: Requirements regarding the provision of family planning services under Title X can be found in the statute (Title X of the Public Health Service Act, 42 U.S.C. 300 et seq.) and in the implementing regulations which govern project grants for family planning services (42 CFR part 59, subpart A.), 42 USC Code 300 et seq..

OBJECTIVES:

To establish and operate voluntary family planning services projects, which shall provide family planning services to all persons desiring such services, with priority for services to persons from low-income families. These projects will serve the areas and/or populations within the United States, Washington DC, Puerto Rico, the US Virgin Islands, and the six pacific jurisdictions.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

Grants must be used for family planning services including contraceptive services, infertility services and special services to adolescents. Family planning services include information on all medically approved methods of contraception including natural family planning methods; counseling services, physical examinations including cancer detection and laboratory tests; STD and HIV prevention education, screening and referral; contraceptive supplies, and periodic follow-up examinations. Infertility services include assessment, information, education, and arrangements for referral if necessary. Special services to adolescents include in-depth information, education including abstinence education counseling, and referral to and from other social and medical service agencies, and such ancillary services as are necessary to facilitate clinic attendance for adolescents who need contraceptive services. These family planning services must be available without coercion and with respect for the privacy, dignity, social and religious beliefs of the individuals being served. To the extent possible, entities which receive grants under this subsection shall encourage family participation in projects assisted under this subsection. Priority in the provision of services will be given to persons from low-income families.

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals); Public nonprofit institution/organization (includes institutions of higher education and hospitals); Other public institution/organization; U.S. Territories and possessions (includes institutions of higher education and hospitals); Private nonprofit institution/organization (includes institutions of higher education and hospitals); Any public (including city, county, local, regional, or State government) entity or nonprofit private entity located in a State (including the District of Columbia, Puerto Rico, Guam, the Commonwealth of the Northern Mariana Islands, American Samoa, the Virgin Islands, the Federated States of Micronesia, the Republic of Marshall Islands and the Republic of Palau) is eligible to apply for a grant. Faith based organizations are eligible to apply.

Beneficiary Eligibility:

Individual/Family; Low Income; Persons who desire family planning services and who would not otherwise have access to them. Priority to be given to persons from low-income families. Individuals from other than low-income families will be charged a fee in accordance with an established fee schedule although inability to pay must not be a deterrent to services.

Credentials/Documentation:

A nonprofit private entity must provide evidence of its nonprofit status. Allowability of costs charged to the grant will be determined in accordance with the following cost principles: OMB Circular No. A-21 for educational institutions, OMB Circular No. A-87 for state and local governments, and OMB Circular No. A-122 for non-profit organizations. OMB Circular No. A-87 applies to this program. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit

Requirements for Federal Awards applies to this program. OMB Circular No. A-102 applies to this program. OMB Circular No. A-110 applies to this program.

Applications must be submitted through grants.gov. The standard application forms, as furnished by PHS and required by 45 CFR 74 (for institutions of higher education, hospitals, and other non-profit organizations), and 45 CFR 92 (for state and local governments) must be used for this program. This program is subject to the provisions of 45 CFR 74, 45 CFR 92, as well as OMB Circular No. A-102 (Administrative Guidelines for state and local governments) and OMB Circular No. A-110 (Administrative Guidelines for Institutions of Higher Education, Hospitals, and Other Nonprofit Organizations). Notice of Funding Opportunities (NOFO) for this listing will be posted on Grants.gov.

Award Procedure:

Applications will be screened upon receipt. Those that are judged to be ineligible will be returned to the applicant. Accepted applications will be evaluated by a technical review panel composed of independent experts. The final funding decision will be made by the Agency Director, who may take into consideration the recommendations of the review panel, programmatic needs, stated needs, geographic location and recommendations of DHHS personnel. All applicants will be notified in writing of actions taken on their applications. Applications that are approved and funded will be issued a Notice of Grant Award. The Deputy Assistant Secretary for Population Affairs (DASPA) or designee will make final award selections to be recommended to the Grants Management Officer for risk analysis. In making these decisions the DASPA or designee will take into consideration the following additional factors (these factors are subject to change based on the most recent Funding Opportunity Announcement FOA):a. The geographic distribution of services within the identified service area;b. The extent to which funds requested for a project maximize access for the population in need within the entire service area as announced in Table 1 (of the FOA);c. Whether the project, including sub-recipients and documented partners, provides the area to be served with a variety and breadth of effective family planning methods that are readily available and best serve individuals in need throughout the area to be served; and d. The extent to which projects best promote the purposes of Section 1001 of the Public Health Service Act, within the limits of funds available for such projects.

93.220 Clinical Research Loan Repayment Program for Individuals from Disadvantaged Backgrounds

(NIH Clinical Research Loan Repayment Program; CR LRP),

FEDERAL AGENCY:

NATIONAL INSTITUTES OF HEALTH, HEALTH AND HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

Public Health Service Act, Title IV, Part G, Section 41631, Public Law 100-43, 288-5

OBJECTIVES:

To recruit and retain health professionals from disadvantaged backgrounds to conduct clinical research at the National Institutes of Health (NIH) by providing for the repayment of educational loans for participants with substantial amounts of educational debt relative to income, who agree by written contract to engage in clinical research as employees of the NIH for a minimum two-year period.

TYPES OF ASSISTANCE:

Direct Payments for Specified Use, Project Grants

USES AND USE RESTRICTIONS:

To provide repayment of extant educational loans incurred by health professionals engaged, as employees of the NIH, in clinical research. Recipients must agree by written contract to engage in such research, initially, for a minimum of 2 years; individuals who have conflicting service obligations may not participate in this program until those obligations are satisfied or have been deferred during the period of program service. One-year continuation contracts are available, dependent upon the level of debt and continued involvement in clinical research. Maximum program benefit is \$35,000 per year in loan repayments and \$13,650 per year in Federal tax reimbursements. Recipients must have qualified educational debt in excess of 20 percent of their annual salary, which is referred to as their "debt threshold." An amount equal to half of this "debt threshold" will not be repaid by NIH and must be paid by the Program participants.

Applicant Eligibility:

Government - General; Federal; State (includes District of Columbia, public institutions of higher education and hospitals); U.S. Territories and possessions; Specialized group (e.g. health professionals, students, veterans); Eligible applicants must: (1) Be a citizen, national, or permanent resident of the United States; (2) possess a M.D., Ph.D., D.O., D.D.S., D.M.D., D.V.M., D.P.M., A.D.N., B.S.N., or equivalent degree; or hold the position of Physician Assistant; (3) come from a disadvantaged background as determined by the Secretary of Health and Human Services; (4) have qualified educational debt, which results from governmental or commercial loans obtained to support their undergraduate and/or graduate education, in excess of 20 percent of their annual NIH salary on the program eligibility date; (5) be appointed under any temporary or permanent employment mechanism in the Intramural Research Program of the NIH, so long as their employment has the potential to last a minimum of 2 years; (6) are not eligible to participate in the CR-LRP if they have an existing service obligation to Federal, State, or other entities, until such obligation is discharged or unless it is deferred during the period of program service; (7) submit an application to participate in the CR-LRP; and (8) sign and submit to the Secretary of Health and Human Services, at the time of agreeing to accept repayment of educational loans, a contract agreeing to engage in clinical research as an employee of the NIH for a minimum of 2 years.

Beneficiary Eligibility:

Federal; Specialized group (e.g. health professionals, students, veterans); State; Local; Public nonprofit institution/organization; Clinical researchers from disadvantaged backgrounds who have unpaid educational loans will benefit from this program.

Credentials/Documentation:

Applicants must submit documentation of the following, as appropriate: (1) Copies of loan applications and agreements from governmental or commercial educational loans which are being submitted for repayment; (2) copies of the standard student budget from each school attended during period when debt was incurred; (3) copies of recommendations, special skills, certifications, or other copies of loan documentation; (4) certification from the school(s) attended that the applicant qualified for participation in an educational assistance program for individuals from disadvantaged backgrounds which are sponsored by the Secretary of Health and Human Services or self-certification describing circumstances which qualify him/her under the Secretary's definition of an individual from a disadvantaged background; and (5) other documentation as may be required by law. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Pre-application coordination is not applicable.

ASSISTANCE LISTINGS DESCRIPTIONS

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Applicants must access and submit the Loan Repayment Program application electronically via the website www.lrp.nih.gov; seek qualified employment with a sponsoring Institute or Center (IC) of the NIH. Once an application has been submitted, the Loan Repayment Committee reviews it at a regularly scheduled review meeting and a determination of loan repayment recipients is made.

Award Procedure:

The NIH Loan Repayment Committee (LRC) will review, rank, and approve or disapprove applications recommended for program participation by each Institute or Center (IC). Applications approved for program participation by the LRC will be notified by the Program Director. The Secretary, or his designee, will sign the service contract of program participants, provide a copy to the participant, and notice of the amount of approved loan repayment.

Deadlines:

Contact the headquarters or regional location, as appropriate for application deadlines.

Range of Approval/Disapproval Time:

From 90 to 120 days. The approximate time for approval/disapproval is 3 months.

Appeals:

From 90 to 120 days. Employees of the NIH who are not approved as a result of this process may ask for reconsideration through the standard appeal procedures available to employees.

Renewals:

From 90 to 120 days. At the conclusion of the initial 2-year contract, participants may apply and be recommended for subsequent 1-year continuation contracts under the application and approval procedures specified above.

Formula and Matching Requirements:

Statutory formula is not applicable to this assistance listing. Matching requirements are not applicable to this assistance listing. MOE requirements are not applicable to this assistance listing.

Length and Time Phasing of Assistance:

Assistance is available for a minimum 2-year period. One-year, continuation contracts are available for individuals whose educational debt exceeds the maximum repayable amount for 2 years and whose renewal ranking scores within the funding range. Payments are made directly to lenders, following each quarter of the participant's satisfactory service, unless otherwise agreed upon by the participant and Secretary of Health and Human Services. Method of awarding/releasing assistance: quarterly

Reports:

Program participants must be certified quarterly as to having satisfactorily performed their research assignments.

Audits:

This program is excluded from coverage under 2 CFR 200, Subpart F - Audit Requirements.

Records:

The NIH will maintain applicant records for 3 years after rejection and participant records for 6 years after completion of final service obligation. Grantees generally must retain financial and programmatic records, supporting documents, statistical records, and all other records that are required by the terms of a grant, or may reasonably be considered pertinent to a grant, for a period of 3 years from the date the annual FSR is submitted. For awards under SNAP (other than those to foreign organizations and Federal institutions), the 3-year retention period will be calculated from the date the FSR for the entire competitive segment is submitted. Those grantees must retain the records pertinent to the entire competitive segment for 3 years from the date the FSR is submitted to NIH. Foreign organizations and Federal institutions must retain records for 3 years from the date of submission of the annual FSR to NIH. See 45 CFR 74.53 and 92.42 for exceptions and qualifications to the 3-year retention requirement (e.g., if any litigation, claim, financial management review, or audit is started before the expiration of the 3-year period, the records must be retained until all litigation, claims, or audit findings involving the records have been resolved and final action taken). Those sections also specify the retention period for other types of grant-related records, including

F&A cost proposals and property records. See 45 CFR 74.48 and 92.36 for record retention and access requirements for contracts under grants. In accordance with 45 Code of Federal Regulations, Part 74.53(e), the HHS Inspector General, the U.S. Comptroller General, or any of their duly authorized representatives have the right of timely and unrestricted access to any books, documents, papers, or other records of recipients that are pertinent to awards in order to make audits, examinations, excerpts, transcripts, and copies of such documents. This right also includes timely and reasonable access to a recipients personnel for the purpose of interview and discussion related to such documents. The awardee will be required to submit performance and progress reports as well as status-federal financial reports (see the program announcement and notice of award for details for each required report). The awardee must submit a quarterly electronic Federal Financial Report (FFR) Cash Transaction Report via the Payment Management System within 30 days of the end of each calendar quarter. A Federal Financial Report (SF-425) according to the following schedule: <http://www.hrsa.gov/grants/manage/technicalassistance/federalfinancialreport/ffrsc-hedule.pdf>. A final report is due within 90 days after the project period ends. If applicable, the awardee must submit a Tangible Personal Property Report (SF-428) and any related forms within 90 days after the project period ends. New awards (Type 1) issued under this notice of funding opportunity are subject to the reporting requirements of the Federal Funding Accountability and Transparency Act (FFATA) of 2006 (Pub. L. 109282), as amended by section 6202 of Public Law 110252, and implemented by 2 CFR Part 170. Grant and cooperative agreement recipients must report information for each first-tier subaward of \$25,000 or more in federal funds and executive total compensation for the recipients and subrecipients five most highly compensated executives as outlined in Appendix A to 2 CFR Part 170 (FFATA details are available online at <http://www.hrsa.gov/grants/ffata.html>). Competing continuation awardees, etc. may be subject to this requirement and will be so notified in the Notice of Award.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503

Records:

Awardees are required to maintain grant accounting records for 3 years after the date they submit the Federal Financial Report (FFR). If any litigation, claim, negotiation, audit, or other action involving the award has been started before the expiration of the 3-year period, the records shall be retained until completion of the action and resolution of all issues which arise from it, or until the end of the regular 3-year period, whichever is later.

93.225 National Research Service Awards Health Services Research Training

FEDERAL AGENCY:

AGENCY FOR HEALTHCARE RESEARCH AND QUALITY, HEALTH AND HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

Consolidated Appropriations Act, 2018, Public Law 115-1401

OBJECTIVES:

To provide predoctoral and postdoctoral training opportunities in health services research. Individual fellowships will be awarded directly to applicants for postdoctoral research training. Domestic institutions will also be awarded grants to enhance predoctoral and postdoctoral training programs and provide support to trainees selected by them. The purpose of these awards is to provide fellows and trainees with both academic training and actual experience in the application of research methods to the systematic analysis and evaluation of the organization, financing, utilization, and delivery of health care services.

TYPES OF ASSISTANCE:

Training

USES AND USE RESTRICTIONS:

Fellowship support is available for full-time health services research training. An institutional allowance is provided to the sponsoring institution for each fellow. Also, research training grants are awarded to institutions to provide support to trainees selected by the training program director at the grantee institution. This support is available for predoctoral and postdoctoral trainees. Offsets for tuition and fees are allowable for trainees, and an amount for training related expenses will be provided. Indirect costs are not allowed for Fellowships. For training grants, indirect costs are capped at 8% MTDC. Postdoctoral fellows and trainees in the first 12 months of postdoctoral NRSA support incur one month of payback obligation for each month of support. The thirteenth and subsequent months of postdoctoral NRSA support are considered payback service for prior postdoctoral support. Predoctoral fellows and trainees do not incur a service payback obligation.

Applicant Eligibility:

Public nonprofit institution/organization (includes institutions of higher education and hospitals); Private nonprofit institution/organization (includes institutions of higher education and hospitals); Domestic public or private nonprofit organizations or institutions may apply for training grants. The applicant institutions must have or expand training programs designed to develop competent investigators in the methods and techniques of conducting health services research. Profit-making organizations are not eligible. Individual applicants for postdoctoral fellowships must have received a clinical or research doctoral degree. All persons supported as fellows or trainees must be citizens or noncitizen nationals of the United States, or have been lawfully admitted for permanent residence.

Beneficiary Eligibility:

Public nonprofit institution/organization; Private nonprofit institution/organization; Individuals and public or private nonprofit organizations or institutions are the beneficiaries of this program.

Credentials/Documentation:

An individual applicant for a postdoctoral fellowship must document receipt of a doctoral degree and acceptance by an appropriate institutional sponsor. Institutional applicants for training grants must document their research and training experiences, staff, curriculum, facilities, and other resources available. Costs will be determined in accordance with HHS Regulations 45 CFR Part 75. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

ASSISTANCE LISTINGS DESCRIPTIONS

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Information about health services research areas being supported is available from AHRQ. Individual fellowship applicants and institutions should submit Form SF 424 R&R. Notice of Funding Opportunities (NOFO) for this listing will be posted on Grants.gov.

Award Procedure:

Applications are reviewed for scientific merit by a committee including nonfederal consultants who are selected from appropriate scientific fields. AHRQ considers the recommendations of the review committee, program interest, and the availability of funds in the final selection of grantees. When such decisions are made, applicants are notified and a Notice of Award is issued. Before receiving support, all individual fellows and institutional postdoctoral trainees must submit required forms, including a payback agreement.

Deadlines:

Contact the headquarters or regional location, as appropriate for application deadlines.

Range of Approval/Disapproval Time:

>180 Days.

Appeals:

Not Applicable.

Renewals:

Other. If additional support is desired to continue a grant beyond the approved project period, an application for competing continuation must be submitted for review in the same manner as a new application. Generally, no individual may receive more than 3 years of aggregate National Research Service Award support at the postdoctoral level, or 5 years at the predoctoral level, including any combination of support from institutional and individual awards.

Formula and Matching Requirements:

Statutory formula is not applicable to this assistance listing. Matching requirements are not applicable to this assistance listing. MOE requirements are not applicable to this assistance listing.

Length and Time Phasing of Assistance:

Generally, no individual may receive more than 3 years of aggregate National Research Service Award support at the postdoctoral level, or 5 years at the predoctoral level, including any combination of support from institutional and individual awards. Institutional training grants may be awarded for project periods up to 5 years. Awards are made on an annual basis and it is expected that obligations will be made within the budget period awarded. After awards are issued, funds are released in accordance with the payment procedure established by the grantee with DHHS, which may be an Electronic Transfer System or a Monthly Cash Request system. Method of awarding/releasing assistance: lump sum.

Reports:

Grantees must submit quarterly SF425 reports to PSC. Annual and final progress reports are required. For Institutional Training Grants, a final progress report is due at the close of the project period. Annual reports of activities for tracking payback provisions are required of all fellows and trainees upon termination of support. Annual and final Federal Financial Reports (FFR; SF425) are required for Institutional National Research Service Awards. Annual FFRs must be submitted within 90 days after the end of the calendar quarter in which the budget period ends. The final FFR must be submitted within 90 days after the end date of the project period.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. In addition, grants records are subject to audit and inspection by Federal auditors.

Records:

Records must be retained for at least three years; records shall be retained beyond the three year period if audit findings have not been resolved. Records relating to individual payback obligations are retained for one year after the individual has fulfilled or has been excused from fulfilling the payback obligation.

Account Identification:

AUTHORIZATION:

Public Health Service Act, Title IX, Public Law 106-129, 42 USC Code 299 ff. Affordable Care Act, Public Law 111-148

OBJECTIVES:

To support research and evaluations, demonstration projects, research networks, and multidisciplinary centers and to disseminate information on health care and on systems for the delivery of such care involving: (1) The quality, effectiveness,

ASSISTANCE LISTINGS DESCRIPTIONS

efficiency, appropriateness and value of health care services; (2) quality measurement and improvement; (3) the outcomes, cost, cost-effectiveness, and use of health care services and access to such services; (4) clinical practice, including primary care and practice-oriented research; (5) health care technologies, facilities and equipment; (6) health care costs, productivity, organization, and market forces; (7) health promotion and disease prevention, including clinical preventive services; (8) health statistics, surveys, database development, and epidemiology; and (9) patient safety research, including healthcare-associated infections. In support of this research, the Agency has a special interest in health care and its delivery in the inner city, in rural areas, and for priority populations (low-income groups, minority groups, women, children, the elderly, and individuals with special health care needs).

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

The research should contribute to the health services knowledge base from which empirically based information can be derived by policymakers, both immediately and over the coming decades. Grants include funds for direct costs (such as personnel, travel, equipment, or supplies) necessary to carry out an approved project as well as funds for the reimbursement of applicable indirect costs (also referred to as facilities and administrative costs). Unallowable costs are indicated in the HHS Grants Policy Statement.

Applicant Eligibility:

Federal; State (includes District of Columbia, public institutions of higher education and hospitals); Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals; Public nonprofit institution/organization (includes institutions of higher education and hospitals); Federally Recognized Indian Tribal Governments; U.S. Territories and possessions (includes institutions of higher education and hospitals); Private nonprofit institution/organization (includes institutions of higher education and hospitals); Federal, State or local government agencies, federally-recognized Indian Tribal Governments, U.S. Territories, non-government organizations, public or private institutions of higher education, and other public or nonprofit private agencies, institutions, or organizations. For-profit organizations are eligible to apply for these grants only if "cooperative agreement" is the designated funding mechanism. Organizations described in section 501(c)4 of the Internal Revenue Code that engage in lobbying are not eligible.

Beneficiary Eligibility:

Federal; U.S. Territories; Specialized group (e.g. health professionals, students, veterans); Private nonprofit institution/organization; Anyone/general public; Native American Organizations; Consumer; State; Local; Public nonprofit institution/organization; Other public institution/organization; Federally Recognized Indian Tribal Governments; Federal, State or local government agencies, federally-recognized Indian Tribal Governments, public or private nonprofit institutions, U.S. territories, Native American organizations, consumers, students, minority groups, specialized groups, health or education professionals, individuals, scientist/researchers, and the general public.

Credentials/Documentation:

Nonprofit organizations must submit proof of their nonprofit status when applying for grants. Costs will be determined in accordance with DHHS Regulations 45 CFR 75. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Applications must be submitted in response to a Funding Opportunity Announcement (FOA). All FOAs are posted on www.Grants.gov. Refer to the FOA of interest for specific requirements regarding the application procedure. For State agencies, no State Plan is required. Applications are reviewed and evaluated by a group composed primarily of nonfederal scientists. The review is conducted by a panel of experts in the specific study area proposed. Notice of Funding Opportunities (NOFO) for this listing will be posted on Grants.gov.

Award Procedure:

Applications are reviewed for scientific merit by a committee including nonfederal consultants who are selected from appropriate scientific fields. AHRQ considers the recommendations of the review committee, program interest, and the availability of funds in the final selection of grant applications for funding. When such decisions are made, applicants are notified and a Notice of Award is issued.

Deadlines:

Contact the headquarters or regional location, as appropriate for application deadlines.

Range of Approval/Disapproval Time:

>180 Days.

Appeals:

Not Applicable.

Renewals:

Other. If additional support is desired to continue a project beyond the approved project period, an application for competing continuation must be submitted for review in the same manner as a new application.

Formula and Matching Requirements:

Statutory formula is not applicable to this assistance listing. Matching requirements are not applicable to this assistance listing. MOE requirements are not applicable to this assistance listing.

Length and Time Phasing of Assistance:

Grants may be approved for project periods of up to 5 years, depending on the grant program and based on the availability of funding. Refer to the FOA of interest for information regarding the maximum duration of the project period. Awards are made on an annual basis and it is expected that obligations will be made within the budget period awarded. After awards are issued, funds are released in accordance with the payment procedure established by the grantee institution with DHHS, which may be an Electronic Transfer System or a Monthly Cash Request System. Method of awarding/releasing assistance: lump sum.

Reports:

Grantees must submit quarterly SF425 reports to PSC. Progress reports are required on an annual basis. Some programs also require quarterly progress reports. A final progress report must be submitted within 90 days after the end of a project period. Inventions are to be reported immediately. A Final Invention Statement must be submitted within 90 days after the end of a project period. An annual Federal Financial Report (FFR; SF425) must be submitted within 90 days after the end of the calendar quarter in which the budget period ends. A final FFR must be submitted within 90 days after the end of the project period.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. In addition, grants and cooperative agreements are subject to inspection and audits by DHHS and other Federal government officials.

Records:

Records must be retained for at least three years; records shall be retained beyond the three year period if audit findings have not been resolved.

Account Identification:

93.231 Epidemiology Cooperative Agreements

FEDERAL AGENCY:

INDIAN HEALTH SERVICE, HEALTH AND HUMAN SERVICES,
DEPARTMENT OF

AUTHORIZATION:

Indian Health Care Improvement Act, Public Law 94-437, 25 USC Code 1621m.

OBJECTIVES:

The purpose of this cooperative agreement program is to fund Tribes, Tribal and urban Indian organizations, and intertribal consortia to provide epidemiological support for the AI/AN population served by IHS. Tribal Epidemiological Center (TEC) activities should include, but are not limited to, enhancement of surveillance for disease conditions; research, prevention and control of disease, injury, or

disability; assessment of the effectiveness of AI/AN public health programs; epidemiologic analysis, interpretation, and dissemination of surveillance data; investigation of disease outbreaks; development and implementation of epidemiologic studies; development and implementation of disease control and prevention programs; and coordination of activities with other public health authorities in the region. It is the intent of IHS to fund several TECs that will serve Tribes and urban Indian communities in all 12 IHS Administrative Areas.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

Grant funds may be used to develop and conduct activities to achieve at least one epidemiology programs in each of the 12 Areas of Indian country. The recipient activities will coordinate and participate in projects, investigations, or studies of national scope; and share surveillance and other data collected. IHS activities will convene workshops/meetings; provide technical assistance and consultation; provide training; conduct site visits; and coordinate all epidemiological activities on a national basis.

Applicant Eligibility:

Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals; Federally Recognized Indian Tribal Governments; Native American Organizations (includes Indian groups, cooperatives, corporations, partnerships, associations); AI/AN Tribes, Tribal organizations, and eligible intertribal consortia or urban Indian organizations as defined by 25 U.S.C. 1603(e) may be eligible for a TEC cooperative agreement. Such entities must represent or serve a population of at least 60,000 AI/AN to be eligible as demonstrated by Tribal resolutions or the equivalent documentation from urban Indian clinic directors/Chief Executive Officers (CEOs). Applicants must describe the population of AI/ANs and Tribes that will be represented. The number of AI/ANs served must be substantiated by documentation describing IHS user populations, United States Census Bureau data, clinical catchment data, or any method that is scientifically and epidemiologically valid. An intertribal consortium or urban Indian organization is eligible to receive a cooperative agreement if it is incorporated for the primary purpose of improving AI/AN health, and represents the Tribes, AN villages, or urban Indian communities in which it is located. Resolutions from each Tribe, AN village and equivalent documentation from each urban Indian community represented must be included in the application package. Collaborations with IHS Areas, Federal agencies such as the Centers for Disease Control and Prevention (CDC), State, academic institutions or other organizations are encouraged (letters of support and collaboration should be included in the application).

Beneficiary Eligibility:

Minority group; Native American Organizations; American Indian; Federally Recognized Indian Tribal Governments; Federally-recognized Indian Tribe will benefit from the Tribal Epidemiology Centers. Federally-recognized Indian Tribe means any Indian Tribe, band, nation, or other organized group or community, including any Alaska Native village or group or regional or village corporation as defined in or established pursuant to the Alaska Native Claims Settlement Act (85 Stat. 688) [43 U.S.C. 1601, et seq.], which is recognized as eligible for the special programs and services provided by the United States to Indians because of their status as Indians. 25 U.S.C. 1603 (d). Tribal organization means the elected governing body of any Indian Tribe or any legally established organization of Indians which is controlled by one or more such bodies or by a board of directors elected or selected by one or more such bodies or elected by the Indian population to be served by such organization and which includes the maximum participation of Indians in all phases of its activities. 25 U.S.C. 1603(e). Urban Indian organization means a non-profit corporate body situated in an urban center governed by an urban Indian controlled board of directors, and providing for the maximum participation of all interested Indian groups and individuals, which body is capable of legally cooperating with other public and private entities for the purpose of performing the activities. 25 U.S.C. 1603(h).

Credentials/Documentation:

The applicant must provide documentation of: (1) Nonprofit status; (2) tribal resolution(s); and (3) letters of support and collaboration with regional IHS, State, or university organizations. Costs will be determined in accordance with OMB Circular No. A-122 (nonprofit organizations), and applicable grant administration regulations 45 CFR 74 and 45 CFR 92. 2 CFR 200, Sub-part E - Cost Principles

93.232 Loan Repayment Program for General Research

(NIH General Research Loan Repayment Program; GR-LRP),

FEDERAL AGENCY:

NATIONAL INSTITUTES OF HEALTH, HEALTH AND HUMAN SERVICES,
DEPARTMENT OF

AUTHORIZATION:

Public Health Service Act, Title IV, Part VI, Section 487C, Public Law 100-43, 42 USC Code 288-3.

OBJECTIVES:

To recruit and retain health professionals performing research in fields required by the NIH to carry out its mission by providing educational loan repayment for participants with substantial amounts of educational debt relative to income, who agree by written contract to engage in laboratory or clinical research as employees of the NIH for a minimum 3-year period.

TYPES OF ASSISTANCE:

Direct Payments for Specified Use, Direct Payments for Specified Use

ASSISTANCE LISTINGS DESCRIPTIONS

(Cooperative Agreements)

USES AND USE RESTRICTIONS:

To provide repayment of extant educational loans incurred by health professionals engaged, as employees of the NIH, in laboratory or clinical research. Recipients must agree by written contract to engage in such research, initially, for a minimum of 3 years; individuals who have conflicting service obligations may not participate in this program until those obligations are satisfied or have been deferred during the period of program service. Continuation contracts for 1-year terms are available, dependent upon the level of debt and continued involvement in research that supports the research and institutional needs and the mission of the NIH. Maximum program benefit is \$35,000 per year in loan repayments and \$16,275 per year in Federal tax reimbursements. Recipients must have qualified educational debt in excess of 20 percent of their annual salary, which is referred to as their "debt threshold."

Applicant Eligibility:

Government - General; State (includes District of Columbia, public institutions of higher education and hospitals); U.S. Territories and possessions; Individual/Family; Federal; Eligible applicants must: (1) Be a citizen, national, or permanent resident of the United States; (2) possess a M.D., Ph.D., D.O., D.D.S., D.M.D., D.V.M., D.P.M., A.D.N., B.S.N., or equivalent degree, or hold the position of Physician Assistant; (3) have qualified educational debt, which results from governmental or commercial loans obtained to support their undergraduate and/or graduate education, in excess of 20 percent of their annual NIH salary on the program eligibility date; (4) be appointed to the NIH Intramural Research Program under any temporary or permanent employment mechanism, so long as the employment has the potential to last a minimum of three years; (5) not be under any existing service obligation to Federal, State, or other entities, until such obligation is discharged or unless it is deferred during the period of program service; (6) submit an application to participate in the Loan Repayment Program for General Research; and (7) sign and submit to the Secretary of Health and Human Services, at the time of application submission, a contract agreeing to engage in research as an employee of the NIH for a minimum of 3 years.

Beneficiary Eligibility:

Health Professional; Scientist/Researchers; NIH researchers who possess substantial unpaid educational debt relative to income will benefit from this program.

Credentials/Documentation:

Applicants must submit documentation of the following, as appropriate: (1) Copies of loan applications and agreements from government or commercial educational loans which are being submitted for repayment; (2) copies of the standard student budget from each school attended during the period in which the debt was incurred; and (3) other documentation as may be required. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Pre-application coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Applicants must access and submit the Loan Repayment Program application electronically via the website www.lrp.nih.gov; seek qualified employment with a sponsoring Institute or Center (IC) of the NIH. Once an application has been submitted, the Loan Repayment Committee reviews it at a regularly scheduled review meeting and a determination of loan repayment recipients is made.

Award Procedure:

The NIH Loan Repayment Committee (LRC) will review, rank, and approve or disapprove applications recommended for program participation by each Institute or Center (IC). Applications approved for participation by the LRC will be notified by the Program Director. The Secretary, or his designee, will sign the service contract of program participants, provide a copy to the participant, and notice of the amount of approved loan repayment.

Deadlines:

Contact the headquarters or regional location, as appropriate for application deadlines.

Range of Approval/Disapproval Time:

From 90 to 120 days. The approximate time for approval/disapproval is 3 months.

Appeals:

From 90 to 120 days. Employees of the NIH who are not approved as a result of this process may ask for reconsideration through the standard appeal procedures available to NIH employees.

Renewals:

From 90 to 120 days. At the conclusion of the initial 3-year contract, participants may apply and be considered for subsequent 1-year continuation contracts under the application and approval procedures specified above.

Formula and Matching Requirements:

Statutory formula is not applicable to this assistance listing. Matching requirements are not applicable to this assistance listing. MOE requirements are not applicable to this assistance listing.

Length and Time Phasing of Assistance:

Assistance is available for a minimum 3-year period. One-year continuation contracts are available for individuals whose educational debt exceeds the maximum repayable amount for 3 years. Payments will be made directly to lenders, following each quarter of the participant's satisfactory service, unless otherwise agreed upon by the participant and Secretary of Health and Human Services. Method of awarding/releasing assistance: quarterly

Reports:

No reports are required.

Audits:

This program is excluded from coverage under 2 CFR 200, Subpart F - Audit Requirements. Records must be available for review or audit by appropriate officials of the Federal agency, pass-through entity, and Government Accountability Office (GAO). In accordance with 45 Code of Federal Regulations, Part 74.26, for-profit (commercial) organizations are subject to audit requirements for a non-Federal audit if, during its fiscal year, it expended \$500,000 or more under HHS awards and at least one award is a HHS grant or subgrant. The regulation incorporates the thresholds and deadlines of OMB Circular No. A-133, but provides for profit organizations with two options for the type of audit that will satisfy the audit requirement: 1. a financial related audit of the HHS awards in accordance with Government Auditing Standards, or 2. an audit that meets the requirements of OMB Circular No. A-133. In accordance with NIH grants policy, Foreign grantees are subject to the same audit requirements as for-profit (commercial) organizations.

Records:

The NIH will maintain applicant records for 3 years after rejection and participant records for 6 years after completion of final service obligation. Grantees generally must retain financial and programmatic records, supporting documents, statistical records, and all other records that are required by the terms of a grant, or may reasonably be considered pertinent to a grant, for a period of 3 years from the date the annual FSR is submitted. For awards under SNAP (other than those to foreign organizations and Federal institutions), the 3-year retention period will be calculated from the date the FSR for the entire competitive segment is submitted. Those grantees must retain the records pertinent to the entire competitive segment for 3 years from the date the FSR is submitted to NIH. Foreign organizations and Federal institutions must retain records for 3 years from the date of submission of the annual FSR to NIH. See 45 CFR 74.53 and 92.42 for exceptions and qualifications to the 3-year retention requirement (e.g., if any litigation, claim, financial management review, or audit is started before the expiration of the 3-year period, the records must be retained until all litigation, claims, or audit findings involving the records have been resolved and final action taken). Those sections also specify the retention period for other types of grant-related records, including F&A cost proposals and property records. See 45 CFR 74.48 and 92.36 for record retention and access requirements for contracts under grants. In accordance with 45 Code of Federal Regulations, Part 74.53(e), the HHS Inspector General, the U.S. Comptroller General, or any of their duly authorized representatives have the right of timely and unrestricted access to any books, documents, papers, or other records of recipients that are pertinent to awards in order to make audits, examinations, excerpts, transcripts, and copies of such documents. This right also includes timely and reasonable access to a recipients personnel for the purpose of interview and discussion related to such documents. The rights of access are not limited to the

EXAMPLES OF FUNDED PROJECTS:

2017 In 2017, the funded projects will focus on qualified approved research within the basic clinical and translational areas that contribute to the NIH Mission.

CRITERIA FOR SELECTING PROPOSALS:

Applicants are approved for participation in the NIH General Research Loan Repayment Program after the LRC determines that the applicant will conduct qualified research and has qualifying educational debt. LRC approval, in part, is based upon the scientific merit of the research, its priority to the research institutes, and the credentials of the applicant.

93.233 National Center on Sleep Disorders Research

FEDERAL AGENCY:

NATIONAL INSTITUTES OF HEALTH, HEALTH AND HUMAN SERVICES,
DEPARTMENT OF

AUTHORIZATION:

NIH Reauthorization Act of 1993, Public Health Service Act, Section 503: Subpart 2, Part C, Title IV, Section 424, 42 U.S.C. 285b et seq.

OBJECTIVES:

The National Center on Sleep Disorders Research (NCSDR) supports research and research training related to sleep disordered breathing, and the fundamental functions of sleep and circadian rhythms. The center also stewards several forums that facilitate the coordination of sleep research across NIH, other federal agencies and outside organizations, including the Sleep Disorders Research Advisory Board and a Trans-NIH Sleep Research Coordinating Committee. The center also participates in the translation of new sleep research findings for dissemination to health care professionals and the public. Small Business Innovation Research

(SBIR) program: To stimulate technological innovation; use small business to meet Federal research and development needs; foster and encourage participation in innovation and entrepreneurship by socially and economically disadvantaged persons; and increase private-sector commercialization of innovations derived from Federal research and development funding. Small Business Technology Transfer (STTR) program: To stimulate technological innovation; foster technology transfer through cooperative R&D between small businesses and research institutions, and increase private sector commercialization of innovations derived from federal R&D.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

Grants may support stipends, research expenses, supplies, travel, and research training tuition as required to perform the research effort. Restrictions or limitations are imposed against the use of funds for entertainment, foreign travel, general-purpose equipment, alterations and renovations, and other items not regularly required for the performance of research. Individual Predoctoral and Postdoctoral National Research Service Awards (NRSAs) are made directly to individuals for research training in specified biomedical shortage areas. Institutional NRSA awards may be made to eligible institutions to enable them to appoint individuals selected by the institution for research training. Certain service and payback provisions may apply to postdoctoral individuals upon termination of the award or termination of the appointment. SBIR Phase I awards (of approximately 6-months' duration) are to establish the scientific and technical merit of the proposed research effort, and feasibility of ideas that appear to have commercial potential. Phase II awards are for the continuation of research initiated in Phase I that meets particular program needs and exhibits potential for commercial application. STTR Phase I awards (normally of 1-year duration) are to establish the scientific and technical merit of the proposed cooperative research effort between a small business and non-profit research institution, and feasibility of ideas that appear to have commercial potential. Phase II awards are for the continuation of research initiated in Phase I that meets particular program needs and exhibits potential for commercial application. Fast-Track is an option whereby Phase I and Phase II SBIR or STTR projects are submitted and reviewed concurrently with the aim of reducing or eliminating the funding gap between Phase I and Phase II. While the intent of the SBIR/STTR programs is commercialization (Phase III), SBIR/STTR funds are generally not allowed for commercialization activities such as patents; market and sales; market research; business development/product development/market plans; legal fees, travel and other costs including labor relating to license agreements and partnerships.

Applicant Eligibility:

Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals); Public nonprofit institution/organization (includes institutions of higher education and hospitals); Individual/Family; Small business (less than 500 employees); Private nonprofit institution/organization (includes institutions of higher education and hospitals); Any nonprofit organization engaged in biomedical research and institutions or companies organized for profit may apply for almost any kind of grant. Only domestic, non-profit, private or public institutions may apply for NRSA Institutional Research Training Grants. An individual may apply for an NRSA or, in some cases, for a research grant if adequate facilities to perform the research are available. SBIR grants can be awarded only to United States small business concerns (entities that are independently owned and operated for profit, or owned by another small business that itself is independently owned and operated for profit and have no more than 500 employees including affiliates). Primary employment (more than one-half time) of the principal investigator must be with the small business at the time of award and during the conduct of the proposed project. In both Phase I and Phase II, the research must be performed in the U.S. or its possessions. To be eligible for funding, a grant application must be approved for scientific merit and program relevance by a scientific review group and a national advisory council. SBIR projects are generally performed at least 67% by the applicant small business in Phase I and at least 50% of the Project in Phase II. STTR grants can be awarded only to United States small business concerns (entities that are independently owned and operated for profit and have no more than 500 employees) that formally collaborate with a university or other non-profit research institution in cooperative research and development. The principal investigator of an STTR award may be employed with either the small business concern or collaborating non-profit

research institution as long as s/he has a formal appointment with or commitment to the applicant small business concern. At least 40% of the project is to be performed by the small business concern and at least 30% by the non-profit research institution. In both Phase I and Phase II, the research must be performed in the U.S. and its possessions.

Beneficiary Eligibility:

Individual/Family; Small business; Profit organization; Private nonprofit institution/organization; Health Professional; Education Professional; Public nonprofit institution/organization; Any nonprofit or for-profit organization, company or institution engaged in biomedical research. Only domestic for-profit small business firms may apply for SBIR and STTR programs.

Credentials/Documentation:

Individual NRSA awardees and Institutional NRSA trainees must be citizens or noncitizen nationals of the United States, or have been admitted for permanent residency. Two levels of training are available: graduate level predoctoral training and postdoctoral training. All potential trainees must possess a desire for training in one of the health or health-related areas specified by the National Institutes of Health. Each applicant must be sponsored by an accredited public or private nonprofit institution engaged in such training. Costs will be determined in accordance with OMB Circular No. A-87 for State and local governments. For-profit organization costs are determined in accordance with Subpart 31.2 of the Federal Acquisition Regulations. For other grantees, costs will be determined in accordance with DHHS Regulations 45 CFR, Part 74, Subpart Q. For SBIR and STTR grants, the applicant organization (small business concern) must present a research plan that has potential for commercialization and furnish evidence that scientific competence, experimental methods, facilities, equipment, and funds requested are appropriate to carry out the plan. SBIR and STTR applicants must use the SF424 Research and Related (R&R) application for electronic submission through grants.gov. Electronic submission of NIH Research Performance Progress Reports (RPPR) apply for non-competing continuations (e.g., second year of Phase II). OMB Circular No. A-87 applies to this program. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Grant applications are submitted electronically. Visit the following link to obtain application information and instructions (<http://grants1.nih.gov/grants/funding/424/index.htm>)

Award Procedure:

All accepted applications are evaluated by an appropriate initial review group (study section). All grant applications receive a final secondary review by the National Heart, Lung, and Blood Advisory Council. Staff informs applicants of the results of the review. If support is contemplated, staff initiates preparation of awards for grants. All accepted SBIR/STTR applications are evaluated for scientific and technical merit by an appropriate scientific peer review panel and by a national advisory council or board. All applications receiving a priority score compete for available SBIR/STTR set-aside funds on the basis of scientific and technical merit and commercial potential of the proposed research, program relevance, and program balance among the areas of research.

Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503.

Records:

Grantees generally must retain financial and programmatic records, supporting documents, statistical records, and all other records that are required by the terms of a grant, or may reasonably be considered pertinent to a grant, for a period of 3 years from the date the annual FSR is submitted. For awards under SNAP (other than those to foreign organizations and Federal institutions), the 3-year retention period will be calculated from the date the FSR for the entire competitive segment is submitted. Those grantees must retain the records pertinent to the entire competitive segment for 3 years from the date the FSR is submitted to NIH. Foreign organizations and Federal institutions must retain records for 3 years from the date of submission of the annual FSR to NIH. See 45 CFR 74.53 and 92.42 for exceptions and qualifications to the 3-year retention requirement (e.g., if any litigation, claim, financial management review, or audit is started before the expiration of the 3-year period, the records must be retained until all litigation, claims, or audit findings involving the records have been resolved and final action taken). Those sections also specify the retention period for other types of grant-related records, including F&A cost proposals and property records. See 45 CFR 74.48 and 92.36 for record retention and access requirements for contracts under grants. In accordance with 45 Code of Federal Regulations, Part 74.53(e), the HHS Inspector General, the U.S. Comptroller General, or any of their duly authorized representatives have the right of timely and unrestricted access to any books, documents, papers, or other records of recipients that are pertinent to awards in order to make audits, examinations, excerpts, transcripts, and copies of such documents. This right also includes timely and reasonable access to a recipients personnel records for the purpose of interview and discussion related to such documents. The rights of access are not limited to the required retention period, but shall last as long as records are retained.

CRITERIA FOR SELECTING PROPOSALS:

The major elements in evaluating proposals include assessments of: (1) The scientific merit and general significance of the proposed study and its objectives; (2) the technical adequacy of the experimental design and approach; (3) the competency of the proposed investigator or group to successfully pursue the project; (4) the adequacy of the available and proposed facilities and resources; (5) the necessity of the budget components requested in relation to the proposed project; and (6) the relevance and importance to announced program objectives. The following criteria will be used in considering the scientific and technical merit of SBIR/STTR Phase I grant applications: (1) The soundness and technical merit of the proposed approach; (2) the importance of the problem the proposed research will address; (3) the qualifications of the proposed principal investigator, supporting staff, and consultants; (4) the technological innovation of the proposed research; (5) the potential of the proposed research for commercial application; (6) the appropriateness of the budget requested; (7) the adequacy and suitability of the facilities and research environment; and (8) where applicable, the adequacy of assurances detailing the proposed means for (a) safeguarding human or animal subjects, and/or (b) protecting against or minimizing any adverse effect on the environment. Phase II grant applications will be reviewed based upon the following criteria: (1) The degree to which the Phase I objectives were met and feasibility demonstrated; (2) the scientific and technical merit of the proposed approach for achieving the Phase II objectives; (3) the qualifications of the proposed principal investigator, supporting staff, and consultants; (4) the technological innovation, originality, or societal importance of the proposed research; (5) the potential of the proposed research for commercial application; (6) the reasonableness of the budget requested for the work proposed; (7) the adequacy and suitability of the facilities and research environment; and (8) The adequacy of plans to include both genders and minorities and their subgroups as appropriate for the scientific goals of the research. Plans for the recruitment and retention of subjects will be evaluated; and (9) where applicable, the adequacy of assurances detailing the proposed means for (a) safeguarding human or animal subjects, and/or (b) protecting against or minimizing any adverse effect on the environment.

93.234 Traumatic Brain Injury State Demonstration Grant Program

TBI State Implementation grants,

FEDERAL AGENCY:

ADMINISTRATION FOR COMMUNITY LIVING (ACL), HEALTH AND HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

Public Health Service Act, Title XII, Section 1252 (42 USC 300d-52) as amended by the Childrens Health Act of 2000, sec.1304, PL 106-310, as further amended by the Traumatic Brain Injury Act of 2008, sec. 6(a), PL 110-206.

OBJECTIVES:

To improve access to rehabilitation and other services for individuals with Traumatic Brain Injury (TBI) and their families with an emphasis on early diagnosis and intervention, and access to medical home and system of care.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

Project grants to States are to improve access to health and other Traumatic Brain Injury (TBI)-related services for people of all ages across the United States. Any State seeking TBI grant funds is required to agree to establish or have an advisory board within the appropriate health department of the State or within another department as designated by the Chief Executive Officer of the State. The Board's composition as specified must include representatives of the involved State agencies; public and nonprofit private health related organizations; disability advisory or planning groups; members of an organization or foundation representing individuals with TBI; State and local injury control programs if they exist, and a substantial number of individuals with TBI and/or their family members. These grants are to be used in building a statewide system to assure access to comprehensive and coordinated TBI services. Grants can address a wide range of activities and should reflect gaps or needed system change identified through the statewide TBI needs assessment.

Applicant Eligibility:

Federally Recognized Indian Tribal Governments; U.S. Territories and possessions; State; State, Territorial governments, and Federally recognized Indian Tribal government and Native American organizations are eligible to apply for funding under the TBI grant program. The application for Implementation Partnership funds may only come from the State agency designated as the lead for TBI services. The State maternal and child health program is expected to be involved in the program. Only one application from each State may enter the review process and be considered for an award under this program.

Beneficiary Eligibility:

State; Physically Afflicted (e.g. TB, Arthritis, Heart Disease); Individuals with TBI and their families, including those in high risk groups, such as children and youth, the elderly, Native Americans and Alaska Natives, military service members and veterans.

Credentials/Documentation:

Applicants should review the individual ACL funding opportunity announcement issued under this CFDA program for any required proof or certifications which must be submitted prior to or simultaneous with submission of an application package. 2 CFR 200, Subpart E-Cost Principles applies to this program. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is required. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. ACL requires all applicants to apply electronically through Grants.gov. All qualified applications will be forwarded to an objective review committee. Based on the advice of the

ASSISTANCE LISTINGS DESCRIPTIONS

objective review committee, the ACL program official with delegated authority is responsible for final selection and funding decisions.

Award Procedure:

Application forms are submitted through a centralized depository and received by the awarding agency, Administration for Community Living. Applicants generally apply under a program announcement indicating all the necessary application procedures to be followed.

Deadlines:

Contact the headquarters or regional location, as appropriate for application deadlines.

Range of Approval/Disapproval Time:

From 60 to 90 days.

Appeals:

Not Applicable.

Renewals:

Not Applicable. No renewals; grants are approved for three to five years for TBI State Implementation Grants.

Formula and Matching Requirements:

Statutory formula is not applicable to this assistance listing. Matching Requirements: Percent: 0%. Requirement: Matching requirements are voluntary. Cost Sharing/Matching is required for this program per 1252(c) of the Public Health Service Act. The State or Territory must agree to make available non-Federal contributions in an amount that is not less than \$1 for each \$2 of Federal funds provided under the grant. Non-Federal funds may be cash or in-kind and fairly evaluated, including plant, equipment, or services. State, Territorial or Indian Tribal government contributions may not include any amounts provided by the Federal government. The match, as required by the TBI legislation, must come from State or local sources and may be governmental or non-governmental resources. MOE requirements are not applicable to this assistance listing.

Length and Time Phasing of Assistance:

Awards are made annually in accordance with the project period method of awarding grants. Payments are made through a Letter of Credit or Cash Demand System. Project periods are for 1, 2, 3, 4 or 5 years. See the following for information on how assistance is awarded/released: Grantees drawdown funds, as necessary, from the Payment Management System (PMS). PMS is the centralized web based payment system for HHS awards. Method of awarding/releasing assistance: other

Reports:

Program Progress Reports are due semi-annually (within 30 days following each six month period), effective with the start date of the award. This report must be submitted as a note using an authorized GrantSolutions account. Grantees are required to submit annual financial status reports (SF 425), which are due 30 days following each twelve month reporting period. You must reconcile your cash accounts with your expenditures for the reporting period and submit a cumulative report each year. A final report is due 90 days after the expiration date of the project period and must reconcile with the final cash portion reported on line 10c. The awardee will be required to submit performance and progress reports as well as status-federal financial reports (see the program announcement and notice of award for details for each required report). The awardee must submit a quarterly electronic Federal Financial Report (FFR) Cash Transaction Report via the Payment Management System within 30 days of the end of each calendar quarter. A Federal Financial Report (SF-425) according to the following schedule: http://www.acl.gov/Funding_Opportunities/Grantee_Info/Reporting.aspx. A final report is due within 90 days after the project period ends. If applicable, the awardee must submit a Tangible Personal Property Report (SF-428) and any related forms within 90 days after the project period ends. New awards (Type 1) issued under this funding opportunity announcement are subject to the reporting requirements of the Federal Funding Accountability and Transparency Act (FFATA) of 2006 (Pub. L. 109282), as amended by section 6202 of Public Law 110252, and implemented by 2 CFR Part 170. Grant and cooperative agreement recipients must report information for each first-tier subaward of \$25,000 or more in federal funds and executive total compensation for the recipients and subrecipients five most highly compensated executives as outlined in Appendix A to 2 CFR Part 170 (FFATA details are available online at http://www.acl.gov/Funding_Opportunities/Grantee_Info/FFATA.aspx).

Competing continuation awardees, etc. may be subject to this requirement and will be so notified in the Notice of Award. Grantees are required to submit annual financial status reports (SF 425), which are due 30 days following each twelve month reporting period. You must reconcile your cash accounts with your expenditures for the reporting period and submit a cumulative report each year. A final report is due 90 days after the expiration date of the project period and must reconcile with the final cash portion reported on line 10c.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503

Records:

Grantees are required to maintain grant accounting records for 3 years after the date they submit the Federal Financial Report (FFR). If any litigation, claim, negotiation, audit, or other action involving the award has been started before the expiration of the 3-year period, the records shall be retained until completion of the action and resolution of all issues which arise from it, or until the end of the regular 3-year period, whichever is later.

which the State proposes a plan to continually assess the impact of grant activities on individuals with TBI and their families; (5) The extent to which project personnel are qualified by training and/or experience to implement and carry out the statewide plan objectives. (6) Reasonableness of the proposed budget, and effectiveness of the proposed plan to accomplish the goals and objectives the State has for its TBI program.

93.235 Title V State Sexual Risk Avoidance Education (Title V State SRAE) Program

Title V State Sexual Risk Avoidance Education (Title V State SRAE) Program,
FEDERAL AGENCY:

ADMINISTRATION FOR CHILDREN AND FAMILIES, HEALTH AND
HUMAN SERVICES, DEPARTMENT OF
AUTHORIZATION:

The Bipartisan Budget Act of 2018, Title V, Section 2954, Public Law 113-93, 42 USC Code 710. The Bipartisan Budget Act of 2018, Section 50502, Public Law 115-123

OBJECTIVES:

The purpose of the Title V State SRAE program is to provide messages to youth that normalizes the optimal health behavior of avoiding non-marital sexual activity. Title V SRAE is a prevention education program targeted to youth ages 10 to 19. Programmatic services must be medically accurate and complete; age-appropriate; based on adolescent learning and developmental theories for the age group receiving the education; and culturally appropriate, recognizing the experiences of youth from diverse communities, backgrounds, and experiences. Education on sexual risk avoidance must address each of the following topics: (A) The holistic individual and societal benefits associated with personal responsibility, self-regulation, goalsetting, healthy decision making, and a focus on the future. (B) The advantage of refraining from non-marital sexual activity in order to improve the future prospects and physical and emotional health of youth. (C) The increased likelihood of avoiding poverty when youth attain self-sufficiency and emotional maturity before engaging in sexual activity. (D) The foundational components of healthy relationships and their impact on the formation of healthy marriages and safe and stable families. (E) How other youth risk behaviors, such as drug and alcohol usage, increase the risk for teen sex. (F) How to resist and avoid, and receive help regarding, sexual coercion and dating violence, recognizing that even with consent teen sex remains a youth risk behavior.

TYPES OF ASSISTANCE:

Formula Grants

USES AND USE RESTRICTIONS:

Title V SRAE funding will be used to award formula grants. Additionally, a set-aside of 20% of the \$75,000,000 appropriation will fund program support activities. Funds (\$60,000,000) shall be reserved for state grant awards. In FY2018 and FY2019, States have an opportunity to apply for formula funding by submitting a letter of intent. These Title V State SRAE projects will have a two-year project period, as funds are available. Funds (a 20% set-aside or \$15,000,000) shall be reserved for program support. Program support includes research, training and technical assistance, a national evaluation, and the collection of information on programs and activities.

Applicant Eligibility:

Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503

Records:

Detailed and accurate records of travel expenditures, personnel hours and all other costs will be retained for at least 10 years in accordance with EPS's "Superfund Financial Management and Recordkeeping Guidance for Federal Agencies". Such documents may be required to provide the basis of cost recovery actions or other litigation. Additionally, this documentation must be available for audit or verification upon request of the office of Inspector General.

CRITERIA FOR SELECTING PROPOSALS:

Applications for core activities only were reviewed and evaluated based on the following criteria: (1) Proposed Program: (a) Merit scientific and technical merit of the proposed project to perform public health assessments, consultations, exposure

investigations, health education and public health studies consistent with ATSDR guidance and in a timely manner. Applicant's ability to evaluate the public health impact of hazardous waste sites using health, environmental, and demographic data, and health-related concerns from the local community. (b) Requirements Applicant's understanding of the requirements, objectives, and complexities of the interactions required for a successful program. (c) Collaboration Applicant's plan to collaborate with political and private subdivisions of Federal, State, and local health and environmental agencies and community groups to obtain information needed for evaluating the public health impact of hazardous waste sites, disseminate results of findings, and prevent exposure if identified. (2) Program Personnel: The principal investigator or project director and his/her ability to devote time and effort to provide effective leadership, and the qualifications of the support staff. (3) Applicant Capability: Adequacy and commitment of institutional resources, facilities, space, and equipment necessary for conducting the project are available and sufficient. (4) Program Budget: Extent to which the budget is reasonable, clearly justified, and consistent with intended use of funds. The priority order for funding cooperative agreements was as follows: (a) Number of proposed and/or listed National Priority List (NPL) sites (Federal and nonfederal) based on the most current EPA list, (b) number of Comprehensive Environmental Response, Compensation, and Liability Information System (CERCLIS) sites (Federal and nonfederal) based on the most current EPA list; (c) applicants who applied for both Core Activities and optional Activities; and (d) geographic distribution across the United States. (5) Human Subjects: Applicant's plan for adequate protection of human subjects. Applications for conducting Core Plus Optional Activities were reviewed and evaluated based on the following criteria: Proposed Program: In addition to the criteria outlined above for Core Activities, the applicant had to indicate an understanding of and capability for conducting human health studies as contained in the proposed site-specific protocol which had to include: (a) The approach, feasibility, adequacy, and rationale for the proposed study design, (b) the technical merit of the proposed study, (c) the proposed timeline, including measurable objectives, (d) proposed method for disseminating the results of the study.

93.241 State Rural Hospital Flexibility Program

The Rural Hospital Flexibility Program (Flex) The Rural Veterans Health Access Program,

FEDERAL AGENCY:

HEALTH RESOURCES AND SERVICES ADMINISTRATION, HEALTH AND HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

The Rural Veterans Health Access Program-Title XVIII, 1820 (g) (6) of the Social Security Act (42 U.S.C. 1395i-4(g) (6)), as amendedThe Rural Hospital Flexibility Program (Flex)-Title XVIII, 1820(g) (1) and (2) of the Social Security Act (42 U.S.C. 1395i-4), as amended, Consolidated and Further Continuing Appropriations Act, 2015 (P.L. 113-235).

OBJECTIVES:

The Rural Hospital Flexibility Program (Flex) engages state designated entities in activities relating to planning and implementing rural health care plans and networks; designating facilities as Critical Access Hospitals (CAHs); providing support for CAHs for quality improvement, quality reporting, performance improvements, and benchmarking; and integrating rural emergency medical services (EMS). Specifically, the Flex program provides funding for states to support technical assistance activities to improve the quality of health care provided by CAHs, the financial stability and sustainability of CAHs, the integration of emergency medical services (EMS), and the health of rural communities. State Flex programs also assist in the conversion of qualified small rural hospitals to CAH status and support the integration of value based payment and innovative health care models in rural communities. State designated Flex Programs will act as a resource and focal point for these activities, ensuring people in rural communities have access to high quality health care services. The Rural Veterans Health Access Program provides funding to states to coordinate activities to provide rural veterans access to services for needed mental health care via the use of networks, electronic communication and telehealth networks. The program targets states with high percentages of veterans to the total population.

ASSISTANCE LISTINGS DESCRIPTIONS

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

All funds awarded are to be expended solely for the purposes outlined in the approved projects. Administrative (indirect) expenses are limited to the lesser of 15 percent of the award or the states federally negotiated indirect rate for administering the award.

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); Federally Recognized Indian Tribal Governments; State; Native American Organizations (includes Indian groups, cooperatives, corporations, partnerships, associations); Flex and Rural Veterans Awardees: Only states with certified Critical Access Hospitals are eligible for this Program. The Governor designates the eligible applicant from each state. All other states need to submit an application to the Regional Administrator of their CMS Regional Office that expresses the state's interest in developing a Medicare Rural Hospital Flexibility Program before they can apply for grant funds.

Beneficiary Eligibility:

State; Rural; States with at least one hospital located in a non-metropolitan statistical area or county and provides CMS with necessary assurances.

Credentials/Documentation:

Applicants should review the individual HRSA funding opportunity announcement issued under this CFDA program for any required proof or certifications which must be submitted prior to or simultaneous with submission of an application package. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. HRSA requires all applicants to apply electronically through Grants.gov. All qualified applications will be forwarded to an objective review committee. Based on the advice of the objective review committee, the HRSA program official with delegated authority is responsible for final selection and funding decisions.

Award Procedure:

All qualified applications will be forwarded to an objective review committee. Based on the advice of the objective review committee, the HRSA program official with delegated authority is responsible for final selection and funding decisions.

Deadlines:

Contact the headquarters or regional location, as appropriate for application deadlines.

Range of Approval/Disapproval Time:

Other. 6 months.

Appeals:

Not Applicable.

Renewals:

Other. The Medicare Rural Hospital Flexibility Grant Program awards may be made for up to 4-year project periods. Subject to availability of funds, after initial awards, projects may be renewed non-competitively contingent upon submission and approval of an application, availability of appropriated funds, and awardees satisfactory performance. The Rural Veterans Health Access Program awards may be made for up to 3-year project periods. Subject to availability of funds, after initial awards, projects may be renewed non-competitively contingent upon submission and approval of an application, availability of appropriated funds, and awardees satisfactory performance.

Formula and Matching Requirements:

Statutory formula is not applicable to this assistance listing. Matching requirements are not applicable to this assistance listing. MOE requirements are not applicable to this assistance listing.

Length and Time Phasing of Assistance:

Awards are made annually. Funds are available to awardees on an as needed basis

throughout the budget period and payments are made through the DHHS Payment Management System. Method of awarding/releasing assistance: other

Reports:

The awardee will be required to submit performance and progress reports as well as federal financial reports (see the program announcement and notice of award for details for each required report). The awardee must submit a quarterly electronic Federal Financial Report (FFR) Cash Transaction Report via the Payment Management System within 30 days of the end of each calendar quarter. A Federal Financial Report (SF-425) according to the following schedule:

<http://www.hrsa.gov/grants/manage/technicalassistance/federalfinancialreport/ffrscchedule.pdf>. A final report is due within 90 days after the project period ends. If applicable, the awardee must submit a Tangible Personal Property Report (SF-428) and any related forms within 90 days after the project period ends. New awards (Type 1) issued under this notice of funding opportunity are subject to the reporting requirements of the Federal Funding Accountability and Transparency Act (FFATA) of 2006 (Pub. L. 109282), as amended by section 6202 of Public Law 110252, and implemented by 2 CFR Part 170. Grant and cooperative agreement recipients must report information for each first-tier subaward of \$25,000 or more in federal funds and executive total compensation for the recipients and subrecipients five most highly compensated executives as outlined in Appendix A to 2 CFR Part 170 (FFATA details are available online at

<http://www.hrsa.gov/grants/ffata.html>). Competing continuation awardees, etc. may be subject to this requirement and will be so notified in the Notice of Award. For the Rural Veterans Health Access Program and the Medicare Rural Hospital Flexibility Grant Program, an annual Performance Information Management System data report is due within 60 days of the end of the budget period. A final program report is to be submitted within 90 days after the close of the project period. Awardees in the Medicare Rural Hospital Flexibility Grant Program are required to participate in activities related to the Flex Program Evaluation Cooperative Agreement. Refer to notice of funding opportunity .

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-federal entities that expend financial assistance of \$750,000 or more in federal awards will have a single or a program-specific audit conducted for that year. Non-federal entities that expend less than \$750,000 a year in federal awards are exempt from federal audit requirements for that year, except as noted in 2 CFR 200.503.

Records:

Awardees are required to maintain grant accounting records for 3 years after the date they submit the Federal Financial Report (FFR). If any litigation, claim, negotiation, audit, or other action involving the award has been started before the expiration of the 3-year period, the records shall be retained until completion of the action and resolution of all issues which arise from it, or until the end of the regular 3-year period, whichever is later.

93.242 Mental Health Research Grants

FEDERAL AGENCY:

NATIONAL INSTITUTES OF HEALTH, HEALTH AND HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

Public Health Service Act, Title III, Section 301, Public Law 109-482, 42 USC Code 241. Public Health Service Act, Title IV, Section 401(a), Public Law 109-482, 42 USC Code 281. SBIR/STTR Reauthorization Act of 2011, Public Law 106-554

OBJECTIVES:

The mission of the National Institute of Mental Health (NIMH) is to transform the understanding and treatment of mental illnesses through basic and clinical research, paving the way for prevention, recovery, and cure. In fiscal year (FY) 2008, NIMH released its first Strategic Plan, which guided the Institutes work toward this mission. In March 2015, NIMH released its new Strategic Plan for Research. Moving forward, the NIMH will be guided by both this new Plan and by the Strategic Research Priorities based on the Plan. The Strategic Plan for Research comprises four high-level Strategic Objectives: (1) Define the mechanisms of complex behaviors; (2) Chart mental illness trajectories to determine when, where, and how to intervene; (3) Strive for prevention and cure; and (4) Strengthen the public health impact of NIMH-supported research. The four Objectives of the Plan describe the continuum of mental health research, ranging from understanding basic pathophysiology, to defining the trajectories of mental illnesses, to developing innovative treatment and prevention strategies, to ensuring public health impact. The Institutes overall funding strategy is to support a broad spectrum of investigator-initiated research in fundamental science, with increasing use of Institute-solicited initiatives for applied research where public health impact is a short-term measure of success. Cross-cutting themes relevant to all research supported by NIMH include the Research Domain Criteria Initiative; the Institutes new experimental medicine approach, which focuses on studies with defined targets and milestones; the role of the environment in the pathogenesis of mental illnesses; the new culture of open science with broad and rapid data sharing; preemptive medicine; research designed to reduce and eliminate mental health

disparities both within and outside the United States specifically, research on sex, gender, age, racial, and ethnic differences related to mental illnesses; partnerships with external stakeholders; and, supporting and training future generations of mental health researchers. Specific program objectives include: To determine the molecular, cellular, and systems components underlying brain connectivity and dynamic patterns of brain activity using model systems, and human studies; to identify the mechanisms responsible for establishing and maintaining circuits; to identify and validate novel assays to quantify changes in the activity of molecules, cells, and circuits; and, to elucidate the basic biology linking changes in molecular-, cellular-, and circuit-based targets to alterations in complex behaviors. To define genomic variations associated with mental illnesses and determine the biological consequences of these variations; to define the molecular mechanisms that determine how experience has enduring effects on gene expression, brain function, and behavior; to delineate environmental and biological factors altering genomic risk for mental illnesses; and, to develop analytical tools for multi-scale data integration. To identify cells and brain networks that contribute to various aspects of mental function and dysfunction, such as cognition, emotion, and social behavior; to determine how changes in the physiological properties of molecules, cells, and circuits contribute to mental illnesses; to develop biomarkers of impaired neural function in humans at the level of molecules, cells, and circuits; and, to develop innovative technologies, as well as new pharmacological and genetic tools, to interrogate and modulate the signaling pathways and circuits altered by mental illnesses. To characterize developmental processes across biological and behavioral domains of analysis that give rise to mental illnesses throughout the lifespan; to identify sensitive periods for typical and atypical mental health trajectories; and, to determine modifiers of maturational and illness trajectories, emphasizing periods of sensitivity to perturbation and/or potential for intervention. To identify early biological and environmental risk and protective factors and their underlying mechanisms to serve as novel intervention targets; and, to develop biomarkers and assessment tools to predict illness onset, course, and intervention response across diverse populations. To identify and validate new targets for treatment development that underlie disease mechanisms; to develop and validate new metrics for target engagement that are feasible for use in clinical trials; and, to develop objective surrogate measures of outcome and clinical change that extend beyond symptoms, to assess if target mechanisms underlying general health and quality of life have been modified by treatments. To develop valid and innovative biomarkers to detect subgroups of individuals sharing common etiologies whether within or across traditional diagnostic categories as well as aspects of emotion, cognition, and social behavior that predict clinical response; to foster personalized interventions and strategies for sequencing or combining existing and novel interventions that are optimal for specific phases of disease progression (e.g., prodromal, initial-onset, chronic), different stages of development (e.g., early childhood, adolescence, adulthood, late life), and other individual characteristics; and, to develop and refine alternative research designs and analytic approaches that can be used to test precise interventions. To develop and test bundled intervention components (each validated individually in prior research) that have the greatest impact on patients lives and functioning; together with key stakeholders, including patient, provider, payer, and other research funding groups, to conduct efficient pragmatic trials that employ new tools to rapidly identify, engage, assess, and follow participants in the context of routine care; and, to enhance the practical relevance of effectiveness research, taking into account how patient-, provider-, and organizational-level factors impact the outcomes of interventions in practice settings. To employ existing real-world data collection systems to identify strategies for improving access, quality, and equity of mental health services in diverse populations; to identify, validate, and scale-up innovative programs currently in use that improve mental health services for underserved populations; to optimize financing models for adults and children with serious mental illnesses to provide efficient and effective care in public and private health care systems. In partnership with key stakeholders, to develop and validate strategies for implementing, sustaining, and continuously improving evidence-based practices; to build models to scale-up effective interventions for use in public and private primary care, specialty care, and other systems; and, to develop decision support tools that increase the effectiveness and continuous improvement of mental health interventions in public and private primary care, specialty care, and other systems. To develop systems-level strategies in non-traditional mental health settings, using technology and other approaches, to identify, support, and monitor the effectiveness of care for individuals with mental illnesses; to develop and validate service delivery models that provide responsive and pre-emptive evidence-

ASSISTANCE LISTINGS DESCRIPTIONS

based supports for individuals throughout the course of illness; and, to develop and validate coordinated medical decision-making models that bridge multiple social and medical care settings to integrate the appropriate care for people with serious mental illnesses and multiple chronic conditions. To develop assessment platforms within service systems that allow ongoing monitoring of mental illness prevalence, service access, quality, efficiency of care, and outcomes for people with mental illnesses; and, develop valid and reliable measures of treatment quality and outcomes that can be feasibly applied at the person, clinic, system, and population levels. To expand approaches to integrate behavioral science with effective biomedical strategies for HIV prevention; to advance the development and testing of interventions delivered beyond the individual level, by incorporating appropriate context into intervention development and testing; to increase intervention potency and long-term maintenance of effects, with an emphasis on targeting high-risk vulnerable populations; to develop strategies to increase HIV-testing and improve linkage to care and timely treatment initiation; to develop and test interventions to improve HIV treatment outcomes through optimal treatment adherence and sustained engagement in care; and, to support implementation science and operations research to enhance dissemination strategies and public health impact of effective interventions. To examine evolving pathophysiologic mechanisms of HIV-associated neurocognitive disorders (HAND) in the setting of long-term antiretroviral therapy, and development of novel therapeutic approaches to mitigate CNS complications of HIV infection; to support the use of state-of-the-art genetic approaches to identify and validate viral and host genetic factors that influence the pathophysiology of HAND; and, to define and characterize HIV persistence in the CNS in the context of suppressive highly active antiretroviral therapy, and foster translational research to enable therapeutic eradication of HIV-1 from the brain.

TYPES OF ASSISTANCE:

Cooperative Agreements, Project Grants, Training

USES AND USE RESTRICTIONS:

Research project grants provide support for clearly defined projects by a named investigator in an area representing his/her specific interests and competencies. Exploratory/Development and Clinical Exploratory/Developmental Grants encourage the development of new research activities in categorical program areas. Small Research Grants provide research support specifically limited in time and amount for studies in categorical program areas. Collaborative Clinical Research Grants support evaluations of various methods of therapy and/or prevention. Program Project and Center grants support large-scale, broad-based programs of research, usually interdisciplinary, consisting of several projects with a common focus. Cooperative Agreements support single or a group of related research activities with greater involvement of federal staff. SBIR and STTR grants are awarded in two stages: Phase I grants are awarded to establish the technical merit and feasibility of a proposed research and development effort; only Phase I awardees are eligible to receive Phase II support. Mentored Research Scientist Development Award (K01, MRSDA), Mentored Clinical Scientist Development Award (K08, MCSDA), and Mentored Quantitative Research Career Development Award (K25) provide support for individuals with research potential who need additional mentored development and/or experience in a productive research environment. Mentored Patient-Oriented Research Career Development Award (K23) supports the career development of individuals who have made commitment to focus their research endeavors on patient-oriented research. The NIH Pathway to Independence (PI) Award (K99/R00) provides up to 2 years of mentored support (K99) for a postdoctoral individual followed by up to 3 years of support after the awardee transitions to research independence (R00). K99/R00 awards are awards for up to 5 years of support. Salary support for all mentored awards may be supplemented by the sponsoring institution from nonfederal funds. The Independent Scientist Award (K02, ISA) is for independent scientists whose careers are developing rapidly; the Mid-career Investigator Award in Patient-Oriented Research (K24) is for outstanding clinical scientists engaged in patient-oriented research. No specialized training costs are available; limited research costs for K24s and K02s in theoretical areas are available. NRSA awards: Individual fellowships are made to students seeking predoctoral or postdoctoral support for full-time research training or who are enrolled in an formal Ph.D. or M.D./Ph.D. program. An institutional allowance will be provided to the sponsoring institution for each awardee. In addition, any domestic public or nonprofit institution may apply for an institutional research training grant in a specified area of research from which a number of stipend awards will be made to individuals selected by the training program director at the institution. Support is available for both

predoctoral and postdoctoral trainees and will include an amount for institutional expenses. Indirect costs may be requested at 8 percent of total direct costs, exclusive of tuition and related fees and expenditures for equipment, or actual indirect costs, whichever is less. Postdoctoral students receiving fellowships or stipend support under either individual or institutional grants for 12 months or less are obligated to pay back this support through an equivalent period of continued postdoctoral training or a period of health related research and/or teaching activities after the completion of their training. Postdoctoral individuals in their thirteenth and subsequent months of support will incur no further obligation, and such support will be considered acceptable postdoctoral payback service. Research training support may not be used for internships or other clinical training.

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals); Public nonprofit institution/organization (includes institutions of higher education and hospitals); Private nonprofit institution/organization (includes institutions of higher education and hospitals); Public, private, -profit, or nonprofit agencies (including State and local government agencies), eligible Federal agencies, universities, colleges, hospitals, and academic or research institutions may apply for research grants. SBIR grants can be awarded only to domestic small businesses, and STTR grants can be awarded only to domestic small businesses which "partner" with a research institution in cooperative research and development. An applicant for individual predoctoral fellowship support must be enrolled in a research doctoral degree program by the proposed activation date of the fellowship. A postdoctoral applicant must have received a Ph.D., Psy.D., M.D., D.D.S., Sc.D., D.N.S., D.O., D.S.W., or equivalent degree from an accredited institution to be eligible for an individual postdoctoral fellowship. All research training awards are made to appropriate domestic research centers, medical schools, departments of psychiatry, non-medical academic departments, psychiatric hospitals or hospitals with psychiatric services, community mental health centers, and biomedical research institutes on behalf of individuals who need the opportunity to realize research potential. Except for the NIH Pathway to Independence (PI) Award (K99/R00), the individuals must be citizens or nationals of the United States or have been lawfully admitted for permanent residence. The NIH Pathway to Independence (PI) Award (K99/R00) is open to both U.S. citizens and non-U.S. citizens. Individuals must qualify by scholastic degree and previous training and/or experience.

Beneficiary Eligibility:

Profit organization; Private nonprofit institution/organization; Other private institution/organization; Scientist/Researchers; State; Local; Public nonprofit institution/organization; Individuals and public, private, profit, or nonprofit organizations.

Credentials/Documentation:

For-profit organizations' costs will be determined in accordance with 48 CFR, Subpart 31.2 of the Federal Acquisition Regulations. For all other grantees, costs will be determined in accordance with HHS Regulations 45 CFR 75. For SBIR and STTR grants, applicant organization (small business concern) must present in a research plan an idea that has potential for commercialization and furnish evidence that scientific competence, experimental methods, facilities, equipment, and funds requested are appropriate to carry out the plan. Instructions for electronic submission may be found with the federal SF424 (R&R) form packages that are found in the SBIR/STTR funding opportunity announcements. Instructions are provided for SBIR Phase I and Phase II awards, respectively; as well as for STTR Phase I and Phase II awards, respectively. The cost principles for awards under this program are set forth in HHS regulations at 45 CFR 75, Subpart E and Appendix IX (hospitals) to Part 75. Commercial organizations are subject to the cost principles located at 48 CFR 31.2 Federal Acquisition Regulation. See the NIH Grants Policy Statement for further guidance on the applicability of cost principles (<http://grants.nih.gov/grants/policy/nihgps/index.htm>). 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit

ASSISTANCE LISTINGS DESCRIPTIONS

Requirements for Federal Awards applies to this program. Most applications must be prepared and submitted electronically. Most applicants use the SF 424 (Research & Related) for electronic submission. Information about the SF 424 form may be found on <http://grants.nih.gov/grants/funding/424/index.htm>, but application packages should be accessed through the appropriate funding opportunity announcement, found either on the NIH Guide for Grants and Contracts (<http://grants1.nih.gov/grants/guide/index.html>) or through the Grants.gov website (<http://www.grants.gov/>). Some institutions may submit the grant data directly (using what is called a system-to-system transfer). For further details, see grants.gov or eRA Commons. Application forms for SBIR and STTR grants may be obtained through the SBIR/STTR funding announcements posted on the NIH Guide for Grants and Contracts and the Grants.gov sites (see URLs listed above). All SBIR and STTR applications must be submitted electronically. The timeline for transition to electronic applications and the new forms may be found at: <http://era.nih.gov/ElectronicReceipt/>. For further assistance contact GrantsInfo, Telephone (301) 435-0714, Email: GrantsInfo@nih.gov. Consultation on a proposed project may be obtained from the NIMH branch or office responsible for the research area of interest. Applications are reviewed by principally nonfederal consultants recruited nationwide from the mental health field. The amounts of the award and period of support are determined on the basis of merit of the project and the nature of the grant mechanism. Electronic applications are submitted through the Grants.gov website. Awards made under this program are subject to 2 CFR 200, as implemented by 45 CFR 75 Public Welfare, Uniform Administrative Requirements, Cost Principles and Audit Requirements for HHS Awards. The policies and procedures generally applicable to NIH grants are set forth in the NIH Grants Policy Statement (<http://grants.nih.gov/grants/policy/nihgps/index.htm>).

Award Procedure:

All applications are evaluated for scientific and technical merit by an appropriate scientific peer review panel. Applications other than fellowships must also be reviewed by the National Advisory Mental Health Council. All competitive applications compete for available funds on the basis of scientific and technical merit, program relevance, and program balance. All SBIR and STTR applications receiving a priority score compete for set-aside funds on the basis of scientific and technical merit and commercial potential of the proposed research, program relevance, and program balance among the areas of research.

Deadlines:

Contact the headquarters or regional location, as appropriate for application deadlines.

Range of Approval/Disapproval Time:

>180 Days. Applications: From 180 to 270 days from submission of application. SBIR/STTR applications: About 7- 1/2 months; AIDS-related research is expedited and a determination is made within 180 days.

Appeals:

Other. A principal investigator may question the substantive or procedural aspects of the review of his/her application by communicating with the staff of the Institute. A description of the NIH Peer Review Appeal procedures is available on the NIH homepage <http://grants.nih.gov/grants/guide/notice-files/NOT-OD-11-064.html>

Renewals:

Other. Support is recommended for a specified project period, not in excess of 5 years. Prior to termination of a project period, the grantee may apply for renewal of support for a new project period. An application for renewal is processed as a new competing request. Small grants, exploratory, and dissertation grants are for 1-3 years (depending on program) and are not renewable. By law an individual may receive no more than 6 years of support in the aggregate at the predoctoral level and no more than 3 years of support in the aggregate at the postdoctoral level under the NRSA program (through an individual and/or institutional award). Any exception to these limitations requires a waiver from the Director of the awarding Institute based on review of justification from the awardee and the program director for the institutional grant. K01, K08, K23, K25 awards are made for up to 5-year periods with no renewal. K02 and K24 awards are made for a 5-year period, renewable once (unless holder has held a previous K02 or K24 award). K99 awards are made for up to 2-year periods with no renewal.

Formula and Matching Requirements:

Statutory formula is not applicable to this assistance listing. Matching requirements are not applicable to this assistance listing. MOE requirements are not applicable to

this assistance listing.

Length and Time Phasing of Assistance:

Varies, with a project periods ranging from 1 to 5 years. Funding commitments are made annually. See the following for information on how assistance is awarded/released: A formal notification in the form of a Notice of Award (NoA) will be provided to the applicant organization. SBIR: Generally, Phase I awards are for 6 months, and Phase II awards are for 2 years. STTR: Generally, Phase I awards are for 1 year and Phase II awards are for 2 years. Information on how assistance is awarded/released: A formal notification in the form of a Notice of Award (NoA) will be provided to the applicant organization. By law an individual may receive no more than 6 years of support in the aggregate at the predoctoral level and no more than 3 years of support in the aggregate at the postdoctoral level under the NRSA program (through an individual and/or institutional award). For an M.D./Ph.D. fellowship, 6 years may be requested. In practice, recommendations of review committees are generally for 2 or 3 years. Method of awarding/releasing assistance: other

Reports:

Reports must be submitted as follows: (1) Interim progress reports annually as part of a non-competing application for previously recommended support; (2) terminal progress report within 90 days after end of project support. Annual financial status report within 90 days after termination of annual grant for some programs. In addition, immediate and full reporting of any inventions is required.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. In addition, grants and cooperative agreements are subject to inspection and audits by DHHS and other Federal government officials. Per the regulations, a for-profit (commercial) organization is subject to audit requirements for a non-Federal audit if, during its fiscal year, it expended \$500,000 or more under HHS awards and at least one award is a HHS grant. For-profit organizations have two options regarding the type of audit that will satisfy the audit requirements either: (1) a financial related audit (as defined in the Government Auditing Standards, GPO Stock #020-000-00-265-4, <http://www.gao.gov/govaud/ybk01.htm>) of the HHS awards in accordance with Government Auditing Standards, or (2) an audit that meets the requirements contained in OMB Circular No. A-133 (<http://www.whitehouse.gov/OMB/circulars/a133/a133.html>). Awards made under this program are subject to the audit requirements of OMB 2 CFR 200, as implemented by 45 CFR 75, Subpart F, and in the NIH Grants Policy Statement (<http://grants.nih.gov/grants/policy/nihgps/index.htm>).

93.247 Advanced Nursing Education Workforce Grant Program

Advanced Nursing Education Workforce (ANEW), Advanced Nurse Education-Sexual Assault Nurse Examiner (ANE-SANE),

FEDERAL AGENCY:

HEALTH RESOURCES AND SERVICES ADMINISTRATION, HEALTH AND HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

Section 811 of the Public Health Service Act, (42 U.S.C. 296j).

OBJECTIVES:

ANEW: The ANEW Program supports innovative academic-practice partnerships to prepare advanced practice registered nursing students to practice in rural and underserved settings through academic and clinical training. The partnerships support enhanced didactic and clinical training opportunities in primary care for nursing students (including longitudinal clinical immersive training experiences), training for clinical preceptors, traineeships, and support for post-graduate

employment in primary care, with a particular focus on rural and underserved populations. ANE-SANE: The purpose of the ANE-SANE funding is to increase the number of Registered Nurses (RNs), Advanced Practice Registered Nurses (APRNs), and Forensic Nurses trained and certified to conduct sexual assault nurse examinations in communities on a local, regional and/or state level. Ideal applicants will have an infrastructure to recruit eligible Nurses, coordinate didactic and clinical training with identified partners, monitor and track clinical practice hours and certification completion, and have demonstrated strategies to retain SANES in practice. The goal of this program is to train providers to conduct sexual assault forensic examinations that provide better physical and mental health care for survivors, better evidence collection, and lead to higher prosecution rates.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

Funds may be used to cover salaries of personnel specifically employed for the project; consultant fees; supplies and equipment necessary to conduct the project; essential travel expenses and other expenses related to the project. Restricted Uses: Indirect costs under training awards to organizations other than State, local or American Indian tribal governments will be budgeted and reimbursed at 8 percent of modified total direct costs rather than on the basis of a negotiated rate agreement, and are not subject to upward or downward adjustment. ANEW: Student support through stipends, tuition, and fees are allowable costs. ANE SANE: Direct cost amounts for equipment, tuition and fees, and sub-awards and subcontracts in excess of \$25,000 are excluded from the direct cost base for purposes of this calculation.

Applicant Eligibility:

Public nonprofit institution/organization (includes institutions of higher education and hospitals); Federally Recognized Indian Tribal Governments; U.S. Territories and possessions; Specialized group (e.g. health professionals, students, veterans); Private nonprofit institution/organization (includes institutions of higher education and hospitals); Native American Organizations (includes Indian groups, cooperatives, corporations, partnerships, associations); ANEW: Eligible applicants are collegiate schools of nursing, nursing centers, academic health centers, State or local governments, and other public or private nonprofit entities accredited by a national nurse education accrediting agency recognized by the Secretary of the U.S. Department of Education. In addition to the 50 states, only the District of Columbia, Guam, the Commonwealth of Puerto Rico, the Northern Mariana Islands, American Samoa, the U.S. Virgin Islands, the Federated States of Micronesia, the Republic of the Marshall Islands, and the Republic of Palau are eligible to apply. Federally Recognized Indian Tribal Government and Native American Organizations may apply if they are otherwise eligible. ANE SANE: Eligible applicants include accredited schools of nursing, nursing centers, nurse-managed health clinics, academic health centers, State or local health departments, Community Health Centers, Rural Health Clinics, public or non-profit Hospitals, other emergency health care service providers, Federally Qualified Health Centers, Clinics receiving funding under Title X and other relevant public or private non-profit entities. Federally recognized Indian Tribal Government and Native American Organizations, as well as nonprofit (Internal Revenue Service (IRS) 501(c)(3) status) community-based and faith-based organizations may apply if they are otherwise eligible. The eligible state government entities include the 50 states, and the District of Columbia, Guam, the Commonwealth of Puerto Rico, the Northern Mariana Islands, American Samoa, the U.S. Virgin Islands, the Federated States of Micronesia, the Republic of the Marshall Islands, and the Republic of Palau. Individuals and foreign entities are not eligible under either ANEW or ANE-SANE.

Beneficiary Eligibility:

Specialized group (e.g. health professionals, students, veterans); Private nonprofit institution/organization; Native American Organizations; Public nonprofit institution/organization; Accredited schools of nursing, nursing centers, academic health centers, state or local governments, and other public or private nonprofit entities determined appropriate by the Secretary. ANE SANE: An eligible participant must be a citizen of the United States, a non-citizen national, or a foreign national who possesses a visa permitting permanent residence in the United States (i.e., individuals on temporary or student visas are not eligible to receive SANE support). Award recipients may use this funding to support the following beneficiaries: (1) Currently practicing generalist Registered Nurses; (2) Students in

93.251 Universal Newborn Hearing Screening

FEDERAL AGENCY:

HEALTH RESOURCES AND SERVICES ADMINISTRATION, HEALTH AND HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

Section 399M of the PHS Act, (42 U.S.C. 280g-1), as amended by the Early Hearing Detection and Intervention Act of 2010

OBJECTIVES:

This program supports state and territory programs in developing a comprehensive and coordinated system of care targeted toward ensuring that newborns and infants receive appropriate timely services including continuous screening, evaluation, diagnosis and early intervention services. Additionally, family engagement and leadership is a focus of this program, as families have a unique perspective on how the system currently affects them personally and can provide valuable insight on effective strategies to improve the system of care for deaf or hard of hearing children. The Universal Newborn Hearing Screening (UNHS) program also provides support to two organizations that assist the grantees/territories with technical assistance.

TYPES OF ASSISTANCE:

93.255 Children's Hospitals Graduate Medical Education Payment Program

CHGME Payment Program,

FEDERAL AGENCY:

HEALTH RESOURCES AND SERVICES ADMINISTRATION, HEALTH AND

ASSISTANCE LISTINGS DESCRIPTIONS

HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

Section 340E of the Public Health Service Act (42 U.S.C. 256e), Public Law 109-307 as amended by the Childrens Hospital GME Support Reauthorization Act of 2013.

OBJECTIVES:

The Children's Hospitals Graduate Medical Education (CHGME) Payment Program provides funds to freestanding children's teaching hospitals to support the training of pediatric and other residents in graduate medical education (GME) programs. Federal funding for graduate medical education (GME) is extensively provided by the Centers for Medicare and Medicaid Services (CMS). Prior to the enactment of the CHGME Payment Program, childrens teaching hospitals received a disproportionately low amount of this federal funding when compared to teaching hospitals that serve adult patients. The purpose of the CHGME Payment Program is to compensate for the disparity in the level of federal funding for pediatric teaching hospitals versus other types of teaching hospitals. The CHGME Payment Program is administered by the Bureau of Health Workforce (BHW), Health Resources and Services Administration (HRSA), Department of Health and Human Services (DHHS).

TYPES OF ASSISTANCE:

Direct Payments for Specified Use

USES AND USE RESTRICTIONS:

Funds are restricted to eligible children's hospitals for direct expenses and the other indirect expenses associated with operating approved graduate medical residency programs.

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); Public nonprofit institution/organization (includes institutions of higher education and hospitals); Federally Recognized Indian Tribal Governments; U.S. Territories and possessions (includes institutions of higher education and hospitals); Private nonprofit institution/organization (includes institutions of higher education and hospitals); Native American Organizations (includes Indian groups, cooperatives, corporations, partnerships, associations); Applicants (children's teaching hospitals) must meet the following eligibility requirements in accordance with the Federal Register Notice, Vol. 66, No. 41 published on March 1, 2001: (1) Participate in an approved graduate medical education residency training program; (2) have a Medicare provider payment agreement as defined by section 340E(g)(2) of the PHS Act; (3) be excluded from the Medicare Inpatient Prospective Payment System (PPS) under Section 1886(d)(1)(B)(iii), of the Social Security Act and its accompanying regulations; and (4) be a "freestanding" children's hospital. The Childrens Hospital GME Support Reauthorization Act of 2013 has expanded the eligibility to include freestanding hospitals 1) with a Medicare payment agreement and that is excluded from the Medicare inpatient hospital prospective payment system pursuant to section 1886(d)(1)(B) of the Social Security Act and its accompanying regulations; 2) whose inpatients are predominantly individuals under 18 years of age; 3) that has an approved medical residency training program as defined in section 1886(h)(5)(A) of the Social Security Act; and 4) that is not otherwise qualified to receive payments under this section or section 1886(h) of the Social Security Act. The reauthorization permits the Secretary, to make available up to 25% of the total amounts in excess of \$245,000,000, but not to exceed \$7,000,000, for the purpose of making CHGME payments to these Newly Qualified Hospitals. Federally Recognized Indian Tribal Government and Native American Organizations may apply if they are otherwise eligible.

Beneficiary Eligibility:

Specialized group (e.g. health professionals, students, veterans); Private nonprofit institution/organization; Quasi-public nonprofit organization; Native American Organizations; Health Professional; Graduate Student; Public nonprofit institution/organization; Other public institution/organization; Any public or private nonprofit and profit freestanding children's teaching hospital with an accredited residency training program which meets all eligibility requirements may apply.

Credentials/Documentation:

Applicants should review the individual HRSA funding opportunity announcement issued under this CFDA program for any required proof or certifications which must be submitted with an application package. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Pre-application coordination is required. An environmental impact statement is required for this listing. An environmental impact assessment is required for this listing. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review. Preapplication coordination is required.

Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. HRSA requires all applicants to apply electronically through Grants.gov. All eligible, qualified applications are reviewed by HRSA Staff. Notification is made in writing by a Notice of Award. The CHGME Payment Program statute requires a yearly assessment of the full-time (FTE) resident counts reported by children hospitals. Fiscal intermediaries working under contract to HRSA assess those reported FTE resident counts. Final grant payment determinations are based on the final audited numbers.

Award Procedure:

Notification is made in writing (electronic) by a Notice of Award (NOA). Section 340E(a) requires the Secretary of DHHS to make payments for direct and indirect expenses associated with operating approved graduate medical residency training programs for each fiscal year. The two statutory formulas (direct medical education and indirect medical education) outline payments to eligible children's teaching hospitals.

Deadlines:

Contact the headquarters or regional location, as appropriate for application deadlines.

Range of Approval/Disapproval Time:

Other. Approximately 120 to 180 days after receipt of applications.

Appeals:

Other. Hospitals can appeal the determination of FTE resident counts by CHGME fiscal intermediaries to the Provider Reimbursement Review Board (PRRB) under section 1878 of the Social Security Act.

Renewals:

Other. Eligible children's hospitals must complete a CHGME Payment Program application for inclusion in the program for each fiscal year that they are applying for funds. They must also submit a reconciliation application that will reflect the Secretary determination of the Final FTE resident counts carried out by CHGME fiscal intermediaries led by a contractor. The contractor is under contract to the Bureau of Health Workforce (BHW) to conduct the assessments of residents counts reported by childrens hospitals on their initial applications for funds.

Formula and Matching Requirements:

Statuary formula is not applicable to this assistance listing. Matching requirements are not applicable to this assistance listing. MOE requirements are not applicable to this assistance listing.

Length and Time Phasing of Assistance:

In accordance with the Healthcare Research and Quality Act, 1999, Public Law 106-129, the Secretary of DHHS shall determine the number of resident FTE counts before the beginning of each fiscal year that payments are made for a hospital. The amounts of the payments for direct and indirect medical education are made to each hospital in 12 equal interim installments during the Federal fiscal year. Method of awarding/releasing assistance: other

Reports:

Both program and financial reports are required. Public Law 109-307 requires childrens hospitals receiving CHGME payments to submit an annual report that focuses on their GME training programs. The childrens hospitals comply with the Government Performance Result Act (GPRA) and submit performance data each fiscal year as part of their reconciliation applications for funds. The awardee will also be required to submit an annual performance report. A Federal Financial Report (SF-425) is required according to the schedule in HRSA's Application Guide.

Audits:

ASSISTANCE LISTINGS DESCRIPTIONS

This program is excluded from coverage under 2 CFR 200, Subpart F - Audit Requirements. DHHS, or any other authorized federal agency, may conduct an audit to determine whether the applicant has complied with all governing laws and regulations in its application for funding. Any and all information submitted to DHHS by an applicant or participating hospital during or after the award of funds is subject to review in an audit. Eligible hospitals are subjected to the terms of the Full-Time Equivalent Assessment Process Guidance and Assessments which is available electronically via CHGME Payment Program web site noted in Application Procedure above.

Records:

Recipients are required to maintain grant accounting records for 3 years after the date they submit the Federal Financial Report (FFR). If any litigation, claim, negotiation, audit, or other action involving the award has been started before the expiration of the 3 year period, the records shall be retained until completion of the action and resolution of all issues which arise from it, or until the end of the regular 3 year period, whichever is later.

93.259 Rural Access to Emergency Devices Grant and Public Access to Defibrillation Demonstration Grant

Rural Access to Emergency Devices (RAED) The Public Access Defibrillation Demonstration Project (PADDP) Rural Opioid Overdose Reversal (ROOR) Program,

FEDERAL AGENCY:

HEALTH RESOURCES AND SERVICES ADMINISTRATION, HEALTH AND HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

Rural Access to Emergency Devices- Public Health Improvement Act Title IV Cardiac Arrest Survival, Subtitle B Rural Access to Emergency Devices, Section 413, Public Law 106-505 (42 U.S.C. 254c (Note)); Public Law 113-46 The Public Access Defibrillation Demonstration Project-Section 313 of the Public Health Service Act (42 U.S.C. 245) Rural Opioid Overdose Reversal (ROOR) Program-Section 711(b) of the Social Security Act (U.S.C. 912(b), as amended; Public Law 113-235.

OBJECTIVES:

The purpose of the Rural Access to Emergency Devices (RAED) Program is to (1) purchase automated external defibrillators (AEDs) that have been approved, or cleared for marketing, by the Food and Drug Administration; (2) provide defibrillator and basic life support training in automated external defibrillator usage through the American Heart Association, the American Red Cross, or other

nationally recognized training courses, and (3) place the AEDs in rural communities with local organizations. The Public Access Defibrillation Demonstration Project (PADDP) supports innovative, comprehensive, community-based public access defibrillation demonstration projects that: (1) provide cardiopulmonary resuscitation and automated external defibrillation to cardiac arrest victims in unique settings; (2) provide training to community members in cardiopulmonary resuscitation and automated external defibrillation; and (3) maximize community access to automated external defibrillators (AED). The purpose of the Rural Opioid Overdose Reversal (ROOR) Program is to reduce the incidences of morbidity and mortality related to opioid overdoses in rural communities through the purchase and placement of emergency devices used to rapidly reverse the effects of opioid overdoses and training of licensed healthcare professionals and emergency responders on their use.

93.262 Occupational Safety and Health Program

FEDERAL AGENCY:

CENTERS FOR DISEASE CONTROL AND PREVENTION, HEALTH AND HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

Federal Mine Safety and Health Act, Section 501(a), 30 USC Code 1(NOTE) & 951(a). Executive Order Federal Regulations 42 CFR 52 and 45, Part 74 and 92, Occupational Safety and Health Act of 1970, Section 20(a) and 21(a), 29 USC Code 669(a) & 670(a). Public Health Service Act, Section 301(a) and 405, 42 USC Code 241 and 284.

OBJECTIVES:

To (1) recognize new hazards; (2) define the magnitude of the problem; (3) follow trends in incidence; (4) target exceptional hazardous workplaces for intervention; and (5) evaluate the effectiveness of prevention efforts. The goal of this program is to increase worker safety and health. To develop specialized professional and paraprofessional personnel in the occupational safety and health field with training in occupational medicine, occupational health nursing, industrial hygiene, occupational safety, and other priority training areas. To perform medical monitoring and treatment for World Trade Center Responders and non-Responders and to create a Registry of affected workers.

TYPES OF ASSISTANCE:

Project Grants, Training

USES AND USE RESTRICTIONS:

Research grants and cooperative agreements are intended to support the direct costs of a project, in accordance with an approved budget, plus an appropriate amount for indirect costs. Training grants: Funds may be used for long term training programs and/or education and research centers. Support is provided for the direct costs of the program, plus certain indirect costs determined by Public Health Service policy on training programs. Amounts of stipends and other details are in accordance with Public Health Service policy. SBIR Phase I grants (of approximately 6-months duration) are to establish the technical merit and feasibility of a proposed research effort that may lead to a commercial product or process. Phase II grants are for the continuation of the research initiated in Phase I and that are likely to result in commercial products or processes. Only Phase I awardees are eligible to apply for Phase II support.

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals); U.S. Territories and possessions (includes institutions of higher education and hospitals); Specialized group (e.g. health professionals, students, veterans); Private nonprofit institution/organization (includes institutions of higher education and hospitals); Eligible applicants include for-profit or non-profit organizations, public or private institutions, such as universities, colleges, hospitals, and laboratories, units of State and local governments, eligible agencies of the Federal government, domestic or foreign institutions/organizations, faith-based organizations, Indian Tribes, Tribal Government, College and/or Organizations. Racial/ethnic minority individuals, women, and persons with disabilities are encouraged to apply as Principal Investigators. Training Grants: Any public or private educational institution or agency that has demonstrated competency in occupational safety and health

ASSISTANCE LISTINGS DESCRIPTIONS

training at the technical, professional, or graduate level may apply. Trainees must be admissible to the grantee institution and must be enrolled in occupational safety and health training programs. SBIR grants can be awarded only to domestic small businesses (entities that are independently owned and operated for profit, are not dominant in the field in which research is proposed and have no more than 500 employees). For SBIR grants primary employment (more than one-half time) of the principal investigator must be with the small business at the time of award and during the conduct of the proposed project. In both Phase I and Phase II, the research must be performed in the U.S. and its possessions.

Beneficiary Eligibility:

Private nonprofit institution/organization; Other private institution/organization; Health Professional; Scientist/Researchers; Public nonprofit institution/organization; Research institutions and agencies as well as workers affected by occupational hazards.

Credentials/Documentation:

Applications must be signed by appropriate officials of the submitting institution. For-profit organizations' costs are determined in accordance with 48 CFR Subpart 31.2 of the Federal Acquisition Regulations. For other grantees, costs will be determined by HHS Regulations 45 CFR Part 74, Subpart Q. For SBIR grants applicant organization (small business concern) must present in a research plan an idea that has potential for commercialization and furnish evidence that scientific competence, experimental methods, facilities, equipment, and funds requested are appropriate to carry out the plan. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is not applicable.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Applications are prepared and submitted following instructions provided in Funding Opportunity Announcements (FOAs). NIOSH publishes FOAs at <http://www.Grants.gov>, and in the NIH Guide for Grants and Contracts at <http://grants1.nih.gov/grants/guide/index.html>. Grants.gov is the portal for applications. Appropriate forms are specified in each FOA. Research and training programs utilize either the SF-424 R&R for electronic submission or the PHS 398 application form and instructions which are available on the Internet at: <http://grants1.nih.gov/grants/forms.htm>.

Award Procedure:

Awards are made on the basis of a two-step review of an investigator-prepared application. Applications are initially reviewed for scientific and technical merit by a scientific peer review group. The second level of review is performed by the NIOSH Secondary Review Committee for program relevance. Final approval of funding recommendations is made by the Director, NIOSH.

Deadlines:

Contact the headquarters or regional location, as appropriate for application deadlines.

Range of Approval/Disapproval Time:

>180 Days. Research Grants and Awards: 7-9 months. Training Grants: 9-10 months. SBIR: 7-8 months.

Appeals:

From 120 to 180 days. A principal investigator may question the substantive or procedural aspects of the review of his/her application by communicating with the staff in the NIOSH Office of Extramural Programs.

Renewals:

>180 Days. Support is recommended for a specified project period, usually not in excess of 5 years. Prior to the end of a project period, the grantee may apply for renewal of support for a new project period. Applications for renewal (competing continuation, Type 2) will be reviewed in the same manner as a new application and will compete for available funds with other applications.

Formula and Matching Requirements:

Statutory formula is not applicable to this assistance listing. Matching requirements are not applicable to this assistance listing. MOE requirements are not applicable to this assistance listing.

Length and Time Phasing of Assistance:

Research and Training Grants and Cooperative Agreements may be awarded for project periods ranging from one to five years depending on the recommendations of the scientific review group and the Secondary Review Committee, and on demonstration of successful performance and the availability of funds. SBIR Grants: Normally, Phase I awards are for 6 months; normally, Phase II awards are for 2 years. Method of awarding/releasing assistance: other

Reports:

Terminal progress report (including citations of all resulting publications) within 90 days after end of project support. Interim progress reports (including citations of all resulting publications) annually as part of a non-competing continuation application for previously recommended support. Annual financial status report within 90 days after the conclusion of each budget period.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. In addition, grants and cooperative agreements are subject to inspection and audits by DHHS and other Federal government officials.

Records:

Financial records, including documents to support entries on accounting records and to substantiate charges to each grant, must be kept readily available for review by personnel authorized to examine PHS grant accounts. Records must be maintained for three years after the end of each budget period. If questions still remain, such as those raised as a result of an audit, related records should be retained until the matter is completely resolved.

CRITERIA FOR SELECTING PROPOSALS:

The major elements in evaluating proposals include assessments of: (1) the scientific merit and general significance of the proposed study and its objectives; (2) the technical adequacy of the experimental design and approach; (3) the competency of the proposed investigator or group to successfully pursue the project; (4) the adequacy of the available and proposed facilities and resources; (5) the necessity of the budget components requested in relation to the proposed project; and (6) the relevance and importance to stated program objectives.

Training Grants: Criteria used in evaluating training proposals include: (1) Overall potential contribution of the project toward meeting program objectives; (2) the need for training in the areas outlined in the application; (3) curriculum content and design; (4) previous record of training; (5) evaluation methods; (6) experience and training of the project director and staff; (7) institutional commitment; (8) academic and physical environment; (9) past performance; and (10) appropriateness of budget. The following criteria will be used in considering the scientific and technical merit of SBIR Phase I grant applications: (1) The soundness and technical merit of the proposed approach; (2) the qualifications of the proposed principal investigator, supporting staff, and consultants; (3) the technological innovation of the proposed research; (4) the potential of the proposed research for commercial application; (5) the appropriateness of the budget requested; (6) the adequacy and suitability of the facilities and research environment; and (7) where applicable, the adequacy of assurances detailing the proposed means for (a) safeguarding human or animal subjects, and/or (b) protecting against or minimizing any adverse effect on the environment.

Phase II grant applications will be reviewed based upon the following criteria: (1) The degree to which the Phase I objectives were met and feasibility demonstrated; (2) the scientific and technical merit of the proposed approach for achieving the Phase II objectives; (3) the qualifications of the proposed principal investigator, supporting staff, and consultants; (4) the technological innovation, originality, or societal importance of the proposed research; (5) the potential of the proposed research for commercial application; (6) the reasonableness of the budget requested for the work proposed; (7) the adequacy and suitability of the facilities and research environment; and (8) where applicable, the adequacy of assurances detailing the proposed means for (a) safeguarding human or animal subjects, and/or (b) protecting against or minimizing any adverse effect on the environment.

93.264 Nurse Faculty Loan Program (NFLP)

NFLP,

FEDERAL AGENCY:

HEALTH RESOURCES AND SERVICES ADMINISTRATION, HEALTH AND HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

Sections 846A (42 U.S.C. 297n-1) and Section 847(f) (42 U.S.C. 297o(f)) of the Public Health Service Act.

OBJECTIVES:

The Nurse Faculty Loan Program (NFLP) is a loan forgiveness program which aims to increase the number of qualified nursing faculty. Schools of Nursing that receive NFLP funding must provide loans to students enrolled in eligible advanced degree nursing programs (masters or doctoral) with coursework that uniquely prepares students to serve as full-time nurse faculty at accredited schools of nursing. NFLP student borrowers who complete these programs and secure post-graduate employment as nurse faculty receive forgiveness of up to 85% of the NFLP loan while serving as full-time nurse faculty at an accredited school of nursing.

TYPES OF ASSISTANCE:

Formula Grants

USES AND USE RESTRICTIONS:

NFLP grantees must establish a distinct NFLP loan fund for the purpose of making NFLP loans to eligible students enrolled in advanced degree nursing programs who are committed to become qualified nurse faculty and for the costs associated with collection of these loans. Institutions may award a maximum loan amount of \$35,500 per student for an academic year to support the cost of tuition, fees, books, and other reasonable education expenses, not to exceed five years of NFLP loan support to a single student. Upon completion of the program and following graduation, an amount up to 85 percent of the loan (principal of and interest on) may be cancelled by the institution as follows: 20 percent upon completion of the first, second, and third years of full-time faculty employment in an accredited school of nursing; and 25 percent upon completion of the fourth year of full-time employment as faculty in an accredited school of nursing.

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); Public nonprofit institution/organization (includes institutions of higher education and hospitals); U.S. Territories and possessions (includes institutions of higher education and hospitals); Private nonprofit institution/organization (includes institutions of higher education and hospitals); Eligible applicants are accredited public or private collegiate schools of nursing or departments within an academic institution, that offer graduate degree nursing education programs (master's or doctoral) that will prepare the graduate student to serve as nurse faculty. The school must be located in the 50 States, the Commonwealth of Puerto Rico, the District of Columbia, the Commonwealth of the Northern Mariana Islands, Guam, American Samoa, the U.S. Virgin Islands, the Republic of the Marshall Islands, the Federated States of Micronesia, or the Republic of Palau. Funding priority is given to applicants with doctoral-level advanced degree nursing programs.

Beneficiary Eligibility:

Native American Organizations; U.S. Citizen; Eligible nursing students must: (1) be a citizen or national of the United States, or a lawful permanent resident of the United States, the Commonwealth of Puerto Rico, the District of Columbia, the Commonwealth of the Northern Mariana Islands, Guam, American Samoa, the U.S. Virgin Islands, the Republic of the Marshall Islands, the Federated States of Micronesia, or the Republic of Palau; (2) be enrolled in an advanced degree program in nursing to become qualified nursing faculty; (3) not be in default on a Federal debt; and (4) maintain good academic standing.

Credentials/Documentation:

The Vaccines for Children (VFC) program is authorized under Section 1902(a)(62) of the Social Security Act, 42 U.S.C. section 1396a(a)(62). The VFC Program was established under the authority of Section 1928(a) of the Social Security Act, 42 U.S.C. 1396s(a).

OBJECTIVES:

To assist states and communities in establishing and maintaining preventive health service programs to immunize individuals against vaccine-preventable diseases (including measles, rubella, poliomyelitis, diphtheria, pertussis, tetanus, hepatitis B, hepatitis A, varicella, mumps, haemophilus influenza type b, influenza, and pneumococcal pneumonia).

TYPES OF ASSISTANCE:

Cooperative Agreements, Project Grants

USES AND USE RESTRICTIONS:

Cooperative Agreement funds may be used for costs associated with planning, organizing, and conducting immunization programs directed toward vaccine-preventable diseases and for the purchase of vaccine; and for the implementation of other program elements, such as assessment of the problem; surveillance and outbreak control; information and education; adequate notification of the risks and benefits of immunization; compliance with compulsory school immunization laws; vaccine storage, supply management, and delivery; citizen participation; and use of volunteers. Vaccine will be available "in lieu of cash" if requested by the applicants. Requests for personnel and other items "in lieu of cash" will also be considered. Vaccine purchased with Cooperative Agreement funds may be provided to private practitioners who agree not to charge for vaccine. Cooperative Agreement funds may be used to supplement (not substitute for) existing immunization services and operations provided by a state or locality.

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals); U.S. Territories and possessions; Any U.S. state, and in consultation with state health authorities, political subdivisions of states and other public entities and U.S. territories may apply; private individuals and private nonprofit agencies are not eligible for immunization grants.

Beneficiary Eligibility:

U.S. Territories; State; Local; Any U.S. state, political subdivision (as described above), and other public entities will benefit.

Credentials/Documentation:

Applicants should document the need for assistance, state the objectives of the project, outline the method of operation, describe the evaluation procedures, and provide a budget with justification of funds. Costs will be determined in accordance with 2 CFR 225 (OMB Circular No. A-87) for state and local governments. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is required. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review. Contact the headquarters or regional location, as appropriate, for application deadlines.

93.270 Viral Hepatitis Prevention and Control

Viral Hepatitis Prevention, Screening, Linkage to Care, and Education,

FEDERAL AGENCY:

CENTERS FOR DISEASE CONTROL AND PREVENTION, HEALTH AND HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

Sections 301 and 317K(k)(2) of the Public Health Service Act (42 U.S.C. section 241 and 274b-15), as amended

OBJECTIVES:

Program activities under this funding will allow for CDC to partner with multiple organizations to benefit individuals by substantially reducing viral hepatitis transmission, identifying those that are acutely and chronically infected, and linking infected individuals with treatment if appropriate. Specifically, the program activities may include but are not limited to: 1. Increasing the proportion of persons living with HCV and HBV who are aware of their infection and referred for prevention and clinical care services. 2. Expanding and improving efforts to develop and disseminate viral hepatitis training and educational materials targeting the public and private sector health care professionals to build capacity to assess, test and medically manage populations at risk for chronic HCV and HBV infection. 3. Supporting state and local health departments and other organizations in linking HCV infected persons to community health centers, clinics serving injection drug users, and other health organizations seeing individuals potentially infected with chronic viral hepatitis. 4. Increase the number of reported incidence cases being reported in state and local health departments. 5. Additional support will be provided for program monitoring, evaluation, capacity building, and technical assistance, along with support for acute and chronic viral hepatitis surveillance.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

Funds may be used for costs associated with establishing and maintaining a prevention and control program directed towards prevention of viral hepatitis infections and their manifestations. Recipients may only expend funds for reasonable policies, systems and program purposes including personnel, travel, supplies and services, such as reducing transmission of HAV, HBV and HCV, preventing and delaying the progress of chronic infection, as well as educating and training of the general public and health care providers. Recipients may not use

funds for clinical care. Recipients may not generally use funding for the purchase of furniture or equipment. Any such proposed spending must be identified in the budget. The recipient must perform a substantial role in carrying out project objectives and not merely serve as a conduit for an award in another party or provider who is eligible.

Applicant Eligibility:

Intrastate; State (includes District of Columbia, public institutions of higher education and hospitals); Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals); Sponsored organization; Public nonprofit institution/organization (includes institutions of higher education and hospitals); Other public institution/organization; Federally Recognized Indian Tribal Governments; U.S. Territories and possessions (includes institutions of higher education and hospitals); Minority group; Specialized group (e.g. health professionals, students, veterans); Small business (less than 500 employees); Profit organization; Private nonprofit institution/organization (includes institutions of higher education and hospitals); Quasi-public nonprofit institution/organization; Other private institutions/organizations; Anyone/general public; Applicants include State or local governments or their Bona Fide Agents, public and private nonprofit organizations, for profit organizations, small, minority, women-owned businesses, universities, colleges, research institutions, hospitals, community-based organizations, faith based organizations, Federally recognized Indian tribal governments, Indian tribes, and Indian tribal organizations. Additional guidance may be provided in individual program announcements. In addition, funds may be used for costs associated with establishing and maintaining a prevention and control program directed towards prevention of viral hepatitis infections and their manifestations. Recipients may only expend funds for reasonable policies, systems and program purposes including personnel, travel, supplies and services, such as reducing transmission of HAV, HBV and HCV, preventing and delaying the progress of chronic infection, as well as educating and training of the general public and health care providers. Recipients may not use funds for clinical care. Recipients may not generally use funding for the purchase of furniture or equipment. Any such proposed spending must be identified in the budget. The recipient must perform a substantial role in carrying out project objectives and not merely serve as a conduit for an award in another party or provider who is eligible.

Beneficiary Eligibility:

Individual/Family; Anyone/general public; State; Local; Public nonprofit institution/organization; Federally Recognized Indian Tribal Governments; The individual will benefit from the objectives of this program as well as the community at large, and society from the savings realized from treating those who are infected with viral hepatitis. .

Credentials/Documentation:

Applicants should document the need for assistance, state the objectives of the project, outline the method of operation, describe the evaluation procedures and provide a budget justification of funds requested. Costs for nonprofit recipients will be determined in accordance with HHS Regulations, 45 CFR Part 74 and Part 92. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Pre-application coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. OMB Circular No. A-102 applies to this program. OMB Circular No. A-110 applies to this program. Applicants must download application forms from www.Grants.gov. Applications must be submitted electronically at www.Grants.gov. 93.273 Alcohol Research Programs

FEDERAL AGENCY:

NATIONAL INSTITUTES OF HEALTH, HEALTH AND HUMAN SERVICES,
DEPARTMENT OF
AUTHORIZATION:

Public Health Service Act, as amended, Sections 301 and 464H, and 42 U.S.C. 290Gb; Small Business Research and Development Enhancement Act of 1992, Public Law 102-564, Public Law 78-410, 42 USC Code 241.

OBJECTIVES:

To develop a sound fundamental knowledge base which can be applied to the development of improved methods of treatment and more effective strategies for preventing alcoholism and alcohol-related problems. The National Institute on Alcohol Abuse and Alcoholism (NIAAA) supports research in a broad range of disciplines and subject areas related to biomedical and genetic factors, psychological and environmental factors, alcohol-related problems and medical disorders, health services research, and prevention and treatment research. Small Business Innovation Research (SBIR) program: to increase private sector commercialization of innovations derived from Federal research and development; to increase small business participation in Federal research and development; and to foster and encourage participation of socially and economically disadvantaged small business concerns and women-owned small business concerns in technological innovation. Small Business Technology Transfer (STTR) program: To stimulate and foster scientific and technological innovation and technology transfer through cooperative research and development carried out between small business concerns and research institutions; to increase private sector commercialization of innovations derived from Federal research and development; and to foster and encourage participation of socially and economically disadvantaged small business concerns and women-owned small business concerns in technological innovation.

ASSISTANCE LISTINGS DESCRIPTIONS

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

(1) Research Project Grants provide support for clearly defined projects or a small group of related activities, and when appropriate, support of conferences; (2) Program Project Grants are for large-scale, broad-based programs of research, usually interdisciplinary, consisting of several projects with a common focus; (3) Small Grants are for small-scale exploratory and pilot studies or exploration of an unusual research opportunity; Small Grants are limited to \$50,000 for direct costs for a period of up to 2 years; (4) Exploratory/Developmental Grants are limited for a period of up to 2 years, and a maximum of \$275,000 for direct costs for the entire 2-year period. Funds may be used only for expenses directly related to the approved research project. SBIR Phase I grants (of approximately 6-months' duration) are to establish the technical merit and feasibility of a proposed research effort that may lead to a commercial product or processes. Phase II grants are for the continuation of the research initiated in Phase I, and that are likely to result in commercial products or processes. STTR Phase I grants (normally of 1-year duration) are to determine the scientific, technical, and commercial merit and feasibility of the proposed cooperative effort that has potential for commercial application. Phase II funding is based on results of research initiated in Phase I and scientific and technical merit and commercial potential of Phase II application; (5) Alcohol Research Center Grants, and Alcohol Research Resource Centers provide long-term support for a concerted and multi-disciplinary research effort into the problems of alcohol use and alcoholism by coordinating the activities of investigators from biomedical, behavioral, and social science disciplines around a basic research theme. An alcohol research center is expected to realize its greater potential for contributing to the basic store of knowledge about alcohol and alcoholism and to become a significant regional and national resource; (6) Training and Research Career Development awards - Mentored Research Scientist Development Awards (K01), Mentored Clinical Scientist Development Awards (K08), and Independent Scientist Awards (K02) provide support for individuals with research potential who need additional development and/or experience in a productive research environment. Mentored Patient-Oriented Research Career Development Award (K23) and Mid-career Investigator Award in Patient Oriented Research (K24) and Mentored Quantitative Research Career Development Award (K25) are also available. Senior Scientist Awards (K05) are also available to enable senior investigators to devote full-time to research. Academic Career Awards (K07) are also available for clinical faculty development; and (7) Alcohol National Research Service Awards for Research Training awards to assure the maintenance of an adequate supply of well-trained alcohol researchers through the award of both individual fellowships and grants to training institutions for support of training at both the pre-doctoral and postdoctoral levels and for Senior Fellowships and M.D./Ph.D. Fellowships. Special pre-doctoral fellowships are also available for students with disabilities and for minority students.

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals; Sponsored organization; Public nonprofit institution/organization (includes institutions of higher education and hospitals); Other public institution/organization; Federally Recognized Indian Tribal Governments; U.S. Territories and possessions; U.S. Territories and possessions (includes institutions of higher education and hospitals); Non-Government - General; Individual/Family; Minority group; Specialized group (e.g. health professionals, students, veterans); Small business (less than 500 employees); Profit organization; Private nonprofit institution/organization (includes institutions of higher education and hospitals); Quasi-public nonprofit institution/organization; Other private institutions/organizations; State; Native American Organizations (includes Indian groups, cooperatives, corporations, partnerships, associations); Public or private profit and nonprofit agencies, including State, local, or regional government agencies, universities, colleges, hospitals, academic or research institutions may apply for research grants. SBIR grants can be awarded only to domestic small businesses (entities that are independently owned and operated for profit, are not dominant in the field in which research is proposed, and have no more than 500 employees). Primary employment (more than one-half time) of the principal investigator must be with the small business at the time of award and during the conduct of the proposed project. In both Phase I and Phase II, the research must be performed in the U.S. and its possessions. To be eligible for

funding, a grant application must be approved for scientific merit and program relevance by a scientific review group and a national advisory council. STTR grants can be awarded only to domestic small business concerns (entities that are independently owned and operated for profit, are not dominant in the field in which research is proposed and have no more than 500 employees) which "partner" with a research institution in cooperative research and development. At least 40 percent of the project is to be performed by the small business concern and at least 30 percent by the research institution. In both Phase I and Phase II, the research must be performed in the U.S. and its possessions. To be eligible for funding, a grant application must be approved for scientific merit and program relevance by a scientific review group and a national advisory council.

Beneficiary Eligibility:

Federal; U.S. Territories; Individual/Family; Minority group; Small business; Profit organization; Private nonprofit institution/organization; Quasi-public nonprofit organization; Other private institution/organization; Native American Organizations; Health Professional; Education Professional; Student/Trainee; Graduate Student; Scientist/Researchers; Small Business Person; Black; American Indian; Spanish Origin; Asian; Other Non-White; State; U.S. Citizen; Women; Disabled (e.g. Deaf, Blind, Physically Disabled); Local; Education (13+); Public nonprofit institution/organization; Other public institution/organization; Federally Recognized Indian Tribal Governments; Public, profit and nonprofit private organizations.

Credentials/Documentation:

For-profit grantees' costs will be determined in accordance with Subpart 31.2 of the Federal Acquisition Regulations. For other grantees, costs will be determined in accordance with HHS Regulation 45 CFR Part 74, Subpart C, Section 74.27. For SBIR and STTR grants, applicant organization (small business concern) must present in a research plan an idea that has potential for commercialization and furnish evidence that scientific competence, experimental methods, facilities, equipment, and funds requested are appropriate to carry out the plan. Grant forms PHS 6246-1 and PHS 6246-2 are used to apply for SBIR Phase I and Phase II, respectively. Grant forms PHS 6246-3 and PHS 6246-4 are used to apply for STTR Phase I and Phase II, respectively. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is not applicable.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. The standard application forms, as furnished by PHS, must be used by grant applicants. Application kits, containing the necessary forms and instructions, if not available at the applicant institution, may be obtained from the NIAAA. Consultation on proposed projects is also available. Preapplication consultation with NIAAA staff is required before submission of a Program Project grant application or any unsolicited new grant application requesting \$500,000 or more direct costs in any one year. Applications are reviewed by nonfederal consultants recruited nationwide. The amount of the award and period of support are determined on the basis of the merit of the project. This program is subject to the provisions of 45 CFR Part 92 for State and local governments and OMB Circular No. A-110 for nonprofit organizations. SBIR and STTR Grant Solicitations and SBIR Contract Solicitation may be obtained electronically through the NIH's "Small Business Funding Opportunities" home page at www.nih.gov/grants/funding/sbir.htm on the World Wide Web. A limited number of hard copies of these publications are produced. Subject to availability, they may be obtained by contacting the NIH support services contractor: Telephone: (301) 206-9385; Fax: (301) 206-9722; E-mail: a2y@cu.nih.gov. The Solicitations include submission procedures, review considerations, and grant application or contract proposal forms. SBIR and STTR grant applications should be submitted to the Center for Scientific Review, 6701 Rockledge Drive, Room 1040 - MSC 7710, Bethesda, MD 20892-7710.

Award Procedure:

Research Grants in support of projects recommended for approval by the National Advisory Council on Alcohol Abuse and Alcoholism and approved for payment are awarded directly by the NIAAA to the applicant institution. All accepted SBIR/STTR applications are evaluated for scientific and technical merit by an appropriate scientific peer review panel and by a national advisory council or board. All applications receiving a priority score compete for available

ASSISTANCE LISTINGS DESCRIPTIONS

SBIR/STTR set-aside funds on the basis of scientific and technical merit and commercial potential of the proposed research, program relevance, and program balance among the areas of research.

Deadlines:

Contact the headquarters or regional location, as appropriate for application deadlines.

Range of Approval/Disapproval Time:

Other. From 240 to 270 days from submission of application for grant support. SBIR/STTR applications about 7-1/2 months. AIDS related research applications about 6 months.

Appeals:

Other. A principal investigator may appeal the substantive or procedural aspects of the review of his/her application by communicating with the staff of the Institute. A description of the NIH Peer Review Appeals procedures is available on the NIH home page <http://grants.nih.gov/grants/guide/notice-files/NOT-OD-11-064.html>

Renewals:

Other. Support is recommended for a specified project period, usually not in excess of 5 years. Prior to termination of a project period, the grantee may apply for renewal of support for a new project period. An application for renewal is processed as a competing request. Small Grants and Exploratory/Developmental Grants are not renewable, but grantees may apply for research project grants on the same topics.

Formula and Matching Requirements:

Statutory formula is not applicable to this assistance listing. Matching requirements are not applicable to this assistance listing. MOE requirements are not applicable to this assistance listing.

Length and Time Phasing of Assistance:

Varies, but a project period is generally limited to 5 years or less. Grantee may apply for renewal of support on a competing basis. Within the project period, continuation applications must be submitted on a non-competing basis for each year of approved support. Small Grants are limited to 2 years or less and are not renewable. Exploratory/Developmental Grants are limited to 3 years or less and are not renewable. Payments will be made either on a Monthly Cash Request System or under an Electronic Transfer System. Necessary instructions for the appropriate type of payment will be issued shortly after an award is made. SBIR: Normally, Phase I awards are for 6 months; normally, Phase II awards are for 2 years. STTR: Normally, Phase I awards are for 1 year; normally, Phase II awards are for 2 years. Method of awarding/releasing assistance: other

93.275 Substance Abuse and Mental Health Services-Access to Recovery

ATR I, ATR II, ATRIII,

FEDERAL AGENCY:

SUBSTANCE ABUSE AND MENTAL HEALTH SERVICES
ADMINISTRATION, HEALTH AND HUMAN SERVICES, DEPARTMENT OF
AUTHORIZATION:

The Public Health Act, Section 501(d)(5), 509, Public Law 106-310, 42 USC Code 290aad5-290bb-2.

OBJECTIVES:

To implement voucher programs for substance abuse clinical treatment and recovery support services pursuant to sections 501 (d)(5) and 509 of Public Health Service Act (42 U.S.C. sections 290aa(d)(5) and 290bb-2). This program, called Access to Recovery (ATR), is to provide client choice among substance abuse clinical treatment and recovery support service providers, expand access to a comprehensive array of clinical treatment and recovery support options (including faith-based programmatic options), and increase substance abuse treatment capacity. Monitoring outcomes, tracking costs, and preventing waste, fraud and abuse to ensure accountability and effectiveness in the use of Federal funds are also important elements of the ATR program. Through the ATR grants, States, Territories, the District of Columbia and Tribal Organizations (hereinafter collectively referred to as "States") will have flexibility in designing and implementing voucher programs to meet the needs of clients in the State. The key to successful implementation of the voucher programs supported by the ATR grants will be the relationship between the States and clients receiving services, to ensure that clients have a genuine, free, and independent choice among eligible providers. States are encouraged to support any mixture of clinical treatment and recovery support services that can be expected to achieve the program's goal of achieving cost-effective, successful outcomes for the largest number of people.

TYPES OF ASSISTANCE:

Project Grants, Project Grants (Discretionary)

USES AND USE RESTRICTIONS:

Funds (including direct costs and indirect costs) may be used only for expenses clearly related and necessary to carry out approved activities.

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals; Federally Recognized Indian Tribal Governments; U.S. Territories and possessions (includes institutions of higher education and hospitals); Eligibility for Access to Recovery (ATR) grants is limited to the immediate office of the Chief Executive (e.g., Governor) in the States, Territories, District of Columbia; or the head of a Tribal Organization. (A "Tribal Organization" means the recognized governing body of any Indian tribe or any legally established organization of Indians, including urban Indian health boards, inter-tribal councils, or regional Indian health boards, which is controlled,

sanctioned, or chartered by such governing body or which is democratically elected by the adult members of the Indian community to be served by such an organization.) The Chief Executive of the State, Territory, or District of Columbia, or the head of the Tribal Organization must sign the application. Eligibility is limited to the immediate office of these Chief Executives because only they have the authority to leverage funding across the State, implement the necessary policy changes, manage the fiscal responsibilities, and coordinate the range of programs necessary for successful implementation of the voucher programs to be funded through these grants. No more than one application from any one Chief Executive or head of a Tribal Organization will be funded.

Beneficiary Eligibility:

93.276 Drug-Free Communities Support Program Grants

Drug Free Community Grants (DFC). Drug-Free Communities Mentoring Program (DFC-M),

FEDERAL AGENCY:

SUBSTANCE ABUSE AND MENTAL HEALTH SERVICES
ADMINISTRATION, HEALTH AND HUMAN SERVICES, DEPARTMENT OF
AUTHORIZATION:

Drug-Free Communities Act of 1997, Public Law 105-20, Reauthorized by Public Law 107-82

OBJECTIVES:

To increase the capacity of community coalitions to reduce substance abuse, and over time, to reduce substance abuse among adults through strengthening collaboration among communities, public, and private entities. To disseminate state-of-the-art information on practices and initiatives that have proven to be effective in reducing substance abuse among youth.

TYPES OF ASSISTANCE:

Project Grants, Project Grants (Discretionary)

USES AND USE RESTRICTIONS:

Funds must be used by the programs that are intended to support established community-based coalitions to work with leaders within their communities to identify and address local youth substance use problems and create sustainable community-level change. No more than 20% of funds may be used for data collection and evaluation.

Applicant Eligibility:

Public nonprofit institution/organization (includes institutions of higher education and hospitals); Other public institution/organization; Federally Recognized Indian Tribal Governments; U.S. Territories and possessions (includes institutions of higher education and hospitals); Specialized group (e.g. health professionals, students, veterans); Private nonprofit institution/organization (includes institutions of higher education and hospitals); Community coalitions must demonstrate that the community coalition has worked together for a period of not less than 6 months on substance abuse reduction initiatives. The coalition must: meet the composition requirements; ensure that there is substantial community volunteer effort; ensure that the coalition is a nonprofit, charitable, educational organization, or unit of local government, or is affiliated with an eligible organization or entity; possess a strategy to be self-sustaining; provide a 100-150 percent cash or in-kind match; and agree to participate in an evaluation of the coalition's program.

Beneficiary Eligibility:

Private nonprofit institution/organization; Local; Public nonprofit institution/organization; Other public institution/organization; Community coalitions, children, youth, and adults, those at-risk of substance abuse, and private nonprofit, and public community agencies.

Credentials/Documentation:

2 CFR 200/45 CFR Part 75 Uniform Administrative Requirements, Cost Principles, and Audit Requirements for HHS Awards 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is required. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. The Drug Free Community (DFC) is a collaborative initiative sponsored by Office of National Drug Control Policy (ONDCP) and Substance Abuse and Mental Health Services Administration (SAMHSA). Applications will be screened initially by ONDCP and SAMHSA to determine whether the applicant meets all the eligibility requirements. Applications submitted by eligible coalitions that meet all requirements will then be evaluated, scored, and rated by a peer review panel.

Award Procedure:

Upon approval by the Office of National Drug Control Policy and Substance Abuse and Mental Health Services Administration, a Notice of Award (NoA) signed by SAMHSA's Grants Management Officer is sent to the applicant agency. The NoA is the sole obligating document that allows the grantee to receive Federal funding for work on the grant project.

Deadlines:

Contact the headquarters or regional location, as appropriate for application deadlines.

Range of Approval/Disapproval Time:

From 90 to 120 days. From 1 to 4 months.

Appeals:

Other. None

Renewals:

93.279 Drug Abuse and Addiction Research Programs

FEDERAL AGENCY:

NATIONAL INSTITUTES OF HEALTH, HEALTH AND HUMAN SERVICES,
DEPARTMENT OF
AUTHORIZATION:

Public Health Service Act, Sections 301, 302 405, 464L, 464N, 464O and 464P, 42 U.S.C. 241, 42 U.S.C. 284, 42 U.S.C. 285o, 42 U.S.C. 288, 42 U.S.C. 295; Small Business Act 15 U.S.C 638.

OBJECTIVES:

To support basic and clinical neuroscience, biomedical, behavioral and social science, epidemiologic, health services and health disparity research. To develop new knowledge and approaches related to the prevention, diagnosis, treatment, etiology, and consequences of drug abuse and addiction, including HIV/AIDS. To support research training and research scientist development. To support dissemination of research findings. Small Business Innovation Research (SBIR) legislation is intended to expand and improve the SBIR programs to emphasize and increase private sector commercialization of technology developed through Federal SBIR research and development; increase small business participation in Federal research and development; and foster and encourage participation of socially and economically disadvantaged small business concerns and women-owned small business concerns in the SBIR program. The legislation intends that the Small Business Technology Transfer (STTR) program stimulate and foster scientific and technological innovation through cooperative research and development carried out between small business concerns and research institutions; foster technology transfer between small business concerns and research institutions; to increase private sector commercialization of innovations derived from Federal research and development; and foster and encourage participation of socially and economically disadvantaged small business concerns and women-owned small business concerns in technological innovation.

TYPES OF ASSISTANCE:

Project Grants, Training

USES AND USE RESTRICTIONS:

(1) Research project grants provide support for clearly defined projects or a small group of related research activities, and when appropriate, support of research conferences; (2) program project and center grants support large-scale, broad-based programs of research, usually interdisciplinary, consisting of several projects with a common focus; (3) small grants support newer, less experienced investigators; investigators at institutions without a well-developed research tradition and resources; the testing of new methods or techniques; small-scale exploratory and pilot studies, or exploration of an unusual research opportunity; (4) research training grants including fellowships and institutional training grants, career development grants and loan repayment contracts; (5) SBIR Phase I grants (of approximately 6-months' duration) are to establish the technical merit and feasibility of proposed research or research and development efforts to determine the quality of performance of the small business grantees. Phase II grants are for the continuation of the research initiated in Phase I and that are likely to result in commercially viable products or processes. STTR Phase I grants (normally of 1-year duration) are to determine the scientific, technical, and commercial merit and feasibility of the proposed cooperative effort that has potential for commercial application and the quality of performance of the small business concerns. Phase II funding is based on results of research initiated in Phase I and scientific and technical merit and commercial potential of the Phase II application.

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals); Public nonprofit institution/organization (includes institutions of higher education and hospitals); Individual/Family; Private nonprofit institution/organization (includes institutions of higher education and hospitals); For research grants the following organizations/institutions are eligible to apply: Public/State Controlled Institutions of Higher Education; Private Institutions of Higher Education: Hispanic-serving Institutions, Historically Black Colleges and Universities (HBCUs), Tribally Controlled Colleges and Universities (TCCUs),

ASSISTANCE LISTINGS DESCRIPTIONS

and Alaska Native and Native Hawaiian Serving Institutions; Nonprofits with 501(c)(3) IRS Status (Other than Institutions of Higher Education); Nonprofits without 501(c)(3) IRS Status (Other than Institutions of Higher Education); Small Businesses; For-Profit Organizations (Other than Small Businesses); State Governments; Indian/Native American Tribal Governments (Federally Recognized); Indian/Native American Tribally Designated Organizations; County Governments; City or Township Governments; Special District Governments; Independent School Districts; Public Housing Authorities/Indian Housing Authorities; and Other(s): Eligible Agencies of the Federal Government, Faith-based or Community-based Organizations, U.S. Territory or Possession, Indian/Native American Tribal Governments (Other than Federally Recognized), Regional Organizations, and Non-domestic (non-U.S.) Entities (Foreign Organizations). Eligible Individuals: Any individual, or individuals (multiple PDs/Pis), with the skills, knowledge, and resources necessary to carry out the proposed research as the PD/PI is invited to work with his/her organization to develop an application for support. Individuals from underrepresented racial and ethnic groups as well as individuals with disabilities are always encouraged to apply for NIH support. SBIR grants can be awarded only to domestic small businesses (entities that are independently owned and operated for profit, are not dominant in the field in which research is proposed, and have no more than 500 employees). Primary employment (more than one-half time) of the principal investigator must be with the small business at the time of award and during the conduct of the proposed project. In both Phase I and Phase II, the research and/or development must be performed in the U.S. and its possessions. To be eligible, an SBIR grant application must be approved for scientific merit and program relevance by a scientific review group and by a national advisory council. STTR grants can be awarded only to domestic small business concerns (entities that are independently owned and operated for profit, are not dominant in the field in which research is proposed and have no more than 500 employees) which "partner" with a research institution in cooperative research and development. At least 40 percent of the project is to be performed by the small business concern and at least 30 percent by the research institution. In both Phase I and Phase II, the research must be performed in the U.S. and its possessions. To be eligible for funding, a grant application must be approved for scientific and technical merit and program relevance by a scientific review group and a national advisory council.

Beneficiary Eligibility:

Private nonprofit institution/organization; Other private institution/organization; Scientist/Researchers; State; Local; Public nonprofit institution/organization; Public or private profit and nonprofit sponsored organizations and individuals, minority groups, small businesses, health professionals, students, trainees, scientists and general public.

Credentials/Documentation:

2 CFR 200, Sub-part E - Cost Principles applies to this program.

Pre-application coordination is required. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372. Environment impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. The National Institutes of Health is using www.grants.gov to accept electronic submission of applications. Applications are also available from the NIH web site at www.nih.gov. Information concerning NIDA and the types of research supported may be found at www.drugabuse.gov or www.nida.nih.gov. Consultation on a proposed project may also be obtained from NIDA. Applications are reviewed by primarily nonfederal consultants recruited nationwide. The amount of the award and period of support are determined on the basis of scientific merit of the project as well as financial and programmatic consideration. SBIR and STTR Grant Solicitations and SBIR Contract Solicitations may be obtained electronically through the NIH's "Small Business Funding Opportunities" home page at <http://www.nih.gov/grants/funding/sbir.htm>. The Solicitations include submission procedures, review considerations, and grant application or contract proposal forms.

Award Procedure:

Grants with which the National Advisory Council on Drug Abuse has concurred

with the recommendations of the Scientific Review Groups and approved by NIDA for payment are awarded directly by NIDA to the applicant institution. SBIR/STTR applications are evaluated for scientific and technical merit by an appropriate scientific peer review panel and by the National Advisory Council. All applications receiving a priority score compete for available SBIR/STTR set-aside funds on the basis of scientific and technical merit and commercial potential of the proposed research, program relevance, and program balance among the areas of research.

Deadlines:

Contact the headquarters or regional location, as appropriate for application deadlines.

Range of Approval/Disapproval Time:

Appeals:

Other. A principal investigator (P.I.) may question the substantive or procedural aspects of the review of his/her application by communicating with the staff of the Institute. A description of the NIH Peer Review Appeal procedures is available on the NIH home page <https://grants.nih.gov/grants/guide/notice-files/not-od-11-064.html>, <https://grants.nih.gov/grants/guide/notice-files/NOT-OD-11-101.html> and <https://grants.nih.gov/grants/guide/notice-files/NOT-OD-12-003.html>

Renewals:

Other. Support is recommended for a specified project period, usually not in excess of 5 years. Prior to termination of a project period, the grantee may apply for additional support via competing continuation application unless otherwise restricted.

Formula and Matching Requirements:

Statutory formula is not applicable to this assistance listing. Matching requirements are not applicable to this assistance listing. MOE requirements are not applicable to this assistance listing.

Length and Time Phasing of Assistance:

Varies, but a project period is generally limited to 5 years or less. Grantee may apply for renewal of support on a competing basis unless otherwise restricted. Within the project period, continuation applications must be submitted on a non-competing basis for each year of approved support. Small grant support is limited to no more than 2 years. SBIR: Normally, Phase I awards are for 6 months; normally, Phase II awards are for 2 years. STTR: Normally, Phase I awards are for 1 year; normally, Phase II awards are for 2 years. Method of awarding/releasing assistance: quarterly

Reports:

Interim progress reports annually as part of a non-competing application for previously recommended support. Annual financial status report within 90 days after termination of annual grant and immediate and full reporting of any inventions.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. For nongovernmental grant recipients, audits are to be carried out in accordance with the provisions set forth in OMB Circular No. A-133. In addition, grants and cooperative agreements are subject to inspection and audits by DHHS and other Federal officials.

Records:

Records must be retained for at least 3 years; records shall be retained beyond the 3-year period if audit findings have not been resolved.

CRITERIA FOR SELECTING PROPOSALS:

The following considerations will be used in determining projects to be funded: (1) Scientific and technical merit; (2) the feasibility of the research; (3) potential contribution to the national drug abuse problem; and (4) relevance to NIDA priorities. The following criteria will be used in considering the scientific and technical merit of SBIR/STTR Phase I grant applications: (1) The soundness and technical merit of the proposed approach; (2) the qualifications of the proposed principal investigator, supporting staff, and consultants; (3) the technological innovation of the proposed research; (4) the potential of the proposed research for commercial application; (5) the appropriateness of the budget requested; (6) the adequacy and suitability of the facilities and research environment; and (7) where applicable, the adequacy of assurances detailing the proposed means for (a) safeguarding human or animal subjects and/or (b) protecting against or minimizing any adverse effect on the environment. Phase II grant applications will be reviewed based upon the following criteria: (1) The degree to which the Phase I objectives were met and feasibility demonstrated; (2) the scientific and technical merit of the proposed approach for achieving the Phase II objectives; (3) the qualifications of the proposed principal investigator, supporting staff, and consultants; (4) the technology.

93.280 National Institutes of Health Loan Repayment Program for Clinical Researchers

(NIH Clinical Research Loan Repayment Program; LRP-CR),

FEDERAL AGENCY:

NATIONAL INSTITUTES OF HEALTH, HEALTH AND HUMAN SERVICES,
DEPARTMENT OF

AUTHORIZATION:

21st Century Cures Act, Title II, Part C, Section 2022, Public Law 114-255, 42 USC Code 288-2.

OBJECTIVES:

To attract and retain health professionals to clinical research careers by offering educational loan repayment for participants who agree by written contract to engage in clinical research in a qualifying nonprofit institution for a minimum of 2 years.

TYPES OF ASSISTANCE:

Direct Payments for Specified Use

USES AND USE RESTRICTIONS:

To provide repayment of extant educational loans incurred by health professionals engaged in clinical research. Your research must be supported by a domestic nonprofit foundation, university, professional association, or other nonprofit institution, or a U.S. government agency (federal, state, or local). A domestic foundation, professional association, or institution is considered to be nonprofit if exempt from federal tax under the provisions of Section 501 of the Internal Revenue Code (26 U.S.C. 501). NIH grants and university salaries are considered eligible funding. Your primary employment must be with a nonprofit institution. Any employment or income outside of the nonprofit institution must be separate from your research and cannot represent a significant amount of your total income. Recipients must agree by written contract to engage in such research, initially, for a minimum of 2 years; individuals who have conflicting service obligations may not participate in this program until those obligations are satisfied or have been deferred during the period of program service. Participants may apply for and the Secretary may grant extension contracts for one-year or two-year periods, as determined by the Secretary, if the individual continues to engage in qualifying research. Renewal applications are competitively reviewed and the submission of a renewal application does not assure the award of benefits. The maximum program benefit is \$35,000 per year in loan repayments and \$13,650 per year in Federal tax reimbursements. Recipients must have qualified educational debt in excess of 20 percent of their annual salary, which is referred to as their "debt threshold."

Applicant Eligibility:

Specialized group (e.g. health professionals, students, veterans); (1) A U.S. citizen, U.S. national, or permanent resident of the United States; (2) Have a Ph.D., M.D., D.O., D.D.S., D.M.D., D.P.M., Pharm.D., D.C., N.D., O.D. or equivalent doctoral degree from an accredited institution; (3) Have total qualifying educational loan debt equal to or in excess of 20 percent of their institutional base salary on the date of program eligibility (the effective date that a loan repayment contract has been executed by the Secretary of Health and Human Services or designee); (4) Conduct qualifying research supported by a domestic nonprofit foundation, nonprofit professional association, or other nonprofit institution, or a U.S. or other government agency (State or local); (5) Engage in qualified clinical research. Clinical research is patient-oriented clinical research conducted with human subjects, or research on the causes and consequences of disease in human populations involving material of human origin (such as tissue specimens and cognitive phenomena) for which an investigator or colleague directly interacts with human subjects in an outpatient or inpatient setting to clarify a problem in human physiology, pathophysiology or disease, or epidemiologic or behavioral studies, outcomes research or health services research, or developing new technologies, therapeutic interventions, or clinical trials; (6) Engage in qualified clinical research for at least 50 percent of their time, i.e., not less than 20 hours per week based on a 40 hour week; (7) Agree to conduct research for which funding is not prohibited by Federal law, regulation, or HHS/NIH policy, and in accordance with applicable Federal, State and local law (e.g., applicable human subject protection regulations); and (8) Sign and submit to the Secretary of Health and Human Services, at the time of application submission, a contract agreeing to engage in clinical research in a qualifying institution for a minimum of 2 years. Full-time employees of Federal Government agencies are ineligible to apply for LRP benefits. Part-time Federal employees who engage in qualifying research as part of their nonfederal duties for at least 20 hours per week based on a 40 hour week, and who are not compensated as a Federal employee for their research, are eligible to apply for loan repayment if they meet all other eligibility requirements.

Beneficiary Eligibility:

Specialized group (e.g. health professionals, students, veterans); Health Professional; Scientist/Researchers; Health professionals who are interested in pursuing clinical research careers and who have unpaid educational loans will benefit from this program.

Credentials/Documentation:

Applicants electronically transmit the following documents to the NIH: Applicant Information, Biosketch, Personal Statement, Description of Research Activities, 3-5 Recommendations, Loan Information including current account statement(s) and promissory note(s) or disclosure statement(s), Assessment of Research Activities Statement, and Description of the Research Environment, Training or Mentoring

ASSISTANCE LISTINGS DESCRIPTIONS

Plan. Institutional Contacts electronically transmit a certification that: (a) assures the applicant will be provided the necessary time and resources to engage in the research project for two years from the date a Loan Repayment Program Contract is executed; (b) assures that the applicant is or will be engaged in qualifying research for 50 percent of their time (or not less than 20 hours per week based on a 40 hour week); (c) certifies that the institution is nonprofit (exempt from tax under 26 USC 501), and (d) provides the applicant's institutional base salary. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Pre-application coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Applicants must access and submit the Loan Repayment Program application via the website www.lrp.nih.gov. Applications submitted to the NIH Division of Loan Repayment are first examined to determine if the basic eligibility requirements are satisfied. If these requirements are met, the application is forwarded to the NIH Center for Scientific Review for a determination regarding which NIH Institute or Center the application will be assigned to for review, scoring, and ranking.

Award Procedure:

The NIH Institutes and Centers approve or disapprove applications for participation in the Loan Repayment Program for Clinical Researchers. When an Institute or Center approves an application, the NIH Division of Loan Repayment notifies individuals of their award amount, provides a repayment schedule that covers the period of participation, and a Loan Repayment Program Contract is executed by an authorized representative of the Secretary, DHHS. If the approved research assignment changes, or if the employing research institution changes, the participant must have their continued eligibility re-certified by the Institute or Center which approved their application. Contact the NIH via e-mail at LRP@NIH.GOV for further guidance.

Deadlines:

November 15, 2018. At 8:00 p.m. EST September 01, 2018 - November 15, 2018. Extramural LRP applications are accepted annually from September 1 through November 15, 8:00 p.m. EST. All LRP applications must be submitted electronically using the NIH LRP Website, www.lrp.nih.gov. Review the Loan Repayment Program website www.lrp.nih.gov, or contact the Headquarters Office listed below for the application deadlines.

Range of Approval/Disapproval Time:

>180 Days. The approximate time for approval/disapproval is 6 months from the closing date of the annual application period.

Appeals:

Not Applicable.

Renewals:

>180 Days. At the conclusion of the initial 2-year contract, participants may apply and be considered for subsequent 1 or 2-year continuation contracts under the application and approval procedures specified above. Eligible renewal applications that score within the funding range receive continuation contracts.

Formula and Matching Requirements:

Statutory formula is not applicable to this assistance listing. Matching requirements are not applicable to this assistance listing. MOE requirements are not applicable to this assistance listing.

Length and Time Phasing of Assistance:

Assistance is available for a minimum 2-year period. One or 2-year renewal awards are available. Payments are made directly to lenders, following each quarter of the participant's satisfactory service, unless otherwise agreed upon by the participant and NIH Director. Method of awarding/releasing assistance: quarterly

Reports:

Program participants must be periodically certified by their research supervisor to have been engaged in the qualifying research project for a minimum 50 percent effort (not less than 20 hours per week based on a 40 hour week) during each three-month service period.

Audits:

This program is excluded from coverage under 2 CFR 200, Subpart F - Audit Requirements.

Records:

The NIH will maintain applicant records for 3 years after rejection and participant records for 6 years after completion of final service obligation.

Account Identification:

FEDERAL AGENCY:

CENTERS FOR DISEASE CONTROL AND PREVENTION, HEALTH AND HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

Public Health Service Act, Title 42, Section 243, 247b(k)(2), Public Law USC

OBJECTIVES:

ASSISTANCE LISTINGS DESCRIPTIONS

To assist State and local health authorities and other health related organizations in controlling communicable diseases, chronic diseases and disorders, and other preventable health conditions. Investigations and evaluation of all methods of controlling or preventing disease and disability are carried out by providing epidemic aid, surveillance, technical assistance, consultation, and program support; and by providing leadership and coordination of joint national, State, and local efforts. **STEPS-** To enable communities to reduce the burden of chronic disease, including: preventing diabetes among populations with pre-diabetes; increasing the likelihood that persons with undiagnosed diabetes are diagnosed; reducing complications of diabetes; preventing overweight and obesity; reducing overweight and obesity; and reducing the complications of asthma. **STEPS** will achieve these outcomes by improving nutrition; increasing physical activity; preventing tobacco use and exposure, targeting adults who are diabetic or who live with persons with asthma; increasing tobacco cessation, targeting adults who are diabetic or who live with persons with asthma; increasing use of appropriate health care services; improving the quality of care; and increasing effective self-management of chronic diseases and associated risk factors. **REACH - REACH U.S.** supports community coalitions that design, implement, evaluate, and disseminate community-driven strategies to eliminate health disparities Racial and ethnic groups targeted include: African American/Black, American Indian/Alaska Native, Asian, Native Hawaiian/Other Pacific Islander, and Hispanic/Latino. Health priority areas include: breast and cervical cancer; cardiovascular disease; diabetes mellitus; adult/older adult immunization, hepatitis B, and/or tuberculosis; asthma; and infant mortality. **Vulnerable Populations:** The purpose of this program is to reduce morbidity, premature mortality, and eliminate health disparities associated with diabetes. This will be done by funding organizations to mobilize community partners and assist them to effectively plan, develop, implement, and evaluate community-based interventions to reduce the risk factors that influence the disproportionate burden of diabetes in vulnerable populations borne by many communities in regions across the country.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

To strengthen State and local disease prevention and control programs, such as tuberculosis, childhood immunization, and sexually-transmitted diseases. To support national and local programs to combat disability related to epilepsy through education, partnership development, and enhanced communication. **Services and program support:** Epidemic aid; technical assistance (field studies and investigations of ongoing disease problems; occupational safety and health); consultation; dissemination of technical information; and provision of specialized services and assistance, including responses to public health emergencies. **Training:** Training State and local health professionals in broad areas of epidemiology, disability, and research programs such as hospital infections, hepatitis, vector-borne diseases, food-borne diseases, epilepsy, and tuberculosis, at the State or other health related organization's request.) To support capacity building, program planning, development, implementation, evaluation, and surveillance for current and emerging chronic disease conditions related to tobacco use. To achieve four Program Goals through community interventions and mobilization; counter-marketing; policy development and implementation, and surveillance and evaluation. Goals include preventing initiation to tobacco use among young people; eliminate exposure to second hand smoke; promote cessation among adults and young people who use tobacco; and identify and eliminate tobacco-related disparities among specific population groups. Lead regional efforts to prevent and reduce the use of tobacco and exposure to secondhand smoke. Conduct evaluations and implementation of culturally relevant and community competent tobacco control and prevention strategies and continue regional capacity building efforts. To address goal four of the National Tobacco Control Program (Identify and Eliminate Tobacco-Related Disparities). To eliminate health disparities among segments of the population, including differences that occur by gender, race or ethnicity, education, income, disability, geographic location, or sexual orientation. Establish a National Network consortium among six priority populations to coordinate and evaluate tobacco control and prevention initiatives through a broad national strategy to prevent and reduce tobacco use and exposure to second hand smoke and to eliminate tobacco-related disparities among priority populations. To provide funding to establish and/or enhance state-based telephone quitlines to provide tobacco cessation telephone counseling to the public at large. To fund projects that address the promotion of cessation among adults and young

people who use tobacco (quitlines.) Address at the National level the promotion of cessation among adults and young people who use tobacco (quitlines). To build state arthritis programs that exponentially expand access and use of evidence-based interventions by embedding intervention programs into existing systems, conducting surveillance and data analysis to inform decision making, and developing state-level intervention, policy, and communication focused partnerships that further program goals. To strengthen state oral health programs and public health core capacity and to reduce inequalities in the oral health of targeted populations. To improve state public health programs, including support for program leadership and staff, to monitor oral health risk factors, and for developing and evaluating prevention programs. To support evidenced-based interventions to prevent oral disease, including community water fluoridation and school-based dental sealant programs. To identify and disseminate information on best practices for state and community oral health programs. To assess state programs and provide recommendations to address gaps and weaknesses. To collaborate in development of the National Oral Health Surveillance System and to cosponsor the annual National Oral Health Conference. To develop initiatives related to oral disease prevention and chronic disease and health promotion capacity. To improve and strengthen state oral health infrastructure by providing technical assistance to state health agencies and coalitions, developing and implementing a plan to advance the Surgeon General's National Call to Action to Promote Oral Health. To coordinate the dissemination of comprehensive oral disease prevention information and health promotion programmatic expertise among state and local agencies and public and private sector organizations in the United States. To develop and promote policies to address oral disease prevention for high-risk adults. To identify modifiable barriers to optional care across diverse managed care settings. To promote public awareness and partnership, provide interstitial cystitis (IC) education for the general public and for health care providers, and develop and enhance communication channels to allow for improved interaction and information sharing among those with IC, advocates for persons with IC and their families, those who provide care and services for persons with IC, researchers and public health scientists. To promote public awareness and partnerships, assess the impact and burden of cognitive impairment within states and nationally, describe the characteristics of expanded data on caregivers and care from a public health perspective, provide Alzheimers disease and cognitive health education for the general public and health professionals, and develop and enhance communication channels to allow for improved interaction and information sharing about cognitive impairment and Alzheimers disease.

Deadlines:

Contact the headquarters or regional location, as appropriate for application deadlines.

Range of Approval/Disapproval Time:

From 60 to 90 days. Grants are approved or disapproved within 90 days of receipt of grant applications by the Indian Health Service, program office.

Appeals:

Other. Cooperative agreement appeals will follow PHS appeals procedures: 42 CFR, Part 50 Subpart D and DHHS appeals procedures: 45 CFR, Part 16.

Renewals:

Other. Renewal of multi-year cooperative agreements is on a year-to-year basis and requires the submission of continuation applications.

Formula and Matching Requirements:

Statutory formula is not applicable to this assistance listing. Matching requirements are not applicable to this assistance listing. MOE requirements are not applicable to this assistance listing.

Length and Time Phasing of Assistance:

IHS Grants are usually 3 to 5 years for a project period. Method of awarding/releasing assistance: quarterly

Reports:

Grantees will be required to submit quarterly Federal Financial Report (SF-425 or FFR) to the Division of Payment Management Branch. Progress reports are required annually, semi-annually or quarterly depending on the time lines set by the IHS program. A final progress report is due 90 days after the end of each budget period and at the end of the final project period. Grantees will be required to submit quarterly Federal Financial Report (SF-425 or FFR) to the Division of Payment Management Branch. IHS grants are monitored by the Division of Grants Management for financial compliance and by the IHS Program Staff for programmatic compliance.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. In addition, grants and cooperative agreements are subject to inspection and audits by DHHS and other Federal government officials.

Records:

HHS and the Comptroller General of the United States or any of their authorized representatives, shall have the right of access to any books, documents, papers, or other records of a grantee, subgrantee, contractor, or subcontractor, that are pertinent to the HHS grant in order to make audits, examinations, excerpts and transcripts. In accordance with 45 CFR, 92.42, grantees are required to maintain grant records 3 years after they submit their final expenditures report. If any litigation, claim, negotiation, audit or other action involving the records has been started before the expiration of the 3-year period, the records must be retained until completion of the action and resolution of all issues arising from it, or until the end of the regular 3-year period, whichever is later.

CRITERIA FOR SELECTING PROPOSALS:

(1) The apparent capability of the applicant to organize and manage the proposed project successfully considering the adequacy of staff, management systems, equipment and facilities; (2) the soundness of the applicant's plan for conducting the project and for assuring effective utilization of grant funds; (3) the adequacy of the budget in relation to the scope of the project and available funds; and (4) the relative effectiveness of the applicant's plan to carry out each of the requirements as set forth in the application.

93.285 National Institutes of Health Pediatric Research Loan Repayment Program

(NIH Pediatric Research Loan Repayment Program; LRP-PR),

FEDERAL AGENCY:

NATIONAL INSTITUTES OF HEALTH, HEALTH AND HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

Public Health Service Act, Title IV, Part G, Section 487F, Public Law 106-310, 42 USC Code 288-6.

OBJECTIVES:

To attract and retain health professionals to pediatric research careers by offering educational loan repayment for participants who agree by written contract to engage in pediatric research in a qualifying nonprofit institution for a minimum of 2 years.

TYPES OF ASSISTANCE:

Direct Payments for Specified Use

USES AND USE RESTRICTIONS:

To provide repayment of extant educational loans incurred by health professionals engaged in pediatric research in a qualified nonprofit institution or Federal or other domestic government agency (State or local), and who are engaged in research that is supported by a nonprofit foundation, nonprofit professional association, or other nonprofit entity, or a Federal or other domestic government agency (State, local). Recipients must agree by written contract to engage in such research, initially, for a minimum of 2 years; individuals who have conflicting service obligations may not participate in this program until those obligations are satisfied or have been deferred during the period of program service. Participants may apply for and the Secretary may grant extension contracts for one-year or two-year periods, as determined by the Secretary, if the individual continues to engage in qualifying research. Renewal applications are competitively reviewed and the submission of a renewal application does not assure the award of benefits. Maximum program benefit is \$35,000 per year in loan repayments and \$13,650 per year in Federal tax reimbursements, plus discretionary state and local tax reimbursements. Recipients must have qualified educational debt in excess of 20 percent of their annual salary, which is referred to as their "debt threshold."

Applicant Eligibility:

Specialized group (e.g. health professionals, students, veterans); Eligible applicants must: (1) be a U.S. citizen, U.S. national, or permanent resident of the United States; (2) have a Ph.D., M.D., D.O., D.D.S., D.M.D., D.P.M., Pharm.D., D.C., N.D., O.D. or equivalent doctoral degree from an accredited institution; (3) have total qualifying educational loan debt equal to or in excess of 20 percent of their institutional base salary on the date of program eligibility (the effective date that a loan repayment contract has been executed by the Secretary of Health and Human Services or designee); (4) conduct qualifying research supported by a domestic nonprofit foundation, nonprofit professional association, or other nonprofit institution, or a U.S. or other government agency (Federal, State, or local); (5) engage in qualified pediatric research (pediatric research is research that is directly related to diseases, disorders, and other conditions in children); (6) engage in qualified pediatric research for at least 50 percent of their time, i.e., not less than 20 hours per week based on a 40 hour week; (7) agree to conduct research for which funding is not prohibited by Federal law, regulation, or HHS/NIH policy, and in

accordance with applicable Federal, State and local law (e.g., applicable human subject protection regulations); and (8) sign and submit to the Secretary of Health and Human Services, at the time of application submission, a contract agreeing to engage in pediatric research in a qualifying institution for a minimum of 2 years. Full-time employees of Federal Government agencies are ineligible to apply for LRP benefits. Part-time Federal employees who engage in qualifying research as part of their non-Federal duties for at least 20 hours per week based on a 40 hour week, and who are not compensated as Federal employees for their research, are eligible to apply for loan repayment if they meet all other eligibility requirements.

Beneficiary Eligibility:

Specialized group (e.g. health professionals, students, veterans); Health Professional; Scientist/Researchers; Health professionals who are interested in pursuing pediatric research careers who have unpaid educational loans will benefit from this program.

Credentials/Documentation:

Applicants electronically transmit the following documents to the NIH: Applicant Information Statement, Biosketch, Personal Statement, Description of Research Activities, 3 Recommendations, Loan Information including current account statement(s) and promissory note(s) or disclosure statement(s), Assessment of Research Activities Statement (completed by the research supervisor), and Description of the Research Environment (completed by the research supervisor), Training or Mentoring Plan (completed by the research supervisor). Institutional Contacts electronically transmit a certification that: (a) assures the applicant will be provided the necessary time and resources to engage in the research project for two years from the date a Loan Repayment Program Contract is executed; (b) assures that the applicant is or will be engaged in qualifying research for 50 percent of their time (or not less than 20 hours per week based on a 40 hour week); (c) certifies that the institution is non-profit (exempt from tax under 26 USC 501), and (d) provides the applicant's institutional base salary. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Pre-application coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Applicants must access and submit the Loan Repayment Program application via the website www.lrp.nih.gov. Applications submitted to the NIH Division of Loan Repayment are first examined to determine if the basic eligibility requirements are satisfied. If these requirements are met, the application is forwarded to the NIH Center for Scientific Review for a determination regarding which NIH Institute or Center the application will be assigned to for review, scoring, and ranking.

Award Procedure:

The NIH Institutes and Centers approve or disapprove applications for participation in the Pediatric Research Loan Repayment Program. When an Institute or Center approves an application, the NIH Division of Loan Repayment notifies individuals of their award amount, provides a repayment schedule that covers the period of participation, and a Loan Repayment Program Contract is executed by an authorized representative of the Secretary, DHHS. If the approved research assignment changes, or if the employing research institution changes, the participant must have their continued eligibility re-certified by the Institute or Center which approved their application. Contact the NIH via e-mail at LRP@NIH.GOV for further guidance.

Deadlines:

November 15, 2018. At 8:00 p.m., EST Review the Loan Repayment Program website www.lrp.nih.gov, or contact the Headquarters Office listed below for the application deadlines.

Range of Approval/Disapproval Time:

>180 Days. The approximate time for approval/disapproval is 6 months from the closing date of the annual application period.

Appeals:

Not Applicable.

Renewals:

>180 Days. At the conclusion of the initial 2-year contract, participants may apply

ASSISTANCE LISTINGS DESCRIPTIONS

and be considered for subsequent 1 or 2-year continuation contracts under the application and approval procedures specified above. Eligible renewal applications that score within the funding range receive continuation contracts.

Formula and Matching Requirements:

Statutory formula is not applicable to this assistance listing. Matching requirements are not applicable to this assistance listing. MOE requirements are not applicable to this assistance listing.

Length and Time Phasing of Assistance:

Assistance is available for a minimum 2-year period. One or 2-year continuation contracts are available for eligible individuals whose renewal applications score within the funding range. Payments will be made directly to lenders, following each quarter of the participant's satisfactory service, unless otherwise agreed upon by the participant and Secretary of Health and Human Services. Method of awarding/releasing assistance: quarterly

Reports:

Program participants must be periodically certified by their research supervisor to have been engaged in the qualifying research project for a minimum 50 percent effort (not less than 20 hours per week based on a 40 hour week) during each three-month service period.

Audits:

This program is excluded from coverage under 2 CFR 200, Subpart F - Audit Requirements.

Records:

The NIH will maintain applicant records for 3 years after rejection and participant records for 6 years after completion of final service obligation.

Account Identification:

75-4554-0-1-552.

Obligations:

Direct Payments for Specified Use FY 16 \$16,175,369.00; FY 17 est \$17,000,000.00; and FY 18 est \$17,000,000.00;

Range and Average of Financial Assistance:

For initial 2-year contract periods, loan repayment of 50 percent of education debt up to \$70,000 plus tax payments. For renewal contracts, loan repayment of 50 percent of education debt per year up to \$35,000 per year.

CRITERIA FOR SELECTING PROPOSALS:

The NIH Institutes and Centers approve or disapprove applications for participation in the Pediatric Research Loan Repayment Program. Applications that are on time, complete and eligible are referred to the appropriate NIH Institute or Center by the NIH Center for Scientific Review. The NIH Institutes and Centers convene panels

comprised of non-NIH scientists to review, score and rank applications. In evaluating the application, reviewers are directed to consider the following components as they relate to the likelihood that the applicant will continue in a research career: (1) potential of the applicant to pursue a career in research, and (2) quality of the overall environment to prepare the applicant for a research career.

93.286 Discovery and Applied Research for Technological Innovations to Improve Human Health

FEDERAL AGENCY:

NATIONAL INSTITUTES OF HEALTH, HEALTH AND HUMAN SERVICES,
DEPARTMENT OF

AUTHORIZATION:

Public Health Service Act, Title IV, Section 401(b)(1) & 464z, Public Law 106-505

OBJECTIVES:

To support hypothesis-, design-, technology-, or device-driven research related to the discovery, design, development, validation, and application of technologies for biomedical imaging and bioengineering. The program includes biomaterials (biomimetics, bioprocessing, organogenesis, rehabilitation, tissue engineering, implant science, material science, interface science, physics and stress engineering, technology assessment of materials/devices), biosensors/biotransducers (technology development, technology assessment, development of algorithms, telemetry), nanotechnology (nanoscience, biomimetics, drug delivery systems, drug bioavailability, microarray/combinatorial technology, genetic engineering, computer science, technology assessment), bioinformatics (computer science, information science, mathematics, biomechanics, computational modeling and simulation, remote diagnosis and therapy), imaging device development, biomedical imaging technology development, image exploitation, contrast agents, informatics and computer sciences related to imaging, molecular and cellular imaging, bioelectrics/biomagnetics, organ and whole body imaging, screening for diseases and disorders, and imaging technology assessment and surgery (technique development and technology development).

TYPES OF ASSISTANCE:

Project Grants, Project Grants (Discretionary)

USES AND USE RESTRICTIONS:

Research Grant funds may be used for salaries, consultation, equipment, travel and other usual costs, subject to Federal regulations applicable to the grant. Individual National Research Service Awards (NRSAs) are made directly to individuals for research training in specified areas related to the mission of NIBIB. Institutional NRSAs may be made to institutions to enable them to accept individuals for research training. Each individual who receives a NRSA postdoctoral fellowship or traineeship is obligated upon termination of the award to comply with certain service and payback provisions. Small Business Innovation Research (SBIR) Phase I grants are to establish the technical merit and feasibility of a proposed research effort that may lead to a commercial product or process. Only Phase I awardees are eligible to apply for Phase II support. Small Business Technology Transfer (STTR) Phase I grants are to determine the scientific, technical, and commercial merit and feasibility of the proposed cooperative effort that has potential for commercial application. Phase II funding is based on results of research initiated in Phase I and scientific and technical merit and commercial potential of the Phase II application. Indirect costs are paid at negotiated rates for most grant mechanisms. Exceptions are: conference grants (R13 and U13) receive no indirect costs; Training (T), Fellowship (F), and Career (K) awards receive an 8% indirect cost rate; R25 grants receive an 8% indirect cost rate; and SBIR/STTR grants are limited to a 40% indirect cost rate unless the grantee organization negotiates a higher rate.

Applicant Eligibility:

Public nonprofit institution/organization (includes institutions of higher education and hospitals); Other public institution/organization; Federally Recognized Indian Tribal Governments; U.S. Territories and possessions (includes institutions of higher education and hospitals); Non-Government - General; Small business (less than 500 employees); Profit organization; Private nonprofit institution/organization (includes institutions of higher education and hospitals); Quasi-public nonprofit

ASSISTANCE LISTINGS DESCRIPTIONS

institution/organization; Other private institutions/organizations; Native American Organizations (includes Indian groups, cooperatives, corporations, partnerships, associations); Any corporation, public or private institution or agency, or other legal entity, either nonprofit or for-profit, may apply for a research grant. An applicant for an individual NRSA must be a citizen of the United States or lawfully admitted for permanent residence. Those on temporary or student visas are not eligible. An eligible institution for an institutional NRSA must be capable of providing predoctoral and/or postdoctoral research training opportunities for engineers, bioengineers or other. SBIR grants can be awarded only to domestic small businesses (entities that are independently owned and operated for profit; are not dominant in the field in which research is being proposed; and have no more than 500 employees). Primary employment (more than one-half time) of the principal investigator must be with the small business at the time of award and during the conduct of the proposed project. In both Phase I and Phase II, the research must be performed in the United States or its possessions. To be eligible for funding, a grant application must be reviewed for scientific merit and program relevance by a scientific review group and a national advisory council. STTR grants can be awarded only to domestic small business concerns (entities that are independently owned and operated for profit, are not dominant in the field in which research is proposed and have no more than 500 employees) which "partner" with a research institution in cooperative research and development. At least 40 percent of the project is to be performed by the small business concern and at least 30 percent by the research institution. In both Phase I and Phase II, the research must be performed in the U.S. or its possessions. To be eligible for funding, a grant application must be approved for scientific merit and program relevance by a scientific review group and a national advisory council.

Beneficiary Eligibility:

Private nonprofit institution/organization; Quasi-public nonprofit organization; Public nonprofit institution/organization; Other public institution/organization; Any nonprofit or for-profit organization, company, or institution engaged in biomedical research.

Credentials/Documentation:

Credentials/Documentation: Each applicant for research projects must present a research plan and furnish evidence that scientific competence, facilities, equipment, and supplies are appropriate to carry out the plan. For an individual NRSA, the applicant's academic record, research experience, citizenship, and institutional sponsorship should be documented in the application. For an institutional NRSA, the applicant organization must show the objectives, methodology and resources for the research training program, the qualifications and experience of directing staff, the criteria to be used in selecting individuals for awards, and detailed budget justification for the amount of grant funds requested. For SBIR and STTR grants, applicant organization (small business concern) must present in a research plan an idea that has potential for commercialization and furnish evidence that scientific competence, experimental methods, facilities, equipment, and funds requested are appropriate to carry out the plan. Use of SF424 (R&R) Adobe Version B series or PHS 398 (Rev. 11/2007), and associated forms are required for all applications submitted to the NIH. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is not applicable.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Application Forms SF424 and PHS 398 (Rev. 11/2007) are the standard forms. Application kits are available on-line at <http://grants1.nih.gov/grants/oer.htm>. Completed applications should be submitted via Grants.gov (<http://www.grants.gov>) or to the Center for Scientific Review, National Institutes of Health, Bethesda, MD 20892. The standard application forms, as furnished by PHS and required by 45 CFR Part 92 for State and local governments, must be used for this program. The same application form will be used for all types of applications including training (NRSA), both individual and institutional, and SBIR/STTR. SBIR and STTR Grant Solicitations and SBIR Contract Solicitation may be obtained electronically through the NIH's "Small Business Funding Opportunities" home page at www.nih.gov/grants/funding/sbir.htm on the World Wide Web. SBIR and STTR grant applications should be submitted electronically through Grants.gov (<http://www.grants.gov>) using the SF424 Research and Related (R&R) forms and

the SF424 (R&R) SBIR/STTR Application Guide.

Award Procedure:

All applications for research or training are reviewed for scientific merit by an appropriate initial review group and then by a national advisory council. All applications favorably recommended compete for available funds on the basis of scientific merit and program emphasis. All accepted SBIR/STTR applications are evaluated for scientific and technical merit by an appropriate scientific peer review panel and by a national advisory council or board. All applications receiving a priority score compete for available SBIR/STTR set-aside funds on the basis of scientific and technical merit and commercial potential of the proposed research, program relevance, and program balance among the areas of research.

Deadlines:

Contact the headquarters or regional location, as appropriate for application deadlines.

Range of Approval/Disapproval Time:

>180 Days. Research Grants: From 6 to 9 months. NRSAs: From 6 to 9 months. SBIR/STTR: About 7.5 months.

Appeals:

From 30 to 60 days. A principal investigator (P.I.) may question the substantive or procedural aspects of the review of his/her application by communicating with the staff of the Institute. A description of the NIH Peer Review Appeal procedures is available on the NIH home page <http://grants.nih.gov/grants/guide/notice-files/NOT-OD-11-064.html>

Renewals:

>180 Days. Research Grant applications submitted for renewal are reviewed and selected for funding on a competitive basis. NRSA awards may be made for 1 to 5 years. No individual may receive more than 5 years of aggregate NRSA support beyond the predoctoral level, and no individual may receive NRSA support for more than 3 years of support beyond the postdoctoral level. Institutional awards may be renewed.

Formula and Matching Requirements:

Statutory formula is not applicable to this assistance listing. Matching requirements are not applicable to this assistance listing. MOE requirements are not applicable to this assistance listing.

Length and Time Phasing of Assistance:

Research Grant awards are usually made annually with no project periods to exceed 5 years in length. NRSA Institutional awards may be made for up to 5 years, and Individual awards may be made for up to 5 years at the predoctoral level, 3 years at postdoctoral level, and 2 years at senior level. Normally SBIR and STTR Phase I awards are for 6-12 months and Phase II awards are for up to 2 years. Method of awarding/releasing assistance: other

Reports:

Annual Progress Reports are required. Instructions are found: <http://grants1.nih.gov/grants/guide/notice-files/NOT-OD-09-139.html> Annual financial status reports are required.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503 For nongovernmental grant recipients, audits are to be carried out in accordance with the provisions of 2 CFR 200. In addition, grants and cooperative agreements are subject to inspection and audits by DHHS and other Federal officials.

CRITERIA FOR SELECTING PROPOSALS:

The major elements in evaluating proposals include assessments of: (1)
Significance: Does this study address an important problem? If the aims of the
application are achieved, how will scientific knowledge be advanced? What will be
the effect of these studies on the concepts or methods that drive this field? (2)
Approach: Are the conceptual framework, design, methods, and analyses
adequately developed, well-integrated, and appropriate to the aims of the project?
Does the applicant acknowledge potential problem areas and consider alternative
tactics? (3) Innovation: Does the project employ novel concepts, approaches or
method? Are the aims original and innovative? Does the project challenge existing
paradigms or develop new methodologies or technologies? (4) Investigator: Is the
investigator appropriately trained and well suited to carry out this work? Is the
work proposed appropriate to the experience level of the principal investigator and
other researchers (if any)? (5) Environment: Does the scientific environment in
which the work will be done contribute to the probability of success? Do the
proposed experiments take advantage of unique features of the scientific
environment or employ useful collaborative arrangements? Is there evidence of
institutional support? (6) the appropriateness of the proposed budget and duration
in relation to the proposed research; (7) the relevance and importance to announced
program objectives; (8) the adequacy of plans to include both genders, minorities
and their subgroups, and children as appropriate for the scientific goals of the
research. Plans for the recruitment and retention of subjects will also be evaluated;
(9) the adequacy of the proposed protection for humans or the environment, to the
extent they may be adversely affected by the project proposed in the application;
and (10) the adequacy of the proposed plan to share data, if appropriate. The
following criteria will be used in considering the scientific and technical merit of
SBIR/STTR Phase I grant applications: (1) The soundness and technical merit of

the proposed approach; (2) the qualifications of the proposed principal investigator,
supporting staff, and consultants; (3) the technological innovation of the proposed
research; (4) the potential of the proposed research for commercial application; (5)
the appropriateness of the budget requested; (6) the adequacy and suitability of the
facilities and research environment; and (7) where applicable, the adequacy of
assurances detailing the proposed means for (a) safeguarding human or animal
subjects, and/or (b) protecting against or minimizing any adverse effect on the
environment. Phase II grant applications will be reviewed based upon the following
criteria: (1) The degree to which the Phase I objectives were met and feasibility
demonstrated; (2) the scientific and technical merit of the proposed approach for
achieving the Phase II objectives; (3) the qualifications of the proposed principal
investigator, supporting staff, and consultants; (4) the technological innovation,
originality, or societal importance of the proposed research; (5) the potential of the
proposed research for commercial application; (6) the reasonableness of the budget
requested for the work proposed; (7) the adequacy and suitability of the facilities
and research environment; and (8) where applicable, the adequacy of assurances
detailing the proposed means for (a)safeguarding human or animal subjects, and/or
(b) protecting against or minimizing any adverse effect on the environment.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2017: In FY 2017, the PCFSN continued to enhance and expand its physical activity and nutrition programs, including ICDI, PALA+, Presidential Champions, and Sports for All. In addition, the Council will focus on promoting its 60th Anniversary through the #0to60 public engagement campaign, to inspire Americans of all ages, backgrounds and abilities to be active and eat healthy every day. In addition, the Council will continue its promotion of the PYFP, administered by the NFFSN. The Council continues to address health disparities and improve disability inclusion in physical activity and sports through the expansion and evaluation of its ICDI program. ICDI facilitates and encourages opportunities for all Americans, regardless of ability or age, to lead a healthy lifestyle that includes regular physical activity and good nutrition. The original goal of ICDI when it was established in 2013 was to facilitate access and opportunities for children and adults with disabilities in at least 100 sites across the nation by 2018, adding at least 20 sites each year. In FY 2017, ICDI accomplishments included: 1) Establishing 131 ICDI sites in 36 states, impacting 400,000 individuals with disability and their families. 2) Securing a partnership with the HHS Office on Womens Health to leverage ICDI as a vehicle to engage more girls and women with disabilities in physical activity and sport opportunities, which will begin in FY 2018. Also in FY 2017, PCFSN entered into a partnership with the U.S.

Department of Agriculture Center for Nutrition Policy & Promotion to integrate the PALA+ and Presidential Champions programs into the SuperTracker physical activity and food tracking tool. SuperTracker impacts millions of registered users in all 50 U.S. states and territories, and provides the PCFSN with the opportunity to expand the tracking capabilities for both programs, provide a mobile-ready interface, and ensure compliance with Section 508, making each program more accessible and engaging to a greater number of Americans of all ages and abilities. In collaboration with HHS Office of Disease Prevention and Health Promotion (ODPHP), the Centers for Disease Control and Prevention, and the National Institutes of Health, the PCFSN is co-leading the development of the second edition of the Physical Activity Guidelines for Americans (PAG), which is expected to be released at the end of CY 2018. The PAG is an essential resource for health professionals and policymakers. They serve as the primary, authoritative voice of the federal government for evidence-based strategies for the public, as well as healthcare providers, policymakers, communities, schools and other key stakeholders to promote physical activity and health lifestyles for Americans. Additional information on the Councils programs and initiatives can be found on the PCFSN website: www.fitness.gov. Fiscal Year 2018: In FY 2018, the PCFSN will advance HHS childhood obesity prevention priority, in particular, through the enhancement and promotion of new and existing physical activity and nutrition programs, including ICDI, PALA+, and Presidential Champions. In FY 2018, PCFSN will ramp up its efforts to educate, engage, and empower all Americans, especially youth in the school and community settings, to lead an active, healthy lifestyle. In addition, PCFSN will deploy its Council members as leaders in the fields of sport, fitness and nutrition to encourage all Americans to prioritize their health and to support efforts in communities across America to improve fitness and healthy eating opportunities for all children and families. The PCFSN will continue to work with the ODPHP to lead the development of the second edition of the PAG. In addition to the coordination of the PAG Advisory Committee, the PCFSN will also implement and expand key programs and initiatives that support the PAG, and promote the widespread adoption of the 2018 PAG when released. This effort will include a national outreach strategy to promote the recommendations of the 2018 PAG. In FY2018, in partnership with the HHS Office on Womens Health, the PCFSN will expand opportunities for women and girls with disability through ICDI. Activities will include: 1) Identifying and coordinating with national organizations that serve girls and women with and without disabilities to increase opportunities for girls and women with disabilities to participate in the ICDI program 2) Supporting strategic outreach and engagement via a communications campaign to promote the importance of equal access of opportunities for women and girls with disabilities in physical activity, fitness, and sports; increase the visibility of girls and women athletes with disability; share resources with stakeholders to simplify program implementation; and encourage all women and girls, with an emphasis on those with disability, to lead healthy, active lives.

CRITERIA FOR SELECTING PROPOSALS:

All applications must establish eligibility of the institution, its programs, and the proposed use to meet the program needs. A public benefit allowance formula, uniformly applied, determines the respective benefits of each program. Basic allowance of 50 percent is allowed to institutions meeting the following: (1) Proof of current need; (2) ability to operate and maintain; (3) suitability of facilities or adaptability for conversion; (4) requirement for utilization through period of restrictions; and (5) nondiscrimination because of race, color, sex, age, handicap, or national origin. Additional allowances are made for tax support, accreditation, hardship, integrated research, outpatient services, public services, and training programs. For competing programs, the one showing the greatest public benefit is selected. Where property can be divided, as many compatible programs as possible are accommodated.

CRITERIA FOR SELECTING PROPOSALS:

Procedures for assessing the technical merit of grant applications have been instituted to provide an objective review of applications and to assist the applicant in understanding the standards against which each application will be judged. Critical indicators have been developed for each review criterion to assist the applicant in presenting pertinent information related to that criterion and to provide the reviewer with a standard for evaluation. Competing applications are reviewed by nonfederal reviewers for technical merit recommendations using the following review criteria. (1) The degree to which an applicant specializes in health workforce research. An applicant will be considered as specializing in health workforce research through identification of its mission, health workforce research accomplishments, and dedicated staff to health workforce research; (2) The degree to which the applicant demonstrates state and national experience and accomplishments in health workforce issues and research that align with BHW's mission to improve the health of underserved and vulnerable populations by strengthening the health workforce and connecting skilled professionals to communities in need. Experience, accomplishments, and the potential impact of previous work could be demonstrated through past or currently funded research; publication of articles in peer-reviewed journals; presentations at national and international conferences and meetings; and publication of policy briefs, fact sheets, articles, blogs, etc. that are available in the public domain; (3) The degree to which the applicant has health workforce research experience relevant to the proposed research project. In terms of workforce discipline-specific studies, the applicant should demonstrate experience in conducting research on the given discipline. For example, for a proposed research project that focuses on a behavioral health workforce issue, the applicant should demonstrate experience in conducting research on behavioral health workforce; and (4) The degree to which the applicant's proposed research includes: a well-developed background statement, clearly stated research objectives, clearly stated project activities and methodology, and a well-developed, reasonable management plan that will enable the successful completion of the project.

93.303 NURSE Corps Scholarship Program

NURSE Corps Scholarship Program,

FEDERAL AGENCY:

HEALTH RESOURCES AND SERVICES ADMINISTRATION, HEALTH AND HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

Public Health Service Act, Section 846, as amended, Nurse Reinvestment Act of 2002, Public Law 107-205.

OBJECTIVES:

The NURSE Corps Scholarship Program's objective is to increase the supply and maldistribution of registered nurses (RN) and nurse practitioners (NPs) in eligible health care facilities across the nation, with a critical shortage of nurses by providing service-obligated scholarships to nursing students.

TYPES OF ASSISTANCE:

Direct Payments for Specified Use

USES AND USE RESTRICTIONS:

Service-obligated scholarships are awarded to full-time and part-time students of nursing. Scholarships pay tuition and required fees to the school, a monthly stipend to students and a single annual payment to the student to assist with other reasonable educational expenses that include books, supplies, instruments, and uniforms. The program requires 1 year of service for each year of scholarship support, with a minimum 2-year service commitment post- graduation . A maximum of four years of educational support may be awarded. Service obligation must be fulfilled at an eligible health care facility with a critical shortage of nurses. Refer to the NURSE Corps Scholarship Application and Program Guidance for specific requirements.

Applicant Eligibility:

Individual/Family; Specialized group (e.g. health professionals, students, veterans); The applicant must be a U.S. citizen or national, enrolled or accepted for enrollment in a fully accredited academic institution with a graduate, baccalaureate, associate degree or diploma nursing program located in a State, the District of Columbia, or a U.S. Territory. The applicant must be free of any Federal judgment liens, not have breached a prior service obligation, is not excluded, debarred, suspended, or disqualified by a Federal agency, and have no conflicting service obligations. Financial need is also reviewed as part of the eligibility determination. The applicant must submit an application and a signed contract, agreeing to accept payment of scholarship funds and provide health care services in a health care facility with a critical shortage of nurses for a minimum of two years.

Beneficiary Eligibility:

Graduate Student; Education (13+); United States citizens or nationals enrolled or accepted for enrollment in a fully accredited graduate, baccalaureate, associate degree or diploma nursing program.

Achievement of these goals will reduce chronic disease morbidity, mortality, and disability related to tobacco use and secondhand smoke exposure. This cooperative agreement program relates to Healthy People 2020 objectives in the topic area of Tobacco Use. In addition, this cooperative agreement program supports the Government Performance Results Modernization Act Long-term Objective 4.6: Reduce Death and Disability Due to Tobacco and the following measures: Tobacco Measure: 4.6 - Reduce death and disability due to tobacco use; 4.6.2 - Reduce per capita cigarette consumption in the U.S. per adult age 18+; 4.6.3 - Reduce the proportion of adults (age 18 and over) who are current cigarette smokers; 4.6.4 Increase the proportion of the U.S. population covered by comprehensive state and/or local laws making workplaces, restaurants, and bars 100% smoke free (no smoking allowed, no exceptions); 4.6.5 - Reduce the proportion of adolescents (grade 9-12) who are current cigarette smokers. Furthermore, this cooperative agreement program supports national public health priorities and strategic plans including: (1) Centers for Disease Controls Winnable Battles; (2) Department of Health and Human Services Ending the Tobacco Epidemic and Strategic Plan; (3) National Prevention Councils National Prevention Strategy; (4) Institute of Medicines, Ending the Tobacco Problem; and (5) numerous Surgeon General Reports.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

Awardees may not use funds for research or clinical care, to provide direct cessation services or other direct services other than those through evidence-based quitline services; to purchase nicotine replacement therapy or other products used for cessation; to pay for inspection of tobacco retail establishments. Awardees may only expend funds for reasonable program purposes, including personnel, travel, supplies, and services, such as contractual. Awardees may only use federal funds for evidence-based tobacco control interventions and strategies. No federal funds from this cooperative agreement may be used to purchase K-12 school curriculum. In most cases, awardees may not use HHS/CDC/ATSDR funding for the purchase of furniture or equipment. Any such proposed spending must be clearly identified in the budget. Reimbursement of pre-award costs is not allowed. Awardees may not use funds for any kind of impermissible lobbying activity designed to influence proposed or pending legislation, appropriations, regulations, administrative actions, or Executive Orders (legislation and other orders). These restrictions include grass roots lobbying efforts and direct lobbying. Certain activities within the normal and recognized executive-legislative relationships within the executive branch of that government are permissible. See Additional Requirement (AR) 12 for further guidance on this prohibition. The direct and primary recipient in a cooperative agreement program must perform a substantial role in carrying out project outcomes and not merely serve as a conduit for an award to another party or provider who is ineligible.

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); State departments of health are essential for coordinating the public health response to prevent tobacco use and protect the population from second hand smoke exposure. They have experience with implementing evidence-based interventions and strategies that use environment, policy, and system approaches that have the potential to reach large numbers of people in the state. State departments of health have experience working with an array of state and local governmental and non-governmental organizations to leverage resources that can support tobacco control efforts across a number of categorical programs and sectors. State departments of health are uniquely positioned to carry out the activities outlined in this funding opportunity announcement. State departments of health serve as the lead for tobacco control in every state. State departments of health have existing personnel who are able to provide technical assistance based on their area of expertise (e.g., environment, policy, and systems approaches, program planning, implementation, and evaluation, health communication, surveillance and epidemiology, partnership development) which conserves

valuable resources. All this infrastructure and capacity can be integrated and employed by state departments of health to: Leverage partnerships to support the implementation of evidence-based interventions and strategies to prevent and control tobacco at the state and local levels; implement policy and programmatic strategies that cut across multiple chronic conditions and that leverage individual categorical efforts and create synergies and efficiencies across multiple state programmatic efforts also funded by CDC, given the high level of co-morbidities among people with chronic diseases and conditions (e.g., obesity, diabetes, hypertension, heart disease and stroke); utilize the public health resources and capacity unique to state departments of health to achieve a comprehensive state-based tobacco control program; develop models that integrate with other state departments of health chronic disease programs affecting similar populations; collect state-wide surveillance data on tobacco use, secondhand smoke exposure, and the populations most affected through data sources that are uniquely available to state departments of health.

Beneficiary Eligibility:

Anyone/general public; General Public would benefit

Credentials/Documentation:

This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Pre-application coordination is required. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review. n/a

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Applicants must download application forms from www.Grants.gov. Applications must be submitted electronically through www.Grants.gov. If an applicant does not have access to the Internet, or if they have difficulty accessing the forms online, contact the CDC Procurement and Grants Office, Technical Information Management Section (PGO-TIMS) staff. For this, or further technical assistance, contact PGO-TIMS: Telephone: 770-488-2700, email: PGOTIM@cdc.gov.

Award Procedure:

All applications submitted by the deadline that are complete and responsive to competitive funding opportunity announcement will undergo an objective review process, receive a written critique and be scored according to published review criteria. Successful applicants will receive a Notice of Award (NoA) from the CDC Procurement and Grants Office. The NoA shall be the only binding, authorizing document between the recipient and CDC. The NoA will be signed by an authorized CDC Grants Management Officer.

Deadlines:

Contact the headquarters or regional location, as appropriate for application deadlines.

Range of Approval/Disapproval Time:

From 60 to 90 days. Range of Approval/Disapproval is 60 90 days from receipt of application.

Appeals:

Not Applicable. n/a

Renewals:

From 120 to 180 days. Throughout the project period, CDCs commitment to continuation of awards will be conditioned on the availability of funds, evidence of satisfactory progress by the recipient (as documented in required reports, in documented technical assistance, and in other relevant documented activities), and the determination that continued funding is in the best interest of the federal government.

Formula and Matching Requirements:

Statutory formula is not applicable to this assistance listing. Matching Requirements: Percent: 0%. Requirement: Matching requirements are voluntary. Matching funds are required from non-federal sources in the amount of not less than \$1 for each \$4 federal funds awarded. The match must be from non-federal sources and can be all cash, in-kind, or a combination thereof. In-kind activities

must support evidence-based interventions outlined in CDCs Best Practices for Comprehensive Tobacco Control Programs. The match must be for the total dollar amount requested. The amount and source of the match is required in the budget narrative and justification section of the application. Responsiveness to match requirements will be a criterion used in evaluating the application. Cost sharing is encouraged if it helps to leverage federal and state resources, is responsive to stated CDC recipient activities, is advantageous to chronic disease prevention and health programs, supports the four National Tobacco Control Program goals, focuses on evidence-based interventions outlined in Best Practices, and does not compromise the integrity or the ability of the programs to accomplish proposed activities.

Examples of cost sharing may include, but are not limited to, sharing 1) the cost of an FTE that can support the work of several projects across program content areas, 2) costs associated with data collection and analysis, 3) costs associated with various communication campaigns that can benefit multiple program areas, and 4) costs associated with working with diverse populations to modify risk factors or eliminate chronic disease-related disparities. MOE requirements are not applicable to this assistance listing.

Length and Time Phasing of Assistance:

Financial assistance is available for a 12-month budget period and 60 month project period. Method of awarding/releasing assistance: lump sum.

Reports:

The reporting schedule will be based on the requirements listed in the funding opportunity announcement. An Annual Progress Report and Federal Financial Report (SF425) are due 90 days after the end of the budget period. A final progress report and final Federal Financial Report are due 90 days after the end of the project period. An Annual Progress Report is due 90 days after the end of the budget period. The Annual Progress Report will describe successes, challenges, and progress toward program goals, objectives and performance measures. A Federal Financial Report is due 90 days after the end of the quarter in which budget period ends. Awardee performance will be monitored through a technical review of the Annual Progress Report; ongoing communication between the awardee and project officer via email, conference calls, and meetings; and periodic site visits. Awardees will describe their activities and progress toward meeting goals, objectives, and performance measures in the progress reports submitted.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503

Records:

Financial records, supporting documents, statistical records, and all other records pertinent to the program shall be retained for a minimum of 3 years, or until completion and resolution of any audit in process or pending resolution. In all cases, records must be retained until resolution of any audit questions. Property records must be retained in accordance with 45 CFR 92.42.

CRITERIA FOR SELECTING PROPOSALS:

Phase I Review: All eligible applications will be initially reviewed for completeness by CDC's Procurement and Grants Office (PGO) staff. In addition, eligible applications will be jointly reviewed for responsiveness by the CDC NCCDPP and PGO. Incomplete applications and applications that are non-responsive to the eligibility criteria will not advance to Phase II review. Applicants will be notified that the application that the application did not meet eligibility and/or published submission requirements. Phase II Review: An objective review panel will evaluate complete and responsive applications according to the criteria listed in the criteria section of the funding opportunity announcement. Applicants will be notified electronically if the applications did not meet eligibility and/or published submission requirements thirty (30) days after the completion of Phase II review. Applications will be funded in order by score and rank determined by the review panel.

OBJECTIVES:

To support basic, clinical, social, and behavioral research; promote research infrastructure and training; foster emerging programs; disseminate information; and reach out to minority and other health disparity communities. The National Institute on Minority Health and Health Disparities (NIMHD) has established programs to pursue these goals: (1) The Centers of Excellence Program promotes research to improve minority health and/or reduce and eliminate health disparities;

builds research capacity for minority health and health disparities research in academic institutions; encourages participation of health disparity groups and communities in biomedical and behavioral research and prevention and intervention activities; and brings together investigators from relevant disciplines in a manner that will enhance and extend the effectiveness of their research; (2) NIMHD Research Endowment Program builds research capacity and infrastructure at eligible NIMHD Centers of Excellence or eligible Section 736 health professions schools (42 U.S.C. 293) to facilitate minority health and other health disparities research to close the disparity gap in the burden of illness and death experienced by racial and ethnic minority Americans and other health disparity populations; promotes a diverse and strong scientific, technological and engineering workforce; and emphasizes the recruitment and retention of underrepresented minorities and other socio-economically disadvantaged populations in the fields of biomedical and behavioral research and other areas of the scientific workforce; (3) The Centers of Excellence on Environmental Health Disparities Research to stimulate basic and applied research on environmental health disparities; (4) Minority Health and Health Disparities International Research Training Program (MHIRT) awards enable U.S. institutions to tailor short-term basic science, biomedical and behavioral mentored student international research training opportunities to address global issues related to understanding, reducing, and eliminating health disparities; (5) Small Business Innovation Research (SBIR) Program increases private sector commercialization of innovations derived from Federal research and development; encourages small business participation in Federal research and development; and fosters and encourages participation of socially and economically disadvantaged small business concerns and women-owned small business concerns in technological innovation; (6) Small Business Technology Transfer (STTR) Program stimulates and fosters scientific and technological innovation through cooperative research development carried out between small business concerns and research institutions; fosters technology transfer between small business concerns and research institutions; increases private sector commercialization of innovations derived from Federal research and development; and fosters and encourages participation of socially and economically disadvantaged small business concerns and women-owned small business concerns in technological innovation; (7) Health Disparities Research Project Grants (RPG) support innovative projects to enhance our understanding of biological mechanisms, social, behavioral, and health services that can directly and demonstrably contribute to the improvement in minority health and the elimination of health disparities; (8) Research Centers in Minority Institutions (RCMI) build capacity for basic biomedical and/or behavioral research by focusing on institutional resource development, such as supporting core research facilities and staff, purchasing advanced instrumentation, and laboratory renovations/alterations; (9) RCMI Infrastructure for Clinical and Translational Research (RCTR) supports the development of infrastructure required to conduct clinical and translational research by enhancement of, but is not limited to outpatient clinical resources, biostatistical support, core laboratories, and other capacity for patient-oriented research; (10) RCMI Translational Research Network (RTRN) supports a consortium of clinical and translational investigators from RCMI Centers, other academic health centers, providers, and community-based organizations to encourage sharing of resources and expertise in minority health and health disparities; (11) Clinical Research Education and Career Development (CRECD) Awards provide didactic training and mentored clinical research experiences to develop independent researchers who can lead clinical research studies, especially those addressing health disparities; (12) Resource-Related Minority Health and Health Disparities Research supports minority health and health disparities resource-related research in the priority areas of Bioethics Research, Global Health Research, Data Infrastructure and Dissemination, and Healthcare for Rural Populations Research; (13) Pathway to Independence Awards (K99/R00) to increase and maintain a strong cohort of new and talented, NIH-supported, independent investigators. (14) NIH Research Conference Grant and NIH Research Conference Cooperative Agreement Programs support high-quality conferences that are relevant to the minority health and health disparities; (15) Transdisciplinary Collaborative Centers for Health Disparities Research comprise regional coalitions of academic institutions, community organizations, service providers and systems, government agencies and other stakeholders conducting coordinated research, implementation and dissemination activities that transcend customary approaches and silo organizational structures to address critical questions at multiple levels in innovative ways focused on priority research areas in minority health and health disparities; (16) Disparities Research and Education Advancing our Mission (DREAM) Career Transition Award supports mentored

Kirschstein NRSA Individual Predoctoral Fellowship to Promote Diversity in Health-Related Research; (18)) NIH BD2K Enhancing Diversity in Biomedical Data Science to support educational activities that enhance the diversity of the biomedical, behavioral and clinical research workforce; and (19) 2014 NIH Directors New Innovator Award initiative to support early stage investigators of exceptional creativity who propose bold and highly innovative new research approaches that have the potential to produce a major impact on broad, important problems in biomedical and behavioral research; and (Types of Assistance (060):

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

Grants are intended to support the direct costs of a project in accordance with an approved budget, plus appropriate amount for indirect costs. Grantees must agree to administer the grant in accordance with the regulations and policies governing the research grants program of the Public Health Service. Endowment grants: Some qualifying institutions may use income earned from a research endowment corpus to support institutions in their effort to expand and add teaching programs in the biomedical and behavioral sciences and related areas, to improve facilities, to enhance student and faculty recruitment and retention, to develop instructional delivery systems and information technology in areas that will enhance minority health and other health disparities research activities, and to establish endowed chairs and programs. Other qualifying institutions must use income earned from a research endowment corpus to increase the institutions investments in the recruitment and retention of underrepresented minority students and students from other health disparity populations that matriculate at such institutions. This includes activities such as increasing student recruitment and retention, creating merit-based and need-based scholarships, establishing or enhancing tutoring, providing counseling, and designing student service programs to improve academic success, and faculty recruitment and retention. SBIR grants: SBIR Phase I grants are to establish the technical merit and feasibility of a proposed research effort that may lead to a commercial product or process. SBIR Phase II grants are for the continuation of the research initiated in Phase I and are likely to result in commercial products or processes. Only Phase I awardees are eligible to apply for Phase II support. STTR grants: STTR Phase I grants are to determine the scientific, technical, and commercial merit and feasibility of the proposed cooperative effort that has potential for commercial application. STTR Phase II grants are based on results of research initiated in Phase I and scientific and technical merit and commercial potential on Phase II application. See Program Announcements: PA-15-269 and PA-15-270. As specified in each of the program announcements.

Applicant Eligibility:

Government - General; Federal; State (includes District of Columbia, public institutions of higher education and hospitals); Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals); Public nonprofit institution/organization (includes institutions of higher education and hospitals); Other public institution/organization; Federally Recognized Indian Tribal Governments; U.S. Territories and possessions; U.S. Territories and possessions (includes institutions of higher education and hospitals); Non-Government - General; Individual/Family; Minority group; Specialized group (e.g. health professionals, students, veterans); Small business (less than 500 employees); Profit organization; Private nonprofit institution/organization (includes institutions of higher education and hospitals); Quasi-public nonprofit institution/organization; Other private institutions/organizations; State; Native American Organizations (includes Indian groups, cooperatives, corporations, partnerships, associations); Individuals and public and private institutions, both non-profit and for-profit, who propose to establish, expand, and conduct research, promote or engage in research training, and outreach activities that contribute to improving minority health and/or eliminating health disparities. Endowment grants: Only NIMHD Centers of Excellence or Section 736 health professional schools (see 42 U.S.C. 293) with net endowment assets less than or equal to 50 percent of the national median of endowment funds at institutions that conduct similar biomedical research or training of health professionals are eligible for the research endowment awards. All applicants must have an NIMHD Center of Excellence Award or HRSA Centers of Excellence Award at the time of award of an NIMHD Research Endowment Grant.

SBIR grants: Domestic small businesses (entities that are independently owned and operated for profit, are not dominant in the field in which the research is proposed, and have no more than 500 employees). Primary employment (more than one-half time) of the principal investigator must be with the small business at the time of award and during the conduct of the proposed project. Small business concerns must be at least 51 percent US owned by individuals and independently operated and/or at least 51 percent owned and controlled by another (one) for-profit business concern that is at least 51 percent owned and controlled by one or more individuals. The research must be performed in the U.S. or its possessions. STTR grants: Domestic small businesses (entities that are independently owned and operated for profit, are not dominant in the field in which the research is proposed, and have no more than 500 employees) that "partner" with a research institution in cooperative research and development. At least 40 percent of the project is to be performed by the small business concern and at least 30 percent by the research institution.

Beneficiary Eligibility:

Specialized group (e.g. health professionals, students, veterans); Any non-profit or for-profit organization, company, or institution engaged in biomedical and behavioral research. Endowment grants: NIMHD Centers of Excellence or Section 736 institutions.

Credentials/Documentation:

Applicants must present a research plan and furnish evidence required for research grant applications, PHS 398, (Rev. 05/01) as specified in the application form. Costs will be determined in accordance with HHS Regulation 45 CFR 75, as applicable, and the NIH Grants Policy Statement (<http://grants.nih.gov/grants/policy/niheps/index.htm>), which is a term and condition of all NIH grant awards. For-profit organizations costs are determined in accordance with Subpart 31.2 of the Federal Acquisition Regulations. Endowment grants: Requirements for the endowment application are specified in the application form (SF424 R&R). SBIR and STTR grants: Applicant organizations (small business concerns) must present a research plan that includes an idea that has the potential for commercialization, and furnish evidence that the scientific competence, experimental methods, facilities, equipment, and funds requested are appropriate to carry out the plan. To apply for SBIR Phase I and Phase II Grants, applicants must complete SF424 (R&R) Application for Electronic Submission. For general information on SF424 (R&R) Application and Electronic Submission, see these Web sites: SF424 (R&R) Application and Electronic Submission Information: <http://grants.nih.gov/grants/funding/424/index.htm>. General information on Electronic Submission of Grant Applications: <http://grants.nih.gov/grants/ElectronicReceipt/>. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is not applicable.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Applications for the various programs should be submitted to the NIH office that is responsible for the receipt of applications, and in such form and manner as the application prescribes. (All information pertaining to grants hereinafter, also apply to Endowment Grants unless otherwise noted). Research Grants: Applications must be prepared either electronically through Grants.gov (<http://www.grants.gov>) using the SF 424 (Research and Research-Related) or on paper using the PHS 398 research grant application instructions and forms (Revised 9/2004, Interim Revision 4/2006). The PHS 398 is available at <http://grants.nih.gov/grants/funding/phs398/phs398.html>. The format is interactive. For NIH planned transition dates of mechanisms for electronic submission, see: http://grants.nih.gov/grants/ElectronicReceipt/files/timeline_NIH_transitions.pdf. For further assistance contact Grants Info, Telephone (301) 435- 0714, Email: GrantsInfo@nih.gov. NRSAs (Individual): Individuals must submit the application form, PHS Individual National Research Service Award (PHS 416-1, rev. 10/05), and include at least three letters of reference. If the applicant has been lawfully admitted to the United States for permanent residence, the appropriate item should be checked on the Face Page of the application. Applicants who have applied for and have not yet been granted admission as a permanent resident should check the Permanent resident block on the Face Page of the PHS 416-1 application, and also write in the word "pending." A notarized statement documenting legal admission

ASSISTANCE LISTINGS DESCRIPTIONS

for permanent residence must be submitted prior to the issuance of an award. SBIR and STTR: The SF 424 (Research and Research-Related) application forms and the SF 424 SBIR/STTR Application Guide are used to apply for both SBIR and STTR grants, Phase I and Phase II. Application must be made electronically through grants.gov (<http://www.grants.gov>). For further assistance contact Grants Info, Telephone: (301) 435-0714, Email: GrantsInfo@nih.gov.

Award Procedure:

Each eligible application will be evaluated for scientific and technical merit by an appropriate Scientific Review Group in accordance with NIH policies and procedures. The National Advisory Council on Minority Health and Health Disparities (NACMHD) will conduct the second-level review of the applications.

Deadlines:

Contact the headquarters or regional location, as appropriate for application deadlines.

Range of Approval/Disapproval Time:

>180 Days. Approximately 6 to 9 months. SBIR and STTR grants: Approximately 7 to 8 months.

Appeals:

Other. A principal investigator or applicant may question the substantive or procedural aspects of the review of his/her application by communicating with NIMHD staff. A description of the NIH Peer Review Appeal procedures is available on the NIH home page <http://grants.nih.gov/grants/guide/notice-files/NOT-OD-11-064.html>.

Renewals:

Other. Renewal of grant awards beyond the initial project period of support is contingent upon successful competition by the applicant and upon the appropriation of funds for this purpose.

Formula and Matching Requirements:

Statutory formula is not applicable to this assistance listing. Matching requirements are not applicable to this assistance listing. MOE requirements are not applicable to this assistance listing.

Length and Time Phasing of Assistance:

All awards have a project period of one to five years. Non-competitive grant awards in successive years (year 2 up to year 5) are awarded based on the applicant's annual performance and the availability of funds. SBIR grants: Generally, Phase I awards are for six months, and Phase II awards are for two years. STTR grants: Generally, Phase I awards are for one year, and Phase II awards are for two years. All funds for any award must be obligated within five years from the date of the award. See the following for information on how assistance is awarded/released. See above for information about each program. Method of awarding/releasing assistance: other

Reports:

Annual progress and selected financial status reports for continuing projects and final reports on all projects upon conclusion are required. Endowment Grants: The NIMHD will exercise extended monitoring of a participant's annual progress towards meeting the objectives as outlined in the participants five-year strategic plan for prioritizing the use of endowment income. These reports will extend 20 years beyond the last year of a participants project period. Cash reports are not applicable. CRITERIA FOR SELECTING PROPOSALS:

The major elements in evaluating all new grant and renewal grant applications include assessments of the scientific merit and general significance of the proposed study and its objectives; the technical adequacy of the experimental design and approach; the competency of the proposed investigator or group to successfully pursue the project; the adequacy of the available and proposed facilities and resources; and the necessity of the budget components requested in relation to the proposed project and the relevance and importance to the announced program objectives. SBIR and STTR grants: For Phase I grant applications, the criteria used are the soundness and technical merit of the proposed approach; the qualifications of the proposed principal investigator, supporting staff, and consultants; the technological innovation of the proposed research; the potential of the proposed suitability of the facilities and research environment; and where applicable, the adequacy of assurances detailing the proposed means for safeguarding human or animal subjects and/or protecting against or minimizing any adverse effect on the environment. For Phase II grant applications, the criteria used are the degree to which the Phase I objectives were met and feasibility demonstrated; the scientific and technical merit of the proposed approach for achieving the phase II objectives; the qualifications of the proposed principal investigator, supporting staff and consultants; the technological innovation, originality, or societal importance of the proposed research; the potential of the proposed research for commercial application; the reasonableness of the budget requested for the work proposed; the adequacy and suitability of the facilities and research environment; and, where applicable, the adequacy of assurances detailing the proposed means for safeguarding human or animal subjects and/or protecting against or minimizing any adverse effect on the environment. All persons interested in any of the DHHS/NIH/NIMHD grant and/or contract program initiatives are strongly encouraged to carefully read the Request for Applications as they are announced annually in order to understand what is required for each unique program as well as meet each deadline in a timely manner.

93.308 National Institute on Minority Health and Health Disparities (NIMHD) Extramural Loan Repayment Programs

NIMHD Loan Repayment Programs,

FEDERAL AGENCY:

NATIONAL INSTITUTES OF HEALTH, HEALTH AND HUMAN SERVICES,
DEPARTMENT OF

AUTHORIZATION:

Public Health Service Act; Title IV, Subtitle D, Part G, Section 487E, as amended; Public Law 106-554; 42 U.S.C. 288-5., Title IV, Part G, Section 487E, Public Law 106-554, 42 U.S.C 288-5, Title IV, Part G, Section 487E, Public Law 106-554, 42 USC Code 288-5.

OBJECTIVES:

The mission of the National Institute on Minority Health and Health Disparities (NIMHD) is to lead scientific research to improve minority health and eliminate

health disparities. To accomplish this, NIMHD 1) Plans, reviews, coordinates, and evaluates all minority health and health disparities research and activities of the National Institutes of Health; 2) Conducts and supports research in minority health and health disparities; 3) Promotes and supports the training of a diverse research workforce; 4) Translates and disseminates research information; 5) Fosters innovative collaborations and partnerships. There are two separate types of loan repayment within NIMHD's Loan Repayment Program: (1) Extramural Loan Repayment Program for Health Disparities Research (LRP-HDR): recruits and retains qualified health professionals to research careers that focus on minority health disparities research or other health disparities research and the (2) Extramural Clinical Research Loan Repayment Program for Individuals from Disadvantaged Backgrounds (LRP IDB), recruits and retains qualified health professionals from disadvantaged backgrounds to conduct clinical research. The objective of these extramural loan repayment programs are to recruit and retain qualified health professionals including those from health disparity populations and those from disadvantaged backgrounds to conduct minority health disparities research, other health disparities research, and clinical research. (1) Health Disparities Research may pertain to basic, clinical, or behavioral research on health disparity populations (including individual members and communities of such populations), that relate to health disparities, including the causes of such disparities and methods to prevent, diagnose, and treat such disparities. (2) Clinical research consists of patient-oriented clinical research conducted with human subjects, or research on the causes and consequences of disease in human populations involving material of human origin (such as tissue specimens and cognitive phenomena) for which the investigator or colleague directly interacts with human subjects in an outpatient or inpatient setting to clarify a problem in human physiology, pathophysiology or disease, or epidemiologic or behavioral studies, outcomes research or health services research, or developing new technologies, therapeutic interventions, or clinical trials.

TYPES OF ASSISTANCE:

Direct Payments for Specified Use

USES AND USE RESTRICTIONS:

To provide repayment of existing educational loan debt incurred by health professionals including those from health disparity populations and those from disadvantaged backgrounds to conduct minority health disparities or other health disparities research and clinical research. Recipients must execute a written contract agreeing to engage in such research for a minimum of two years. The Secretary of the Department of Health and Human Services, or the Secretary's designee, may grant extension contracts for a one-year or two-year period after the completion of the initial two year contract, provided that the participant applies for an extension, continues to engage in qualified research, and there is sufficient repayable debt remaining. The maximum program benefit is \$35,000 per year in loan repayment. Program payments are made directly to the participants' lenders following each quarter and a verification of satisfactory research service, unless otherwise agreed upon by the participant and the Director, NIMHD.

Applicant Eligibility:

Specialized group (e.g. health professionals, students, veterans); The following eligibility requirements apply to both: (1) Extramural Loan Repayment Program for Health Disparities Research (LRP-HDR): and (2) Extramural Clinical Research Loan Repayment Program for Individuals from Disadvantaged Backgrounds (LRP-IDB) An applicant must: (1) be a United States citizen, national, or permanent resident; (2) have an M.D., Ph.D., Pharm.D., D.D.S., D.M.D., D.C., N.D., or equivalent doctoral degree from an accredited institution; (3) conduct research that is supported by a non-profit institution, foundation, professional society or U.S. government entity; (4) commit 50 percent or more of his/her time to clinical research; (5) have total qualifying educational debt greater than or equal to 20 percent of his/her institutional base salary at the time of award; (6) conduct research in accordance with applicable Federal, state and local law; (7) not be under any existing service obligations to Federal, State, or other entities, unless and until the existing service obligation is discharged or deferred during the period of program service; (8) not have Federal judgment liens against their property arising from a Federal debt from receiving Federal funds until all judgments have been paid in full or otherwise satisfied; (9) not be a full time employee of a Federal government agency. Part-time Federal employees who engage in qualifying research as part of their non-Federal duties are eligible to apply for loan repayment if they meet all other eligibility requirements; and (10) have the institution provide an assurance that the applicant will be provided research support for two years, that

ASSISTANCE LISTINGS DESCRIPTIONS

the applicant will engage in qualified clinical research for 50 percent of his/her time, that the funding foundation, professional society, or institution is considered to be non-profit pursuant to Section 501 of the Internal Revenue Code or is a U.S. government entity, and certify the applicant's annual institutional base salary. There are additional requirements for the Extramural Clinical Research Loan Repayment Program for Individuals from Disadvantaged Backgrounds (LRP-IDB). Eligible applicants must come from a disadvantaged background and adhere to the following guidelines relating to the definition of a disadvantaged background: An Individual from disadvantaged background means an individual who: (1) Comes from an environment that inhibited the individual from obtaining the knowledge, skill and ability required to enroll in and graduate from a health professions school; or (2) Comes from a family with an annual income below a level based on low-income thresholds according to family size published by the U.S. Bureau of the Census adjusted annually for changes in the Consumer Price Index, and adjusted by the Secretary for use in all health professions programs. The Secretary periodically publishes these income levels in the Federal Register.

Beneficiary Eligibility:

Specialized group (e.g. health professionals, students, veterans); (1) Extramural Loan Repayment Program for Health Disparities Research (LRP-HDR), and (2) Extramural Clinical Research Loan Repayment Program for Individuals from Disadvantaged Backgrounds (LRP-IDB) contracts: Qualified health professionals who conduct minority health or other health disparities research or highly qualified health professionals from disadvantaged backgrounds who will conduct clinical research and who possess substantial unpaid educational debt relative to income.

Credentials/Documentation:

An applicant to either NIMHD extramural LRP programs must submit the following documentation electronically: (1) Applicant Information Statement; (2) Biosketch; (3) Personal Statement, which includes a discussion of career goals and academic objectives; (4) Description of Research Activities; (5) Contact Information of Three Recommenders; (6) Contact Information of Institution Official able to serve as the Institutional Contact; (7) On-line Certification; (8) Loan Information; (9) Notice of Grant/Award (or PHS 2271 for T32 recipients), if applying based on NIH support; and in addition for those applying to the Extramural Clinical Research Loan Repayment Program for Individuals from Disadvantaged Backgrounds (LRP-IDB) applicants must submit a Certification of Disadvantaged Background [see Federal Register: April 24, 2009 (Volume 74, Number 78)]. The Research supervisor or mentor of applicants to both NIMHD extramural LRP programs must electronically submit the following: (1) Recommendation; (2) Biosketch; (3) Assessment of the Research Activities Statement submitted by the applicant; (4) Description of the Research Environment; and (5) Training or Mentoring Plan. Recommenders must submit their recommendations electronically. Institutional Contacts must electronically submit a certification that: (1) assures the applicant will be provided the necessary time and resources to engage in the research project for two years from the date a Loan Repayment Program Contract is executed; (2) assures that the applicant is or will be engaged in qualifying research for 50 percent of his/her time, i.e., not less than 20 hours per week; (3) certifies that the funding foundation, professional society, or institution is considered to be non-profit as provided under Section 501 of the Internal Revenue Code (26 U.S.C. 501) or is a U.S. government entity (Federal, state or local); and (4) provides the applicant's institutional base salary. Requirements for the loan repayment application, OMB Approval No. 0925-0361, are specified in the electronic application form located at www.lrp.nih.gov. Credentials/Documentation:

Applicants should review the individual CDC Notice of Funding Opportunity (NOFO) document issued under this program for any required proof or certification that must be submitted prior to, or simultaneous with, submission of an application package. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is required. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372. Yes All Notice of Funding Opportunity are published on www.grants.gov. Applicants must complete the Grants.gov registration process. Please see the following Grants.gov link for more information:

http://www.grants.gov/applicants/get_registered.jsp.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Applicants must download the SF424 (R&R) application forms and SF424 (R&R) Application Guide for this requirement through Grants.gov/Apply. Only the forms package directly attached to a specific Notice of Funding Opportunity (NOFO) can be used. Applicants will not be able to use any other SF424 (R&R) forms (e.g., sample forms, forms from another NOFO) although some of the "Attachment" files may be useable for more than one FOA. If an applicant does not have access to the Internet, or if they have difficulty accessing the forms online, contact the CDC Office of Grant Services, (770) 488-2700. HHS/CDC Telecommunications for the hearing impaired: TTY 770-488-2783. The standard application forms must be used for this program, as furnished by CDC and required by 45 CFR 92 for State and local governmental agencies, and by 45 CFR 74 for nongovernmental applicants. This program is subject to the provisions of 45 CFR 92 for State and local governments and 45 CFR 74 for nonprofit organizations.

Award Procedure:

Applications will be reviewed for completeness by the CDC Office of Grant Services (OGS) and for responsiveness by the National Center for Birth Defects and Developmental Disabilities (NCBDDD) and OGS. Incomplete applications and applications that are non-responsive to the eligibility criteria will not advance through the review process. Applicants will be notified the application did not meet submission requirements. Successful applicants will receive a Notice of Award (NOA) from the CDC Office of Grant Services. The NOA shall be the only binding, authorizing document between the recipient and CDC. The NOA will be signed by an authorized Grants Management Officer, and mailed to the recipient fiscal officer identified in the application. FOR RESEARCH GRANTS:

Applications that are complete and responsive to the announcement will be

ASSISTANCE LISTINGS DESCRIPTIONS

evaluated for scientific and technical merit by an appropriate peer review group convened by NCBDDD in accordance with the review criteria stated below. All applications will: undergo a selection process in which only those applications deemed to have the highest scientific merit, generally the top half of applications under review, will be discussed and assigned a priority score; receive a written critique; receive a second level of review by the Board of Scientific Counselors. **FOR NON-RESEARCH GRANTS/COOPERATIVE AGREEMENTS:** Applicants are required to provide measures of effectiveness that will demonstrate the accomplishment of the various identified objectives of the grant or cooperative agreement. Measures of effectiveness must relate to the performance goals stated in the "Purpose" section of the announcement. Measures must be objective and quantitative and must measure the intended outcome. The measures of effectiveness must be submitted with the application and will be an element of evaluation. An objective review panel will evaluate complete and responsive applications according to the criteria listed. The objective review process will follow the policy requirements as stated in the GPD 2.04, <http://198.102.218.46/doc/gpd204.doc>.

93.317 Emerging Infections Programs

FEDERAL AGENCY:

CENTERS FOR DISEASE CONTROL AND PREVENTION, HEALTH AND HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

Public Health Service Act Sections 301(a)[42 U.S.C. 241(a)], 317(k)(1)[42 U.S.C. 247b(k)(1)], and 317(k)(2)[42 U.S.C. 247b(k)(2)], as amended.

OBJECTIVES:

The purpose of the Emerging Infections Programs (EIP) is to assist in local, state, and national efforts to prevent, control, and monitor the public health impact of infectious diseases. The EIP cooperative agreement was formed in 1995 as a key component of CDC's national strategy to address and reduce emerging infectious disease (EID) threats. The EIP is a population-based network of state health agencies and their collaborators, including (but not limited to) academic institutions, local health departments, public health and clinical laboratories, infection control professionals, and healthcare providers. The network plays a critical role in conducting surveillance and applied epidemiologic and laboratory research, implementing and evaluating prevention and intervention projects, and responding quickly to new infectious disease issues. The unique strength of the EIP lies in the networks ability to quickly translate surveillance and research activities into informed policy and public health practice.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

Recipients may only expend funds for reasonable program purposes, including personnel, travel, supplies, and services, such as contractual. Funding under this program will support activities that fall within the following general activities: (1) active surveillance; (2) applied public health epidemiologic and laboratory activities; (3) implementation and evaluation of pilot prevention/intervention projects; and (4) flexible response to public health emergencies. Activities: (1) address issues that the EIP network is particularly suited to investigate; (2) maintain sufficient flexibility for emergency response and new problems as they arise; (3) develop and evaluate public health interventions to inform public health policy and treatment guidelines; (4) incorporate training as a key function; and (5) prioritize projects that lead directly to the prevention of disease (<http://www.link.cdc.gov/nceid/dpei/eip>).

Applicant Eligibility:

State; Eligibility is limited to State governments (specifically, state health departments) or their Bona Fide Agents (this includes the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, the Commonwealth of the Northern Mariana Islands, American Samoa, Guam, the Federated States of Micronesia, the Republic of the Marshall Islands, and the Republic of Palau). The EIP infrastructure depends on a direct relationship with public health agencies that have sufficient legal authority and responsibility to perform public health surveillance and response activities. The network must also consist of definitive populations large enough to adequately determine disease burden, evaluate large scale interventions, and impact public health policy decisions.

Beneficiary Eligibility:

U.S. Territories; Anyone/general public; State; Local; Beneficiaries of this program include State and local health departments, the District of Columbia, U.S. Territories, and the general public.

Credentials/Documentation:

Allowable costs will be determined in accordance with OMB Circular No. A-87 for State, Local, and Indian Tribal governments. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is required. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review. none

ASSISTANCE LISTINGS DESCRIPTIONS

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Applicants must download application forms from www.Grants.gov. Applications must be submitted electronically at www.Grants.gov. If access to the Internet is not available or if the applicant encounters difficulty in accessing the forms on-line, contact the HHS/CDC Procurement and Grant Office Technical Information Management Section (PGO TIMS) staff at (770) 488-2700 for further instruction. CDC Telecommunications for the hearing impaired or disabled is available at: TTY 1-888-232-6348. Notice of Funding Opportunities (NOFO) for this listing will be posted on Grants.gov.

Award Procedure:

Applications that are complete and responsive will be evaluated for scientific and technical merit by an appropriate Special Emphasis Panel (SEP) in accordance with CDC SEP review policies and procedures. CDC will not review incomplete and non-responsive applications. Complete and responsive applications will undergo a SEP review process, receive a written critique and be scored according to the published review criteria. Successful applicants will receive a Notice of Award (NOA) from the CDC Procurement and Grants Office. The NOA shall be the only binding, authorizing document between the recipient and CDC. The NOA will be signed by an authorized Grants Management Officer. Initial award provides funds for the first budget period (usually 12 months) and the NOA will indicate support recommended for the remainder of the project period, allocation of Federal funds by budget categories, and special conditions, if any. Once competing applicants have been selected by the SEP review process for the first year of funding in the project period, those selected will be eligible to submit annual non-competitive continuation applications for each successive budget period of the project period.

Deadlines:

Contact the headquarters or regional location, as appropriate for application deadlines.

Range of Approval/Disapproval Time:

From 90 to 120 days. Approval/disapproval information is typically provided to applicants within 90 to 120 days of the application due date.

Appeals:

Not Applicable.

Renewals:

Other. Awards under this Program are typically issued for 1- to 5-year project periods. Renewals at the end of each project period are expected to be made available via publishing of a new/continuation NOFO with a complete application and review/award process as described above. Annual renewals within an awarded multi-year project period are made via a non-competitive process and are subject to the availability of funding.

Formula and Matching Requirements:

Statutory formula is not applicable to this assistance listing. Matching requirements are not applicable to this assistance listing. MOE requirements are not applicable to this assistance listing.

Length and Time Phasing of Assistance:

Financial assistance is available for a 12-month budget period within a 1- to 5-year project period. Method of awarding/releasing assistance: lump sum.

Reports:

No later than 10 days after the end of each calendar quarter, the recipients must submit a calendar quarter cash transaction report (SF-272 or top portion of the SF-425 Financial Report Form) to the Payment Management System (PMS). The reporting schedule will be based on the requirements listed in the EIP Notice of Funding Opportunity. Funded applicants must provide CDC with an Annual Progress Report. Additionally, funded applicants must provide CDC with a Federal Financial Report (SF 425) no more than 90 days after the end of each budget period, and a final Performance and Federal Financial Report no more than 90 days after the end of the project period. All reports must be submitted to the Grants Management Specialist indicated in the NoA. Additional details regarding the reporting requirements for this program are included in the published Notice of Funding Opportunity. Federal Financial Reports (SF 425) are due no more than 90 days after the end of the budget period. Federal Financial Reports and Progress Reports are required per the reporting schedule listed in the EIP Notice of Funding Opportunity.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503

Records:

Financial records, supporting documents, statistical records, and all other records pertinent to the grant program must be retained for a minimum of 3 years after the end of a budget period, or until completion and resolution of any audit in process or pending resolution. In all cases, records must be retained until resolution of any audit questions. Property records must be retained in accordance with 45 CFR 92.42.

CRITERIA FOR SELECTING PROPOSALS:

ASSISTANCE LISTINGS DESCRIPTIONS

Applications are reviewed against specific Evaluation Criteria published in the Notice of Funding Opportunity for this program. Evaluation Criteria in the most recently published NOFO include: (1) capacity to perform core functions of an EIP, (2) proposed operational plan for carrying out the specific objectives of the program, and (3) measures of effectiveness.

93.318 Protecting and Improving Health Globally: Building and Strengthening Public Health Impact, Systems, Capacity and Security

Global Health,

FEDERAL AGENCY:

CENTERS FOR DISEASE CONTROL AND PREVENTION, HEALTH AND HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

Public Health Service Act sections 301(a) and 307, as amended, 42 U.S.C. 241 and 242L.

OBJECTIVES:

CDC's global health efforts are to assist Ministries of Health and other international partners to plan, manage effectively, and evaluate public health programs; achieve U.S. Government program and international organization goals to improve health, including disease eradication and elimination targets; expand CDC's global health programs that focus on the leading causes of worldwide mortality, morbidity and disability, including chronic disease and injuries; generate and apply new knowledge to achieve health goals; and, strengthen health systems and their impact.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

Support the implementation of programs and activities focusing on protecting and improving health globally through regional, national, and local partnerships to develop, implement and strengthen public health surveillance, health information systems (including monitoring and evaluation), public health laboratory capacity, workforce development, as well as systems and capacities for the prevention, detection, response, and control of infectious and non-communicable diseases, injury prevention efforts and public health emergencies. Support must also be aimed at building upon existing public health infrastructure focusing on country priorities that are of mutual interest to CDC in order to strengthen regional and national partnerships, public health capacity, leadership, strategic collaboration and integrated health programming through national ministries of health, national public health networks and inter-sectoral co-operation and collaborations with other health organizations, academic institutions and community groups as appropriate to accomplish program activities. In addition, projects must also consider monitoring and evaluation of overall program performance and the progress of projects or activities.

Applicant Eligibility:

OBJECTIVES:

The Domestic Victims of Human Trafficking (DVHT) Program has the following objectives: 1) Conduct community assessments with the goal to build capacity, create partnerships, and deliver comprehensive, quality services to domestic victims; 2) Develop, strengthen, and expand comprehensive victim-centered services and case management at the community level for domestic victims; 3) Address the immediate and long-term housing and shelter needs of domestic victims through a continuum of flexible housing supports, including emergency and transitional housing; 4) Identify, provide, or refer victims to behavioral health and substance abuse treatments services; and 5) Integrate survivor engagement in their case management and service delivery strategies for victims.

TYPES OF ASSISTANCE:

Cooperative Agreements, Project Grants

USES AND USE RESTRICTIONS:

The Domestic Victims of Human Trafficking (DVHT) program funds time-limited comprehensive case management services to domestic victims of trafficking. Eligible recipients for DVHT program services include United States citizens and lawful permanent residents in select states. The DVHT program leverages existing systems, fills in service gaps, and builds capacity of direct service providers. Under the DVHT Program, OTIP requires a comprehensive case management approach that uses trauma-informed and victim-centered models. Comprehensive case management services for the program include, but are not limited to referrals, emergency assistance (such as food, clothing, and shelter), and support to gain access to housing, employability services, mental health screening and therapy, medical care, and some legal services.

Applicant Eligibility:

Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals); Public nonprofit institution/organization (includes institutions of higher education and hospitals); Federally Recognized Indian Tribal Governments; U.S. Territories and possessions; Non-Government - General; State; Native American Organizations (includes Indian groups, cooperatives, corporations, partnerships, associations); Eligible organizations includes: state governments, tribes, units of local government, and non-profit, non-governmental victim service organizations. Victim service organizations include those who by nature of their current operations serve victims of sexual assault, sexual violence, domestic violence, human trafficking, and youth homelessness. Victim services organizations may also include faith-based organizations that are addressing human trafficking in their services. Individuals (including sole proprietorships) and foreign entities are not eligible.

Beneficiary Eligibility:

U.S. Citizen; Eligible recipients for DVHT program services include United States citizens and lawful permanent residents.

ASSISTANCE LISTINGS DESCRIPTIONS

Credentials/Documentation:

Funding available under this catalog number is subject to requirements of 2 CFR 200 of the Uniform Guidance (effective January 1, 2016). HHS is required to review and consider information about applicants that is in the Federal Awardee Performance and Integrity Information System (FAPIS). All applicants must have a DUNS number, be registered in the SAM prior to submitting an application, and have an active SAM registration. Documentation delineated in the Funding Opportunity Announcement must be submitted at the time of submission of an application for funding. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Each application submitted under this program announcement will undergo a pre-review to determine if (1) the application was received by the closing date and submitted in accordance with the instructions in this announcement and (2) the applicant is eligible for funding. Agencies submit applications which are reviewed and evaluated in accordance with criteria specified in the Funding Opportunity Announcement. Notices of funds availability may be accessed at Grants.gov or at the ACF website at www.acf.hhs.gov/grants. Notice of Funding Opportunities (NOFO) for this listing will be posted on Grants.gov.

Award Procedure:

Applications that pass the initial Administration for Children and Families (ACF) screening will be evaluated and rated by an independent review panel on the basis of specific criteria that are included Funding Opportunity Announcement. The evaluation criteria are designed to assess the quality of a proposed project and to determine likelihood of its success. Further, the Trafficking Victims Protection Act of 2000, the National Security Presidential Directive on Combating Trafficking in Persons (NSPD-22), and the March 2012 Statement by the President on the Meeting of the Interagency Task Force to Monitor and Combat Trafficking in Persons call for strengthened and effective coordination of U.S. government anti-trafficking efforts. To improve U.S. government coordination, the Trafficking Victims Protection Reauthorization Act of 2003 established the Senior Policy Operating Group (SPOG) and requires each department or agency represented on the SPOG to share all information with [the SPOG] regarding the department or agency's plans, before and after final agency decisions are made, on all matters relating to grants, grant policies, and other significant actions regarding the international trafficking in persons. 22 U.S.C. 7103(g)(4). Regulations implementing the Trafficking Victims Protection Act call on the SPOG to establish appropriate mechanisms to effect such information sharing. 22 C.F.R. 104.2. This program is exempt from E.O. 12372, which requires advance notification to Congress of awards.

National Organizations,

FEDERAL AGENCY:

CENTERS FOR DISEASE CONTROL AND PREVENTION, HEALTH AND HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

This program is authorized under sections 317(k)(2) of the Public Health Service Act, [42 U.S.C. Section 247b(k)(2)], as amended

OBJECTIVES:

The purpose of this three-year cooperative agreement or Funding Opportunity Announcement (FOA) is to support national organizations and their chapters/affiliates (sub-recipients) coalitions in implementing Socio-Ecological Model informed multi-level approaches (i.e., individual, interpersonal, organizational, community, societal) to improve communities health. This project builds upon the Division of Community Health (DCH) history of working with national organizations to provide financial resources, guidance, training, tools, and other assistance to local organizations interested in creating communities where all people can achieve optimal health. This new FOA will allow awardees to implement multi-level strategies that address the greatest predictors of chronic disease (i.e. heart disease, stroke, diabetes, and obesity), namely tobacco use and exposure, poor nutrition, physical inactivity, and lack of access to prevention, risk reduction and chronic disease management opportunities. Additionally, awardees will work closely together to coordinate strategies and technical assistance to maximize their collective impact, increase national and local awareness of DCHs work, and ensure that identified communities

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

Applicants must adhere to all CDC guidelines regarding allowable and unallowable expenses.

Applicant Eligibility:

Public nonprofit institution/organization (includes institutions of higher education and hospitals); Private nonprofit institution/organization (includes institutions of higher education and hospitals); Other private institutions/organizations; 1. Eligible Applicants: This cooperative agreement is limited to national organizations (to include public and private nonprofit organizations) that serve communities across the nation. Category A and B organizations must demonstrate evidence of having members, affiliates and/or chapters within twenty-five (25) or more U.S. states and territories). Category A applicants must also demonstrate a minimum of five (5) years of experience and evidence with implementing community level improvements. For Category B, eligible organizations must demonstrate a minimum of five (5) years of experience in providing training and technical assistance that built communities capacity to implement local-level efforts. Category B applicants must also demonstrate experience in collaborating across multiple partners to deliver training and technical assistance. Category A and B applicants must also provide supporting evidence (e.g., media reports, news/magazine articles, op-eds, community newsletters) as evidence of possessing the following desired characteristics: Have historical credibility and influence in their targeted communities (i.e., has developed and participated in community coalitions, events, and other activities Possess the demonstrated ability to influence a national dialogue. (i.e., the organization has the ability to garner the attention and participation of other national organizations and audiences). Have a demonstrated variety of existing communication platforms (e.g., Websites, magazines, newsletters, etc.) Have the demonstrated ability to leverage additional resources and partnerships (e.g., used non-FOA relationships and resources to maximize the impact of organizational activities) Have the demonstrated ability to convene a national meeting In accordance with U.S. law, no Federal funds provided by CDC are permitted to be used by community grantees for lobbying or to influence, directly or indirectly, specific pieces of pending or proposed legislation at the federal, state, or local levels. The awardee should work with project officer to ensure activities adhere to federal guidelines, and federal dollars are not used to engage in unauthorized activities. Throughout all objectives and activities, the awardee should clarify that the work plan language clearly describes the role, nature, and

purpose of the funded activities. This includes providing clear language focusing on the message (e.g., addressing the health risks/effects, using evidence based strategies for increasing protections) when conducting public educational initiatives. In addition, language should be included for proper engagement of elected officials as documented in the federal guidelines. Additionally, awardees should consult appropriate legal counsel to ensure compliance with all rules, regulations, and restriction of any funding sources. Title 2 of the United States Code Section 1611 states that an organization described in Section 501(C)(4) of the Internal Revenue Code that engages in lobbying activities is no eligible to receive Federal funds constituting a grant, loan, or award. The awardee should refer to the AR-12 and CDC Guidance documents on Anti-Lobbying restrictions for more information on allowable and restricted activities. http://www.cdc.gov/od/pgo/funding/grants/additional_req.shtm#ar12 <http://www.cdc.gov/obesity/downloads/Anti-Lobbying-Restrictions-for-CDC-Grantees-July2012-508.pdf>

ASSISTANCE LISTINGS DESCRIPTIONS

Reports:

Reporting provides continuous program monitoring and identifies successes and challenges that awardees encounter throughout the project period. Also, reporting is a requirement for awardees who want to apply for yearly continuation of funding. Reporting helps CDC and awardees because it: Helps target support to awardees, particularly for cooperative agreements; Provides CDC with periodic data to monitor awardee progress towards meeting the FOA outcomes and overall performance; Allows CDC to track performance measures and evaluation findings to validate continuous program improvement throughout the project period and to determine applicability of evidence-based approaches to different populations, settings, and contexts; and Enables CDC to assess the overall effectiveness and influence of the FOA. As described in the following text, awardees must submit an annual performance report, ongoing performance measures data, administrative reports, and a final performance and financial report. A detailed explanation of any additional reporting requirements will be provided in the Notice of Award to successful applicants. a. Specific reporting requirements: i. Awardee Evaluation and Performance Measurement Plan: Awardees must provide a more detailed evaluation and performance measurement plan within the first six months of the project. This more detailed plan must be developed by awardees as part of first-year project activities, with support from CDC. This more detailed plan must build on the elements stated in the initial plan, and must be no more than 25 pages. At a minimum, and in addition to the elements of the initial plan, this plan must: Indicate the frequency that evaluation and performance data are to be collected. Describe how data will be reported. Describe how evaluation findings will be used to ensure continuous quality and program improvement. Describe how evaluation and performance measurement will yield findings that will demonstrate the value of the FOA (e.g., effect on improving public health outcomes, effectiveness of FOA as it pertains to performance measurement, cost-effectiveness, or cost-benefit). Describe dissemination channels and audiences (including public dissemination). Describe other information requested and as determined by the CDC program. When developing evaluation and performance measurement plans, applicants are encouraged to use the Introduction to Program Evaluation for Public Health Programs: A Self-Study Guide, available at: <http://www.cdc.gov/eval/guide/index.htm>. ii. Annual Performance Report: This report must not exceed 30 pages excluding administrative reporting; attachments are not allowed, but Web links are allowed. The awardee must submit the Annual Performance Report via www.grants.gov 120 days before the end of the budget period. In addition, the awardee must submit an annual Federal Financial Report within 90 days after the end of the calendar quarter in which the budget year ends. This report must include the following: Performance Measures (including outcomes) Awardees must report on performance measures for each budget period and update measures, if needed. Evaluation Results Awardees must report evaluation results for the work completed to date (including any data about the effects of the program). Work Plan Awardees must update work plan each budget period. Successes Awardees must report progress on completing activities outlined in the work plan. Awardees must describe any additional successes (e.g., identified through evaluation results or lessons learned) achieved in the past year. Awardees must describe success stories. Challenges Awardees must describe any challenges that might affect their ability to achieve annual and project-period outcomes, conduct performance measures, or complete the activities in the work plan. Awardees must describe any additional challenges (e.g., identified through evaluation results or lessons learned) encountered in the past year. CDC Program Support to Awardees Awardees must describe how CDC could help them overcome challenges to achieving annual and project-period outcomes and performance measures, and completing activities outlined in the work plan. Administrative Reporting (No page limit) SF-424A Budget Information-Non-Construction Programs. Budget Narrative must use the format outlined in Content and Form of Application Submission, Budget Narrative section. Indirect Cost-Rate Agreement. For Year 2 and beyond of the award, awardees may request that unobligated funds be carried over to the next budget year. The carryover request must: Express a bona fide need for permission to use an unobligated balance; Include a signed, dated, and accurate Federal Financial Report (FFR) for the budget period from which funds will be transferred (as much as 75% of unobligated balances); and Include a list of proposed activities, an itemized budget, and a narrative justification for those activities. j. The awardee must submit the Annual Performance Report via www.grants.gov 120 days before the end of the budget period. iii. Performance Measure Reporting: CDC programs must require

awardees to submit performance measures annually as a minimum, and may require reporting more frequently. Performance measure reporting must be limited to data collection. When funding is awarded initially, CDC programs must specify required reporting frequency, data fields, and format. iv. Federal Financial Reporting (FFR): The annual FFR form (SF-425) is required and must be submitted through eRA Commons within 90 days after each budget period ends. The report must include only those funds authorized and disbursed during the timeframe covered by the report. The final report must indicate the exact balance of unobligated funds, and may not reflect any unliquidated obligations. The final FFR expenditure data and the Payment Management Systems (PMS) cash transaction data must correspond; no discrepancies between the data sets are permitted. Failure to submit the required information by the due date may affect adversely the future funding of the project. If the information cannot be provided by the due date, awardees are required to submit a letter of explanation and include the date by which the information will be provided. v. Final Performance and Financial Report: At the end of the project period, awardees must submit a final report including a final financial and performance report. This report is due 90 days after the project period ends. (Maximum of 40 pages). At a minimum, this report must include: Performance Measures (including outcomes) Awardees must report final performance data for all performance measures for the project period. Evaluation Results Awardees must report final evaluation results for the project period. Impact/ Results Awardees must describe the effects or results of the work completed over the project period, including success stories. Additional forms as described in the Notice of Award, including Equipment Inventory Report and Final Invention Statement. In addition, grantees must include the following information in their Final Performance Report: Summary of successes, challenges, and lessons learned that can be shared with other central registries interested in establishing ECC methodology. Awardees must email the report to the CDC PO and the GMS listed in the Agency Contacts section of the FOA. Reporting provides continuous program monitoring and identifies successes and challenges that awardees encounter throughout the project period. Federal Financial Reports are required 90 days after the end of the fiscal year.here to enter text. In addition to previously described reporting requirements the awardee will monitor performance as follows -Performance Monitoring and Evaluation:CDC may revise the existing requirements through an addendum to this notice, which could include additional recipient requirements for evaluation and performance measurement. The Awardee Evaluation and Performance Measurement Plan will be comprised of three components:1.Tracking progress and completion of strategies. By using the CDC identified electronic performance monitoring and reporting system, Category A and B awardees will track overall progress on infrastructure and short-term outcome objectives, as well as, specific progress on activities on a quarterly basis. Category A awardees will also be required to track sub-recipients overall progress on infrastructure and short-term outcome objectives, as well as, specific progress on

activities on a quarterly basis. This collection of this data is known as performance monitoring data. CDC will provide training and guidance on the use of the performance monitoring and reporting system.a.Use ongoing performance monitoring data, along with any community health assessment data, for ongoing program improvement and midcourse corrections. b.Track overall progress on outcome objectives as well as specific progress on activities designed for vulnerable populations. Use performance monitoring data and other available sources to document the steps taken to implement multi-level improvements by describing successes, barriers, and challenges.2. Measurement of Short-term Outcome. Using detailed guidance from CDC (provided post-award), Category A awardees will assist sub-recipients in setting targets and then monitor their progress towards these targets on the number of people who have access to healthier environments as a result of the implementation of each awardee strategy. This is known as Awardee Reach for each strategy. These targets will be ultimately rolled up into the relevant Short-term Outcome. In addition, Category A sub-recipients will also be required to track sub-awardees Reach for each strategy and report this to CDC on a quarterly basis. a. For example, a sub-awardee might be implementing two strategies that are targeting different populations in different sectors. One strategy is increasing physical activity in elementary age children by implementing recommended standards of physical activity in all 80 elementary schools in the community, which would increase physical activity for 55,000 children enrolled in these schools. The awardee will track the successful implementation of recommended standards in each school so that they will know how many children have access to an improved physical activity environment. The second strategy is increasing physical activity in 350 early care/child care centers by implementing recommended standards of physical activity in these settings, which would increase physical activity for 2000 children enrolled in these programs. The awardee will track the successful implementation of recommended standards in each early care/child care centers, so that they will know how many children have access to an improved physical activity environment. The target short-term outcome would combine the target sub-recipients Reach for these two strategies, and progress would be tracked over time. Thus, the target Short-term Outcome would be 57,000 people with increased access to physical activity opportunities. b.Report sub-recipients Reach data for each strategy and update on a quarterly basis. In addition, Awardees should adhere to the following guidance: Sub-recipients of Category A are encouraged to use available data to measure intermediate-term outcomes, when possible. However, as mentioned above, due to lack of adequate, existing data in many communities, primary responsibility for measuring intermediate-term outcomes will rest in most cases with CDC. oCommunities with access to adequate data to measure intermediate-term outcomes might include: 1) counties with a large number of respondents to the Behavioral Risk Factor Surveillance System (BRFSS), 2) counties that conduct the Youth Risk Behavior Surveillance System (YRBSS), 3) school districts that routinely record the height and weight of students.Category A awardees and sub-recipients should share their successes and lessons learned through the creation and dissemination of two (or more) success stories per year (one submitted every 6 months with the Interim and Annual Progress Report).Category B awardees should prepare one (or more) unique dissemination documents created for stakeholders or the broader community based on the outcome evaluation of high impact strategies applied by Category A awardees and/or sub-recipients. Developed by the end of Year 3, this document may be briefing updates, reports, case studies, peer-reviewed manuscripts or use other formats.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503

Records:

There is a 3-year record retention requirement; records shall be retained beyond the 3-year period if final audit has not been done or findings resolved. Property records must be retained in accordance with PHS Grants Policy Statement requirements.

93.329 Skills Training and Health Workforce Development of Paraprofessionals Grant Program

Paraprofessionals Training Grant Program,

FEDERAL AGENCY:

HEALTH RESOURCES AND SERVICES ADMINISTRATION, HEALTH AND HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

Title VII, Section 739 of the Public Health Service Act (42 U.S.C. 293c), (Educational Assistance in the Health Professions Regarding Individuals from Disadvantaged Backgrounds)

OBJECTIVES:

The objectives of the Skills Training and Health Workforce Development of Paraprofessionals Grant Program are to: 1) assist individuals from economically and educationally disadvantaged backgrounds to develop the skills needed to compete for, enter, and graduate from a paraprofessional training program; 2) meet the employment needs of the community, particularly in rural and underserved areas; with a particular focus on primary care and teambased care; and 3) promote employment and a career ladder for those trained through career coaching and placement partnerships in the community

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

Funds shall be used to recruit, train and retain individuals from underrepresented, disadvantaged, or rural backgrounds into health-related para-professions to work in primary care and other health care services settings. Restricted Uses: Indirect costs

under training awards to organizations other than State, local or American Indian tribal governments will be budgeted and reimbursed at 8 percent of modified total direct costs rather than on the basis of a negotiated rate agreement, and are not subject to upward or downward adjustment.

Applicant Eligibility:

Public nonprofit institution/organization (includes institutions of higher education and hospitals); U.S. Territories and possessions; Specialized group (e.g. health professionals, students, veterans); Private nonprofit institution/organization (includes institutions of higher education and hospitals); Eligible applicants include accredited schools of medicine, allopathic medicine, osteopathic medicine, public health, dentistry, veterinary medicine, optometry, pharmacy, allied health, chiropractic, podiatric medicine, public and nonprofit private schools that offer graduate programs in behavioral and mental health, programs for the training of physician assistants, two-year community colleges, technical colleges, tribal colleges, and other public or private nonprofit health or educational entities. Each applicant must specifically state its eligibility information in the project abstract. Applicants that are not community colleges must partner with community colleges. Eligible entities must be located within the fifty (50) states, the District of Columbia, Commonwealth of Puerto Rico, Commonwealth of Northern Mariana Islands, the U.S. Virgin Islands, Guam, American Samoa, the Republic of Palau, Republic of the Marshall Islands, and the Federated States of Micronesia. Federally Recognized Indian Tribal Government and Native American Organizations may apply if they are otherwise eligible. Applicants are required to recruit educationally or economically disadvantaged students who express an interest in a) pursuing a health related paraprofessional certificate in an existing program, or b) individuals who are already practicing but want additional credentials to advance their employability. Eligible paraprofessional training programs are those that exist, can be successfully completed in 12 months or less, and assist in job placement.

Beneficiary Eligibility:

Specialized group (e.g. health professionals, students, veterans); Health Professional; Education Professional; Student/Trainee; Beneficiaries include individuals who a) meet the definition of either educationally or economically disadvantaged, b) express an interest in pursuing a health degree program c) have completed at a minimum a high school diploma or GED, or d) individuals who are already practicing in a health-related paraprofessional field and who want additional credentials to advance their employability.

ASSISTANCE LISTINGS DESCRIPTIONS

Statutory formula is not applicable to this assistance listing. Matching requirements are not applicable to this assistance listing. This program has MOE requirements, see funding agency for further details. Additional Information: The recipient must agree to maintain non-federal funding for grant activities at a level which is not less than expenditures for such activities during the fiscal year prior to receiving the award..

Length and Time Phasing of Assistance:

This funding opportunity provides support for a 3-year project period. Recipients draw down funds, as necessary, from the Payment Management System (PMS). PMS is the centralized web based payment system for HHS awards. Method of awarding/releasing assistance: quarterly

Reports:

Both program and financial reports are required. The recipient will be required to submit annual performance and progress reports. A Federal Financial Report (SF-425) is required according to the schedule in HRSA's Application Guide. A final report is due within 90 days after the project period ends. If applicable, the recipient must submit a Tangible Personal Property Report (SF-428) and any related forms within 90 days after the project period ends. New awards (Type 1) issued under this notice of funding opportunity are subject to the reporting requirements of the Federal Funding Accountability and Transparency Act (FFATA) of 2006 (Pub. L. 109282), as amended by section 6202 of Public Law 110252, and implemented by 2 CFR Part 170. Grant and cooperative agreement recipients must report information for each first-tier subaward of \$25,000 or more in federal funds and executive total compensation for the recipients and subrecipients five most highly compensated executives as outlined in Appendix A to 2 CFR Part 170 (The FFATA details are available online at <http://www.hrsa.gov/grants/ffata.html>). Competing continuation recipients may be subject to this requirement and will be so notified in the Notice of Award.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503

Records:

Recipients are required to maintain grant accounting records 3 years after the date they submit the FFR. If any litigation, claim, negotiation, audit or other action involving the award has been started before the expiration of the 3-year period, the records shall be retained until completion of the action and resolution of all issues which arise from it, or until the end of the regular 3-year period, whichever is later.

93.330 Leadership in Public Health Social Work Education Grant Program

Public Health Social Work Education Grant Program, LPHSWE,

FEDERAL AGENCY:

HEALTH RESOURCES AND SERVICES ADMINISTRATION, HEALTH AND HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

Section 765 of the Public Health Service Act (42 U.S.C. 295a)

OBJECTIVES:

The Leadership in Public Health Social Work Education (LPHSWE) Grant Program provides training and education, faculty development, and curriculum enhancement to prepare students for leadership roles in public health social work through enrollment in a dual masters degree program in social work and public health. The objectives of the LPHSWE are to: 1) Provide stipend support to masters level dual-degree students who are enrolled in both (a) an accredited school of social work and (b) an accredited school of public health, and are participating; 2) Recruit dual-degree masters-level public health social work students; 3) Support and place the students in required field placements/internships; 4) Develop curricula for public health social work programs to prepare students for roles in leadership and management in health care and social service organizations; and 5) Develop the skills and expertise of faculty for the curricula which includes leadership in health care, interprofessional training, social determinants of health, promising practices, and serving the underserved populations.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

Eligible entities are required to provide a budget, with narrative, that describe how the funds shall be used to provide training and education, faculty development, and curriculum enhancement to prepare students for leadership roles in public health social work through enrollment in a dual masters degree program in social work and public health. (PICH),

FEDERAL AGENCY:

CENTERS FOR DISEASE CONTROL AND PREVENTION, HEALTH AND HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

This program is authorized under sections 317(k)(2) of the Public Health Service Act, [42 U.S.C. Section 247b(k)(2)], as amended

OBJECTIVES:

The purpose of this funding is to support implementation of evidenced- and practice-based strategies that address previously-identified community gaps and needs within a defined jurisdiction in order to reduce the prevalence of chronic disease and related risk factors.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

Applicants must adhere to all CDC guidelines regarding allowable and unallowable expenses

Applicant Eligibility:

Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals; Sponsored organization; Public nonprofit institution/organization (includes institutions of higher education and hospitals); Other public institution/organization; Federally Recognized Indian Tribal Governments; Specialized group (e.g. health professionals, students, veterans); Private nonprofit institution/organization (includes institutions of higher education and hospitals); Quasi-public nonprofit institution/organization; Native American Organizations (includes Indian groups, cooperatives, corporations, partnerships, associations); Eligible applicants are considered responsive if providing: 1. Evidence of being a member of or working through a functioning multi-sector community coalition of organizations and agencies that are committed to improving the health of their community (of 2 or more years); 2. Documentation of how they have helped populations with high documented burdens of chronic diseases, conditions and risk factors (for example, a documented diabetes prevalence rate greater than 8.3% among the population); 3. Results of a community health needs assessment completed no earlier than May 1, 2011; 4. Description of how the organization has helped implement strategies to address chronic disease risk factors related to tobacco use or exposure; poor nutrition; physical inactivity; or limited access to opportunities for chronic disease prevention, risk reduction, or management through clinical and community linkages.

Beneficiary Eligibility:

Anyone/general public; Anyone/General Public

Credentials/Documentation:

Applicants should document the need for assistance, state the objectives of the project, outline the method of operation, describe the evaluation procedures, and provide a budget with justification of funds. Preapplication Coordination:

Pre-application coordination is not applicable.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program.

Award Procedure:

Successful applicants will receive a Notice of Award (NoA) from the CDC Procurement and Grants Office. The NoA shall be the only binding, authorizing document between the recipient and CDC. The NoA will be signed by an authorized Grants Management Officer and e-mailed to the program director. A hard copy of the NoA will be mailed to the recipient fiscal officer identified in the application. Any application awarded in response to this FOA will be subject to the DUNS, CCR Registration and Transparency Act requirements. Unsuccessful applicants will receive notification of the results of the application review by mail.

Deadlines:

Contact the headquarters or regional location, as appropriate for application deadlines.

Range of Approval/Disapproval Time:

From 60 to 90 days.

Appeals:

Not Applicable.

Renewals:

From 120 to 180 days. Project period is 3 years with 12-month budget periods.

Applications must be obtained from www.Grants.Gov.

Formula and Matching Requirements:

Statutory formula is not applicable to this assistance listing. Matching Requirements: Percent: 0%. Requirement: Matching requirements are voluntary. Cost sharing funds are required for this project to motivate sustainability measures. Cost sharing funds are required from non-Federal sources in an amount not less than 15 percent of Federal funds awarded to Large City and Urban County and to Small City and County Coalition Awardees in Year 1, increasing by 5 percentage points every year, and ending at 25 percent by Year 3. Tribal organizations will not be required to meet cost sharing requirements. MOE requirements are not applicable to this assistance listing.

Reports:

Annual Performance Report: This report must not exceed 30 pages excluding administrative reporting; attachments are not allowed, but Web links are allowed. The awardee must submit the Annual Performance Report via www.grants.gov 120 days before the end of the budget period. In addition, the awardee must submit an annual Federal Financial Report within 90 days after the end of the calendar quarter in which the budget year ends. Final Performance and Financial Report: At the end of the project period, awardees must submit a final report including a final financial and performance report. This report is due 90 days after the project period ends. (Maximum of 40 pages). Annual Performance Report: This report must not exceed 30 pages excluding administrative reporting; attachments are not allowed, but Web links are allowed. The awardee must submit the Annual Performance Report via www.grants.gov 120 days before the end of the budget period. In addition, the awardee must submit an annual Federal Financial Report within 90 days after the end of the calendar quarter in which the budget year ends. Final Performance and Financial Report: At the end of the project period, awardees must submit a final report including a final financial and performance report. This report is due 90 days after the project period ends. (Maximum of 40 pages). Federal Financial Reports are required 90 days after the end of the fiscal year CDC may revise the existing requirements through an addendum to this notice, which could include additional recipient requirements for evaluation and performance measurement. The Awardee Evaluation and Performance Measurement Plan will be comprised of three components: Tracking progress and completion of strategies. By using the CDC identified electronic performance monitoring and reporting system, each awardee will track overall progress on infrastructure and short-term outcome objectives, as well as, specific progress on activities on a quarterly basis. This collection of data is known as performance monitoring data. CDC will provide training and guidance on the use of the performance monitoring and reporting system. o Use ongoing performance monitoring data, along with any community health assessment data, for ongoing program improvement and midcourse corrections. o Track overall progress on outcome objectives as well as specific progress on activities designed for priority populations. Use performance monitoring data and other available sources to document the steps taken to implement PSE improvements by describing successes, barriers, and challenges. Measurement of Short-term Outcomes. Using

ASSISTANCE LISTINGS DESCRIPTIONS

detailed guidance from CDC (provided post-award), awardees will set targets and then monitor progress towards these targets on the number of people who have access to healthier environments as a result of the implementation of each awardee strategies describe in the CAP objectives. This is known as Awardee Reach for each intervention. These targets will be ultimately rolled up into the relevant short-term outcomes. For example, an awardee might be implementing two strategies that are targeting different populations in different sectors. One strategy is increasing physical activity in elementary age children by implementing recommended standards of physical activity in all 80 elementary schools in the community, which would increase physical activity for 55,000 children enrolled in these schools. The awardee will track the successful implementation of recommended standards in each school so that they will know how many children have access to an improved physical activity environment. The second strategy is increasing physical activity in 350 early care/child care centers by implementing recommended standards of physical activity in these settings, which would increase physical activity for 2,000 children enrolled in these programs. The awardee will track the successful implementation of recommended standards in each early care/child care centers, so that they will know how many children have access to an improved physical activity environment. The target short-term outcome would combine the target Awardee Reach for these two strategies, and progress would be tracked over time. Thus, the target short-term outcome would be 57,000 people with increased access to physical activity opportunities. Report Awardee Reach data for each strategy and update on a quarterly basis. Assessment of actual use of a healthier environment. With guidance from CDC, awardees will assess the actual use of at least one healthier environment they created by implementing an intervention. This is required for all awardees regardless of funding level and must be completed before the end of the 3-year project period. This assessment is complimentary to the estimated Awardee Reach for the selected healthier environment. For example, an awardee plans to implement strategies to increase access to healthier foods in corner stores. They decide, in collaboration with CDC Evaluation Technical Assistance, to assess whether healthier foods are purchased at these stores after the intervention is in place. Therefore, they develop an assessment plan. Using the same assessment method, they measure the purchases of healthier foods in a selected number of stores before the intervention, and after the intervention was completed. CDC Evaluation Technical Assistance will work closely with the awardee to design a simple, low cost assessment. Whenever possible, the assessment will use methods and survey questions successfully used in other community health improvement programs. Report the results of this assessment to CDC. Outcome evaluation for an innovative strategy (if applicable). In order to expand the evidence base for effective community strategies, innovative intervention(s) may be implemented, and include outcome evaluation to determine intervention effectiveness. No more than 15% of the annual award can be used for innovative strategies. The evaluation methodology should be designed with sufficient rigor to measure impact on chronic disease risk factors or other relevant outcomes. This methodology should be described in the Outcome Evaluation Plan Template (Appendix B). CDC evaluation technical assistance liaisons will provide assistance with the finalization of the Outcome Evaluation Plan and the selection of common measures and metrics. Within 30 days after finalizing the CAP with the Project Officer, submit to CDC an outcome evaluation plan for any innovative strategies that meets the criteria described above and is directly tied to appropriate components of the CAP (refer to Evaluation Guide on Developing an Evaluation Plan available at: http://www.cdc.gov/dhdsp/state_program/evaluation_guides/pdfs/evaluation_plan.pdf). The plan must include a logic model that illustrates the relationship between program activities and expected outcomes and reflects initiative priorities. The plan activities must be described on a timeline as they relate to proposed objectives in the CAP. The plan must include a methodological overview and a description of how the planned evaluation activities will: Target high impact goals; Assess impact on health disparities, and; Ensure broad sharing of evaluation findings to the public, partners, and community leaders as appropriate. (See Communication and Dissemination with the Public, Partners, and Stakeholders, page 11). The plan may focus on particular geographic or physical settings, age groups, or priority populations experiencing a disproportionate burden of chronic disease and conditions. The plan must identify area- and program-specific data sources to assess strategies outcomes, including as appropriate changes in proper nutrition, physical activity, exposure to second hand smoke, and risk reduction or chronic disease management through clinical and community linkages. In addition, Awardees should adhere to the following guidance: Awardees

are encouraged to use available data to measure intermediate-term outcomes, when possible. However, as mentioned above, due to lack of adequate, existing data in many communities, primary responsibility for measuring intermediate-term outcomes will rest in most cases with CDC. Communities with access to adequate data to measure intermediate-term outcomes might include: 1) counties with a large number of respondents to the Behavioral Risk Factor Surveillance System (BRFSS), 2) counties that conduct the Youth Risk Behavior Surveillance System (YRBSS), 3) school districts that routinely record the height and weight of students. The awardee should share their successes and lessons learned through the creation and dissemination of two (or more) success stories per year (one submitted every 6 months with the Interim and Annual Progress Report). As stated previously, CDC recommends using its online success story application (<http://www.cdc.gov/nccdphp/dch/success-stories/>) to meet this requirement. Use the outcome evaluation to develop a project summary for community leaders by the end of Year 3. Awardee will work with CDC to identify the best format for a given effort.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. 93.332 Cooperative Agreement to Support Navigators in Federally-facilitated Exchanges

Navigator Grants,

FEDERAL AGENCY:

CENTERS FOR MEDICARE AND MEDICAID SERVICES, HEALTH AND HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

Patient Protection and Affordable Care Act 1311(d)(4)(K), 1311(i), and 1321(c)(1); 45 C.F.R. 155.210 and 155.215.

OBJECTIVES:

Section 1311(i) of the Affordable Care Act authorizes Navigators in States with a Federally-facilitated Marketplace (FFM). The FFM is required to develop and implement a Navigator grant program. Navigators will serve consumers in States with a FFM, including State Partnership Marketplaces. As health reform implementation continues, consumers will benefit from understanding new programs, taking advantage of new protections, and navigating the system to find the most affordable coverage that meets their needs. Marketplace Navigators are intended to assist consumers in those areas in the following ways: Maintain expertise in eligibility, enrollment, and program specifications and conduct public education activities to raise awareness about the Marketplace; Provide information and services in a fair, accurate, and impartial manner, which includes providing information that assists consumers with submitting the eligibility application; clarifying the distinctions among health coverage options, including QHPs; and helping consumers make informed decisions during the health coverage selection process. Such information must acknowledge other health programs such as Medicaid and CHIP; Facilitate selection of a QHP; Provide referrals to any applicable office of health insurance consumer assistance or health insurance ombudsman established under Section 2793 of the PHS Act, or any other appropriate State agency or agencies, for any enrollee with a grievance, complaint, or question regarding their health plan, coverage, or a determination under such plan or coverage; Consistent with the requirements set forth in 45 C.F.R. 155.215, provide information in a manner that is culturally and linguistically appropriate to the needs of the population being served by the Marketplace, including individuals with limited English proficiency, and ensure accessibility and usability of Navigator tools and functions for individuals with disabilities in accordance with the Americans with Disabilities Act and Section 504 of the Rehabilitation Act; and Complying fully with the conflict-of-interest and training standards set forth in 45 C.F.R. 155.215.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

Use of these funds should be to build a program that supports the following required duties: Maintain expertise in eligibility, enrollment, and program specifications and conduct public education activities to raise awareness about the Marketplace; Provide information and services in a fair, accurate, and impartial manner, which includes providing information that assists consumers with submitting the eligibility application; clarifying the distinctions among health coverage options, including QHPs; and helping consumers make informed decisions during the health coverage selection process. Such information must acknowledge other health programs such as Medicaid and CHIP; Facilitate selection of a QHP; Provide referrals to any applicable office of health insurance consumer assistance or health insurance ombudsman established under Section 2793 of the PHS Act, or any other appropriate State agency or agencies, for any enrollee with a grievance, complaint, or question regarding their health plan, coverage, or a determination under such plan or coverage; Consistent with the requirements set forth in 45 C.F.R. 155.215, provide information in a manner that is culturally and linguistically appropriate to the needs of the population being served by the Marketplace, including individuals with limited English proficiency, and ensure accessibility and usability of Navigator tools and functions for individuals with disabilities in accordance with the Americans with Disabilities Act and Section 504 of the Rehabilitation Act; and Complying fully with the conflict-of-interest and training standards set forth in 45 C.F.R. 155.215. Funds are restricted from being used: To cover the costs to provide direct health care services

to individuals. To match any other Federal funds. To provide services, equipment, or support that are the legal responsibility of another party under Federal or State law (such as vocational rehabilitation or education services) or under any civil rights laws. Such legal responsibilities include, but are not limited to, modifications of a workplace or other reasonable accommodations that are a specific obligation of the employer or other party. To supplant funds provided under Funding Opportunity Announcement number CA-NAV-13-001, entitled PPHF 2013 Cooperative Agreement to Support Navigators in Federally-facilitated and State Partnership Exchanges, under Funding Opportunity Announcement number CA-NAV-14-002, entitled Cooperative Agreement to Support Navigators in Federally-facilitated and State Partnership Marketplaces, or under Funding Opportunity Announcement (FOA) numbers CA-NAV-15-001 and CA-NAV-16-001, entitled Cooperative Agreement to Support Navigators in Federally-facilitated and State Partnership Marketplaces. To cover any pre-award costs. To provide goods or services not allocable to the approved project. To be used by local entities to satisfy state matching requirements To pay for construction. To carry out services that are the responsibility of the Marketplace, such as eligibility determinations and transferring enrollment information for consumers to a QHP. To pay for capital expenditures for improvements to land, buildings, or equipment which materially increase their value or useful life as a direct cost, except with the prior written approval of the Federal awarding agency. To pay for the cost of independent research and development, including their proportionate share of indirect costs (unallowable in accordance with 45 CFR 75.476). To use as profit to any award recipient even if the award recipient is a commercial organization, (unallowable in accordance with 45 CFR 75.216(b)), except for grants awarded under the Small Business Innovative Research (SBIR) and Small Business Technology Transfer Research (STTR) programs (15 U.S.C. 638). Profit is any amount in excess of allowable direct and indirect costs. To carry out any functions already funded by HHS, including through federal Marketplace Establishment grants under section 1311(a) of the Affordable Care Act or through federal Consumer Assistance Program grants under section 2793 of the Public Health Service Act, including to make payments to recipients of funds provided to states under those authorities for activities that are funded under those authorities. To assist consumers residing in a state with a State-based Marketplace that the Navigator is not funded to serve. (See Section VIII. 2, State Reference List) or in a state the Navigator does not serve. FFM/State Partnership Marketplace Navigators may provide these consumers with basic information about Marketplace, but should refer them to Navigators, the Marketplace Call Center, and other resources within the state where the consumer resides for more in-depth assistance. To expend funds related to any activity designed to influence the enactment of legislation, appropriations, regulation, administrative action, or Executive order proposed or pending before the Congress or any state government, state legislature or local legislature or legislative body. To fund staff retreats or promotional giveaways. To purchase gifts or gift cards, or promotional items that market or promote the products or services of a third party, that would be provided to any applicant or enrollee. To provide any assistance to consumers or to provide consumer education and outreach, prior to November 1, 2016. To provide certain types of assistance between November 1, 2016 and December 31, 2016 that are the responsibility of SBM assisters operating in Hawaii for the remainder of calendar year 2016. These assistance activities include, but are not limited to, assisting individual market consumers enrolled in coverage for plan years 2015 and/or 2016 through the SBM with questions about IRS Form 1095-A and providing outreach to these consumers about the Exchange-related components of the premium tax credit reconciliation process; assisting individual market consumers enrolled in plan year 2016 coverage through the SBM with data matching issues and helping them with submitting documentation to HealthCare.gov and assisting them with the appeals process; assisting individual market consumers enrolled in plan year 2016 coverage through the SBM with questions about changes in circumstances; assisting individual market consumers enrolled in plan year 2016 coverage through the SBM with enrolling in coverage during a special enrollment period for coverage that would take effect before January 1, 2017; and assisting individual market consumers enrolled in plan year 2016 coverage through the SBM with questions about QHP premiums or QHP coverage. To assist consumers in Hawaii's State-based SHOP or in any replacement for Hawaii's State-based SHOP that might in the future be approved by HHS and administered by Hawaii pursuant to a waiver under Affordable Care Act section 1332.

ASSISTANCE LISTINGS DESCRIPTIONS

Intrastate; Sponsored organization; Federally Recognized Indian Tribal Governments; Individual/Family; Minority group; Specialized group (e.g. health professionals, students, veterans); Small business (less than 500 employees); Profit organization; Private nonprofit institution/organization (includes institutions of higher education and hospitals); Quasi-public nonprofit institution/organization; Native American Organizations (includes Indian groups, cooperatives, corporations, partnerships, associations); Funding through the cooperative agreement is open to individuals and private and public entities including community and consumer-focused nonprofit groups; trade, industry and professional associations; commercial fishing industry organizations; ranching and farming organizations; chambers of commerce; unions; resource partners of the Small Business Administration; licensed insurance agents and brokers; and other public or private entities. Other entities may include but are not limited to Indian Tribes, tribal organizations, urban Indian organizations, and State or local human services.

Beneficiary Eligibility:

Individual/Family; Minority group; Specialized group (e.g. health professionals, students, veterans); Small business; Anyone/general public; Small Business Person; Black; American Indian; Spanish Origin; Other Non-White; Migrant; U.S. Citizen; Women; Disabled (e.g. Deaf, Blind, Physically Disabled); Physically Afflicted (e.g. TB, Arthritis, Heart Disease); Mentally Disabled; Unemployed; Low Income; Major Metropolis (over 250,000); Other Urban; Suburban; Rural; The PPACA, HHS Notice of Benefit and Payment Parameters for 2019 Final Rule, effective 6/18/2018, changed the following: 1) The elimination of the previous regulatory requirements that each Exchange must have at least two Navigator entities and that one of these entities must be a community and consumer-focused non-profit (CCFN); and 2) The elimination of the requirement to maintain a physical presence in the Exchange service area Navigators were proposing to serve. This Funding Opportunity will be for a 12-month period of performance.

Credentials/Documentation:

Consistent with 45 C.F.R. 155.215(a)(1)(i), all applicants (individuals, entities and all members making up a consortium) should submit a brief statement (one or two short paragraphs) within the Project Narrative attesting that they are not ineligible entities, including an attestation that no staff members have any of the prohibited relationships with health insurance or stop loss insurance issuers that are outlined above. As is explained in 45 C.F.R. 155.215 and the preamble language discussing that provision, some conflicts of interest would not be absolute bars to service as a Navigator, provided that the conflict of interest would not ultimately prevent the entity or individual from providing information and services in a fair, accurate, and impartial manner. In addition, in accordance with 45 C.F.R. 155.215(a)(1)(ii), successful applicants will be required to provide a written plan to remain free of conflicts of interest and to disclose to CMS, as operator of the FFM or State Partnership Marketplace, certain non-disqualifying conflicts of interest as specified in 45 C.F.R. 155.215(a)(1)(iv). 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. 1. All applicants must submit a required Letter of Intent by the due date noted in the FOA. 2. All applicants under this announcement must have an Employer Identification Number/Taxpayer Identification Number (EIN/TIN) to apply. Individuals may choose to provide their personal Social Security Numbers (SSNs) to apply via Grants.gov. Please note, the time needed to complete the EIN/TIN registration process is substantial, and applicants should therefore begin the process of obtaining an EIN/TIN immediately upon posting of this FOA to ensure this information is received in advance of application deadlines. 3. All applicants must have a Dun and Bradstreet (D&B) Data Universal Numbering System (DUNS) number in order to apply. The DUNS number is a nine-digit identification number that uniquely identifies business entities. Please note that individuals will have to provide an EIN or other TIN to receive a DUNS number. This number should mirror the one used to submit an application in Grants.gov. To obtain a DUNS number, access the following website: www.dunandbradstreet.com or call 1-866-

705-5711.4. The applicant must also register in the System for Award Management (SAM) database in order to be able to submit the application. Applicants are encouraged to register early, and must have their DUNS and EIN/TIN numbers in order to do so. Information about SAM is available at <https://www.sam.gov/portal/public/SAM/>. The SAM registration process is a separate process from submitting an application. You should allow a minimum of five business days to complete SAM registration; however, in some cases, the registration process can take approximately two weeks or longer to be completed. Therefore, applicants should begin the SAM registration process as soon as possible after the announcement is posted to ensure that it does not impair your ability to meet required submission deadlines. 5. Authorized Organizational Representative: The Authorized Organizational Representative (AOR) who will officially submit an application on behalf of the organization must register with Grants.gov for a username and password. AORs must complete a profile with Grants.gov using their organizations DUNS Number to obtain their username and password at http://grants.gov/applicants/get_registered.jsp. AORs must wait one business day after successful registration in SAM before entering their profiles in Grants.gov. Applicants should complete this process as soon as possible after successful registration in SAM to ensure this step is completed in time to apply before application deadlines. 6. When an AOR registers with Grants.gov to submit applications on behalf of an organization, that organizations E-Biz POC will receive an email notification. The email address provided in the profile will be the email used to send the notification from Grants.gov to the E-Biz POC with the AOR copied on the correspondence. 7. The E-Biz POC must then login to Grants.gov (using the organizations DUNS number for the username and the special password called M-PIN) and approve the AOR, thereby providing permission to submit applications. 8. Any files uploaded or attached to the Grants.gov application must be PDF file format and must contain a valid file format extension in the filename. Even though Grants.gov allows applicants to attach any file formats as part of their application, CMS restricts this practice and only accepts PDF file formats. Any file submitted as part of the Grants.gov application that is not in a PDF file format, or contains password protection, will not be accepted for processing and will be excluded from the application during the review process. In addition, the use of compressed file formats such as ZIP, RAR, or Adobe Portfolio will not be accepted. The application must be submitted in a file format that can easily be copied and read by reviewers. It is recommended that scanned copies not be submitted through Grants.gov unless the applicant confirms the clarity of the documents. Pages cannot be reduced in size, resulting in multiple pages on a single sheet, to avoid exceeding the page limitation. All documents that do not conform to the above specifications will be excluded from the application materials during the review process. 9. After you electronically submit your application, you will receive an acknowledgement from <http://www.grants.gov> that contains a Grants.gov tracking number. HHS will retrieve your application package from Grants.gov. Please note, applicants may incur a time delay before they receive acknowledgement that the application has been accepted by the Grants.gov system. Applicants should not wait until the application deadline to apply because notification by Grants.gov that the application is incomplete may not be received until close to or after the application deadline, eliminating the opportunity to correct errors and resubmit the application. Applications submitted after the deadline, as a result of errors on the part of the applicant, will not be accepted. 10. After HHS retrieves your application package from Grants.gov, a return receipt will be emailed to the applicant contact. This will be in addition to the validation number provided by Grants.gov. 11. All grant applications must be submitted electronically and be received through <http://www.grants.gov> by 1:00 pm Eastern Daylight Time on the applicable due date. 12. All applications will receive an automatic time stamp upon submission and applicants will receive an email reply acknowledging the applications receipt.

Award Procedure:

Applications will be screened to determine eligibility for further review using the criteria detailed in Section III, Eligibility Information, of this solicitation. An evaluation rubric will be developed by HHS, which will consist of critical elements identified in Section V, Application Review Information, of this solicitation. This evaluation rubric will be used by qualified, unbiased experts in their review of all applications. Applicants will receive a score of up to 200 points. The objective review panel may include federal reviewers and/or non-federal reviewers. The results of the objective review of applications by qualified experts will be used in conjunction with the other factors noted in the FOA (See Section II. 7, Factors

ASSISTANCE LISTINGS DESCRIPTIONS

Affecting Application Selection) to determine the technical merit of the applications and advise the approving HHS official. Final award decisions will be made by a HHS program official. In making these decisions, the HHS program official will take into consideration: the regulatory requirement that there be at least two types of Navigators in each Marketplace and that one of these Navigators be a community and consumer-focused nonprofit; populations the applicant expects to serve; ranking of the applicant based upon recommendations of the review panel; reviews for programmatic and grants management compliance, to include performance under a current Navigator award; pre-award business review; the reasonableness of the estimated cost to the government and anticipated results; and the likelihood the proposed cost will result in the benefits expected. Successful applicants will receive one cooperative agreement award. Unsuccessful applicants will be advised by letter or electronic mail (sent to the individual signing the application on behalf of the organization) that its application will not be held for further consideration or be funded. The decision not to award a grant, or to award a grant at a particular funding level, is discretionary and is not subject to appeal to any OPDIV or HHS official or board.

Reports:

Awardees must agree to cooperate with any Federal evaluation of the program and must provide required weekly, monthly, quarterly, and final (at the end of the cooperative agreement period) reports in a form prescribed by CMS, as well as any additional reports as required. Reports will be submitted electronically. These reports will outline how cooperative agreement funds were used, describe program progress, describe any barriers encountered including how any potential conflicts of interest were mitigated and process for handling non-compliant staff or volunteers, describe how the program ensured access to culturally and linguistically appropriate services, and detail measurable outcomes to include how many staff and volunteers completed required training and became certified as Navigators and how many consumers were served. CMS will provide the format for program reporting and the technical assistance necessary to complete program reporting requirements. At each stage, CCIO staff will evaluate reports and provide feedback to recipients. The awardee will not include Personally Identifiable Information (PII) in any weekly, monthly, quarterly, or final reports to HHS. In addition, the applicant must ensure compliance with the standards adopted by the FFM/State Partnership Marketplace pursuant to 45 C.F.R. 155.260 when providing Navigator services to consumers involving the use of PII. The data privacy and security standards for current Navigator awardees under opportunity CA-NAV-15-001 that also apply to opportunity CA-NAV-16-001 can be found here: <https://www.cms.gov/CCIOP/Programs-and-Initiatives/Health-Insurance-Marketplaces/Downloads/2015-Privacy-and-Security-Related-Terms-and-Conditions-FINAL-6-16-16-508.pdf>. Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. The audit requirements in OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations, will continue to apply where the current Recipient fiscal year began before December 26, 2014 [available at http://www.whitehouse.gov/sites/default/files/omb/assets/a133/a133_revised_2007.pdf]. Non-federal entities that expend \$500,000 or more in a year in Federal awards shall have a single or program specific audit conducted for that year in accordance with OMB Circular A-133. As explained under 75.501(h), For-profit subrecipient, since this part does not apply to for-profit subrecipients, the pass-through entity is responsible for establishing requirements, as necessary, to ensure compliance by for-profit subrecipients. The agreement with the for-profit subrecipient must describe applicable compliance requirements and the for-profit subrecipient's compliance responsibility. Methods to ensure compliance for Federal awards made to for-profit subrecipients may include preaward audits, monitoring during the agreement, and post-award audits. See also 75.352 Requirements for pass-through entities. Commercial Organizations (including for-profit hospitals) have two options regarding audits, as outlined in 45 CFR 75.501 (see also 45 CFR 75.216)

Records:

Recipient must maintain expenditures and other financial records detailing the use of cooperative agreement funds for three years from the day on which the grantee submits the last financial status report for the grant period unless there is an open investigation in which case the records must be maintained during the duration of the investigation. Recipient should submit these reports to CMS on a quarterly basis along with their quarterly progress reports.

AUTHORIZATION:

Public Health Service Act, Sections 317(k) (2) 42 U.S.C. 242 and 247b (k) (2)

OBJECTIVES:

The purpose of the FOA is to implement public health actions through engagement of national partners and public health networks at national, state and local levels to apply public health strategies to promote cognitive health; address cognitive impairment, including Alzheimers disease; and support the needs of care partners (paid and unpaid persons providing care or assistance to someone with Alzheimers disease or related dementia). This will be accomplished through the provision of technical assistance and support in the following areas: 1) Using data and information to develop, examine, and deploy effective strategies, identify and address gaps in implementation, create and assess technical assistance tools, and monitor progress in achieving program goals; 2) Engaging in environmental approaches that promote inclusion of cognitive health, cognitive impairment and caregiving into community and workplace policies and plans; 3) Supporting health system strategies to improve early detection of cognitive impairment, including Alzheimers disease, and increasing awareness among health care providers about care partner health and role in care management; and 4) Facilitating the translation and dissemination of information and resources through public health networks.

of the project period. ANA reviews grantee semiannual and annual reports to determine whether the grantee is meeting its project goal and objectives and completing activities identified in the Objective Work Plan (OWP) as well as to evaluate project effectiveness. If progress concerns are identified, ANA may require quarterly reports. In addition, ANA is required to describe and measure the impact of funded projects, their effectiveness in achieving stated goals, their impact on related programs, and when feasible, to obtain the views of persons participating in and served by funded projects. ANA carries out this requirement through review of grantee submitted reports and through the use of structured on-site interviews using a data collection tool (OMB No. 0970-0379, expiration date 07/31/2019).

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503 Audit requirements at 45 CFR 75 Subpart F apply.

Address the Impact of CMS Programs on American Indian/Alaska Native (AI/AN) Beneficiaries and the Health Care System Serving these Beneficiaries

FEDERAL AGENCY:

CENTERS FOR MEDICARE AND MEDICAID SERVICES, HEALTH AND HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

The Social Security Act, Section 1110, codified at 42 U.S.C., Section 1310. This authority permits the obligation of funding for CMS to enter into grants and cooperative arrangements with organizations and certain other entities in order to aid in improving the administration and effectiveness of programs carried out by the agency. For purposes of this award, CMS is accepting an application from the National Indian Health Board (NIHB) under a single-source cooperative agreement. Approval to award this cooperative agreement to NIHB under a single-source award was granted by the Chief Grants Management Officer, dated April 6, 2017.

OBJECTIVES:

To further CMS mission and goals related to providing high quality health care to the American Indian/Alaska Native (AI/AN) community by providing research and analysis to increase the understanding of, access to, and impact of CMS programs in Indian Country. Congress authorized AI/ANs to have access to Medicare and Medicaid services when provided through Indian Health Service (IHS) facilities located in tribal communities and amended titles XVIII and XIX of the Social Security Act to permit IHS facilities to bill Medicare and Medicaid for services provided to eligible AI/ANs. This authority was later extended to tribal facilities. Congress has also provided authority for Indian health care programs and beneficiaries to participate in the Childrens Health Insurance program and the Health Insurance Marketplace. These changes have created a direct relationship between CMS and the Indian Health Service. The research conducted under this cooperative agreement is needed to help improve administration of CMS programs given that CMS and IHS programs operate under different and sometimes competing authorities for CMS programs, the Social Security Act and for IHS programs, the Indian Health Care Improvement Act and the Indian Self Determination Education and Assistance Act, P.L. 93-638. To make CMS programs work with Indian health program authorities, a crucial first step is for CMS to understand the impact of its policies on Indian health care providers and tribal members so that the agency can provide the AI/AN community greater access to CMS programs in an effective and efficient manner. The authority at Section 1110 of the Social Security Act permits CMS to enter into grants and cooperative arrangements with organizations and certain other entities in order to aid in improving administration and effectiveness of programs administered by the agency. To this end, the work conducted under this cooperative agreement will address the potential and actual impacts of CMS programs on AI/ANs and the health care system serving these beneficiaries. CMS understanding of the impact of its policies is vital to improving greater AI/AN access to and participation in CMS programs; improving and ensuring that appropriate health care payments and resources are provided to IHS tribal, and urban Indian Health program providers; and contributing to overall improved health outcomes for Indian people. The information and activities produced or provided under the cooperative agreement will be used to develop culturally appropriate activities and strategies to improve how CMS program operate and are administered in Indian country.

TYPES OF ASSISTANCE:

Cooperative Agreements, Cooperative Agreements (Discretionary Grants)

USES AND USE RESTRICTIONS:

In recent years a number of statutory changes have been made to CMS programs and regulations have been developing to implement those changes. The assistance provided under this cooperative agreement will be used to: a) assess the ongoing impact of CMS programs through an analysis of CMS regulations and CMS initiatives that have a potential impact or effect on IHS, Tribal and Urban Indian providers and AI/AN beneficiaries and use this information to monitor AI/AN participation in the CMS regulatory process to assess whether such participation contributes to the understanding of how CMS-related provisions in the Patient Protection and Affordable Care Act (ACA) impact the financing and delivery of

93.341 Analyses, Research and Studies to

ASSISTANCE LISTINGS DESCRIPTIONS

health care in the Indian health care system;b) refine the inventory of AI/AN demographic, enrollment, and utilization data in order to develop strategies that make CMS data systems capable of reporting AI/AN enrollments, service utilization, health status and payment data from the Medicare, Medicaid and CHIP programs to facilitate program planning and evaluation, performance measurement, health status monitoring, and target enrollment efforts, identify gaps in data collection, propose and analyze approaches necessary to change and augment data collection systems and other information needed to support all reporting requirements under ACA, CHIPRA and ARRA, and propose reporting mechanisms and protocols for such reporting;c) update and revise the CMS Tribal Technical Advisory Groups 2013-2018 Strategic Plan (which is used to guide the administration of CMS programs in Indian country) to incorporate legislative and regulatory changes resulting from the ACA; and d) Provide research support on the use and effectiveness of the CMS tribal consultation policy so that the agency can be assured to get appropriate tribal input when developing policies that will have a substantial direct effect on tribes. (e) Evaluate the effectiveness of outreach and enrollment efforts to AI/AN beneficiaries in CMS programs by conducting training on the basics of CMS programs to enrollment assisters and Indian health provider third party resource staff, learning and sharing best practices to increase AI/AN enrollment, and developing AI/AN culturally appropriate outreach materials based on feedback from training and outreach efforts. Provide quarterly reports summarizing outreach trainings and enrollment events, compilation of best practices utilized and lessons learned, and analysis of and recommendations to improve outreach efforts in Indian Country. Indirect Costs - If grantee requests indirect costs, an approved Indirect Cost Rate Agreement will be required to support those costs. The provisions of OMB Circular A-87 govern reimbursement of indirect costs under this funding opportunity announcement. OMB Circulars are available on line at: <http://www.whitehouse.gov/omb/circulars> Direct Services - funds may not be used to provide individuals with services that are already funded through Medicare, Medicaid and/or CHIP. These services do not include expenses budgeted for provider and/or consumer task force member participation in conferences, provision of technical assistance, or attendance at technical assistance conferences sponsored by CMS or its national technical assistance providers for the benefit of awardees. The applicants budget may not exceed a maximum funding level or project period of five years. Reimbursement of Pre-Award Costs No funds awarded under this funding opportunity announcement may be used to reimburse pre-award costs. Other Prohibited Uses of Funds To match any other Federal funds. To provide services, equipment, or supports that are the legal responsibility of another party under Federal or State law (e.g., vocational rehabilitation or education services) or under any civil rights laws. Such legal responsibilities include, but are not limited to, modifications of a workplace or other reasonable accommodations that are a specific obligation of the employer or other party. To supplant existing state, local, or private funding of infrastructure or services, such as staff salaries, etc. To be used by local entities to satisfy state matching requirements. To pay for the use of specific components, devices, equipment, or personnel that are not integrated into the application. To pay for construction or alteration and renovation of real property (A&R). To pay for information technology (IT) equipment exceeding 10 percent of the total award. Any equipment, which includes IT, over \$5,000 must be approved by CMS. To pay states for the use of any of their data made available for this initiative. Other limitations - A current recipient cannot be awarded a new, renewal, or competing continuation grant for any of the following reasons: The current project is not progressing in a satisfactory manner; The current project is not in compliance with program and financial reporting requirements; The applicant has an outstanding delinquent Federal debt; No award shall be made until the delinquent account is paid in full; or A negotiated repayment schedule is established and at least one payment is received.

Applicant Eligibility:

Private nonprofit institution/organization (includes institutions of higher education and hospitals); Native American Organizations (includes Indian groups, cooperatives, corporations, partnerships, associations); Eligibility is limited to the National Indian Health Board, and this single source award was approved by the Chief Grants Management Officer. NIHB meets the definition of tribal organization under the Indian Health Care Improvement Act (IHCIA) 25 USC Section 1603(26), with significant historical experience in providing outreach and education and the provision of health care information for Indian Tribes and Tribal Organizations. NIHB is a legally established organization controlled and governed

by Indians and includes the maximum participation of Indians in all phases if its activities. NIHB has 100 percent appointed or elected officers that comprise the Board of Directors. NIHB acts in a supportive role to ensure the dissemination of health care education and information to tribes. NIHB must submit a copy of the 501(c)(3) Non-profit Certification as proof of non-profit status. Applicant must have an Employer Identification Number (EIN), otherwise known as a Taxpayer Identification Number (TIN), to apply. Applicant must have a Dun and Bradstreet (D&B) Data Universal Numbering System (DUNS) number. The DUNS number is a nine-digit identification number that uniquely identifies business entities. To obtain a DUNS number, access the following website: <http://www.dnb.com/> or call -866-705-5711. This number should be entered in the block 8c (on the Form SF-424, Application for Federal Assistance). The organization name and address entered in block 8a and 8c should be exactly as given for the DUNS number. Applicant should obtain this DUNS number immediately to ensure all registration steps are completed in time. Applicant must also register in the Central Contractor Registration (CCR) database in order to be able to submit the application. Applicant should begin the CCR registration process immediately to ensure that it does not impair ability to meet required submission deadlines.

Beneficiary Eligibility:

Federal; Native American Organizations; American Indian; Federally Recognized Indian Tribal Governments; The primary beneficiaries of this effort are American Indians and Alaska Natives who are eligible for CMS programs to get them educated about and enrolled in CMS programs, as appropriate, ensure that Indian health care providers can participate and are enrolled in CMS programs, and to reduce health disparities in tribal communities. By enrolling in CMS programs, AI/ANs benefit by having greater access to services that may not be provided by their local Indian health care providers, and tribal communities benefit through increased resources to their Indian health care programs. The Federal government will benefit by obtaining information to help make more informed policies which will improve administration of CMS programs in tribal communities and thereby provide AI/ANs access to quality health care. Federally Recognized Indian Tribal Governments and Native American Organizations would benefit because they can provide information and insight to help CMS understand the tribal provider and tribal beneficiary perspective so that CMS can make informed policy decisions that would permit CMS programs to be administered and operate effectively and efficiently in tribal communities and not conflict with legislative/regulatory authority under which the Indian Health Service programs operate.

Credentials/Documentation:

NIHB must submit its 501(c)(3) Nonprofit Certification as proof of nonprofit status. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is not applicable.

for each of the five projects. There are three parts to the narrative for each of the five projects: Part A Program Information (1 page limitation); Section I: Needs; Part B Program Planning and Evaluation (6 page limitation); and Section I: Program Plans; Section 2: Program Evaluation; Part C Program report. (1 page limitation); Section I: Describe major accomplishments over the last 24 months; Section 2: Describe major activities over the last 24 months. Budget Narrative A separate budget narrative is required for each project. Each narrative must describe the budget amount(s) requested and match the corresponding scopes of work described in the project narrative. The total page limitation for the budget is three pages for each project for a total of 15 pages. The applicant should provide a detailed breakdown of the aggregate number for the budget recorded on standard form 424 (SF 424) application for Federal Assistance, including allocations for each major set of activities or proposed tasks. The proposed budget justification must clearly describe each cost element in the related budget category. The budget must clearly identify what funds will be administered directly by the lead agency and what will be subcontracted to other partners. The designated lead agency is solely responsible for the fiscal management of the project. NIH must supplement Budget Form SF 424A with a Budget Narrative. The narrative must include a yearly breakdown of costs for the five-year grant period of performance. Specifically, the Budget Narrative should provide a detailed cost breakdown for each line item outlined in the SF 424A by year including a breakdown of costs for each activity/cost with the line item. The proportion of grant funding designed for each activity should be clearly outlined and justify the institutions readiness to receive funding through 2021 including complete explanations and justifications for the proposed grant activities. The budget must separate out funding that is administered directly by the awardee from any funding that will be subcontracted. The following budget categories should be addressed (as applicable): Personnel (Note: none of the funds shall be used to pay the salary of an individual, through a grant or other extramural mechanism, at a rate in excess of Executive Level II (\$179,700)); Fringe benefits; Contractual costs, including subcontracts; Equipment; Supplies; Travel; Indirect charges. Indirect costs shall be supported by an approved Indirect cost rate agreement. Other costs, including those not otherwise associated with training and education. The Budget Narrative must outline the strategies and activities of the program, and provide cost breakdowns for any subcontracts that will be implemented to achieve anticipated outcomes. The Budget Narrative shall also clearly distinguish the funding source for any given activity/cost, as either Federal or Non-Federal. The applicant should pinpoint those costs funded through in-kind contributions. Applicant must include detailed salary and fringe benefit costs for staff dedicated to the project through an in-kind contribution, to include yearly salary costs and the percentage of time dedicated to the project (for any given year). The total budget should include both direct and indirect costs, if applicable.

Award Procedure:

The review process will include the following: NIHs application will be reviewed to determine eligibility using the criteria detailed in the funding opportunity announcement. An application that is received late or that fails to meet the eligibility requirements as detailed in the FOA or does not include the required forms will not be reviewed. An independent, objective review of the application will be conducted. The review panel will assess the application based on the review criteria to determine the merits of the application and the extent to which it furthers the purposes of the research program. The review panel comments and recommendations will be condensed into a summary statement that will assist CMS in making the award decision. CMS will use the information to judge the likelihood that the project will be successfully implemented and will have tangible, beneficial outcomes. The applicant will receive written notification of the award decision. An award will be made to the successful applicant on or before September 29, 2017. The successful applicant will receive an official Notice of Award (NOA) signed by the CMS Grants Management Officer, OAGM, that will set forth the amount of the award and other pertinent information, including any specific terms conditions of the award required for the fulfillment of the grant. The NOA is a legal document issued to notify the grantee that the award has been approved and that funds are now available for draw down from the HHS Payment Management System (PMS). Any communication between CMS and an awardee prior to issuance of the NOA is not an authorization to begin implementation of a project.

Public Health Service Act, Title VII, Part C, Section 721-735, 42 U.S.C. 292q-292y; Health Professions Education Partnerships Act of 1998, Public Law 105-392; Section 5201(a)(1)(B) of the Affordable Care Act; Section 5201(b) of the Affordable Care Act.

OBJECTIVES:

To increase educational opportunities by providing long-term, low-interest loans to students in need of financial assistance and in pursuit of a course of study in an approved health discipline.

TYPES OF ASSISTANCE:

Project Grants (to capitalize loan funds)

USES AND USE RESTRICTIONS:

Funds on deposit can only be used for loans to eligible students pursuing a full-

time course of study. The maximum amount a student may borrow is the cost of attendance (including tuition, other reasonable educational expenses and reasonable living expenses). Third and fourth year medical and osteopathic medicine students may be eligible for additional funding to repay earlier higher-interest educational loans. The interest rate is five percent. To be eligible for a Primary Care Loan (PCL), students of allopathic medicine and osteopathic medicine must meet financial need criteria and agree to enter and complete a residency training program in primary health care not later than four years after the date on which the student graduates from such school. The PCL borrower must also practice primary health care for 10 years (including the years spent in residency training) or through the date in which the loan is repaid in full, whichever occurs first. To be eligible for the Loans for Disadvantaged Students (LDS) program, students must meet the Health Professions Student Loans (HPSL) criteria and also be from a disadvantaged background as defined by the Secretary. A school must be carrying out a program for recruiting and retaining students from disadvantaged backgrounds, including racial and ethnic minorities and carrying out a program for recruiting and retaining minority faculty to be eligible for LDS funds. In addition, the school must agree to ensure that adequate instruction regarding minority health issues is in the curricula of the school. Health clinics must provide services to a significant number of individuals who are from disadvantaged backgrounds, including members of minority groups and enter into arrangements with one or more such clinics for the purpose of providing students of the school with experience in clinical services to such individuals. Secondary educational institutions and undergraduate institutions of higher education must enter into arrangements with one or more such institutions for the purpose of carrying out programs regarding the educational preparation of disadvantaged students, including minority students, to enter the health professions and recruit such individuals into the health professions. These institutions should also establish a mentor program for assisting disadvantaged students, including minority students, toward completion of the educational requirements for degrees from the school. .

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); Public nonprofit institution/organization (includes institutions of higher education and hospitals); Federally Recognized Indian Tribal Governments; U.S. Territories and possessions (includes institutions of higher education and hospitals); Private nonprofit institution/organization (includes institutions of higher education and hospitals); Any accredited public or other nonprofit private school of medicine, dentistry, osteopathic medicine, optometry, podiatry, pharmacy, or veterinary medicine which provides a course of study leading to a degree of Doctor of Medicine or Doctor of Osteopathic Medicine for PCL and LDS borrowers, Doctor of Dentistry (or an equivalent degree), Doctor of Optometry (or an equivalent degree), Doctor of Podiatric Medicine (or an equivalent degree), Bachelor of Science in Pharmacy (or an equivalent degree), Doctor of Pharmacy (or an equivalent degree), or Doctor of Veterinary Medicine (or an equivalent degree) for HPSL and LDS borrowers. Additionally, the school must be located in the United States, the District of Columbia, the Commonwealth of Puerto Rico, the Northern Mariana Islands, the U.S. Virgin Islands, Guam, American Samoa, the Republic of Palau, the Republic of the Marshall Islands, or the Federated States of Micronesia. Federally Recognized Indian Tribal Government and Native American Organizations may apply if they are otherwise eligible.

Beneficiary Eligibility:

Specialized group (e.g. health professionals, students, veterans); Student/Trainee; U.S. Citizen; Student applicants must display financial need and be enrolled or accepted for enrollment in a health professions school to pursue a full-time course of study leading to a degree as specified above. Students must also be citizens, nationals or lawful permanent residents of the United States, the District of Columbia, the Commonwealths of Puerto Rico, the Northern Mariana Islands, the U.S. Virgin Islands, Guam, American Samoa, the Republic of Palau, the Republic of the Marshall Islands, or the Federated States of Micronesia.

records, and all other records that are required by the terms of a grant, or may reasonably be considered pertinent to a grant, for a period of three years from the date the final FFR is submitted. For awards where the FFR is submitted at the end of the competitive segment, the three-year retention period will be calculated from the date the final FFR, for the entire competitive segment, is submitted. 45 CFR Part 75.361 provides exceptions and qualifications to the three-year retention requirement. For example, if any litigation, claim, financial management review, or audit is started before the expiration of the three-year period, the records must be retained until all litigation, claims, or audit findings involving the records have been resolved and final action taken. This section also specifies the retention period for other types of grant-related records, including indirect cost proposals and property records. 93.347 Trusted Exchange Framework and Common Agreement (TEFCA) Recognized Coordinating Entity (RCE) Cooperative Agreement

TEFCA RCE Cooperative Agreement,

FEDERAL AGENCY:

OFFICE OF THE NATIONAL COORDINATOR FOR HEALTH INFORMATION TECHNOLOGY (ONC), HEALTH AND HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

, Title 21st Century CURES Act, Division A, Part Title IV - Delivery, Section 4003 - Interoperability, , Title Consolidated Appropriations Act, 2018, Part Pub. L. 115-141, Section Division H, Title II

OBJECTIVES:

The purpose of this program is to support efforts to advance the establishment of an interoperable health system that (1) empowers individuals to use their electronic health information to the fullest extent (2) enables providers and communities to deliver smarter, safer, and more efficient care, and (3) promotes innovation at all levels. The Draft Trusted Exchange Framework, released on January 5, 2018, advances the goals of the 21st Century Cures Act (Cures Act) to advance nationwide interoperability by creating a common set of principles, terms, and conditions that facilitate trust between health information networks (HINs). The Draft Trusted Exchange Framework contains two parts: Part A Principles for Trusted Exchange and Part B Minimum Required Terms and Conditions for Trusted Exchange. Part A provides guard rails and general principles that HINs and Qualified HINs should follow to engender trust amongst Participants and End Users. Part B provides specific minimum required terms and conditions to be included into a single Common Agreement by a RCE. ONC will review comments received on Part A and Part B to develop a final Trusted Exchange Framework that the RCE would assist in implementing. Part B of the Draft Trusted Exchange Framework is not intended to be an all-encompassing participation agreement, but rather includes provisions to address identified areas of variation across existing network agreements. This funding opportunity announcement seeks to identify a single RCE that will in collaboration with ONC incorporate the final Part B requirements into a single Common Agreement to which Qualified HINs and their Participants may voluntarily agree to adhere. Development of a single, all-encompassing agreement that is nationwide in scope will significantly reduce the need for one-off or point-to-point interfaces, which are costly, complex to create and maintain, and an inefficient use of provider and health IT developer resources.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

This cooperative agreement program will fund a single award with a three (3) year period of performance. The award amount is a minimum of \$500,000. ONC reserves the right to make adjustments made in later years based on the scope of work for each year, the RECs performance to plan, and appropriated funding available. ONC intends to select a single RCE, through a competitive process, to

operationalize the Common Agreement component of the Trusted Exchange Framework and Common Agreement (TEFCA) The RCE will work closely with ONC to develop a single, all-encompassing Common Agreement that incorporates the Minimum Required Terms and Conditions outlined in Part B of the Draft Trusted Exchange Framework, as well as additional provisions, as long as such provisions do not conflict with the Trusted Exchange Framework. ONC will have the right to review any additional provisions before they are added. The RCE will act as a governance body to maintain, oversee, and enforce the Common Agreement, while ONC will update and maintain the Trusted Exchange Framework. ONC and the RCE will maintain over time the Trusted Exchange Framework and the Common Agreement, respectively. In order to meet the goals of the Cures Act, to build on existing work done by the industry, and to scale interoperability nationwide, ONC believes that an external entity would be an effective implementer of the TEFCA on behalf of ONC and as per ONC direction. We are seeking an existing, industry-based organization that is external to ONC to operationalize the Common Agreement component of the TEFCA We expect that the entity applying to be the RCE would have active participation by diverse stakeholders from across the country, including providers, payers, federal agencies, health information networks, and others.

Applicant Eligibility:

Public nonprofit institution/organization (includes institutions of higher education and hospitals); Any entity applying for a cooperative agreement must satisfy the following criteria: 1.Be a United States-based not-for-profit entity;2.Has an existing (or previous) agreement (or single collective set of existing policies) which the applicant determines, oversees, or administers that defines the business, operational, technical, or other conditions or requirements for enabling or facilitating access, exchange, or use of electronic health information between or among two or more unaffiliated individuals or entities. 3.Currently operates or has previously operated across two (2) or more state jurisdictions and can demonstrate governance over data sharing across these jurisdictions; 4.Demonstrates, through letters of support, previous or current participation and membership in a public-private collaborative across two or more state jurisdictions and from multiple types of stakeholders. Such stakeholders can include, but are not limited to, healthcare systems, payers, purchasers, care providers (i.e. long-term and post-acute care, behavioral health, community-based and safety net providers, and emergency medical services), key partners and stakeholders, health IT developers; health information networks, and/or other multi-stakeholder collaboratives that enable widespread health information exchange to occur; 5.Demonstrates the presence of a current (or previous) board or commission with broad stakeholder representation, that has governing authority over the entity, and the ability to modify as needed immediately upon award; 6.Has a mission statement or similar principal organizational goal indicating their commitment to the advancement of health care interoperability; and 7.Demonstrates a commitment to transparent, fair, and nondiscriminatory data exchange by participants through existing organizational policies and governing structure.a.The existing organizational policies must include policies that prevent conflicts of interest.b.The applicant must not be majority controlled by any single entity. c.If awarded, the applicant may never be affiliated with a QHIN and must make an attestation specifically to this requirement.

Beneficiary Eligibility:

N/A.

Credentials/Documentation:

Non-profit applicants must submit proof of non-profit status. Any of the following constitutes acceptable proof of such status:A copy of a currently valid IRS tax exemption certificate.A statement from a state taxing body, state attorney general, or other appropriate state official certifying that the applicant organization has a non-profit status and that none of the net earnings accrue to any private shareholders or individuals.A certified copy of the organizations certificate of incorporation or similar document that clearly establishes non-profit status. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

FEDERAL AGENCY:

CENTERS FOR DISEASE CONTROL AND PREVENTION, HEALTH AND HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

Assist with Childhood Obesity Research Demonstration, Title Public Health Service Act, Part 301 (a), Section This program is authorized under sections 301 (a) of the Public Health Service Act, new

OBJECTIVES:

The purpose of this NOFO is to increase the availability and number of packaged effective pediatric weight management interventions (PWMI) that can be used by healthcare, community or public health organizations to serve low-income children and their caregivers

TYPES OF ASSISTANCE:

Formula Grants (Cooperative Agreements)

USES AND USE RESTRICTIONS:

Initially an applicant and special eligibility review will be conducted and only responsive applications will be submitted for scientific merit review, and a secondary review, to evaluate the scientific merit, readiness, and feasibility of applications to successfully conduct the project according to the evaluation criteria listed in funding opportunity announcement. There will be identified priority criteria that will be considered in making funding decisions. Successful applicants will receive a Notice of Award (NOA) from the CDC Office of Financial Resources (OFR, Office of Grants Services (OGS)). The NOA shall be the only binding, authorizing document between the recipient and CDC.

Applicant Eligibility:

U.S. Territories and possessions; Government - General; State; Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals; Non-Government - General; U.S. Territories and possessions (includes institutions of higher education and hospitals); Minority group; Small business (less than 500 employees); Profit organization; Private nonprofit institution/organization (includes institutions of higher education and hospitals); Native American Organizations (includes Indian groups, cooperatives, corporations, partnerships, associations); Eligibility will not be limited.

Beneficiary Eligibility:

N/A.

Credentials/Documentation:

Grant Application; Eligibility will not be limited. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is required. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Application package from Grants.gov Notice of Funding Opportunities (NOFO) for this listing will be posted on Grants.gov.

Award Procedure:

Awarding will be based on score and review or the applicant proposal

Deadlines:

Deadlines will be identified in the NOFO once published.

Range of Approval/Disapproval Time:

>180 Days.

Appeals:

Not Applicable.

Renewals:

>180 Days. The Project Periods are for five 12 month periods. Method of awarding/releasing assistance: lump sum

Formula and Matching Requirements:

Statutory Formula: Title , Chapter , Part , Subpart .Public Law .Matching requirements are not applicable to this assistance listing. MOE requirements are not applicable to this assistance listing.

Length and Time Phasing of Assistance:

Deadlines will be identified in the NOFO once published. Method of awarding/releasing assistance: lump sum.

Reports:

The reporting schedule will be based on the requirements listed in the Notice of Funding Opportunity Announcement. An Annual Progress Report and Federal Financial Report (SF425) are due 90 days after the end of the budget period. A final progress report and final Federal Financial Report are due 90 days after the end of the project period. Progress reports are required annually. Federal Financial Reports (FFRs) must be submitted to the GMO/GMS no later than 90 days after the end of the budget period. The awardee must submit the Annual Performance Report 120 days before the end of the budget period. Additional guidance will be provided in the Notice of Funding Opportunity Announcement.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503 In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. 93.350 National Center for Advancing Translational Sciences

NCATS,

FEDERAL AGENCY:

NATIONAL INSTITUTES OF HEALTH, HEALTH AND HUMAN SERVICES,
DEPARTMENT OF

AUTHORIZATION:

Small Business Reauthorization Act of 2000, Public Law 106-554, Public Health Service Act, Title IV, Section 479-481 487F, Public Law 99-158, Public Health Service Act, Title III, Section 301, Public Law 78-410, 341 USC Code 287-288. The 21st Century Cures Act, Title II, Part A, Section 2037, Public Law 114-114-255

OBJECTIVES:

The mission of the National Center for Advancing Translational Sciences (NCATS) is to catalyze the generation of innovative methods and technologies that will enhance the development, testing, and implementation of diagnostics and therapeutics across a wide range of human diseases and conditions.

TYPES OF ASSISTANCE:

Cooperative Agreements, Project Grants

USES AND USE RESTRICTIONS:

NCATS is all about getting more treatments to more patients more quickly. Several thousand genetic diseases affect humans, of which only about 500 have any treatment. A novel drug, device or intervention can take 14 years and \$2 billion to develop, with a failure rate exceeding 95%. NCATS is directly addressing this problem by discovering new technologies and other approaches that could greatly accelerate the process of developing and deploying solutions that can be used by all translational researchers. The Clinical and Translational Science Awards Program includes several activities to support and foster innovation in clinical and translational centers, methods, and training (UL1, KL2, TL1) . The Trial Innovation Centers awards (U24) are intended to be lead centers of excellence in clinical trials and will facilitate the implementation of multi-site clinical studies by the CTSA Network. The Recruitment Innovation Centers (U24) aim to improve participant recruitment into clinical trials by using innovative means to assess the availability of potential participants and to enroll them in a timely manner. The Collaborative Innovation Awards aim to stimulate innovative collaborative research in the NCATS Clinical and Translational Science Award (CTSA) Program.. Pre-application is required. The Office of Rare Disease Research (ORDR) supports a network of research consortia, each targeted to several related rare diseases (U54). ORDR also supports an extensive resource of information for the public on rare diseases. The Discovering New Therapeutic Uses for Existing Molecules (UH2/UH3) program focuses on finding new uses for existing therapies. Small Business Innovation Research (SBIR) grants (R43, R44) and Small Business Technology Transfer (STTR) grants (R41, R42) support domestic small businesses engaging in research and development that has the potential for commercialization. The Tissue Chip program funds bioengineered devices to improve the process of predicting whether drugs will be safe or toxic in humans. Through Translator, NCATS will integrate existing biomedical data to help reveal new relationships within those data and also identify novel opportunities for research. The bioprinting program will generate high throughput screenable assay models of human tissues for drug discovery.

Applicant Eligibility:

Government - General; Federal; State (includes District of Columbia, public institutions of higher education and hospitals); Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals); Sponsored organization; Public nonprofit institution/organization (includes institutions of higher education and hospitals); Other public institution/organization; Federally Recognized Indian Tribal Governments; Non-Government - General; Minority group; Specialized group (e.g. health professionals, students, veterans); Small business (less than 500 employees); Profit organization; Private nonprofit institution/organization (includes institutions of higher education and hospitals); Quasi-public nonprofit institution/organization; Other private institutions/organizations; Native American Organizations (includes Indian groups, cooperatives, corporations, partnerships, associations); See above.

Beneficiary Eligibility:

Records:

Grantees generally must retain financial and programmatic records, supporting documents, statistical records, and all other records that are required by the terms of a grant, or may reasonably be considered pertinent to a grant, for a period of 3 years from the date the annual FSR is submitted. For awards under SNAP (other than those to foreign organizations and Federal institutions), the 3-year retention period will be calculated from the date the FSR for the entire competitive segment is submitted. Those grantees must retain the records pertinent to the entire competitive segment for 3 years from the date the FSR is submitted to NIH.

Foreign organizations and Federal institutions must retain records for 3 years from the date of submission of the annual FSR to NIH. See 45 CFR 75 for exceptions and qualifications to the 3-year retention requirement (e.g., if any litigation, claim, financial management review, or audit is started before the expiration of the 3-year period, the records must be retained until all litigation, claims, or audit findings involving the records have been resolved and final action taken). Those sections also specify the retention period for other types of grant-related records, including F&A cost proposals and property records. See 45 CFR 75 for record retention and access requirements for contracts under grants. In accordance with 45 Code of Federal Regulations, Part 74.53(e), the HHS Inspector General, the U.S.

Comptroller General, or any of their duly authorized representatives have the right of timely and unrestricted access to any books, documents, papers, or other records of recipients that are pertinent to awards in order to make audits, examinations,

excerpts, transcripts, and copies of such documents. This right also includes timely and reasonable access to a recipients personnel for the purpose of interview and discussion related to such documents. The rights of access are not limited to the required retention period, but shall last as long as records are retained.

93.351 Research Infrastructure Programs

Comparative Medicine, Instrumentation, Research Infrastructure,

FEDERAL AGENCY:

NATIONAL INSTITUTES OF HEALTH, HEALTH AND HUMAN SERVICES,
DEPARTMENT OF

AUTHORIZATION:

Small Business Research and Development Enhancement Act of 1992, Public Law 102-564, Public Health Service Act, Title IV, Section 487, Public Law 99-158, Public Health Service Act, Title III, Section 301, Public Law 78-410, 341 USC Code 287-288.

OBJECTIVES:

The Office of Research Infrastructure Programs (ORIP) is a program office in the Division of Program Coordination, Planning, and Strategic Initiatives (DPCPSI) dedicated to supporting research infrastructure and related research programs. ORIP consists of the Division of Comparative Medicine (DCM); and Division of Construction and Instruments (DCI).

TYPES OF ASSISTANCE:

Project Grants, Project Grants (Capacity Building and Complaint Processing, Training)

USES AND USE RESTRICTIONS:

The Division of Comparative Medicine (DCM) helps meet the needs of biomedical researchers for high-quality, disease-free animals and specialized animal research facilities. Additionally, DCM seeks to increase small business participation in federally supported research and development as well as the private-sector commercialization of technology developed with federal support and the biomedical workforce of scientist with a background in veterinary medicine. It does this through the federal government's Small Business Innovation Research (SBIR) and Small Business Technology Transfer (STTR) programs. Division of Construction and Instruments: This Division supports programs to expand the Nations capacity for the conduct of biomedical research by offering grants for the acquisition of state-of-the-art biomedical research instrumentation and integrated instrument systems, and grants to renovate, improve, or modernize existing research facilities.

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); Comparative Medicine: Institutions of higher education, hospitals, and other institutions and organizations, both nonprofit and for-profit, seeking to establish, continue, or enlarge programs consistent with the objectives of the program. Applicants for NRSA must be citizens of the United States or be admitted to the United States for permanent residency. Applicants must be nominated and sponsored by a public or private nonprofit institution with staff and facilities suitable for the proposed research training. Nonprofit domestic organizations may apply for the institutional NRSA. Research Career Development: Applications may be submitted on behalf of candidates by domestic, nonfederal organizations, public or private institutions of higher education.

Beneficiary Eligibility:

Profit organization; Private nonprofit institution/organization; Public nonprofit institution/organization; Biomedical investigators at any nonprofit or for-profit organization, company, or institution engaged in biomedical research.

Credentials/Documentation:

This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Pre-application coordination is required. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372. Contact the headquarters, as appropriate.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Application forms may

be obtained from the Division of Extramural Outreach and Information, 6701 Rockledge Drive, MSC 7910, Bethesda, MD 20892-7910. Telephone (301) 435-0714, e-mail: ASKNIH@odrockml.od.nih.gov. Completed applications should be submitted to the Center for Scientific Review, 6701 Rockledge Drive, MSC 7710, Bethesda, MD 20892-7710. The standard application forms PHS 398, (Rev. November 1998), as furnished by PHS and required by 45 CFR, Part 92 must be used for all programs. For filing NRSA individual fellowship award applications, Form 416-1 (Rev. October 1991) is needed.

Award Procedure:

The initial review of applications from eligible investigators and institutions is reviewed by committees comprised of authorities in various fields of biomedical research and science education, as appropriate. Each application is given a peer evaluation for merit, and recommendations are forwarded to the Council of Councils for final review and recommendation.

Deadlines:

Contact the headquarters or regional location, as appropriate for application deadlines.

Range of Approval/Disapproval Time:

>180 Days.

Appeals:

From 60 to 90 days. A principal investigator (P.I.) may question the substantive or procedural aspects of the review of their application by communicating with the NIH staff. A description of the NIH Peer Review Appeal procedures is available on the NIH home page www.nih.gov/grants/guide/1997/97.11.21/n2.html.

Renewals:

>180 Days. Renewal applications are reviewed in the same manner as new applications. Modernization and Instrumentation: None.

Formula and Matching Requirements:

Statutory formula is not applicable to this assistance listing. Matching requirements are not applicable to this assistance listing. MOE requirements are not applicable to this assistance listing.

Length and Time Phasing of Assistance:

All programs: 1 to 5 years. An Electronic Transfer System is used for transferring funds. Research Grants, Cooperative Agreements, Center Grants, and NRSA Institutional grants may be awarded for up to 5 years, generally in 12-month budget periods and may be extended through a competitive renewal. SBIR: Normally, Phase I awards are for 6 months; normally, Phase II awards are for 2 years. STTR: Normally, Phase I awards are for 1 year; normally, Phase II awards are for 2 years. The Council of Councils may recommend funding for periods ranging from 1 to 5 years. Funding commitments are made annually. Award length may vary depending on the recommendation of the scientific review group, the national advisory council, successful annual performance, and availability of funds. A formal notification in the form of a Notice of Award (NoA) will be provided to the applicant organization. Method of awarding/releasing assistance: other

CRITERIA FOR SELECTING PROPOSALS:

Phase I: All applications will be reviewed initially for completeness by CDC OGS staff and will be reviewed jointly for eligibility by the CDC National Center for Chronic Disease Prevention and Health Promotion and CDC OGS. Applicants must provide proof of ability to serve populations in American Samoa, Commonwealth of the Northern Mariana Islands, Guam, Federated States of Micronesia, Republic of the Marshall Islands, Republic of Palau, U.S. Virgin Islands, or Puerto Rico. Incomplete applications that do not meet the eligibility criteria will not advance to Phase II review. Phase II Review: This funding opportunity is comprised of two components Core Component and Competitive Components. Core Component: The Core Component will support recipients to implement the strategies and activities as outline in the NOFO. Applicants must propose a comprehensive work plan that addresses the activities following broad Strategies indicated in the NOFO. Applicants for the Core Component will be evaluated based on the evaluation criteria as indicated in the NOFO. Competitive Components: This NOFO has two competitive Component that will support maternal and child health and oral health activities. All applicants must apply for the Core Component in order to be considered for either (or both) of the Competitive Components. Only those successful applicants under the Core Component will be eligible for Competitive Component funding. Applicants must apply for competitive Component funding at the same time they make application for Core Component funding. Competitive components will be evaluated based on the evaluation criteria as indicated in the NOFO. Phase III Review: Applications submitted under the Core Component will be funded by score and rank as determined by the objective review panel. Applications submitted under the Competitive Component will be funded by score and rank determined by the objective review panel. The Selecting official shall rely on the rank order established by the objective review panel as the primary factor in making awards.

93.358 Advanced Education Nursing Traineeships

AENT,

FEDERAL AGENCY:

HEALTH RESOURCES AND SERVICES ADMINISTRATION, HEALTH AND
HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

Section 811(a)(2) of the Public Health Service Act, (42 U.S.C. 296j).

OBJECTIVES:

Grants are awarded to eligible institutions to increase the number of advanced practice nurses serving as primary care nurse practitioners or nurse midwives, with an emphasis on funding applicants who are prepared to meet the primary care needs of rural and underserved communities. This goal is accomplished by providing traineeship funds to schools of nursing that prepare graduates to practice

in these communities; recipient institutions in turn disburse funds to students in the form of traineeship support.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

Funds can be used to pay all or part of the costs of tuition, books/ebooks, and fees of the program of advanced nurse education, and reasonable living expenses in the form of stipends for the student during the period for which the traineeship is provided. Funds may not be used for the following purposes: Books for library or personal use and trainee travel are not allowed. Student support through stipends, tuition, and fees is not eligible for support. Indirect costs under training awards to organizations other than State, local or American Indian tribal governments will be budgeted and reimbursed at 8 percent of modified total direct costs rather than on the basis of a negotiated rate agreement, and are not subject to upward or downward adjustment.

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals); Public nonprofit institution/organization (includes institutions of higher education and hospitals); Federally Recognized Indian Tribal Governments; Private nonprofit institution/organization (includes institutions of higher education and hospitals); Quasi-public nonprofit institution/organization; Native American Organizations (includes Indian groups, cooperatives, corporations, partnerships, associations); Eligible applicants are education programs that provide registered nurses with nurse practitioner and nurse-midwife education. Such programs may include schools of nursing, nursing centers, academic health centers, State or local governments, and other public or private nonprofit entities authorized by the Secretary to confer degrees to registered nurses for nurse practitioner nurse-midwife education. Federally Recognized Indian Tribal Government and Native American Organizations may apply if otherwise eligible.

Beneficiary Eligibility:

Native American Organizations; Health Professional; Student/Trainee; Graduate Student; The participating institutions select traineeship recipients. A recipient (student) must be enrolled in an advanced education nursing program in the recipient institution for preparation as a primary care nurse practitioner or nurse-midwife. The student/enrollee must be pursuing a master's or doctoral degree, a combined RN to master's degree, nurse-midwifery certificate in existence on November 12, 1998, or a post-graduate master's certificate. The student/enrollee must be a citizen of the United States, non-citizen national, or foreign national who possesses a visa permitting permanent residence in the United States. Individuals on temporary or student visas are not eligible to receive AENT support. The student/enrollee must maintain the predetermined academic standards of the institution and be prepared to sit for national nursing certification in the nursing specialty or field of study following graduation.

AUTHORIZATION:

Section 831 and 831A of the Public Health Service Act (42 U.S.C. 296p and 42 U.S.C. 296p-1)

OBJECTIVES:

NEPQR:The NEPQR program provides grant support for academic, service, and continuing education projects designed to enhance nursing education, improve the quality of patient care, increase nurse retention, and strengthen the nursing workforce. The NEPQR program has broad statutory authority to address the development and enhancement of the nursing workforce. The three priority areas defined in statute are (1) Education, (2) Practice, and (3) Retention. NEPQR - Veterans Baccalaureate of Science in Nursing program (VBSN): The Veterans Bachelor of Science in Nursing (VBSN) programs aim is to strengthen the quality of care and expand the nursing workforce through increased enrollment of veterans in baccalaureate nursing programs. The VBSN program supports the development and implementation of innovative practice models that enable veterans to earn baccalaureate nursing degrees. The program expands employment opportunities for veterans and prepares them to make the transition from their former military role to that of a civilian nurse.NEPQR-IPCP: Behavioral Health Integration (BHI) program:The NEPQR-IPCP:BHI program aims to expand the evidence-based practice of integrating behavioral health providers into nurse-led primary care teams in order to increase access to care, enhance care coordination and improve patient outcomes in vulnerable and/or underserved community-based settings.NEPQR-BSN Practicum in Community Settings (BPCS) program: The NEPQR-BPCS program aims to increase experiential training opportunities for senior-level BSN students in primary care community-based settings by (1) establishing and expanding upon academic-practice partnerships between schools of nursing and community-based clinical sites; and (2) providing senior-level BSN students with meaningful clinical experiences and training in medically underserved and rural communities. This experiential training will lead to increased competencies in primary care and ultimately improved distribution of the

This program has MOE requirements, see funding agency for further details. Additional Information: The recipient must agree to maintain non-federal funding for grant activities at a level which is not less than expenditures for such activities during the fiscal year prior to receiving the award..

Length and Time Phasing of Assistance:

NEPQR-Veterans Bachelor of Science in Nursing: This funding opportunity provides support for a 3-year project period. NEPQR-IPCP: Behavioral Health Integration (BHI) program: This funding opportunity provides support for a 2-year project period. NEPQR-IPCP program: This funding opportunity provides support for a 3-year project period. NEPQR-BSN Practicum in Community Settings (BPCS) program: Method of awarding/releasing assistance: other

Reports:

Both program and financial reports are required. The recipient will be required to submit annual performance and progress reports. A Federal Financial Report (SF-425) is required according to the schedule in HRSAs Application Guide. A final report is due within 90 days after the project period ends. If applicable, the recipient must submit a Tangible Personal Property Report (SF-428) and any related forms within 90 days after the project period ends. New awards (Type 1) issued under this notice of funding opportunity are subject to the reporting requirements of the Federal Funding Accountability and Transparency Act (FFATA) of 2006 (Pub. L. 109282), as amended by section 6202 of Public Law 110252, and implemented by 2 CFR Part 170. Grant and cooperative agreement recipients must report information for each first-tier subaward of \$25,000 or more in federal funds and executive total compensation for the recipients and subrecipients five most highly compensated executives as outlined in Appendix A to 2 CFR Part 170 (The FFATA details are available online at <http://www.hrsa.gov/grants/ffata.html>). Competing continuation recipients may be subject to this requirement and will be so notified in the Notice of Award.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503

Records:

Recipients are required to maintain grant accounting records 3 years after the date

CRITERIA FOR SELECTING PROPOSALS:

Procedures for assessing the technical merit of grant applications have been instituted to provide an objective review of applications and to assist the applicant in understanding the standards against which each application will be judged. Critical indicators have been developed for each review criterion to assist the applicant in presenting pertinent information related to that criterion and to provide the reviewer with a standard for evaluation. Competing applications are reviewed by non-Federal expert consultant(s) for technical merit recommendations. Applications will be reviewed and evaluated against the following criteria: (1) Purpose and Need; (2) Response to Program Purpose; (3) Impact; (4) Organizational Information, Resources and Capabilities; and (5) Support

Requested. See the most recent Notice of Funding Opportunity for detailed selection criteria.

93.360 Biomedical Advanced Research and Development Authority (BARDA), Biodefense Medical Countermeasure Development

FEDERAL AGENCY:

IMMED OFFICE OF THE SECRETARY OF HEALTH AND HUMAN SERVICES, HEALTH AND HUMAN SERVICES, DEPARTMENT OF AUTHORIZATION:

Public Health Service Act, Title III, Section 319L, Consolidated Appropriations Act, 2010, Division D, Department of Labor, Health and Human Services, and Education, and Related Agencies Appropriations Act, 2010

OBJECTIVES:

The purpose of this program is to coordinate the acceleration of countermeasure and product advanced research and development by (A) facilitating collaboration between the Department of Health and Human Services and other Federal agencies, relevant industries, academia, and other persons, with respect to such advanced research and development; (B) promoting countermeasure and product advanced research and development; (C) facilitating contacts between interested persons and the offices or employees authorized by the Secretary to advise such persons regarding requirements under the Federal Food, Drug, and Cosmetic Act and under section 351 of the Public Health Service Act; and (D) promoting innovation to reduce the time and cost of countermeasure and product advanced research and development. The Public Health Service Act at 42 U.S.C. 247d-6a defines a qualified countermeasure as a drug (as that term is defined by section 321(g)(1) of title 21), biological product (as that term is defined by section 262(i) of this title), or device (as that term is defined by section 321(h) of title 21), that the Secretary determines to be a priority (consistent with sections 182(2) and 184(a) of title 6) to - (i) diagnose, mitigate, prevent, or treat harm from any biological agent (including organisms that cause an infectious disease) or toxin, chemical, radiological, or nuclear agent that may cause a public health emergency affecting national security; or (ii) diagnose, mitigate, prevent, or treat harm from a condition that may result in adverse health consequences or death and may be caused by administering a drug, biological product, or device that is used as described in this subparagraph

TYPES OF ASSISTANCE:

Cooperative Agreements (Discretionary Grants), Project Grants (Cooperative Agreements), Project Grants (Discretionary)

USES AND USE RESTRICTIONS:

Support international in-country and domestic advanced development and industrialization of human pandemic influenza vaccine. Support activities related to the mitigation of the global shortage of influenza vaccines through awards and sub-awards to developing countries with the potential and capacity to manufacture various influenza vaccines.

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); Public nonprofit institution/organization (includes institutions of higher education and hospitals); Other public institution/organization; Federally Recognized Indian Tribal Governments; U.S. Territories and possessions (includes institutions of higher education and hospitals); Profit organization; Private nonprofit institution/organization (includes institutions of higher education and hospitals); Quasi-public nonprofit institution/organization; Other private institutions/organizations; Native American Organizations (includes Indian groups, cooperatives, corporations, partnerships, associations); All types of entities are eligible, including highly qualified foreign nationals outside the United States either alone or in collaboration with American participants when such transactions may inure to the benefit of the American people. Applicants should review the individual funding opportunity announcements issued under this CFDA program.

Beneficiary Eligibility:

Organizations; State; Local; Public nonprofit institution/organization; Other public institution/organization; Federally Recognized Indian Tribal Governments; All individuals including at-risk individuals such as children, pregnant women, elderly, and others at-risk who may be given special priority.

Credentials/Documentation:

Applicants should review the individual funding opportunity announcements issued under this CFDA program for any credentials or certifications that must be submitted prior to or simultaneous with submission of an application package. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Grant applications and required forms for this program can be obtained through Grants.gov FIND, <http://www.grants.gov/>. Applicants should visit Grants.gov - FIND for the funding opportunity announcement and Grants.gov - APPLY to download application materials to complete and submit their applications in accordance with the funding opportunity announcement (FOA).

Award Procedure:

Applications that successfully proceed through initial screening (as outlined in the funding opportunity announcement) will be objectively reviewed based upon the review criteria specified in the FOA. Applications selected for funding will be processed and the applicant notified in writing through the issuance of a Notice of Award from the Office of the Assistant Secretary for Preparedness and Response.

Reports:

Recipients must report cash transaction data via the Payment Management System (PMS) using the cash transaction data elements captured on the Federal Financial Report (FFR), Standard Form (SF) 425. Recipients will utilize the Transactions section of SF425 in lieu of the SF272. The FFR SF425 cash Transaction Report is due 30 days after the end of each calendar quarter. Grantees are required to submit semi-annual Program Progress Reports as well as final Program Progress Reports. Report formats and submission requirements are outlined in the funding opportunity announcement. ASPR requires cumulative financial reporting through consecutive funding periods on the SF269 FSR long form. The FFR SF425 was designed to replace the Financial Status Report SF269 and the Federal Cash Transactions Report SF272 with one comprehensive financial reporting form. Until HHS fully migrates to the SF425 FFR, recipients are still required to submit the SF269 Financial Status Report (FSR) semi-annually within 30 days after the first 6 month period and within 90 days of the budget period end date. Grantees are required to submit final Financial Status Reports (SF-269). Performance monitoring of awardees is completed by BARDA program staff.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-

Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. 93.361 Nursing Research

FEDERAL AGENCY:

NATIONAL INSTITUTES OF HEALTH, HEALTH AND HUMAN SERVICES,
DEPARTMENT OF
AUTHORIZATION:

Public Health Service Act, Section 301, 464, 487, 42 USC Code 285q. Public Health Service Act, Public Law 99-158, Public Health Service Act, Public Law 102-564

OBJECTIVES:

The mission of the National Institute of Nursing Research (NINR) is to promote and improve the health of individuals, families, and communities. To achieve this mission, NINR supports and conducts clinical and basic research and research

ASSISTANCE LISTINGS DESCRIPTIONS

training on health and illness, research that spans and integrates the behavioral and biological sciences, and that develops the scientific basis for clinical practice. From premature infants in neonatal intensive care units, to adolescents living with diabetes, to elderly cancer survivors coping with pain, nursing research develops the science to help people strengthen the quality of their lives. Nursing science transcends the boundaries of disease and research disciplines to better understand the experiences of individuals and families living with illness and to develop personalized approaches that maximize health and well-being for individuals at all stages of life, across diverse populations and settings. NINRs scientific programs are organized around four major focus areas: symptom science, wellness, self-management of chronic conditions, and the science of end-of-life and palliative care. The Institute also explores ways in which new innovations and technologies can contribute to advancing nursing science across these four areas. In addition, NINR has a longstanding and continuing commitment to developing the next generation of nurse scientists: those individuals and team members who will carry the field of nursing science into the future. NINRs research program in symptom science seeks a better understanding of the biological and behavioral aspects of symptoms, with the goal of developing and testing new interventions to reduce the disabling effects of symptoms and improving patient health outcomes and quality of life. Research efforts in wellness investigate the key biological, behavioral, and social factors that promote long-term health and healthy behaviors and prevent the development of illness across health conditions, settings, and the lifespan. Research in wellness is also focused on developing and testing culturally appropriate interventions to promote health and prevent illness in minority and underserved groups. NINR research in self-management seeks to engage individuals and families as active participants in maintaining and improving quality of life while living with a chronic condition or multiple chronic conditions. Self-management research encompasses health strategies that allow an individual and their health care provider to adapt treatments to individual circumstances. As the lead NIH Institute for end-of-life research, NINR supports science to assist individuals, families, and health care professionals in managing the symptoms of advanced, serious illness, and planning for end-of-life decisions. NINR also recognizes that high-quality, evidence-based palliative care is a critical component of maintaining quality of life at any stage of illness, not limited to the end of life. In focusing on innovation and technology, NINR promotes technological advancements that address a range of health care challenges and facilitate the delivery of real-time personalized information to individuals and families, health care providers, and communities. In order to prepare an innovative, diverse, and talented next generation of nurse scientists, NINR supports a variety of training opportunities for scientists and trainees at all career levels, particularly those at an early career stage who are so critical to sustaining the future of innovative research and high quality health care. NINR supports individual and institutional pre- and postdoctoral research fellowships, as well as career development awards, and sponsors numerous research intensives for nurse scientists at all career levels. NINRs Division of Intramural Research conducts basic and clinical research on the interactions among molecular mechanisms underlying symptoms and environmental influences on individual health outcomes. The program focuses on the biological and behavioral underpinnings of symptoms of chronic conditions, including digestive disorders, cancer-related fatigue, neuromuscular disorders, traumatic brain injury, and post-traumatic stress disorders, as well as clinical interventions to alleviate symptoms.

TYPES OF ASSISTANCE:

Project Grants, Training

USES AND USE RESTRICTIONS:

Research Grants: Funds may be used for salaries, consultation, equipment, travel and other usual costs, subject to Federal regulations applicable to the grant. National Research Service Awards (NRSAs) (Individual): Individual awards are made to institutions on behalf of the individual for research training in specified areas related to the mission of NINR. NRSAs (Institutional): Grants may be made to institutions to enable them to accept individuals for research training. Each individual who receives a NRSA postdoctoral fellowship on an NRSA award must comply with all applicable service and payback provisions. SBIR Phase I grants: (of approximately 6-months' duration) are to establish the technical merit and feasibility of a proposed research effort that may lead to a commercial product or process. STTR Phase I grants (normally of 1-year duration) are to determine the scientific, technical, and commercial merit and feasibility of the proposed cooperative effort that has potential for commercial application. Phase II funding is

based on results of research initiated in Phase I and scientific and technical merit and commercial potential of Phase II application.

Applicant Eligibility:

Government - General; Federal; Interstate; Intrastate; State (includes District of Columbia, public institutions of higher education and hospitals); Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals); Sponsored organization; Public nonprofit institution/organization (includes institutions of higher education and hospitals); Other public institution/organization; Federally Recognized Indian Tribal Governments; U.S. Territories and possessions; U.S. Territories and possessions (includes institutions of higher education and hospitals); Individual/Family; Minority group; Specialized group (e.g. health professionals, students, veterans); Small business (less than 500 employees); Profit organization; Private nonprofit institution/organization (includes institutions of higher education and hospitals); Other private institutions/organizations; State; Native American Organizations (includes Indian groups, cooperatives, corporations, partnerships, associations); Research Grants: Any corporation, public or private institution or agency, or other legal entity, either nonprofit or for-profit, may apply. NRSAs (Individual): An applicant must be a registered professional nurse with either a baccalaureate and/or a master's degree in nursing and must be a citizen of the United States or lawfully admitted for permanent residence. Those on temporary or student visas are not eligible. NRSAs (Institutional): An eligible institution must be capable of providing predoctoral and/or postdoctoral research training opportunities for nurses. SBIR grants: can be awarded only to domestic small businesses (entities that are independently owned and operated for profit; are not dominant in the field in which research is being proposed; and have no more than 500 employees). Primary employment (more than one-half time) of the principal investigator must be with the small business at the time of award and during the conduct of the proposed project. In both Phase I and Phase II, the research must be performed in the United States or its possessions. To be eligible for funding, a grant application must be reviewed for scientific merit and program relevance by a scientific review group and a national advisory council. STTR grants can be awarded only to domestic small business concerns (entities that are independently owned and operated for profit, are not dominant in the field in which research is proposed and have no more than 500 employees) which "partner" with a research institution in cooperative research and development. At least 40 percent of the project is to be performed by the small business concern and at least 30 percent by the research institution. In both Phase I and Phase II, the research must be performed in the U.S. and its possessions. To be eligible for funding, a grant application must be approved for scientific merit and program relevance by a scientific review group and a national advisory council.

Beneficiary Eligibility:

Individual/Family; Small business; Profit organization; Private nonprofit institution/organization; Scientist/Researchers; Public nonprofit institution/organization; Individuals and public or private institutions.

Credentials/Documentation:

Each applicant for research projects must present a research plan and furnish evidence that scientific competence, facilities, equipment, and supplies are appropriate to carry out the plan. NRSAs (Individual): The applicant's academic record, research experience, citizenship, or permanent resident status, licensure as a registered nurse, and institutional sponsorship should be documented in the application. NRSAs (Institutional): The applicant organization must show the objectives, methodology and resources for the research training program, the qualifications and experience of directing staff, the criteria to be used in selecting individuals for awards, and detailed budget justification for the amount of grant funds requested. Costs will be determined in accordance with 2 CFR, Part 220, Cost Principles for Educational Institutions. For-profit organizations' costs are determined in accordance with 48 CFR Subpart 31.2 of the Federal Acquisition Regulations. For other grantees, costs will be determined by HHS Regulations 45 CFR, Part 75. For SBIR and STTR grants, applicant organization (small business concern) must present in a research plan an idea that has potential for commercialization and furnish evidence that scientific competence, experimental methods, facilities, equipment, and funds requested are appropriate to carry out the plan. The SF 424 (Research and Research-Related) application forms and the SF 424 SBIR/STTR Application Guide are used to apply for both SBIR and STTR, Phase I and Phase II. Application is made electronically through Grants.gov (<http://www.grants.gov>). 2 CFR 200, Subpart E - Cost Principles applies to this program. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

ASSISTANCE LISTINGS DESCRIPTIONS

Preapplication Coordination:

Pre-application coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Research Grants: Applications must be prepared electronically through Grants.gov (<http://www.grants.gov>) using the SF 424 (Research and Research-Related) application form. The electronic application format is interactive. For assistance submitting an electronic application, contact GrantsInfo: Telephone (301) 435-0714, Email: GrantsInfo@nih.gov. NRSAs (Individual): Individuals must submit the SF 424 (Research and Research-Related) application form, and include at least three, but no more than five, letters of reference. Letters of reference must be submitted electronically through the NIH eRA Commons Submit Reference Letter website and not through Grants.gov (<http://www.grants.gov>). Applicants who have lawfully been admitted to the United States for permanent residence must complete the appropriate section on the Face Page of the SF 424 (Research and Research-Related) application form. Applicants who have applied for and have not yet been granted admission as a permanent resident should check the Permanent resident block on the Face Page of this application form, and also write in the word "pending." A notarized statement documenting legal admission for permanent residence must be submitted prior to the issuance of an award. SBIR and STTR: The SF 424 (Research and Research-Related) application form and the SF 424 SBIR/STTR Application Guide are used to apply for both SBIR and STTR grants, Phase I and Phase II. Application forms must be submitted electronically through Grants.gov (<http://www.grants.gov>). For further assistance contact GrantsInfo: Telephone: (301) 435-0714, E-mail: GrantsInfo@nih.gov.

Award Procedure:

Research Grants and National Research Service Awards (NRSAs) (Institutional): All accepted applications are reviewed for scientific merit by an appropriate initial review group and then by a national advisory council. (Individual NRSA applications are not reviewed by council.) All applications favorably recommended compete for available funds on the basis of scientific merit and mission/program relevance. SBIR/STTR Applications: All accepted SBIR/STTR applications are evaluated for scientific and technical merit by an appropriate scientific peer review panel and by a national advisory council. All applications receiving a priority score compete for available SBIR/STTR set-aside funds on the basis of scientific and technical merit and commercial potential of the proposed research, mission/program relevance, and program balance among the areas of research.

Deadlines:

Contact the headquarters or regional location, as appropriate for application deadlines.

Range of Approval/Disapproval Time:

Other. Research Grants: From 6 to 9 months. NRSAs: From 6 to 9 months. SBIR/STTR: About 7-1/2 months. AIDS Grants: About 6 months.

Appeals:

Other. Research Grants: A Program Director/Principal Investigator (PD/PI) and/or applicant institution may question the substantive or procedural aspects of the initial peer review of his/her application by communicating with the appropriate NINR Program Official. NINR follows the NIH Appeals policy, NOT-OD-11-064: <http://grants.nih.gov/grants/guide/notice-files/NOT-OD-11-064.html>. NINR works with application PD/PI within the NIH appeals policy.

Renewals:

Other. Research Grants: Renewal applications are accepted. NRSAs: Awards may be made for 1 to 5 years. No individual may receive more than 5 years of aggregate NRSA support beyond the predoctoral level, and no individual may receive NRSA support for more than 3 years of support beyond the postdoctoral level. Institutional awards may be renewed.

Formula and Matching Requirements:

Statutory formula is not applicable to this assistance listing. Matching requirements are not applicable to this assistance listing. MOE requirements are not applicable to this assistance listing.

Length and Time Phasing of Assistance:

Research Grants: Awards are usually made annually with no project periods to

exceed 5 years in length. NRSAs: Institutional awards may be made for up to 5 years; and Individual awards may be made for up to 5 years at the predoctoral level, 3 years at postdoctoral level, and 2 years at senior level. SBIR: Normally, Phase I awards are for 6 months and normally Phase II awards are for 2 years. STTR: Normally, Phase I awards are for 1 year and normally Phase II awards are for 2 years. Method of awarding/releasing assistance: other

Reports:

Research Performance Progress Reports (RPPR) are required for all annual non-competing awards. Final Progress Reports, Final Federal Financial Reports, and Final Invention Statement and Certification (except for Training grants, Fellowships, and certain other programs [e.g., C06, R13, R25, S10]) for all projects are required within 120 days after the end of the research performance period. Termination Notices are required for Fellowships and trainees appointed on institutional training grants. Progress Report: Progress reports where applicable are required annually for continuing projects. Expenditure Report: Financial status reports where applicable are required annually for continuing projects. Performance Reports: Progress reports where applicable are required annually for continuing projects.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503

Records:

Grantees generally must retain financial and programmatic records, supporting documents, statistical records, and all other records that are required by the terms of a grant, or may reasonably be considered pertinent to a grant, for a period of 3 years from the date the annual Federal Financial Report (FFR) is submitted. For awards under SNAP (other than those to foreign organizations and Federal institutions), the 3-year retention period will be calculated from the date the Federal Financial Report (FFR) for the entire competitive segment is submitted. Those grantees must retain the records pertinent to the entire competitive segment for 3 years from the date the FFR is submitted to NIH. Foreign organizations and Federal institutions must retain records for 3 years from the date of submission of the annual FFR to NIH. See 45 CFR Part 75.361 for exceptions and qualifications to the 3-year retention requirement (e.g., if any litigation, claim, financial management review, or audit is started before the expiration of the 3-year period, the records must be retained until all litigation, claims, or audit findings involving the records have been resolved and final action taken). Those sections also specify the retention period for other types of grant-related records, including F&A cost proposals and property records. See 45 CFR Part 75.361 and Part 75.364 for record retention and access requirements for contracts under grants. In accordance with 45 CFR 75.364, the HHS Inspector General, the U.S. Comptroller General, or any of their duly authorized representatives have the right of timely and unrestricted access to any books, documents, papers, or other records of recipients that are pertinent to awards in order to make audits, examinations, excerpts, transcripts, and copies of such documents. This right also includes timely and reasonable access to a recipients personnel for the purpose of interview and discussion related to such documents. The rights of access are not limited to the required retention period, but shall last as long as records are retained.

EXAMPLES OF FUNDED PROJECTS:

2018 No current data available. 2017 No current data available.

CRITERIA FOR SELECTING PROPOSALS:

Reviewers provide an overall impact/priority score to reflect their assessment of the likelihood for the project to exert a sustained, powerful influence on the research field(s) involved, in consideration of the following review criteria and additional review criteria (as applicable for the project proposed): (1) Significance: Does the project address an important problem or a critical barrier to progress in the field? Is there a strong scientific premise for the proposed project, including consideration of the strengths and weaknesses of published research or preliminary data crucial to the support of the application? If the aims of the project are achieved, how will scientific knowledge, technical capability, and/or clinical practice be improved? How will successful completion of the aims change the concepts, methods, technologies, treatments, services, or preventative interventions that drive this field? For clinical trial applications, the following additional criteria will be considered. Are the scientific rationale and need for a clinical trial to test the proposed hypothesis or intervention well supported by preliminary data, clinical and/or preclinical studies, or information in the literature or knowledge of biological mechanisms? For trials focusing on clinical or public health endpoints, is this clinical trial necessary for testing the safety, efficacy or effectiveness of an intervention that could lead to a change in clinical practice, community behaviors or health care policy? For trials focusing on mechanistic, behavioral, physiological, biochemical, or other biomedical endpoints, is this trial needed to advance scientific understanding? (2) Investigators: Are the PD/PIs, collaborators, and other researchers well suited to the project? If Early Stage Investigators or New Investigators, or in the early stages of independent careers, do they have appropriate experience and training? If established, have they demonstrated an ongoing record of accomplishments that have advanced their field(s)? If the project is collaborative or multi-PD/PI, do the investigators have complementary and integrated expertise; are their leadership approach, governance and organizational structure appropriate for the project? For clinical trial applications, the following additional criteria will be considered. With regard to the proposed leadership for the project, do the PD/PI(s) and key personnel have the expertise, experience, and ability to organize, manage and implement the proposed clinical trial and meet milestones and timelines? Do they have appropriate expertise in study coordination, data management and statistics? For a multicenter trial, is the organizational structure appropriate and does the application identify a core of potential center investigators and staffing for a coordinating center? (3) Innovation: Does the application challenge and seek to shift current research or clinical practice

paradigms by utilizing novel theoretical concepts, approaches or methodologies, instrumentation, or interventions? Are the concepts, approaches or methodologies, instrumentation, or interventions novel to one field of research or novel in a broad sense? Is a refinement, improvement, or new application of theoretical concepts, approaches or methodologies, instrumentation, or interventions proposed? For clinical trial applications, the following additional criteria will be considered. Does the design/research plan include innovative elements, as appropriate, that enhance its sensitivity, potential for information or potential to advance scientific knowledge or clinical practice? (4) Approach: Are the overall strategy, methodology, and analyses well-reasoned and appropriate to accomplish the specific aims of the project? Have the investigators presented strategies to ensure a robust and unbiased approach, as appropriate for the work proposed? Are potential problems, alternative strategies, and benchmarks for success presented? If the project is in the early stages of development, will the strategy establish feasibility and will particularly risky aspects be managed? Have the investigators presented adequate plans to address relevant biological variables, such as sex, for studies in vertebrate animals or human subjects? If the project involves human subjects and/or NIH-defined clinical research, are the plans to address 1) the protection of human subjects from research risks, and 2) inclusion (or exclusion) of individuals on the basis of sex/gender, race, and ethnicity, as well as the inclusion or exclusion of children, justified in terms of the scientific goals and research strategy proposed? For clinical trial applications, the following additional criteria will be considered. Is the study design justified and appropriate to address primary and secondary outcome variable(s)/endpoints that will be clear, informative and relevant to the hypothesis being tested? Is the scientific rationale/premise of the study based on previously well-designed preclinical and/or clinical research? Given the methods used to assign participants and deliver interventions, is the study design adequately powered to answer the research question(s), test the proposed hypothesis/hypotheses, and provide interpretable results? Is the trial appropriately designed to conduct the research efficiently? Are the study populations (size, gender, age, demographic group), proposed intervention arms/dose, and duration of the trial, appropriate and well justified? Are potential ethical issues adequately addressed? Is the process for obtaining informed consent or assent appropriate? Is the eligible population available? Are the plans for recruitment outreach, enrollment, retention, handling dropouts, missed visits, and losses to follow-up appropriate to ensure robust data collection? Are the planned recruitment timelines feasible and is the plan to monitor accrual adequate? Has the need for randomization (or not), masking (if appropriate), controls, and inclusion/exclusion criteria been addressed? Are differences addressed, if applicable, in the intervention effect due to sex/gender and race/ethnicity? Are the plans to standardize, assure quality of, and monitor adherence to, the trial protocol and data collection or distribution guidelines appropriate? Is there a plan to obtain required study agent(s)? Does the application propose to use existing available resources, as applicable? Are planned analyses and statistical approach appropriate for the proposed study design and methods used to assign participants and deliver interventions? Are the procedures for data management and quality control of data adequate at clinical site(s) or at center laboratories, as applicable? Have the methods for standardization of procedures for data management to assess the effect of the intervention and quality control been addressed? Is there a plan to complete data analysis within the proposed period of the award? (5) Environment: Will the scientific environment in which the work will be done contribute to the probability of success? Are the institutional support, equipment and other physical resources available to the investigators adequate for the project proposed? Will the project benefit from unique features of the scientific environment, subject populations, or collaborative arrangements? For clinical trial applications, the following additional criteria will be considered. If proposed, are the administrative, data coordinating, enrollment and laboratory/testing centers, appropriate for the trial proposed? Does the application adequately address the capability and ability to conduct the trial at the proposed site(s) or centers? Are the plans to add or drop enrollment centers, as needed, appropriate? If international site(s) is/are proposed, does the application adequately address the complexity of executing the clinical trial? If multi-sites/centers, is there evidence of the ability of the individual site or center to: (a) enroll the proposed numbers; (b) adhere to the protocol; (c) collect and transmit data in an accurate and timely fashion; and, (d) operate within the proposed organizational structure? In addition to the above criteria, the following items will continue to be considered in the determination of scientific merit and the impact/priority score. Protections for Human Subjects: For research that involves human subjects but does not involve one of the six categories of research that are

ASSISTANCE LISTINGS DESCRIPTIONS

exempt under 45 CFR Part 46, the committee will evaluate the justification for involvement of human subjects and the proposed protections from research risk relating to their participation according to the following five review criteria: 1) risk to subjects, 2) adequacy of protection against risks, 3) potential benefits to the subjects and others, 4) importance of the knowledge to be gained, and 5) data and safety monitoring for clinical trials. For research that involves human subjects and meets the criteria for one or more of the six categories of research that are exempt under 45 CFR Part 46, the committee will evaluate: 1) the justification for the exemption, 2) human subjects involvement and characteristics, and 3) sources of materials. Inclusion of Women, Minorities, and Children: When the proposed project involves human subjects and/or NIH-defined clinical research, the committee will evaluate the proposed plans for the inclusion (or exclusion) of individuals on the basis of sex/gender, race, and ethnicity, as well as the inclusion (or exclusion) of children to determine if it is justified in terms of the scientific goals and research strategy proposed. Vertebrate Animals: The committee will evaluate the involvement of live vertebrate animals as part of the scientific assessment according to the following criteria: (1) description of proposed procedures involving animals, including species, strains, ages, sex, and total number to be used; (2) justifications for the use of animals versus alternative models and for the appropriateness of the species proposed; (3) interventions to minimize discomfort, distress, pain and injury; and (4) justification for euthanasia method if not consistent with the AVMA Guidelines for the Euthanasia of Animals. Reviewers will assess the use of chimpanzees as they would any other application proposing the use of vertebrate animals. For additional information on review of the Vertebrate Animals section, please refer to the Worksheet for Review of the Vertebrate Animal Section. Biohazards: Reviewers will assess whether materials or procedures proposed are potentially hazardous to research personnel and/or the environment, and if needed, determine whether adequate protection is proposed. Resubmission: The committee will evaluate the application as now presented, taking into consideration the responses to comments from the previous scientific review group and changes made to the project. Renewal: The committee will consider the progress made in the last funding period. Revision: The committee will consider the appropriateness of the proposed expansion of the scope of the project. If the Revision application relates to a specific line of investigation presented in the original application that was not recommended for approval by the committee, then the committee will consider whether the responses to comments from the previous scientific review group are adequate and whether substantial changes are clearly evident. For clinical trial applications, the study timeline will be considered in the following. Is the study timeline described in detail, taking into account start-up activities, the anticipated rate of enrollment, and planned follow-up assessment? Is the projected timeline feasible and well justified? Does the project incorporate efficiencies and utilize existing resources (e.g., CTSAs, practice-based research networks, electronic medical records, administrative database, or patient registries) to increase the efficiency of participant enrollment and data collection, as appropriate? Applications compete for available funds with all other recommended applications. The following will be considered in making funding decisions: Scientific merit of the proposed project as determined by peer review; Availability of funds; Relevance of program priorities.

93.362 Assistive Technology National Activities

AT National Activities,

FEDERAL AGENCY:

ADMINISTRATION FOR COMMUNITY LIVING (ACL), HEALTH AND HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

The Assistive Technology Act support programs for grants to states to address the assistive technology (AT) needs of individuals with disabilities. Section 6 of the AT Act authorizes national activities to support and improve the administration of the Act., Title Assistive Technology Act of 1998, as Amended, Section 6

OBJECTIVES:

The purpose of the Assistive Technology National Activities is to support activities to improve the administration of the AT Act in the following areas: national public awareness; state training and technical assistance; data collection and reporting; and research and development of assistive technology.

TYPES OF ASSISTANCE:

Cooperative Agreements (Discretionary Grants)

USES AND USE RESTRICTIONS:

Funds shall be used on a national training and technical assistance program that expands public awareness efforts; training and technical assistance for State AT programs; and training and technical assistance to State AT programs to develop and implement a data-collection and reporting system; and the research and development of assistive technology including the development of standards for interoperability and new assistive technology product development.

Applicant Eligibility:

Small business (less than 500 employees); Public nonprofit institution/organization (includes institutions of higher education and hospitals); State (includes District of Columbia, public institutions of higher education and hospitals); Native American Organizations (includes Indian groups, cooperatives, corporations, partnerships, associations);

Beneficiary Eligibility:

Senior Citizen (60+); Native American Organizations; State; Public nonprofit institution/organization; Disabled (e.g. Deaf, Blind, Physically Disabled); U.S. Citizen;

93.364 Nursing Student Loans

NSL,

FEDERAL AGENCY:

HEALTH RESOURCES AND SERVICES ADMINISTRATION, HEALTH AND HUMAN SERVICES, DEPARTMENT OF
AUTHORIZATION:

Public Health Service Act, Section 835-842, 42 U.S.C. 297a-i, as amended; Health Professions Education Partnership Act of 1998, Public Law 105-392.

OBJECTIVES:

To increase educational opportunities by providing long-term, low-interest loans to

students in need of financial assistance and in pursuit of a course of study in an approved nursing program.

TYPES OF ASSISTANCE:

Direct Loans

USES AND USE RESTRICTIONS:

The maximum amount a student may borrow is \$3,300 for an academic year for each of the first two years, \$5,200 for each of the final two years of a baccalaureate or graduate degree program, or the amount of the student's financial need, whichever is less. The total of all Nursing Student Loans to any student is limited to \$17,000. Loans will be made to full and half-time nursing students enrolled after June 30, 2000 who are citizens, nationals, lawful permanent residents of the United States, the District of Columbia, the Commonwealth of Puerto Rico, the Northern Mariana Islands, the U.S. Virgin Islands, Guam, American Samoa, the Republic of Palau, the Republic of the Marshall Islands, and the Federated States of Micronesia. Funds are made to schools of nursing to capitalize loans.

Applicant Eligibility:

Public nonprofit institution/organization (includes institutions of higher education and hospitals); Federally Recognized Indian Tribal Governments; U.S. Territories and possessions (includes institutions of higher education and hospitals); Private nonprofit institution/organization (includes institutions of higher education and hospitals); All accredited public and nonprofit private schools of nursing that prepare students for practice as registered or graduate nurses, and that do not discriminate against students because of race, color, origin, sex, or handicapping conditions, are eligible to apply for funds to be disbursed to qualified nursing students. Federally Recognized Indian Tribal Government and Native American Organizations may apply if they are otherwise eligible.

Beneficiary Eligibility:

Specialized group (e.g. health professionals, students, veterans); Student/Trainee; U.S. Citizen; The Nursing Student Loan Program provides financial assistance to nursing students who are citizens, nationals or lawful permanent residents of the United States or the District of Columbia, the Commonwealth of Puerto Rico, the Northern Mariana Islands, the U.S. Virgin Islands, Guam, American Samoa, the Republic of Palau, the Republic of the Marshall Islands, and the Federated States of Micronesia.

Credentials/Documentation:

New applications for this program can be acquired from the Division of Health Careers and Financial Support by calling (301) 443-1173. Annual operating reports serve as the new year application for current NSL recipient institutions. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

93.365 Sickle Cell Treatment Demonstration Program

SCDTDP,

FEDERAL AGENCY:

HEALTH RESOURCES AND SERVICES ADMINISTRATION, HEALTH AND HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

Section 712(c) of the American Jobs Creation Act of 2004, P.L. 108-357

OBJECTIVES:

The objectives of this project is to support the development and establishment of systemic mechanisms to improve the prevention and treatment of sickle cell disease complications, including the coordination of service delivery for individuals with sickle cell disease; genetic counseling and testing; bundling of technical services related to the prevention and treatment of sickle cell disease; training of health professionals; and identifying and establishing efforts related to the expansion and coordination of education, treatment, and continuity of care for individuals with Sickle Cell Disease as authorized in Section 712(c) of the American Jobs Creation Act of 2004, Public Law 103-357.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

All funds granted should be expended solely for carrying out the approved projects in accordance with Section 712 of the Public Law 103-357.

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); Public nonprofit institution/organization (includes institutions of higher education and hospitals); U.S. Territories and possessions (includes institutions of higher education and hospitals); Private nonprofit institution/organization (includes institutions of higher education and hospitals); Eligible entities include, Federally-qualified health center, as defined in section 1905(10)(2)(B) of the Social Security Act (42 U.S.C. 1396d(10)(2)(B), nonprofit hospital or clinic, or university health center that provides primary health care, that: (1) has a collaborative agreement with a community-based Sickle Cell Disease organization or a nonprofit entity with experience in working with individuals who have Sickle Cell Disease; and (2) demonstrates that either the Federally-qualified health center, the nonprofit hospital or clinic, the university health center, the community-based Sickle Cell Disease organization or the Sickle Cell Disease experts who serve as consultants to the project have at least 5 years of experience in working with individuals who have Sickle Cell Disease.

Beneficiary Eligibility:

Specialized group (e.g. health professionals, students, veterans); Health Professional; Physically Afflicted (e.g. TB, Arthritis, Heart Disease); Public nonprofit institution/organization; Projects will benefit individuals with Sickle Cell Disease and health professionals who provide care for individuals with Sickle Cell Disease.

Credentials/Documentation:

Awards are made on an annual basis for the duration of the grant period, and payments are made through an Electronic Transfer System or Cash Demand System. Method of awarding/releasing assistance: other

Reports:

The awardee will be required to submit performance and progress reports as well as status-federal financial reports (see the program announcement and notice of award for details for each required report). The awardee must submit a quarterly electronic Federal Financial Report (FFR) Cash Transaction Report via the Payment Management System within 30 days of the end of each calendar quarter. A Federal Financial Report (SF-425) according to the following schedule: <http://www.hrsa.gov/grants/manage/technicalassistance/federalfinancialreport/ffrsc-hedule.pdf>. A final report is due within 90 days after the project period ends. If applicable, the awardee must submit a Tangible Personal Property Report (SF-428) and any related forms within 90 days after the project period ends. New awards (Type 1) issued under this notice of funding opportunity are subject to the reporting requirements of the Federal Funding Accountability and Transparency Act (FFATA) of 2006 (Pub. L. 109282), as amended by section 6202 of Public Law 110252, and implemented by 2 CFR Part 170. Grant and cooperative agreement recipients must report information for each first-tier subaward of \$25,000 or more in federal funds and executive total compensation for the recipients and subrecipients five most highly compensated executives as outlined in Appendix A to 2 CFR Part 170 (FFATA details are available online at <http://www.hrsa.gov/grants/ffata.html>). Competing continuation awardees, etc. may be subject to this requirement and will be so notified in the Notice of Award.

OBJECTIVES:

To provide support for initiatives funded under the 21st Century Cures Act to support the BRAIN Initiatives aim of revolutionizing our understanding of the human brain. By accelerating the development and application of innovative technologies, researchers will be able to produce a revolutionary new dynamic picture of the brain that, for the first time, shows how individual cells and complex neural circuits interact in both time and space. Long desired by researchers seeking new ways to treat, cure, and even prevent brain disorders, this picture will fill major gaps in our current knowledge and

93.391 Activities to Support State, Tribal, Local and Territorial (STLT) Health Department Response to Public Health or Healthcare Crises

CDC Partner Crisis Response NOFO,

FEDERAL AGENCY:

CENTERS FOR DISEASE CONTROL AND PREVENTION, HEALTH AND
HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

Public Health Service Act, Title 42, Part 247d, Section 319, 42 USC Code 319.
Public Health Service Act, Title 42, Part 242l, Section 307, 42 USC Code 307.

Service Act, Title 42, Part 247b, Section 317, 42 USC Code 317.

OBJECTIVES:

CDC will strengthen the U.S. public health systems response to public health or healthcare crises by providing specialized support to State, Tribal, Local and Territorial health departments (STLTs) when engaged in a response. Because STLTs vary widely in capacity and expertise - as well as in the demographics and disease burdens of the populations they serve - an emergency in any location is likely to reveal areas in which they need assistance to launch and sustain effective response activities.The purpose of this NOFO is (1) to establish a pool of organizations capable of rapidly providing essential expertise to governmental public health entities involved in a response, and (2) to fund select awardees to provide that support, when required, based on CDC's determination of need. The role of the awardee will be to function as a rapid provider of information and/or resources, as well as a coordinator of the project management components involved. Awardees will primarily support public health departments, but may be engaged to support CDC programs also involved in the response.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

Project funds will be used by non-governmental organizations (501c3s, 501c6s, public and private institutions of higher learning, and Native American tribal organizations) to provide emergency response assistance to State, Tribal, Local, and Territorial public health agencies and other components of the public health system. For the purposes of this program, other components of the public health system refers to specific professional constituencies (i.e., epidemiologists, community health nurses, health education and promotion specialists tribal health leaders, chronic disease directors, health information specialists,

Medicaid/Medicare Directors, state/local public health financial officials, etc.) or key components of the public health system (i.e., community and neighborhood health centers, public health and primary care delivery systems, community and faith-based organizations, public health and accreditation boards, public health institutes, primary care residency programs, health insurance consortia, family/social services programs, maternal/child health associations, etc.).

Applicant Eligibility:

Other public institution/organization; Other private institutions/organizations; Native American Organizations (includes Indian groups, cooperatives, corporations, partnerships, associations); Eligible applicants are limited to the following: 1.Nonprofits having a 501(c)(3) or 501(c)(6) status with the IRS, other than institutions of higher education.2.Public and private institutions of higher education.3.Native American tribal organizations (other than Federally-recognized tribal governments).

Beneficiary Eligibility:

U.S. Territories; Anyone/general public; State; Local; Direct awards will be made to the non-governmental organizations described in the eligible applicant section. Beneficiaries of the support provided by those non-governmental organizations will include state health departments; tribal health organizations; local health departments; the District of Columbia; U.S. Territories; and other components of the public health system. The general public will also serve as beneficiaries.

Credentials/Documentation:

Applicants should review the individual Centers for Disease Control and Prevention (CDC) funding opportunity announcement issued under this CFDA program for any documentation, credentials or proof of certifications which must be submitted prior to or simultaneous with submission of an application package. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Length and Time Phasing of Assistance:

This NOFO is designed to collect responsive proposals from eligible applicants and retain them as approved but unfunded (ABU) until a crisis occurs. The NOFO will only be funded upon occurrence of a particular public health or healthcare crisis. At that time, depending on the nature of the scenario, specific applicants and specific components of their applications will be selected for funding. These funding decisions will take into account various relevant factors such as geographic location, expectations of spread (e.g., with infectious disease-related emergencies), applicants capabilities, national priorities, impact of the emergency on an eligible jurisdiction, and target populations, etc. Method of awarding/releasing assistance: lump sum.

TYPES OF ASSISTANCE:

Cooperative Agreements, Project Grants, Project Grants (Cooperative Agreements)

USES AND USE RESTRICTIONS:

Grants and cooperative agreements may be made to eligible institutions for the support of cancer research projects. The grants and cooperative agreements may be used for personnel, consultant costs, equipment, supplies, travel, patient costs, animals, alterations and renovations, miscellaneous items, and indirect costs. Restrictions are imposed against the use of funds for entertainment, foreign travel (unless specifically authorized), office equipment, and other items not normally necessary for the effective prosecution of such research. SBIR Phase I grants (of approximately 6-months' duration) are to establish the technical merit and feasibility of a proposed research effort that may lead to a commercial product or process. Phase II grants are for the continuation of the research initiated in Phase I, and that are likely to result in commercial products or processes. Only Phase I awardees are eligible to receive Phase II support. STTR Phase I grants (normally of 1-year duration) are to determine the scientific, technical, and commercial merit and feasibility of the proposed cooperative effort that has potential for commercial application. Phase II funding is based on results of research initiated in Phase I and scientific and technical merit and commercial potential of Phase II application. The SBIR Fast-Track Initiative provides additional assistance to applicants by expediting the decision and award of SBIR Phase II funding for scientifically meritorious applications for projects that have a high potential for commercialization. Fast-Track is a parallel review option whereby Phase I and Phase II projects are reviewed concurrently with the aim of reducing or eliminating the funding gap between Phase I and Phase II.

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals); Public nonprofit institution/organization (includes institutions of higher education and hospitals); Private nonprofit institution/organization (includes institutions of higher education and hospitals); The awardee will be a university, college, hospital, public agency, nonprofit research institution or for-profit organization that submits an application and receives a grant or cooperative agreement for support of research by a named principal investigator. SBIR grants can be awarded only to domestic small businesses (entities that are independently owned and operated for profit, are not dominant in the field in which research is proposed, and have no more than 500 employees). Primary employment (more than one-half time) of the principal investigator must be with the small business at the time of award and during the conduct of the proposed project. In both Phase I and Phase II, the research must be performed in the U.S. and its possessions. To be eligible for funding, a grant application must be approved for scientific merit and program relevance by a scientific review group and a national advisory council. STTR grants can be

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Depending on the grant mechanism, form PHS-398 (Rev. March 2016) or form SF424 (R&R) (version as specified as the FOA) is the standard application form. Both forms can be obtained online at <http://grants.nih.gov/grants/forms.htm>. SBIR and STTR Grant Solicitations and SBIR Contract Solicitations may be obtained electronically through the NIH's Small Business Funding Opportunities home page at <http://www.nih.gov/grants/funding/sbir.htm>. The Solicitations include submission procedures, review considerations, and grant application or contract proposal forms. All competing SBIR and STTR grant applications must be submitted electronically to the NIH via Grants.gov (<http://www.grants.gov/>).

Award Procedure:

Grants and cooperative agreements are funded based on scientific merit, program relevance and program balance and are made annually. Initial award provides funds for the first budget period (usually 12 months) and Notice of Grant Award (Form PHS 1533-2) indicates support recommended for the remainder of the project period, allocation of Federal funds by budget categories, and special conditions, if any. All accepted SBIR/STTR applications are evaluated for scientific and technical merit by an appropriate scientific peer review panel and by a national advisory council or board. All applications receiving a priority score compete for available SBIR/STTR set-aside funds on the basis of scientific and technical merit and commercial potential of the proposed research, program relevance, and program balance among the areas of research.

Deadlines:

Contact the headquarters or regional location, as appropriate for application deadlines.

Range of Approval/Disapproval Time:

Other. (Grants) Approximately 10 months. SBIR/STTR: About 7-1/2 months.
